

CANADIAN WESTERN AGRIBITION
NATIONAL // // // // // // // // // //
SPECKLE PARK

SALE

NOVEMBER 21, 2018 AT 3:30 PM | REGINA, SASKATCHEWAN

From the Desk at T Bar...

Welcome to the 2018 Canadian National Speckle Park Show and Sale hosted by Canadian Western Agribition, Regina, Saskatchewan. Each year, Agribition and the Speckle Park breed attracts visitors and buyers from several countries throughout the globe. It is only fitting that this Canadian developed breed of cattle would display their successes in the province in which the breed began!

Working with these progressive breeders has been fun and rewarding and over the past decade or more, we have come to know that the Speckle Park breed has the highest "ROI" (return on investment) of any breed in the nation. The demand for Speckle Park breeding stock increases monthly around the world, both in the commercial and purebred sectors and as a result, the supply side of the chain cannot keep up. The first calf usually fetches the cost of the mother, embryos bring a premium and the commercial sector takes advantage of their calving ease values along with high carcass and marbling traits. It's a "win-win" scenario. The 2018 National Sale line-up is exciting to say the least. The herd bull prospect will be a feature and will add value to any type of program. The 2018 models will be competitive with fresh new genetics, many of a competitive nature and destined to make great brood matrons...some even donors. The bred heifers will speak for themselves as they are always a feature carrying that coupon just a month or two away. The embryos stem from powerful donors and are exportable worldwide.

Join us for our biggest Canadian National in the exciting Speckle Park breed. Plan to make Wednesday, November 21 Speckle Park day with the show at 8:30 am and the sale at 3:30 pm. It will be well worth the trip!

If we, at T Bar C, may be of any assistance prior to or sale day, feel free to contact any of the T Bar team for professional and confidential assistance.

PICK OF THE HERD

////////// CONSIGNED BY: SPOTS 'N SPROUTS

The Spots 'N Sprouts herd has been in existence since 1980. We have about 100 breeding females, most of which are purebreds. We will sell 'pick of the herd' but the choice must be made by December 31, 2018. You would be hard pressed to find a herd in Canada that doesn't have Spots 'N Sprouts in at least one of their pedigrees. Spots 'N Sprouts started many of the Canadian herds and breeding stock, embryos and semen have been sold internationally. Some of our breeding, which has done well for others, include Spots 'N Sprouts Stands Alone 300X and Spots 'N Sprouts Bart 110B. Stands Alone has become the most used Speckle Park bull worldwide. The well known bull, Lacerta, was also Spots 'N Sprouts breeding. We are the last of the original eight founding members of the Canadian Speckle Park Association still actively breeding Speckle Park. Now with the recent addition of our son and family to our farming operation, we plan to increase our numbers under the name of Herbert Land and Cattle Co. Ltd.

Outback Aurora 105D and her daughter Outback Cheyenne 105F will make history in Regina as the first ever two-year-old pair to ever sell at the Canadian National Sale and will be a feature in the show and sale!

Aurora is awesome in phenotype and genotype. Her mother is a powerful foundation female selected from the great Ravenworth program. Her sire, Moovin Zpotz Avenger 28A, adds a unique dimension of pedigree to make the offering special. Aurora puts it all together, lots of barrel and body yet very sharp fronted and displays a beautiful udder attachment with small teats. Tested homozygous polled, this powerful two-year-old is donor material.

Pasture exposed to Codiak Decker GNK 60D (a son of Avery Creek Banjo 01B) from April 20 to May 29, 2018 and to Notta 101Y Barcode 113B from May 29 to June 25, 2018.

Selling choice of these two great heifers. They both come from a very productive cow line in our herd. With two great heifers on offer we couldn't decide...so you get to! These are flush quality females.

This fantastic heifer is off a first calver who really out did herself. 109F is showing the same great width, depth and muscle shape as her sire, Invictus, while maintaining an ultra feminine style from her dam. She is extremely deep sided while keeping a level top line and angular front end. 109F is very correct in her structure and movement. We feel this heifer will make an excellent female in any herd.

Looking at 7F you have to appreciate the easy fleshing ability as well as the eye appeal this heifer possesses. She is wide topped, deep bodied calf that has all the tools to be the next great donor for any farm. Packed full of power and performance she stays true to her dam, A&W 7Y, who is a deep tanky cow that carries a beautiful udder and perfect feet. Sired by 88A, this female is sure to turn heads for years to come.

If you are looking for a quality heifer with a pedigree like no other, consider Calico Creek Fortune 23F. She has growth, femininity, balance and some unique genetics. Even though she was born later, she quickly rose to the top of the calf crop. Her dam is the best uddered female in my herd and is proving herself to be one of my leading cows. Fortune's sire, Flying E Abner, is a powerful herd bull that is going to leave a lasting impression here at Calico Creek. The future is bright for this girl!

Fancy goes back to the Paddy and 90N cows that My Redneck herd was based on. These two cow families are known for their easy fleshing and good muscling, carried over a bit larger frame. Her grand dam, Scarlet, is also the dam of the great Whiskey cow, not to mention Fancy's grand sire, 6X's dam was the great Lacey 30L cow. Therefore, this quiet heifer should be no different in her performance than those in her outstanding pedigree. Fancy is quiet and easy to work with, she will make a great 4-H project and then go on to be an excellent working cow later on in your herd. My boys debated very hard on letting this one go, as she was to be Clayton's 4-H project this year.

WARNING this heifer has proven to have addictive properties to cattlemen everywhere! Electra, a rare leopard Ulysses daughter is a very complete, purebred female that is hard to fault in the show ring and has proven maternal traits to pasture produce as well. She comes from the Jencrest 6U cow who is the dam of the CWA 2017 Junior Female Champ by Fleetwood. Electra is bred to the CWA 2017 Junior Bull Champ, Underhill All Out and due to calve February 23rd, 2019. Electra will head west undefeated in the Ontario show ring in 2018. This package represents Speckle Park breed development in Eastern Canada and here we offer our absolute best for CWA 2018. Polled, non red carrier and myostatin single copy carrier nt821.

Seller disclosure: Electra was in-vitro flushed in August 2018 with positive results at a controlled Boviteq repro station.

It's an honour for us here at KFC Farms to offer a unique opportunity to acquire embryos on Single Tree Shady Lady 14A. This cow was selected for her smooth flow in motion, overall mass of volume, clean front end, level udder with perfect teat placement and so structurally correct on her feet and legs you would easily summarize her by saying, "she's a pretty sumo wrestler in a ballerina's tutu". We offer three (3) embryos from two different bulls - Codiak Crikey GNK13U and Upto Specs Ulysses 25U. We feel both of these bulls have left their mark in the industry and will compliment 14A. The resulting progeny should greatly contribute to the breed and be 96.9% pure!
