POLLED HEREFORD
DISPERSAL

SATURDAY, DECEMBER 21, 2019

WHITEWOOD, SASKATCHEWAN

12:00 NOON CST

Welcome To Our Complete Dispersal

Harvey Duke

Bradley Duke

I have many people to thank and give credit to for helping me along the way.

My first recollection of cattle is wanting to join 4H when I was nine years old, only to be told that I was too young and would have to wait until I was ten years old. So, I got a steer and entered the open show. This was 1961 and so it goes, where there is a will there is a way.

I bought my first bred heifer from the DeCorbys (Circle D polled Herefords) out of the Moosomin Hereford Breeders Sale. My second heifer was purchased from Walter Olson out of the Southeast Saskatchewan Hereford Show and Sale in Arcola and my third was bought out of the Circle T Ranch herd at Broadview in 1964.

I owe my gratitude to my parents Murray and Mary Duke for teaching their family to value owning livestock and for teaching me that if you look after your cattle, your cattle will look after you.

I remember a conversation with Duncan Lees back in 1965, when Duncan was helping Square D show cattle at the Toronto Royal Winter Fair, where I told Duncan there was no way I was going to farm and have cattle because you have to work too hard. In 1970, I registered in the Pharmacy program at the University of Saskatchewan and bought my own store in 1975 and ran it up until I sold it in 1995. We then moved to Regina where I worked as Pharmacy manager for Safeway and then the Co-op for the next 22 years. We bought the farm at Regina and Qu'Appelle at this time where we started Wascana Cattle Company.

The Canadian Hereford Association tells me I signed up for my first membership December 20, 1967 and have been a lifetime member since December 20, 1969. December 21 (Sale Day) will be my 50th anniversary. Since 1975, my tattoo prefix SAO has registered 2,265 animals.

Initially I used my herd prefix Square D Polled Herefords then, since 2013, Bradley and I wanted the Regina herd to be more identifiable, so we started to register using the herd prefix W.C.C. (Wascana Cattle Company) for the last seven years. (A.B.C.D.E.F.G.) Bradley registered his first animals in 2007 at Wascana Cattle Company and started to use the tattoo letters O.N.D., the same letters his grandfather Murray used from 1954 until his passing in 2005.

In 2016, I was fortunate to be able to hire Larissa Lupul, Barefoot Polled Herefords to come to Regina and start working with Wascana Cattle Company. The cattle in the dispersal sale reflect a solid group of cattle I am proud of and owe a lot of thanks to Larissa for all her hard work on helping us to this point. Thank you Larissa for your support, expertise and dedication!

We have been in dry conditions for the past four years and have culled extremely hard. The cows all have a ton of mass and muscle, are deep, good footed and are all capable of raising a nice big calf. The 2019 heifer and bull calves will be on display and selling with their mothers. However, the steer calves of whom I am extremely pleased and proud of the year will have already been sold in November but the catalogue will list the October 20, 2019 steer weights with their mother's information. My goal was to build a herd of quality cattle with lots of milk, nice udders, and based on predictability. There is not a female in this group we would not keep for ourselves, if it were not for this dispersal.

Wascana Cattle Company Complete Dispersal

My breeding has always focused on sire groups. You will find sire group progeny in the sale as the Ritas, Beautys, Taylors, Staceys, Tequilla Roses, Spirit Queens and Miss Mississippis. Years ago, I decided when I found a bull that I thought would add value to our herd, I would buy him whatever the cost and would trust and use them hard for a long time. This philosophy crossed on our cow families has served us well and has given us the predictability and quality we have wanted. When we got a bull who worked well, we used him lots and if he did not work, he was gone no matter what the cost. This I believe makes our program both unique and powerful.

In the breeding information you will notice I have not AI'd any female in the sale. I am of the belief my herd bulls are second to none in the country. These walking bulls are sound, proven and consistent. You will see their daughters production capabilities with their calves at side. The long yearling bred heifers and heifer calves are off these bulls and they seriously are flat out good and I am excited for you to see them.

We have mated the cows exactly as if we were continuing on. I hope the next generation of cattlemen and women will put these cattle to good use and love these cattle as we have.

The long yearling bulls selling are the best of the 2018 calf crop and most of their mothers sell. The bull calves are what we believe are the best from the 2019 group of calves, keeping birth weights and overall conformation and performance in mind. The rest of the male calf crop have been steered and retained. Any bulls sold in the sale can return to the farm for wintering and then picked up in the spring of 2020. Details are in the catalogue.

I have two children and five grandchildren; our daughter Susan and her girls Emma 13, Taylor 10 and Brynnlee 8; our son Bradley and his wife Kim and their boys Jackson 8 and Tyson 6.

Both Susan and Bradley are Registered Nurses. Susan works out of the Regina General Hospital in the Pediatric Critical Care Ward. Bradley works at the Provincial Transplant Clinic here in Regina and is also a partner with me raising and breeding the Wascana Cattle herd over the past twenty years. Bradley has worked tirelessly on the farm, all while working in Hospital Emergency Ward for the past twenty years. So a big thank you to Bradley for your support and dedication.

Bradley & Family

Susan & Family

Father Time

I have a sense of both satisfaction and fulfillment with these cattle we have to offer. After 50 years of dedication to these Hereford cattle comes a realization that Father Time comes to all of us. A time of sadness but also one of great opportunity.

Bradley and I hope that you come join us Saturday, December 21, 2019 in Whitewood, Saskatchewan where my mother Mary Duke was born and raised, to celebrate my 50 years of raising Polled Herefords where we are sure that you will find something to help move your program forward.

If you have any questions please call either myself, Bradley or Larissa or better yet, drop by for a visit any time before sale day. We would be more than happy to tour you through cow herd prior to sale day.

I sincerely thank each and everyone for accepting me as being part of the industry and being part of the Hereford fraternity. All the Best to you and your family in the future.

Bradley and Harvey Duke
Wascana Cattle Company

Wascana Cattle Company Complete Dispersal

From The Desk At T Bar...

This is my welcome and invitation to join us for the Wascana Cattle Company Complete Polled Hereford Dispersal. It seems that once in a decade an opportunity such as this arises... an opportunity to select from a powerful, one-iron program which has taken decades to establish. Only in a dispersal can one select from powerful, proven cow families that will add value to your pastures.

Hereford roots are deep for Harvey and his family. Few would know that Harvey's father, Murray, registered the bull with the registration number of one million. Harvey has had a unique lifestyle, as he was a pharmacist by day and a cowboy by night...with the help of son Bradley, they established and developed an exciting herd of breeding females but even with the workload, Harvey always took the time to attend and support Hereford events throughout North America.

Necessity builds good cow herds...with no time for A.I., Harvey selected and assembled a powerful group of walking bulls...each with their own genetic traits...easy calving, highly maternal with performance in mind. As you drive through the Wascana pastures, you will find uniformity, fertility and plenty of milk...traits which have made the Hereford breed great.

In the offering, you will find a dozen long yearling bulls which were slated for the 2020 bull sale season and eight proven herd bulls. The top cut of the 2019 bull calf crop rounds out the bull offering. These bulls sell with a wintering program until April next spring, in addition to the 50% terms. What a great way to take care of your herd bull shopping and save some tax to boot!

December 21 will be a day in Hereford history and an opportunity day for the livestock industry. Feel free to stop by the ranch and tour this great cow herd in their own environment or give Harvey a call!

Whether you are looking for one or a trailer load, we are certain you will find what you need. Juniors, with Bonanza in Brandon in 2020, come and select your own project out of the powerful heifer calves selling.

Plan to be with us and take advantage of the years building this great breeding program. It will be worth the trip!

If we at T Bar C may be of assistance, prior to or sale day, please contact any of the T Bar team and we will be pleased to offer our professional services.

TERMS & CONDITIONS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING:

Each animal will sell to the highest bidder... no by-bidding will be permitted.

DISPUTES:

Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE:

As this is a dispersal sale, all cattle sell with no further guarantee. Any known defects will be announced before the cattle are sold.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Hereford Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH:

All animals in the sale have met all necessary health requirements, cow herd is on a full herd health program.

INSURANCE:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. T Bar C Cattle Co. (2013) Ltd. does not assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS & OBLIGATIONS:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, WIRE, MAIL BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY:

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

The Square-D Angel 350X Family – Lots 1 to 4.

- A moderate female with a different pedigree and later exposure than most of our other heifers.

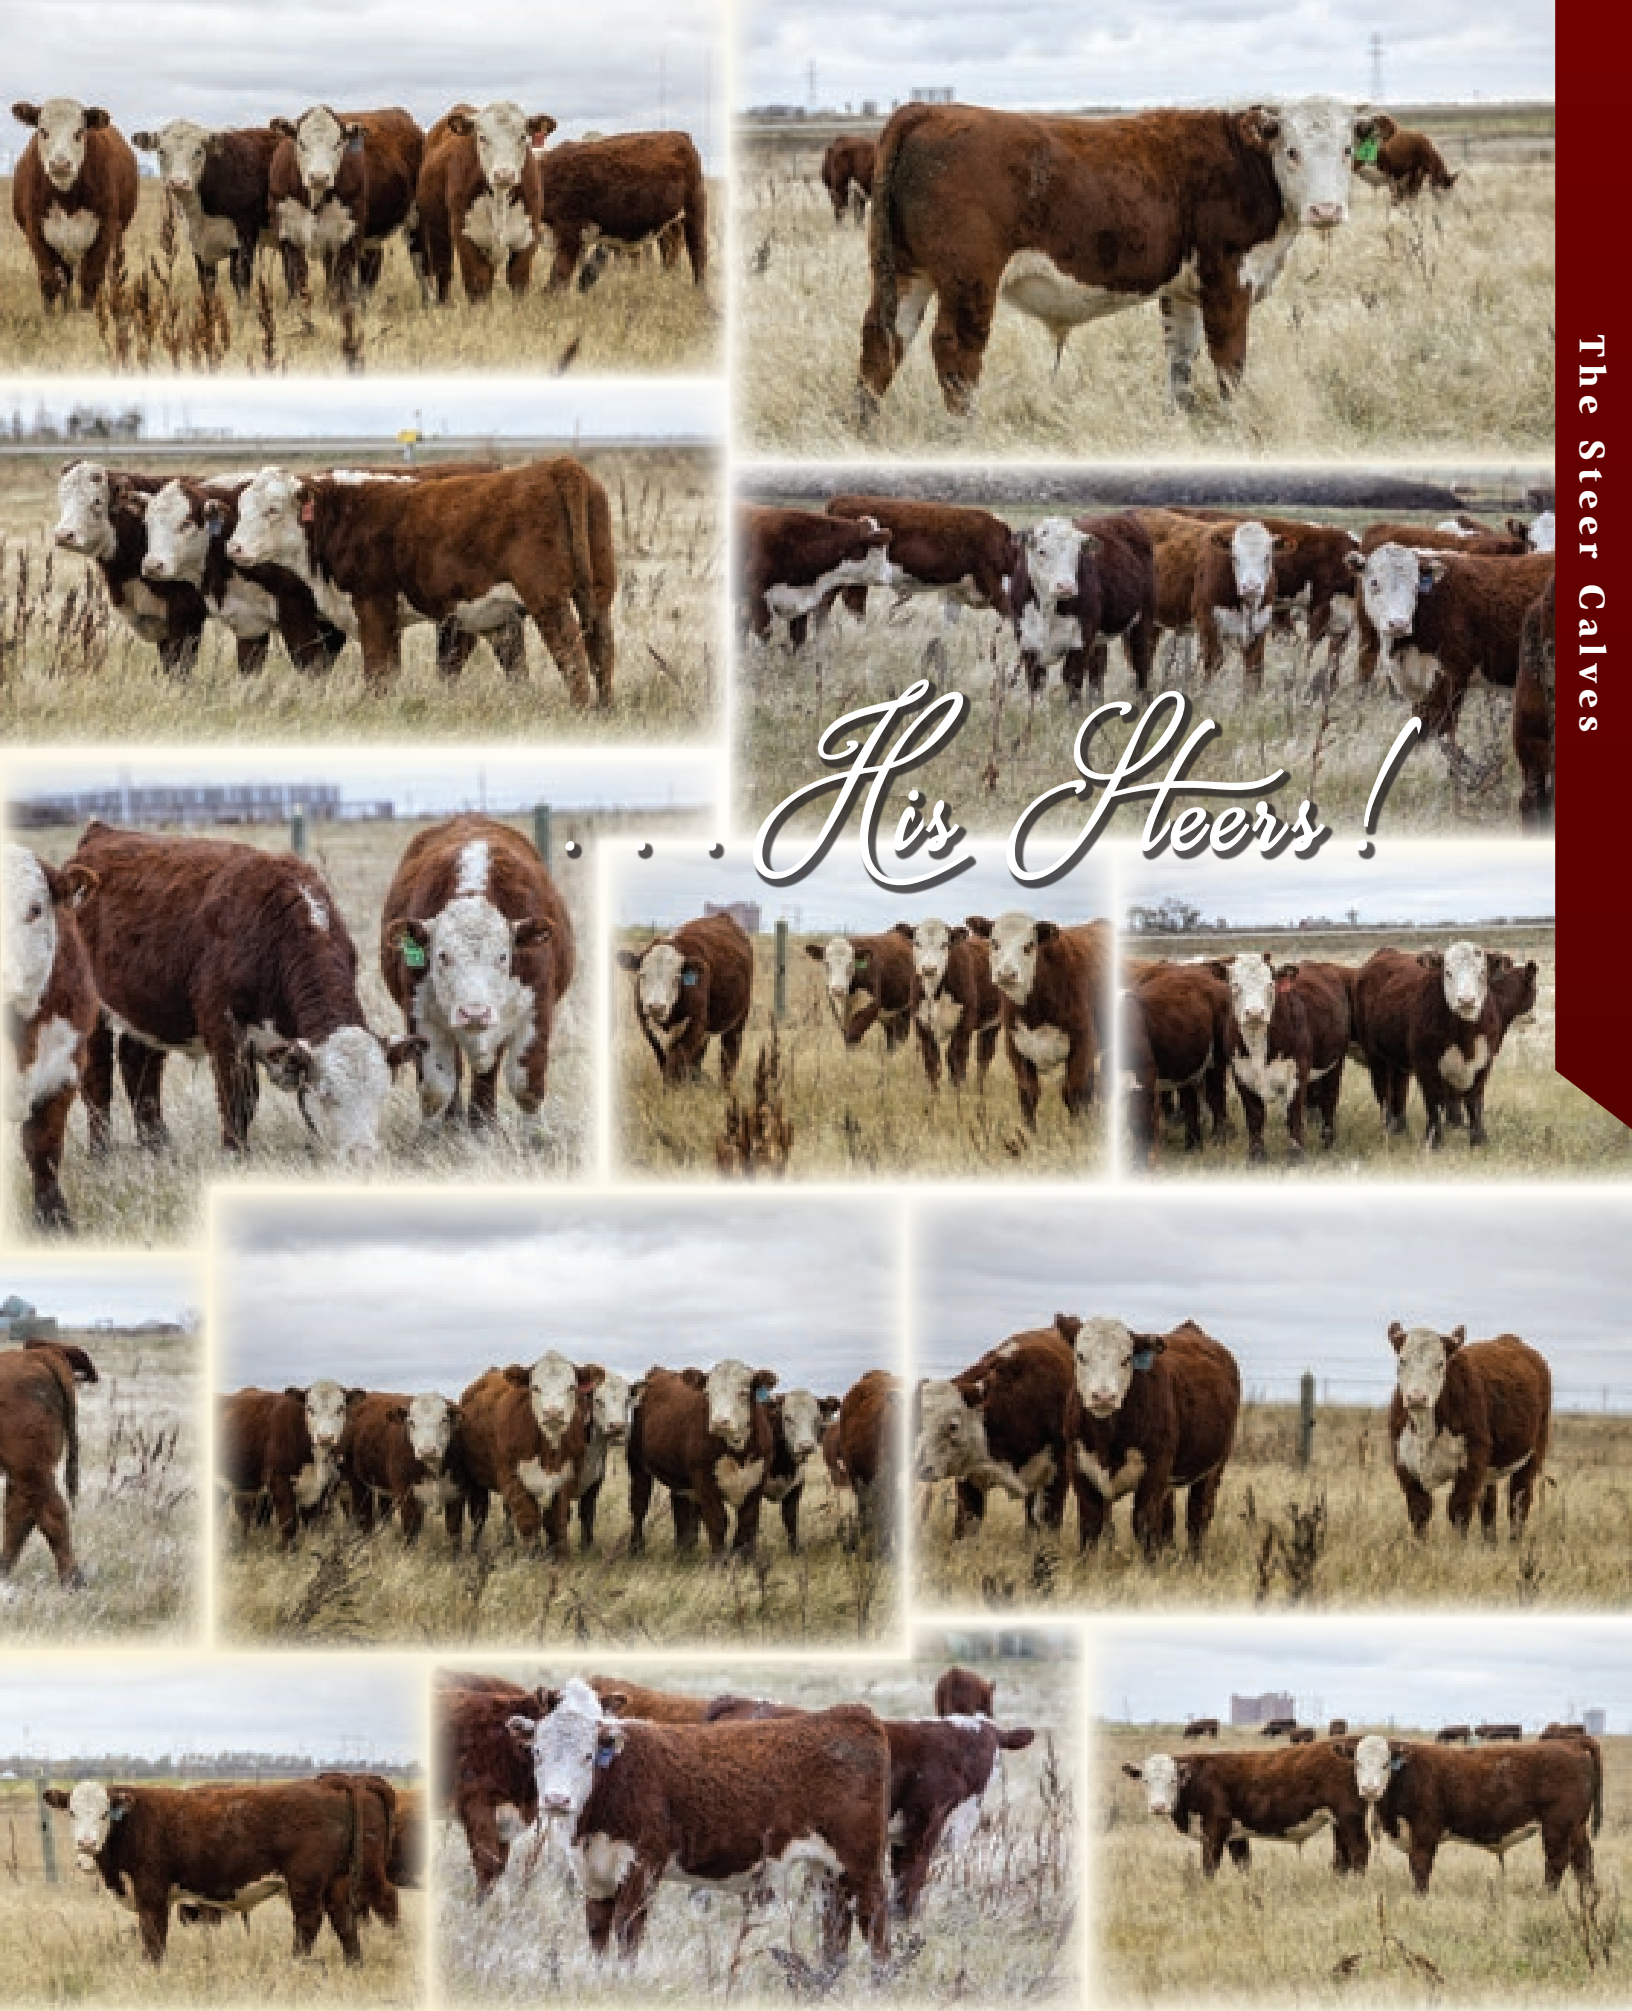

Pasture exposed to Square-D Rolex 427F from May 22 to August 1, 2019. Safe.

196

Harvey's Pride . . .

His Steers!

The Yearling Bulls - Lots 197 to 208.

Truly the cream of the crop. We started with seventy-five 2018 born bull calves and have culled down to these twelve. They've been developed with longevity in mind and will work in a variety of operations. All long yearling bulls are halter broke and will be semen tested before the sale. Test information will be available on sale day. These bulls can be taken home on sale day or returned to the farm until June 1, 2020 for a cost of \$500.

- The commercial man's dream- stout, sound, easy fleshing, hairy in the winter, slick in the summer and as quiet as they come. Take note of the birthweight on this guy!! A great option for heifers or to reduce birthweight on cows.
- His dam sells as Lot 184.

208

The Herd Bulls - Lots 209 - 217.

The entire basis of the Wascana program has been built around buying and using the best walking bulls we could find. The guess work is done here, each herd bull has a specific set of strengths which you've seen throughout the catalog. Some of the bulls are getting up there in age but they've made it this long for a reason and still have gas left in the tank. We truly believe in these bulls and hope you will too. The herd bulls will be semen tested before the sale with test information available on sale day. They can be taken home on sale day or returned to the farm until June 1, 2020 for a fee of \$500.

- We purchased Trojan this spring and every day we like him more. 20E is a calving ease sire that doesn't give up any style or performance. The Trojan calves at Blair-Athol look fantastic and we expect him to breed very well.

- Traction is the type of herd bull that only becomes available in a dispersal. He's incredibly unique in his makeup with more upper rib shape and top than we've ever seen. Traction's first calf crop at Haroldson's is truly impressive and he has many years of breeding ahead of him.
- Homozygous Polled.
- Owned with Haroldsons Polled Herefords, Wawota, Saskatchewan.

Farewell

I will now be able to enjoy the summer without worrying about the cow business and the long days needed to get enough feed put up to carry the herd through the winter.

Hopefully, the good Lord willing, this will now be the time to do the things that matter most. Relaxing, travelling a bit and spending time with family.

From the bottom of my heart, thanks for coming and for your support and confidence in our breeding program over the years. These Hereford cattle have been good to me and the link to meeting so many good friends over the years. I hope that you will enjoy them as much as I have.

Sincerely,
Harvey Duke
