Genetics That Offer Calving Ease, Muscle and High Maternal Traits.

Highland New Discovery

BW: 3.9 WW: 51.0 YW: 88.8 MM: 28.8 TM: 54.3

New Discovery is our most represented sire. He is an outstanding sire that blends calving ease, performance and muscle in a complete package plus being in the top 10% of the breed for maternal. His sons are impressive with their correctness balance and thickness.

Featuring Homozygous Polled sons such as Nordal Tahoe 126T (Red) and Nordal Dark Night 326T (Black). New Discovery is also represented in our female offering with red Homozygous Polled daughters.

Anders Narcotic

BW: 5.0 WW: 56.0 YW: 103.7 MM: 23.3 TM: 51.3

Narcotic is Homozygous Polled, plus he ranks in the top 5% of the breed for performance. Once again his sons are deep bodied and heavy muscled. They rank at the top for performance and growth.

Highland Landmine

BW: 0.3 WW: 39.3 YW: 69.5 MM: 21.1 TM: 40.8

Landmine continues to be our most popular sire. His sons are low birth, thick muscled and moderate framed. Once again, we offer black and red sons that will be at the top of the group. Also offered are daughters of Landmine that display the same muscle and thickness of their brothers. Our Landmine females in both the commercial and purebred cowherd are tremendous producers.

BCAR Wildcard

Wildcard is the sire of our leading Red Angus bull Red Nordal Wildcard 168U. Also featuring a Red 2 year old, powerhouse performance son of the breed leading Red Six Mile Aviator.

CAR US Premium Beef

Our Black Angus is led by a son of the carcass and performance sire US Premium Beef. Our yearling and two year old Angus bulls contain some of the most prominent calving ease and maternal genetics combined with performance and top carcass genetics.
