Welcome to the 30th Annual Keystone Classic Angus Female Sale, celebrating a three-decade milestone of great Angus seed stock.

An old fellow told me, when I was starting in the business, to be successful I would have to open a lot of gates. This group of progressive breeders have virtually opened their front gates during selection to offer you the best of their production. To many of these breeders, the Keystone Classic is their female production sale.

The bred females in the offering are stout, broody, with early services and destined to make your feature pasture. Diverse in genetics and carrying the services of the newest, freshest genetics, buyers are a month or so from clipping a coupon. The 2018 models are alluring and exciting, ideal for juniors of all ages. For all the dedicated youth, Keystone Classic offers a junior discount for your next 2019 project. Save some cash and get a competitive halter-broke, show prospect. For all the over-the-hill juniors, remember you only have 30 days left of tax planning.

The "Green Tagged" calves are again topping the presorts around the country. The market is strong and steady, but in all cases, quality dictates price. Now is the time to look at the old, the open and non-productive females and replace them with young, futuristic Angus genetics.

Plan to take a get-away the first weekend in December. The cattle will be available for viewing on Friday with a "Salute to Santa" that evening. With Mar Mac's New Generation Sale on Sunday, you can partake in a great group of breeding stock with Angus hospitality and fellowship. Remember that the quality is worth the drive!

If we, at T Bar C, may be of any assistance prior to or sale day, feel free to contact any of the T Bar team for professional and confidential assistance.

Maternal sisters out of the never miss, HF Tibbie 242Y. We saw this as an excellent opportunity to offer you two generations at one crack! 390F is the latest model sired by S A V Seedstock 4838. She combines the outstanding growth and performance of Seedstock with the tremendous maternal traits of the Tibbie cow family on her bottom side. She is square in her hip design, expressive in her muscle shape and very level and correct in her lines. She is extremely mild mannered and would be an excellent junior project or a great addition to any program. Her maternal sister who is a year older model is one to take a look at. Extremely deep sided and broody in her make-up, here is one you can turn out year after year and watch the revenue roll in. Take this opportunity to buy one out of a proven cow and cow family. A maternal sister was sold through the Power and Perfection Sale to Blairs West Land & Cattle for \$9,000.

Owned with CSI Angus.

CHD 207E is AI bred to Coleman Charlo 0256 on April 8, 2018. Pasture exposed to Peakdot Seedstock 122E from April 21 to June 28, 2018. Favourable to Seedstock service. Due early to mid February.

This is simply a wicked heifer calf. She has a sweet, chiseled front end, straight broad top, great hip and quarter and outstanding structure. All being backed by the Zara Lisa cow family. This heifer's temperament is excellent. She responds well to the show cane and halter. Her hair is super to work with as well. Zara Lisa 88F would make a fantastic junior/4-H project. We selected her dam, 35U, at the 2009 MVF production sale. She has been nothing less than awesome from her first calf on. The calf in dam that next spring tripled our money on her purchase price. These are the kind of females we want, the ones that enhance our bottom line. She has produced sound cattle each year. We have two of her daughters working in our herd. Zara Lisa 35U's progeny are sprinkled throughout the country side. MAR Innovation cattle have looked real good at our place. We are very pleased with their style and functionality. Here is your chance to get a super competitive show female for years to come but also to have a highly productive cow.

A standout daughter of Musgrave Sky High 1535. 820F has been a pick of many this summer alongside her Yellowstone 6344 dam. This is the first daughter to sell out of 1067 as the rest have been retained in herd. 1067 also has a son working at Swan Hills Ranch in Swan River, Manitoba. This heifer is a sure bet to be competitive in the show ring, as well as going on to be a great breeding piece in the future.

ARY Countess 806F is a long, deep bodied, clean fronted, moderate frame female with a great hair coat. Her sire, S7R Super Duty has consistently stamped his calves with thickness and eye appeal. Her dam, Mar Mac 70Z was bought as a calf through this sale. 70Z has perfect feet and udder and has three daughters working in our herd. Countess has been coat colour tested and is not a red carrier. She has an excellent disposition and will make a very competitive junior project for someone.

An own daughter of the 2016 RBC Supreme Champion, EF Titan 545. It took some convincing to part ways with this good heifer, but being our first entry to the Keystone Classic and her dam bred to Titan again this year, I decided to let Chris have her for this sale. 3F is bold ribbed, stout made, easy fleshing and sound footed yet still maintains a degree of attractiveness through her front. The Rosebuds have a proven record around here for production, fertility and longevity. There's no doubt in my mind that 3F will follow that trend and be fun to hang a halter on along the way.

We are very pleased with the first calf crop out of Brooking Rewind. He has passed on his stoutness, depth of body, rib shape and style to this granddaughter of OGL Battle Cry. Wilbar Pride 555F is out of a great producing cow with a weaning index of 107 on eight calves. 845U has a daughter and granddaughter working at Poplar Meadows Angus and a feature female sold in our 2018 Tools of the Trade Bull and Female sale to Steve Doig. Two additional daughters are top producers at Wilbar. Pride 555F has an exceptionally quiet disposition, attractive phenotype and fancy front end making her the perfect junior show prospect. Backed by such a highly productive cow family, she's sure to become a brood matron.

We are very pleased to be back at the Keystone for another year with this fine group of consignors. For the 2018 sale we have brought to you a daughter off ARY 503C, a female who came through this very ring. Blackbird 49F's maternal grand sire, Remitall F Rage 9A, was on side his dam when she was crowned Reserve Grand Champion Female at CWA 2013. There is a great maternal heritage in this female. The pairing of that maternal pedigree with the exciting power pedigree of Bushes Easy Decision 98 have combined the right balance of substance and style to this female. Blackbird 49F is the right combination of curve bending genetics with just a 70 lb. birth weight. She has an awesome disposition that will make a super project for any junior as her gentle nature will lead them into the winner's circle.

Grace 807F is a beautiful female that managed to top our female indexes this year for weaning performance, out of a 1030 lb., first calf female. As production percentages go that is 61% at weaning time and 73% at 205 days. She is not only a long made, stout, powerhouse, she does it with a moderate frame, has a neat look, with a longevity based structure and is a nice heifer to handle. Her maternal grand dam is Young Dale Grace 102Z, who happens to be a maternal sister to the excellent show cow and donor for us, Young Dale Grace 169B. She is all encompassing of positive traits and if you are serious about udder quality and maternal instinct then this is where you start.

This one has the look, the Grace look. The same look and power that the awesome, Young Dale Grace 169B had as a heifer. The look that allowed her to show for three years solid with no less than a Reserve Division placing. Grace 808F is a bit larger framed than 169B was, yet still has the beautifully extended front end with the up headed neck carriage that gets all the attention. This is the decision this year that has kept me up at night wondering how I replace her and if I should sell her. Her mother is as consistent as any cow in the herd. With the most consistent being her grand dam. Doing her job with a perfect udder for the first five and passing that along to every lactating daughter. Young, beautifully made, excellent structured with the cocky show off front end which starts with the perfect Angus female skull. Completed by the necessary powerful body to create "the package" and make her a future production cow. *Jaymarandy Livestock reserves the right to one successful flush yielding a minimum of six (6) embryos at their cost and the new owners convenience.*

(PE) BW: 1.9 WW: 51 YW: 84 MM: 21 TM: 47 MCE: 10.0

Small Town Girl has an undescrivable temperament that would make her the perfect heifer for any junior project. She is a bigger framed heifer that has a lot of rib shape, bone and natural muscling, is sound in her makeup and going to turn into a real power cow! Her sire, Styles Lut P301, is a bull that we have used heavily over the past few years. He has consistently produced females that exemplify his same quality, soundness and eye appeal. She will be competitive in the show ring and one that will stand out in the pasture as she matures.

A maternal sister to the bred heifer selling as lot 33, these are both hard to let go of. In motion, this heifer is flexible at the ground and fluid in her movement, not to mention these sisters are both extremely correct in their foot shape and size. One of the first opportunities to own a daughter out of S A V Renovation, she is elegant in her design and extended through her front end.

Sunny Grove Tibbie 6F is an eye appealing daughter of the popular, calving ease sire, Mohnen Pulse 533. His calves are moderate framed, deep bodied with good performance. Her dam, Northern View Tibbie, is sired by Gustov 3Z, who is now working for Miller Wilson Angus and she traces back to Tibbie 203T from Mountain View Farms. This is an interesting heifer combining the calving ease of Pulse and the power of Gustov.

Sunny Grove Daisy 37F is a young heifer with loads of potential being sired by HLC International 751D, who is sired by the popular S A V International 2020 and his dam is by the great female maker, Angus Valley. 751D is the 2016 Manitoba Ag Ex Reserve Champion Bull and also a class winner at Lloydminster and Semex Beef Presidents Classic at CWA. The dam of 37F is a hard working, moderate framed cow with a beautiful udder. She combines the calving ease sire, S S Objective T510 0T26 and HF Tiger 98X, who has left us with excellent females. This heifer makes a very good cow.

*Selling
Choice*

We are very excited to be offering choice of two top quality replacement females. Our first Keystone Klassic purchase, N7's Blkwoodlady 1Z, paid off big time when she gave us the Motive dams of these heifers. Motive is one of the top maternal sires in recent Angus history and his genetics will only become harder to come by. 2F is sired by the popular Hoover Dam son, Musgrave Boulder and 14F by our walking bull, N7 Desperado, who was our pick of the N7 bull pen. His first calf crop is exceptional. This package combines cow power, maternal genetics and eye appeal. Pick with confidence because we strongly believe both of these heifers are going to become great cows.

Here she is, the first calf to be offered for sale off the 2017 Canadian Western Agribition Champion Angus bull and RBC Supreme Top 10 Qualifier, EF Colossal 520. We fell in love with his maternal brother, EF Titan 545, in 2016 so we decided to double up and use both bulls in our AI program and boy are we glad we did. Both sire groups are extremely strong. The Colossal calves are hairy beasts with a ton of length, hair to spare, and gentle personalities. 5F's dam is a full sibling that was one of the high sellers at this very sale in 2015. 3C, herself, raised our high selling bull last year on her first try and I think she has outdone herself this time around. Don't miss your chance at these exclusive genetics with a strong maternal backing. Show heifer or breeding piece, Black Lady 5F will make someone very happy.

EF Colossal 520 - Sire

This is one of the first females that I will have ever sold off of a cow I raised, who goes back to a foundation female here at Diamond D Ranch. All other daughters have been retained and are proving to be top producing females. She might not have many popular bloodlines in her pedigree but she is sure to be one of the most popular females in your herd for years to come. This is an exciting opportunity to acquire some new genetics for your herd from proven genetics in mine.

This heifer has been a standout since birth. Unbelievable in her substance, this massive ribbed female is in the top 1% for Weaning Weight. She stands on the nicest set of feet I've ever seen on a female, and can get out and move. She is off a Unanimous cow I purchased from Justin Morrison in 2014 that has dropped down a beautiful udder and gone out and raised a huge calf for me every year. I pulled this heifer off pasture the week that pictures had to be in for this catalogue, so if you are looking for an easy fleshing cow to get through the feed shortage this year, you've found her.

AI bred to WWSC Slider on May 3, 2018. Preg checked safe to AI date on July 18, 2018.

An exceptional young cow in the making out of the exciting AI sire, EXAR Resistol. Her dam is getting up there in age so it was a tough decision for us to sell this breeding piece. Vet checked safe in calf to the calving ease sire, FF Black Gold JF C19.

AI bred to FF Black Gold JF C19 on April 16, 2018. Pasture exposed to FF Stimulant Y40 from May 4 to July 10, 2018.

If you are looking for one that will be an excellent, never miss, no nonsense, brood cow, 153E should be high on your list. Her dam, Blackwood 47P, has never missed. Her progeny have always been in the front end of the pen and she continues to produce that way even at 14 years of age. Carrying an early service to the popular Musgrave 316 Stunner, she will be one to mark in your books sale day.

AI bred to Musgrave 316 Stunner on April 19, 2018. Pasture exposed to Peak Dot Seedstock 122E from April 30 to June 28, 2018. Safe to AI service. Due January 30, 2019.

An outstanding daughter of our high selling bull from our 2014 sale, HLC 1220 Slow Ride 266A. She is a female with an exceptional look, tons of middle, plenty of length as well as being smooth and clean fronted. She is out of the prolific, Envious Blackbird cow family that has produced many sale topping progeny south of the border, as well as here in Canada. She is safe in calf to Boyd Cartwright 3303, a bull that offers exceptional calving ease with a tremendous growth curve. He is in the top 1% of the breed for WW, YW, TM and SC. Don't miss out on this opportunity!

AI bred to Boyd Cartwright 3303 on April 21, 2018. Pasture exposed to Peak Dot Seedstock 122E from April 30 to June 28, 2018. Safe to AI service. Due February 1, 2019.

The Unanimous females are certainly powerful and attractive. They have worked very well for us. Each are sound and great milking females. Rosebud 83E is a deep bodied, powerful, brood heifer. This easy doing and structurally sound female is very nice to work with and handle. The udder that 83E is dropping looks gorgeous. Rosebud 83E comes from a cow that was selected from the Prairielane Dispersal, Rosebud 1035Y. We liked her structure, her over all capacity, udder quality and femininity. She possesses an awesome set of EPDs as well. There has been no disappointment in the purchase of this female and the offspring she has produced. The grand sire to 83E is none other than 104Y, a bull we raised and had shown. He attracted a great deal of attention where ever he went. Sadly he was lost far too early but any females we got from him we kept. Rosebud 83B, her dam, has a fantastic Boyd Cartwright bull calf in our pen who will be in our Blue Collar Sale in April. She is bred to Homegrown. What attracted us to Homegrown was his calving ease potential and his incredible growth numbers. His pedigree has Connealy Thunder in it. Thunder progeny at our place have been outstanding. This will be one of the first calves born in North America from Homegrown. This could be a pretty cool, royally bred calf in dam.

AI bred to Ellingson Homegrown on April 10, 2018. Due to calve January 17, 2019. She preg checked favorable to this date.

This is a powerful, huge capacity, Upward 5C daughter. I truly love the frame, shape and style of this heifer. She is sound and dropping a beautiful udder. This is the kind of female that should kick out a big, rugged bull calf that the commercial cattle folks love. Annie K 130Z, her dam, has consistently produced cattle that have been in our replacement pen and bull pen. Upward 5C, her sire, has produced the "right kind" of cattle here. They are thick, deep, stylish and sound. Annie K has a pedigree with proven genetics and sound numbers on top and bottom. This heifer has all the makings of a cow that will kick out calves that should be profitable year after year. A maternal sister to 134E was purchased through the masterpiece sale by Robyn Tibble Swan Hills Ranch. Annie K 130Z was selected from the Fertile Valley Opening the Vault Sale in 2013. We liked her structure, her over all capacity, udder quality and femininity. There has been no disappointment in the purchase of this daughter.

AI bred to Ellingson Homegrown 6035 on April 10, 2018. Due to calve January 16, 2019. She preg checked favorable to this date. Should be a neat kind of calf on board.

Here is a heifer we are very proud of. 74U has been one of our first Black Angus cows in our herd and she earns her keep year after year. We bought the dam of this heifer from the Keystone Classic Sale when she was a heifer. If you have not had the opportunity to see GQ progeny, take a good look, as he makes them down right good. This powerful GQ heifer is a brood cow in the making as she is a very extended, deep sided, long bodied female who is extremely bold in her center body. She comes long and square out of her hip onto a sound and functional foot and leg. The natural service to our new junior herd sire "Kozi" should be exciting as he offers a very balanced genetic profile and is very correct in his phenotype. Preg checked on October 11, too close to tell but Kodie says it is Kozi! **Point of interest:** Last year the heifer calf sold for \$10,000 from the bred heifer that had sold to Anderson Cattle Company Inc. two years ago. This year Justin Carvey won 2018 Bull Calf Champion at the National Show out of the bred heifer he bought last year.

AI bred to Cole Creek Cedar Ridge on April 28, 2018. Pasture exposed to HLC Kozi 963E from May 15 to August 5, 2018.

78E could be your next front pasture cow. The Angus Valley females are turning into excellent young cows. They have perfect udders with just the right amount of milk. They exhibit excellent docility along with the ability to raise the type of calves that rise to the top of the pen. Her dam is an own daughter of the great BC Lookout and had a successful show career of her own claiming Junior Champion Female at Ag Ex in Brandon back in 2010. 78E is AI bred to the 2016 Agribition Supreme Champion Bull, EF Titan 545. How about that for a coupon! Titan calves have come with very short gestation and are growthy, hairy, and powerful. Don't miss your chance to raise the next champion. **AI bred to EF Titan 545F on April 23, 2018. Preg checked favorable to AI date.**

Fancy Pants is a heifer that is moderate in type, deep ribbed and powerful. Being a daughter out of Bushs Easy Decision, a bull that is selected for his consistently low birth weight, without sacrificing power and performance, she possesses these same traits. 26E's dam was purchased from Blairs, Ag Cattle Co. as a heifer calf and has turned into one of our top donor cows. Having S A V 004 Density in her pedigree, the combination of Bushs Easy Decision and Della 309A has produced a unique pedigree. She is bred to HLC 101 Cross Fire 569C, who was the 2017 RAWF Senior Champion & Reserve Grand Champion Bull. You won't want to miss this opportunity to add this genetic piece to your herd!

HLC 101 Cross Fire 569C - Service Sire

DAM OF LOT 43 - BLAIR'S DELLA 309A

Chris picked out Red ACC Roxie 36F right away while walking through our pasture. When she stepped up beside her dam, Red ACC Roxie 103C, he took a liking to her and asked if we would sell both. 103C is a beautifully made in Manitoba cow that can grab your attention in any pasture. As a first calf heifer she raised a tremendous Red Benchmark Transition 10 14 son that sold through our sale to John Bokkel. Her dam, 46U, is still in production and has eight registered progeny. Her sire, Red McRaes Mohican 40X, did a wonderful job at our place and left us with many daughters like 103C. Her calf, 36F, is by Red Shiloh Cannon Fire 8C, the 2015 Canadian Angus Gold Show Bull Calf of the Year. They were shown as a pair at the National Angus Show at Manitoba Ag Ex and was Senior Champion Female.

AI bred to Red ACC Big Shot 118E on April 25, 2018. Pasture exposed to Red ACC Pacesetter 158D from May 16 to July 30, 2018. Safe to AI date. Due February 1, 2019.

BW: 97 lbs. ACT WW: 736 lbs.

Red Wilbar Scaara 54F comes out of the top of the outcross program at Wilbar. On the bottom side you'll find the cow family is top notch. Grand dam, 869Z, has produced two herd sires for us and is out of our 2011 high selling bull, Wilbar Eastwood, to Geoff Anderson & Merle Thomason. Dam, 733C, is a big bodied, stout, angular fronted female that has already found her way to the donor pen. Phenotypically, there may be nothing to change about 733C and based on the performance and style of 54F, she produces to match. On the top side, Razor consistently sires deep bodied, stout and classy daughters. We're pleased to offer this powerful heifer backed by outcross genetics and proven producers.

Freyja is sired by our Cale 98C bull that we selected from Batho Farms for some outcross genetics. He was sired by a son of our Answer bull that we have had so much success with. He is a full brother to a high selling bull to JAS as well as a past Red Roundup heifer calf that sold to Six Mile Red Angus. Freyja 46Z came from WRAZ as a heifer calf through the Touch of Class Sale in Saskatoon. She has had daughters sell to Rack Red Angus, Murray Crawford and last year's calf was retained for ourselves. This female has very popular and proven cow families throughout her pedigree and is destined to be a great producer for her new owner.

We always give the selectors their pick of the pasture when they come to select for the fall sales and Ben selected a couple real standouts when he was here. Beatrice is a daughter of our Packer son we selected from Wilbar through their bull sale a few years ago. He has not let us down yet with daughters selling through several fall sales as well as being the sire of our high selling bull the last two years. Beatrice 141Y is a model Angus cow that you would want a herd full of. This female is full of maternal greats and popular sires that aren't seen every day. She is destined to be a front pasture brood cow for her new owner.

BW: 80 lbs.

When Chris toured the Right Cross herd, his eye just kept coming back to the Irony pair. 75F stood out as one of the widest calves over her top-line and down into her twist. This is the typical "Thor" look. Our son of Thor 315A bull has really made his mark on our herd as well as the Red Angus industry. If you are looking for a line that is tanky, easy doing, deep flanked, structurally correct with a perfect foot, look no further. A brother to Irony sold in our 2017 sale for \$17,500 to Rodgers Red Angus. Irony 75F is out of a hard working, first calf heifer with a nice udder. She has a clean front end and is out of one of our top cow families. Irony will be a sweet addition to anyone's cowherd!

Red Wilbar Tinsel 296E has been a favorite at Wilbar Cattle Co. for her style, balance and massive rib shape. The Speed daughters are rapidly rising to the top of our herd as broody, attractive, highly productive cows. Their udders are gorgeous and they maintain good condition while nursing big calves. The Tinsel cow family has been with us for a number of years dating back to a good producing heifer from Brylor's Tradition with a Vision Sale. This cow family has produced a large number of females in our herd that have gone on to create some of our past high selling bulls including Red Wilbar Backdraft 331B that sold to Jensen Red Angus. The AI service is to Red Wilbar Element 220E, a \$16,000 Specialist son owned with J Bar Dee and Rock Point Angus. The exposure service is a new bull to the Wilbar herd, Red Twin Heritage Motivate 57E. He is a grandson of the great Soo Line Motive 9016.

AI bred to Red Wilbar Element 220E on April 23. Pasture exposed to Red Twin Heritage Motivate 57E from May 14 to June 30, 2018. Preg test favourable to AI.

Notorious was an easy selection from the Blair's sale when we purchased him as the Lot 1 bull with Lazy T for \$16,000. His mother is, without question, the most proven and impressive donor in their line-up. The added consistency is in his multiple full siblings like Bingo, Kongo, Sweet Cheeks and class winners/sale highlights too numerous to remember. His first son is seeing herd bull duties for Topham Red Angus. The Designer breeding on the bottom side has also treated us well. High selling bulls to Stuart Cattle Station and a \$15,750 herd bull to Emde Land & Cattle, as well as the dam of the \$16,500 Spade bull to Lines and Thistle Ridge.

Pasture exposed to Red Moose Creek Clooney 20D from May 7 to July 1, 2018. Ultrasound confirmed female pregnancy.

A very moderate, extremely well balanced daughter of Gangster. His sons have been well documented as some of our high sellers, but it is his daughters that are his legacy. Gangster females have been the mothers of breeder bulls that sold to Mar Mac for \$13,000, Fine Line for \$10,500 and Mitchell Cattle Co. for \$22,500.

Pasture exposed to Red Blair's Notorious 62B from May 7 to July 4, 2018.

Consigned By Moose Creek Red Angus, Kisbey, SK

Our very first Clearwater daughter to sell. Clearwater topped the Howe bull sale for \$27,000 to Moose Creek and Thistle Ridge. Our highest averaging sire group this spring was Clearwater, his low birth weight and impressive growth made him an easy choice to use heavily this year. A special service to Clooney is the bonus. His mother, 8A, was admired on the Saskatchewan Angus tour alongside her powerful Clearwater bull calf.

Pastured exposed to Red Moose Creek Clooney 20D from May 7 to July 1, 2018.

Xavier, sire of Duchess 207E, was retained to carry on the Gangster influence. He was the stablemate of his brother, Weston, who was our high seller to Rainbow Red Angus for \$13,000. Weston went on to be Reserve Champion at FarmFair and sire a \$25,000 Denver class winner for LeDoux and the current National Champion Red Angus Female for Baxter Blair that he purchased for \$12,500. More importantly, Xavier was our choice sire to keep between him and Weston. Yes, he's that good.

Pastured exposed to Red Flying K Galaxy 57B from May 30 to August 2, 2018.

Empress toured the summer shows with us this year and has an easy going temperament and great disposition. An easy fleshing, bred heifer, this girl is from a cow with a perfect udder. She shows good maternal thickness and we are positive she will be a functional female. **Bred to Red Marmac Carpenter 24C and was pasture exposed to calve February 25, 2019.**

Here is a smooth, long bodied, feminine heifer that comes from a well backed cow family. She was her dam's first kick at the can and I feel she did a great job with this one. Here is an opportunity to add some all Canadian genetics with this girl, who is AI'd to an all-Canadian bull. **AI bred to Red Double B Bullseye 1B on May 3, 2018. Pasture exposed to Red Lone Elm Cash 94D from May 19 to September 3, 2018. Vet checked favourable to AI date.**

Purebred Sales • Daily Presort Sales
 Direct Off-farm Sales every Thursdays at 10:00 am

Notes

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Pregnancy Information:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

Delivery:

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supercede any written material in the catalogue.
