National
LIMOUSIN
Sale
THURSDAY, NOVEMBER 9, 2017
EDMONTON, ALBERTA

from the desk at T Bar...

Welcome to the 2017 Canadian National Sale hosted by Alberta, at Northlands Farm Fair International in Edmonton on November 9.

National events are major drawing cards, as they bring out the best in the breed from top livestock operations throughout the nation. The 2017 National sale is jam packed full of opportunities for all breeding establishments... each selected for quality and high genetic values. Stout, broody bred heifers with early services, fancy front pasture heifer calves (with a competitive edge) ideal for juniors of all ages, as well as the "pick" of bull and heifer calves, a feature flush, and embryos, offering a great shopping list to select from.

In a year when "Mother Nature" was unkind to many areas of our great nation, we still find feeders and stockers fetching twenty to thirty percent higher than the fall of 2016, while salvage cattle have remained steady. This bodes well for spring bull sales and the agricultural economy. We must all be reminded from time to time, that " there is no substitute for quality." With national quality comes national opportunity... therefore salvage a few that are taking up space in your pasture and upgrade with new fresh genetic models that will put added value into your program.

Plan to be with us in Edmonton for the National Show and Sale... it will be well worth the trip!

If we may be of any assistance, prior to or sale day, feel free to contact myself or any of the T Bar Team... we will be pleased to help in a professional manner.

Welcome from the Alberta Limousin Association

On behalf of the Alberta Limousin Association, we would like to extend to you a very special invitation to the 2017 National Limousin Sale. It is with large excitement that we introduce to you this new sale put together to showcase the best of the best across western Canada, in celebration of our 2017 National Limousin show. From cover to cover, as you go through this catalogue, you will find an assortment of prestigious top end cattle from some of the most well respected and reputable programs in the breed. Selected straight from the top of their esteemed herds, these cattle have the potential to become future donors and herd sires. With the attractive pedigrees behind this set of consignments; you will not want to miss out on the first-class opportunity that is the 2017 National Limousin Sale. We are eager to be working with the professionals at T Bar C this year. If you have any questions about the sale offering, please do not hesitate to give one of these gentlemen a call.

We look forward to seeing you all at the sale.

Sincerely,

Your Alberta Limousin Association

When we were approached about consigning to the National Limousin Sale, we thought the best way to do the sale justice was to offer the choice of our two best bull calves of 2017. Here are two maternal siblings out of the $44,000 evaluated donor LAL Marilyn Monroe 42W owned with Riverstone Cattle Company. When we toured Pinegar Cattle Co. in Missouri, we fell in love with the Xylopolist cattle for their added softness, foot and bone and overall power. So much so that we purchased the top bred heifer sired by Xylopolist. We felt it was just good business to get these paternal genetics into our herd and let 42W lead the way! 706E is everything we expected and more. Power and mass from the cow side, along with the added softness and extension from the sire's side. This bull is really extended through his neck and spine. He exhibits plenty of added depth from heart to flank, while carrying and maintaining an impressive amount of width through his hip, stifle and quarter, which he carries on top of a great set of wheels. (continue on page 5)

Eye of the Tiger has all the pieces to make a great herd sire for the new owner! The quality always runs deep when 42W is involved and the proof is right here. Once again the opportunity to acquire a CFLX Wild Card out of Marilyn Monroe is upon you. Yes, you are reading that correctly, we are offering a full siblings to the $60,000 evaluated bull, Cottage Lake Border Agent. The bull that has worked in many top herds across North America, creating very high valued, high demand cattle in the USA and Canada. We feel that his full brother Boss Lake Entry Denied is very closely following in his footsteps with his killer look, sound structure and power. With that being said, we truly believe this bull is ahead of his time in terms of added performance and maturity. 715E is wide through his skull, tight through his neck and ties that into a smooth shoulder, big barrel and leads away like a truck. It is an honor and a privilege to be a part of such a prestigious event and we feel these bulls represent everything and more on what Boss Lake Genetics Limousin division is all about!

PAYNE LIVESTOCK, LLOYDMINSTER, SK

We couldn't decide which of these outstanding females to offer, so after much debate, we came up with selling choice. We will be happy with whichever one comes home!
Cottage Lake Big Star was a force to be reckoned with for two years in the Boss Lake show string. We invested in semen in 2015 and he has bred phenomenally for us. The 38E female is deep sided,long necked, straight and attractive. 55E is soggy, moderate and easy doing. Both come from top black cows in our herd. The Spaceship female is a proven producer and one of our favourites. The 59B cow is young and upcoming, her pedigree traces back to some of our most successful cows on top and bottom. 55E is homozygous polled and homozygous black by pedigree. 38E is double polled and double black, she has not been DNA tested for these traits. Both of these girls have potential to be show yearlings. A female dynasty has to start somewhere and one of these heifers may well be the foundation of the next one!

After much deliberation we are offering choice on these two gorgeous heifers as we couldn't decide which was better; each has their own outstanding qualities. Elektra 16E is a powerful Wulfs Willard daughter that has momma cow written all over her. 16E is a very clean fronted female that carries the same muscle mass that Willard is known for, all while maintaining that femininity we look for in females. Her dam is a big, Rambo daughter that never seems to miss. Emma Frost 9E is out of a second calver and is also our first heifer out of PLNS Polled Abraham. Boy, he didn't disappoint! This dark black heifer is big topped, carries extra rib capacity, and when you analyze her, you have to admire the amount of muscle she carries for such a fancy show female. As for her hair coat, Emma Frost has followed in her sire's footsteps, having a ton of hair! Whether you like 16E or 9E, these two docile heifers are very structurally sound and are sure to fit into any program.

It is with great excitement that we offer this heifer calf in the National Limousin Sale. When Chris came to tour through the cattle, Richmond Empress SRD 50E caught his eye right from the start. Empress has been a standout since birth, she is as fancy as they come and correct from the ground up. This heifer is the complete package, she is beautiful in her design,backed by a powerful mother and a breed changing herd sire. Do not miss out on the opportunity to own his future brood cow in the making!

SIRE OF LOT 4

DAM OF LOT 4

It is with great honor that we offer this little gem of a heifer in the National Limousin sale. She is moderate framed, hairy, and super soft made, with that belly sweep everyone loves. She has loads of top coupled with a great hip, sweet front, and sound foot. Evaline comes from a moderate framed excellent uddered cow we purchased from Linhart Limousin as a heifer calf. She has been extremely consistent in her production and this baby is no exception. Her sire is one of the best bull calves we've raised to date. He serviced all our second calvers and a few choice cows before we tragically lost him way too soon. Take a close look at this beauty sale day, as she is going to make one heck of a mother cow.

We are offering up one of our best replacement heifers, Diamond C Ellie May. Annie is not too happy about that, she had her eye on this one for her 4-H heifer project this year. However when asked to participate in this sale, we decided to let one of the best ones go. She weaned off with one of the highest weaning weights of the heifers at 840 pounds on August 22. She is deep sided, smooth made and wide topped. She is extremely powerful in design and she brings this to the table with a -1.6 BW EPD and a 74 pound birth weight. So look for her Weaning Weight and Yearling weight EPD's to be changing. Her dam is a first calf heifer who is moderate, has an exceptional udder and is sired by Sirloin Anchor. Her sire Sirloin Candid has done a fantastic job for us in the heifer pen, siring low birth weights calves that grow. Look for calving ease out of this great calf with explosive growth. What more could you ask for? She is the lead heifer in our show string and we encourage you to take a close look at her at Farm Fair and on sale day.

Dream is a top bred prospect, coming out of our replacement pen for many reasons. Starting with her pedigree, she's the first daughter of a favorite young cow in the herd and a full sibling to Canadian Impact who will enter the donor pen in the coming years. We can't say enough about what the Wisteria Lane daughters are turning into and here's one of the first chances to get a grand daughter. Phenotypically 51D is what we are trying to produce. She is sound, soft made, easy doing and will make a maternal breeding piece you can breed a variety of ways. The Zeppelin daughters are turning into great young cows. The majority of our show string will be made up of family members to this female. Here's a great homo polled female bred to a calving ease Yieldmaster son, who is out of a beautiful two year old who came as an in-dam purchase from Richmond Ranch.

Pasture exposed to Greenwood Yield Master from May 5 to July 20, 2017.

Dream 629D is a very exciting outcross pedigreed bred heifer. Dream is deep bodied, big hipped and has plenty of middle. Out of the Excel Polled Barn Burner 49B bull that worked great on heifers and cows, he has consistently added muscle and rib shape to all his calves, while maintaining growth and moderate birth weights. This heifer carries great attributes of her sire and service to the large scrotal and docile Billy The Kid for a mid-January calf.

AI bred on April 17, 2017 to Billy The Kid. Pasture exposed to Excel Polled Dmitri 11D from April 30 to May 27, 2017. Preg Checked August 29, 2017, safe 5 months in calf.

The decision to part with Divine 56D was the subject of a lot of debate in our household. 56D has been a favourite right from birth and, as only the second female her dam has produced, we intended to keep her to carry on her family tradition of producing some of the great ones. In the end, the desire to offer up one of our best for this National sale won out and here she is, ready to bring this strong maternal genetic legacy to a new herd. On the paternal side, 56D is backed up by our herdsire, Carpenter's Eastwind - we have been super impressed with the amount of muscle and shape Eastwind has thrown into his calves. 56D also has above average growth EPD's, and this total package is rounded out with an early service to COLE Architect - buy with confidence knowing exactly the type of calves he produces.

AI bred on April 1, 2017 to Cole Architect. Pasture exposed to Richmond Chance SRD 172C from April 21 to May 29, 2017.

Vet opinion safe to Cole Architect.

Greenwood PLD Brandy caused quite a stir in the Limousin world. First being one of the high selling females at the inaugural Cattle Call Sale, and then becoming one of the most consistent winners in the show ring in 2015, including Agribition Reserve Champion Female! She is a full sister to HSF Your Fantasy, the dam of the infamous Riverstone Charmed female who took the American show circuit by storm! This proven pedigree will complement very well with the exciting up and coming sire Richmond Crusader. The resulting progeny will be Homozygous polled and Black by pedigree. Don't miss this opportunity to get your hands on some of the most sought after genetics in the industry.

Guarantee 1 pregnancy if implanted by a certified technician.

PINNACLE VIEW LIMOUSIN, QUESNEL, BC

CAM Poll Nadine was a feature lot in the Campbell Dispersal the fall of 2014. We teamed up with good friends at Venture Livestock and purchased this 12 year old to put into the donor pen to capitalize on her genetic strength and stunning phenotype. Nadine is massive in her volume and capacity, has great extension, a sound functional udder and moves on a huge foot and sound leg. Progeny over the years have given Nadine an index of: 104 for weaning, 103 for yearling and 103 for IMF. The embryos are sired by the $31,000, homozygous polled, COLE Architect 08A, whose progeny were highly competitive and sought after in their Canadian debut last year. Architect 08A progeny come easy, explode with growth and have an easy going nature with a tremendous numerical package. Come see the full sister to these embryos in our string and you will see just what this impressive proven mating can do! Bid with confidence!

Guarantee 1 out of 3 or 2 out of 5, 90 day pregnancies if done by accredited veterinarian.

Qualified for Canada only

This mating will result in outstanding progeny backed by some of the best genetics in the breed. RPY Paynes Dream Girl 26D was the high selling heifer calf at the 2016 Cattle Call Sale. She is a breed changing female with her massive volume, thickness, impressive profile and solid EPD numbers. CFLX Wildcard is a proven sire whose offspring are proving their worth in the showring and pasture. He has impressive growth numbers, hair, thickness and spring of rib.

Guaranteeing one 90 day pregnancy if implanted by a certified technician. Embryos are stored at Optimum Genetics, Regina.

EDEN MEADOWS FARM ZEHNER, SK

Here is one of the most exciting opportunities to be offered by Diamond C Ranch in a while. The right to flush one of the best cows to ever walk our pastures, Diamond C Angelina. Everyone that tours our herd takes an extra amount of time to really examine how good this cow is. She has been in our show string every year since she was a calf. This year we will be showing her first calf, Diamond C Cinderella, at Farm Fair as a pair with her first calf at foot, so predictability is there. Angelina is medium in frame and is one of the deepest cows in our herd and in our breed. Some of her other attributes are that she has a fantastic udder and docility. She has passed these traits onto her progeny. When analyzing Angelina, you have to admire the power and performance, as well note how she complements that with her style and femininity. Angelina carries a very well balanced set of numbers on paper. This is a dam that is improving our breed at an accelerated rate. If you are looking to take your herd to the next level, then this is your opportunity to get a flush on Diamond C Angelina. We are offering this flush with your choice of sire. You can't miss here!

We are guaranteeing 6 grade A Embryos. All expenses, including semen, will be the responsibility of the buyer. She is open and ready to flush.

TERMS:
The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:
Each animal will carry papers issued by the Canadian Limousin Association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH:
All animals in the sale have met all necessary health requirements.

GUARANTEE:
Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the appropriate breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:
All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:
All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Company is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Company assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Company assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:
Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:
Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:
We strongly recommend that insurance is purchased for full value.

ERRORS:
All announcements at sale time, written or oral, supersede any written material in the catalogue.
