Welcome to Double Bar D Farms Annual “Sharing the Herd” Female Sale on Wednesday, December 11 at the farm just minutes east of Grenfell on Highway #1. Each fall, Double Bar D offers a cross section of their replacement females out of the heart of their herd... the 2019 version features seventy-five powerful bred heifers suitable for every type of program. Being a successful family operation, the Double Bar D herd is also built and developed by families.

Nothing around Double Bar D is half-baked... whether it’s the large grain operation or the breeding herd, they take a lot of pride in customer satisfaction. This is exemplified by their spring bull sales...highly successful events with many repeat customers from across North America.

The sale offering is packed with power and genetic strength. It will be hard to find a group of Fullbloods such as these to select from. The exciting purebreds, (many homozygous polled) will fit any program whether you are looking for reds, blacks or blazes. Thick, broody, genetically diverse... many of these females are weeks away from laying down a coupon and saving you some tax.

Plan to be with us at Double Bar D for one of the feature sales in the Simmental breed and add a female or two to your front pasture. Feel free to stop by the farm prior the sale for a preview of the offering or don’t hesitate to give Ken a call... he likes to visit cattle. Most importantly... be on the front row December 11th.

If we at T Bar C may be of assistance, prior to or sale day, please contact any of the T Bar team and we will be pleased to offer our professional services.

Now into the second calf crop of W/C Bankroll, his calves continue to exceed extremely high expectations. His sons and daughters are true curve benders with low birth weights and exceptional performance through weaning and yearling.

His females are angular yet possess exceptional mass with a maternal look. His bull calves are powerful and muscular in their design and still possess excellent structure with a touch more extension and look than most. His sons and daughters are topping sales, winning in the show ring and are already becoming too numerous to mention.

We look forward to seeing the influence of this impressive breeding bull now and in the years to come.

Gentle disposition and outstanding as an individual. Power packed pedigree and phenotype. Georgia has many progeny out in the country, too many to mention. 412F has been a standout since birth. Georgia is very complete in her composition, with her eye catching shape and mass, accompanied with the right amount of femininity and extension to go right along with her stoutness. A combination that is not easy to come by. Don’t miss the opportunity to buy a great one!

Three full sisters to appraise and choose from that will be the backbone to any program. We can’t say enough about their dam, Finesse 401W. By far, 401W is the best Wheatland Red Hummer 608S daughter that we have raised. Her consistency in her offspring is to be admired and this is your chance to be involved in this awesome, consistent and front pasture cow family. These three full siblings, sired by Captain Morgan, leave nothing to chance! 401W has progeny working at these progressive programs: Ashworth Farm and Ranch, SK, S Bar D Livestock, Washington, JB Farms, MB, Ross and Sherry Shier, SK, Seven M Livestock, AB, Horner Cattle Co., MB, Ferme Gagnon, QC and Blairs.Ag Cattle Company, SK.

Another rare opportunity to invest in a proven cow family – you choose red or black and Double Bar D is happy to retain the one left. 610E is a dark red Morgan daughter that you have to see for yourself and appraise her depth of rib, ease of fleshing and overall balance. 609E is very similar with a bit more stature and has brood cow written all over her.
