..... Welcome to Bonchuk Farms Female Production Sale 2020

- ◆ **NEW LOCATION** – Ja-Lyn Farms/JP Cattle Co. Sale Facility - McAuley, MB - see back cover for map and directions ◆

This years sale offering is made up of industry leading pedigrees that have been bred to top AI bulls or our own calving ease sires that walk our pastures here at the ranch.

We feel our selection of bloodlines from past years have added to the power in the cow herd. There is a diverse selection of deep bodied powerful made females that make us proud to bring to our sale. Our herd is on a complete vaccination program as listed in this catalogue. The heifers on offer are the kind that will go out and work for you.

With the COVID-19 restrictions we encourage all prospective buyers to come by the farm to view the sale offering. We ask that you please give us a call ahead and we will be happy to walk you through the group, or cattle can be viewed at the Ja-Lyn Farms/JP Cattle Co. Sale Facility starting on December 10th.

We will have Mark Shologan of DLMS live broadcasting the sale so you can participate online. All heifers will be videoed before the sale and will be seen on DLMS at sale time. Also – masks and sanitizer will be available at the sale for all our safety.

This pandemic has made a huge impact on everyone in this country. We hope you and your family stay healthy while it runs its course, as primary producers this is just another curve in the road that we will learn from and get stronger going forward.

We look forward to working with all the T Bar C crew. Shane and Chris have been through the herd and can assist you with your selection.

Great Cattle – Great People

After all these years it really is that simple.

Merry Christmas to all our friends from everyone here at

UPCOMING EVENTS...

BONCHUK FARMS BULL SALE

Tuesday, March 9, 2021 • Virden, MB

From the desk at T Bar C...

Welcome to Bonchuk Farms Female Sale on December 13, 2020. Please note the location change, due to COVID, the sale will be held at the heated Ja-Lyn Farms/JP Cattle Sale Facility, McAuley, Manitoba. Although the sale location has changed, the program has not, it offers the best and largest group of bred heifers offered throughout this fall sale season. This powerful genetic pool with long services will insure buyers an early return on investment.

Over the past decade, working with this progressive family, we have gained a lot of respect for this herd, their breeding goals and enormous "cow sense." Bonchuk Farms are the largest purebred Simmental herd in Manitoba and in building and establishing the powerful cow herd, they have spared no expense in selecting the kind of herd sires that appeal to their large repeat customer base.

When you consider the fact that over one hundred heifers are bred with early service dates, fertility in this herd is of the highest degree. The heifers are the right kind... thick, broody, with tons of hair. Whether you are looking for reds, blacks or full bloods, the genetics are diverse and the quality uniform, making decisions simple as they have taken the guess work out for you. The biggest decision will be, "not which one but how many!"

Customer service at Bonchuk Farms is a priority year-round. They are serious about the beef industry and Simmental breed and take a lot of pride in the cattle they market. If you get a chance, stop by the farm and get the boys to give you a tour, see the heifers in their natural surroundings and get a look at the powerful cow herd. Do not hesitate to give Dave or Wayne a call to discuss which females would work in your front pasture program.

For those who love good cattle and hate paying tax, lucky December 13th should be your day. If you are serious about breeding good cattle and the Simmental breed, set down your satchel and help yourself... it will be worth the trip!

During these times, feel free to call anyone on our T Bar C team to discuss or purchase any of the cattle offered. We have graded each individual and will be pleased to assist in a professional and confidential manner.

TERMS & CONDITIONS

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE

We strongly recommend that insurance is purchased for full value.

ERRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.

DELIVERY

Shipping assistance will be given in making shipment after sale but sale management or seller assumes no risk. Bonchuk Farms will assist in arranging trucking to central points across Canada. All costs associated with shipping will be the responsibility of the new owner.

HERD HEALTH

All bred cattle received Express 5 before breeding and Total Herd has been on the Express program for over 10 years, making the ranch BVD-free. Bred heifers also received black leg vaccine before breeding. All pregnant cattle have their first shot of Scour-Bos vaccine and treated with Ivomec.

A powerful blaze faced Crosby daughter who should be a producer. Excellent width of top, wide hipped and tremendous capacity, just like her dam, 292Y, who has a great production record and has brought in a top young heifer again this fall. Bred to Affinity, her baby should come easy and grow quickly.

Exposed to Wheatland Affinity 8196F from April 26 to June 25, 2020.

Observed bred on May 2.

A larger framed, powerful Crosby daughter. 133G is the type of female that will keep you in the beef business for a long time. Incredible depth and capacity, excellent temperament and has longevity built in. Her dam, 95S, was just retired this spring and produced well beyond her years but always brought in quality. A full sister to this female was one of our sale features that sold to the great herd of Charlie Fafard, Rocanville, SK. Sells bred to Epic.

Bred to WS Epic E152 on May 24, 2020.

Perhaps the deepest bodied female in the entire offering is this red powerhouse. Sired by Gibsons Finest, whose first calf crop was superb to say the least and mothered by a full fleck female from our transplant program. Predictability and profitability should be bred into this female. Look for an exciting Affinity calf out of this powerhouse female.

Exposed to Wheatland Affinity 8196F from April 26 to June 25, 2020.

A powerful female. Sired by Final Affair and mothered by an elite female. 154Y is a deep bodied, excellent uddered female that has an excellent producing parentage. The E55 cow shows up far back in the pedigree; she was one of our first donor cows that was very prolific and influential for us leaving a legacy of excellent producing daughters that are still working for us today. The mating to the great 5015C bull will produce a calf that should be predictable, powerful and profitable.

Bred to R Plus 5015C on May 5, 2020.

Full Fleck. The Silver Lake Dealer daughters have proven to become powerful, influential producers within the industry and 206G is no exception. She is a large framed, soggy made female with a very wide top, loads of capacity, a round quarter and a picture-perfect udder. There's not much to not like about 206G, she'll be an easy doing, influential female that will raise dominant cattle. Hope she has a Battle Cry bull calf, might be your next herd sire.

Bred to NAC Battle Cry 4F on April 28, 2020.

Full Fleck. These Silver Lake Dealer daughters are like peas in a pod. They demand to be recognized with their abundance of capacity, length and strong maternal traits. 211G goes back to the Dorothy Jane cow that brought tremendous success and had a very impressive track record. She was the dam to a lot of herd building progeny. Buy with confidence here, consistency was no mistake in 211G's pedigree.

Bred to NAC Battle Cry 4F on May 5, 2020.

This dark red, goggle-eyed, full fleck female possesses capacity, wide hips, exceptional length, great udder structure and superb eye appeal. Her bottom side goes back to the incredible Houston that put us on the map, known for his power and performance. With generations of performance, top and bottom, along with the desired traits 227G possesses makes her a promising, powerful, maternal influence that will raise you some exceptional calves. Consistency is no accident.

Bred to Virginia Spartan 530E on May 17, 2020.

A tanky, full fleck, Polled Future daughter that will mature to be trouble free. Made soggy with great depth, capacity and superb eye appeal. Not much to change about her. Her dam, 306D, is an excellent uddered female that keeps getting it done. Expect a great calf from the new exciting Battle Cry.

Here is a polled full blood who gets nicer every time you walk in the pen. A female that will add power to any herd she enters. She comes out of a great milking cow, 173W, one of the oldest, most fertile cows on the farm consistently producing us quality calves. 324G is a hairy, thick made heifer with great length, exceptional udder quality and style. She is bred to Battle Cry, who is bound to be the industry's next calving ease, full blood sire.

A polled full fleck with superb capacity and immaculate femininity. 337G brings the whole package to the table; length, depth, spring of rib, wide hip and a tremendous udder. She comes out of a reliable, great milking cow family that raises powerful progeny. There is "momma cow" written all over this one. Bull or heifer; should be a great Battle Cry calf.

Bred to NAC Battle Cry 4F on May 5, 2020.
