*Opening the vault on some great genetics*

# WELCOME FROM DOUBLE BAR D...

Welcome to Double Bar D and Friends Sharing the Herd 2020 Edition. Our sale location has changed this year as it is being held at the new Legacy Inn Grenfell. We are "opening the vault" to our extensive and exclusive embryo and semen inventory which has been years in the making. When flushing a cow or collecting semen we only consider the very best of our genetics to move forward and upward in quality.

We are super excited to have friends in the Simmental breed join us this year to make this sale an even more special event. Thanks to Horner Cattle Co, Jake and Laura of Minnedosa, MB; Springcreek Simmental, Brian McCarthy and family of Moosomin SK and Longview Cattle Co, Shar and Rayel Kaczmar of Grenfell SK for contributing their special brand of genetics to this event.

Our live lots this year are an exciting blend of elite open heifers, a stellar group of bred females along with one donor cow from Springcreek. These females are the progeny of leading matron cows at Double Bar D and sired by our leading herd sires such as WC Bankroll, Rubys Turnpike 771E, KWA Law Maker, SVS Captain Morgan, WS Proclamation, Scissors Eclipse 1E, Mr Hoc Broker, Double Bar D Chandler 143, Anchor D Motown, JB Washington, FGAF Electric Avenue, Anchor D Imax, Starwest Pol Batman, Double Bar D Batman 216E, SBSF Ironman and JB Hombre.

Our frozen genetics, I believe, are a real opportunity as we have shared them in the past at a very limited fashion. Here is the opportunity December 9 to acquire these frozen gems at one place and one time. These genetics range from being very current and fresh to some 'time proven' opportunities.

2020 has been an interesting year to put it mildly but I take confidence in the fact that the Agriculture industry has held up well and I trust we will come out of this year stronger than ever.

I, Ken, would personally like to thank everyone – and I mean everyone (even those grain guys ;) ) that contribute day in and day out here at Double Bar D. Your work ethic and enthusiasm is very much appreciated. Also, a sincere thank you to dad and mom (Richard and Marcia) for their continued enthusiasm, work and dedication to the Double Bar D Brand. It is with pride to see four generations involvement (Jenson loves pail feeding) here at **Double Bar D!**

Thanks so much to our past customers for your support in our program and we look forward to meeting new customers daily.

Join us Wednesday, December 9 at Legacy Inn Grenfell. We look forward to your inquiries – please don't hesitate to call!

Regards,

*Ken Dimler*

**5:30 PM** Supper at the Legacy Inn  
**6:30 PM** Double Bar D "Sharing The Herd" Fall Female Sale

## FROM THE DESK AT T BAR...

Welcome to Double Bar D's "Sharing the Herd" Female Sale, Wednesday, December 9, 2020, at 6:30 P.M. at the Legacy Inn, Grenfell, Saskatchewan. The venue is new but the offering is what you have come to expect from Double Bar D. This event has become a tradition in the Simmental breed... a tradition of sharing leading genetics to enhance the sectors of both purebred and commercial Simmental. The Dimler Family has bred and assembled one of the most unique and powerful cow herds in the world and their dedication to all sectors of Agriculture is never-ending; they are now into the fourth generation!

The 2020 edition of "Sharing the Herd" comes with unlimited opportunities as they are offering genetic combinations from the heart of their program... some of which have never been available to the breed. The bred females, both full blood and purebred are powerful and broody, carry early services, and are destined to leave their mark on the breed for years to come. The 2020 models are fancy and competitive and genetically designed to move programs forward. Although embryos and semen have been offered in prior years in a limited fashion, Double Bar D has opened the vault on their elite frozen genetics... a once in a lifetime offer. Their prolific herd bull battery and donor females have proven to be some of the finest in the breed.

This year, the Dimler's have asked a few friends to join them, adding their special genetic packages to this special event... Springcreek Simmentals, Horner Cattle Co., and Longview Cattle Co. have added several features, including a great donor female.

December 9th will be a great opportunity day for the Simmental breed and the livestock industry. The quality of the Double Bar D breeding program has been endorsed by hundreds of commercial cattlemen who rely on Double Bar D to supply value-added genetics into their cow herds each spring. Remember we are nearing year-end so budget your tax planning accordingly whether you are looking at live lots, embryos, or semen for the 2021 breeding season.

Do not hesitate to stop by Double Bar D any time prior to the sale and preview the offering or feel free to give Ken a call to discuss your options. Plan to make "Sharing the Herd" your seedstock stop!

During these times, feel free to call anyone on our T Bar C team to discuss or purchase any of the cattle offered. We will be pleased to assist in a professional and confidential manner.

You can't help but admire the class and functionality of the Bette cow family. Going back many generations they always prove to produce the right kind. 477F is definitely a head turner whether you are viewing her in the pasture or show ring. In CWA 2019 she was Reserve in Simmental Division of First Lady Classic and admired by many stalled at the end of our show string. She once again is in our show team in 2020 and heading to Lloydminster with a Proclamation calf at side. She is a true testament of consistency and excellence as she has made the show team three years running along with an additional Turnpike ET daughter joining as well. Sired by W/C Bankroll takes much of the guesswork out as she is stylish in type along with tremendous dimension on a correct structure with an impeccable udder.

We truly believe that her influence with her Broker daughter, Lot 2 - RLD 633H or Turnpike Embryos is right at the top end of genetics ever offered at Double Bar D. Buy with confidence!

### Homo Polled Homo Black

Brett 536F is a very feminine female but possesses good dimension and rib shape. She is back to back Divisional Champion at Manitoba Ag Ex as a heifer calf in 2018 and as a bred heifer in 2019. We flushed her this spring as a first calver with eight transferrable embryos. She is right for the times and the possibilities are bright with the mating of your choice.

**Homo Polled Homo Black**

Pepsi 436E was high selling female in Share the Herd 2018. A beautiful and powerful Law Maker daughter out of the ever tried, true and consistent Lock N Load daughter Swan Lake Pepsi 97A. This cow family plain and simply always work no matter the mating. 2007H is a powerful and elegant daughter of Turnpike. Turnpike has done a tremendous job on both his sons and daughters with them topping sales almost every time. Don't pass on this opportunity on a foundational female.

Welcome to the Double Bar D and Friends Sharing the Herd Genetics Sale!

First off I would like to thank Ken for inviting us to be part of this event. Throughout the years we have purchased numerous females and donors from the Double Bar D program who have done great things for influencing our young program. With that, when Ken called me with this opportunity, I knew we had to bring one of our best. We dug deep into the replacement pen and selected a pen favourite that I never had any intentions of putting on offer.

We really think highly of 963G but for us her greatest strength is the female that stands behind her. 963G's mother was my pick of the Double Bar D heifer pen when we selected 17 off the top of their pen and she is still to this day my pick of the package. She is full of rib shape and dimension with a strong and balanced udder, easy doing and packs performance in her progeny. If you are familiar with the Double Bar D program, you would recognize 963G's granddam, the 2020A milestone donor who has done a lot for the Double Bar D program.

Her service to our walking herd sire HFL Vision 8035F will be exciting as his first calf crop blew up away. His progeny came out with a blaze face and grew to be explosive ribbed and carrying extra muscle shape and dimension and full sisters patterned much the same with excellent udders and weaned off some of the higher performing calves. All of this while maintaining calving ease on first time mothers and 2nd calving angus females. His dam, the \$22,000 Blacksand Linette is a highly successful donor at Come As U R. Expect a big ribbed and footed blaze face calf here!

**Exposed to HFL Vision 8035F from April 9th to May 29, 2020. Observed bred April 14, 2020 for a January 2021 calf.**

**Consigned by Horner Cattle Company.**

When Chris and Ben asked if I would consider being a guest consignor in this prestigious Double Bar D sale, I immediately warmed to the idea. I have always admired the progressive Double Bar D program and operation and have known the Dimler family for decades. Since I have sold groups of cattle by private treaty this year, and cancelled my fall production sale, this Sale would still allow me to have a presence in the Fall Sale scene.

**Homo Polled Homo Black.**

Springcreek Honey 65C is a very solid bodied, great uddered cow with a nice temperament. I have flushed her and her embryo calves will come in 2021. She is very easy keeping and, as I write this, she is still out fall grazing and, will not need any extra feed to be in 'sale shape'. Her dam, MBJ 17U, commanded a top dollar when she was offered in our Annual Production Sale and went into the flush pen at JP Simmentals.

Her production includes a good Bestbeef son that sold to Chad Baglole, two heifers that were retained and a top 'Fireball' son that is in the bull pen for the 2021 Bull Sale.

She was bred April 16, 2020 to a good 'Bankroll' son, Double Bar D Radar 531G, that was a high seller in Double Bar D's 2020 Bull Sale. He is homo polled, homo black, with a blaze face and has excellent calving ease numbers.

I would be interested in sharing a future flush on this cow, if the new owner wishes.

**AI Bred to Double Bar D Radar 531G on April 15, 2020.**

Litta 95H is a very very cool, polled Fleckvieh heifer. I honestly have trouble finding any faults in this heifer. One of the added features of 95H is that she is the first female to sell from our new herd sire JB Washington 1476. Litta is a very wide based, well balanced female that is fancy to the core. Her maternal side is very well bred with double bred exceptional udder quality with Thunder and Everest.

Can't say enough about Anchor D Motown's first calf crop. His calves are arguably the best Fleckvieh sire group in both the heifer and bull pen. His bulls will be very well received in our Best of Both Worlds 2021 Bull Sale. Morgana 87H is a polled Motown heifer that is first to sell. She exhibits great heart girth, flank and hip structure. Also, Morgana 87H has extra length and frame and will produce those higher performing offspring. The options are endless with 87H and you can curtail your vision depending the planned mating of your choice.

401W influence has been a mainstream here at our program. Many of her progeny going to progressive programs such as Ashworth Farm and Ranch and Ferme Gagnon. Finesse 401W possesses great shape in body type with adequate extension on a great foot. These resulting Turnpike progenies I am very excited to see.

Gina 414Z entered our donor line this spring. We are currently using one of her sons in our program who is sired by Swan Lake Big Red. Gina has an incredible top and hip with an excellent udder for her age. She has been a consistent producer along with many eye catching attributes that led her straight to the donor pen. Her split flush Last Call and Law Maker progeny will be a positive asset to your red program.

Purchased from Griswolds in the fall of 2017 for \$65,000, Exactly 761E, has been paraded up and down the road with excellent results. She was third overall Percentage Heifer at OYE (Oklahoma) in 2018 and Reserve Overall Percentage Heifer in 2019. Also, in Denver 2019 she was Reserve Division Percentage Simmental. Not only does 761E dazzle in the show but produces very well as well with her Bankroll daughter, 695G, being an impressive individual. 761E has a full sister on the show road as I write this with her latest success being Supreme Champion at Tulsa State Fair in early October. So, with that said, consistency runs deep. 761E has much to offer for a percentage program as she will add hair, phenotype, all the while maintaining an excellent structure. These resulting embryos from Exactly 761E and W/C Bankroll and Wheatland Man O' War will be 3/4 blood Simmental and has endless potential for the show enthusiast and rancher alike.

Virginia Treasure needs little introduction as she is the dam of Double Bar D Spitfire 20X. She has produced up to 10 bulls in one calendar year in the best of Both Worlds Annual Bull Sale (averaging in excess of 10,000). Either the Funder Storm or Thunder mating really work well and are proven successful matings.

A tremendous daughter of Westrums Andrew out of dam Anchor T Lolita 22Z. 40M is a full sister to the famous Anchor T Emmy 5B cow. 40M has sound feet and leg structure with a square hip and depth of rib. Her progeny definitely have extra style and class about them. Both matings are very intriguing and will be an asset to your fleckvieh program

LFE Heaven Sent 30X

After keeping the McDavid semen exclusive since he was purchased for \$95,000 from Lewis Farms, I have now decided to share his direct influence with the Canadian industry. The acceptance of his first sons to sell was tremendous. 'Denali' was sold to Doll Ranch for \$46,000, 'Tesla' sold to Rocky Meadow Ranch for \$30,000 and 'Duramax' sold to Silver Lake for \$24,000. Fifteen sons sold in my 2018 sale, averaging nearly \$13,000. Many sons have sold to progressive commercial operations such as Geisler Cattle Co. and K5 River Ranch. They have multiple sons and they are very happy with the increased performance in their calves.

I am really impressed with the consistency that McDavid puts into his offspring. His sons' progeny also fit the same mold. When you see the first few calves, you will recognize the rest of them. They have lots of wavy hair, attractive heads and are vigorous at birth. I believe much of this consistency can be attributed to his great dam, LFE Heaven Sent 30X. Great breeding bulls have great dams. They will then go on to be the heavy weights at weaning and yearling.

McDavid is a performance bull; they won't be the smallest calves at birth, but they may come the quickest. The average gestations for 107 calves born to date has been 281 days for the heifers and 284 for the bulls. In my experience, one almost never has calving difficulties when the gestations are short.

My appreciation of McDavid's progeny was magnified when his first group of daughters calved out. Once again, the gestations were short; heifers calved easily and were instant mothers! The udders on his daughters are exceptional. They are up tight with great teat placement and size. McDavid can definitely be used to improve udder quality.

### Homo Polled Hetro Black

Bankroll in person will stop you in your tracks. Muscular, athletic, well built, excellent feet with a look and presence that is second to none. His calves have exceeded extremely high expectations. Low birth weight, high growth and sound. The sons are powerful and rugged yet the females are angular and have an exceptional maternal look. He has already amassed an impressive list of high sellers and winners and his daughters are now in production and are looking great. Prime examples are 477F and 536F.

### Homo Polled Homo Black

Turnpike was the most talked about bull at the 2018 National Western and if you saw him stomping the dirt in the Pepsi Centre, it was easy to understand why. A rare blend of power and mass with undeniable presence. He is big footed and has excellent testicles. Equally intriguing is Turnpike's unique, and outcross pedigree and well above average EPD spread. We partnered with Werning Cattle Co. to purchase Turnpike as the high selling lot in Rubys bull sale. Now with Turnpike's second calf crop on the ground we couldn't be more excited and pleased with his influence. Turnpike's Progeny consistently rise to the top on both sides of the border.

JPCC Ignition came to us from the Lowes family of JP Cattle Co. in their bull sale spring 2019. He has really impressed us with his easy fleshing ability as a young developing bull breeding two intervals here at Double Bar D. He has a very nice set of EPDs and is definitely heifer approved with his calves being consistently small at birth but get up and gain very well that day forward. We look forward to you evaluating his first set of bulls in our 2021 Best of Both Worlds Bull sale. Here is a good opportunity to add some "red" influence to your program with the added flexibility to use him on heifers or cows.

### Homo Polled Homo Black 7/8 Simmental

Once we laid eyes on Primetime we really wanted to own him, the lead off bull at Rust Mountain View Sale 2020. He was admired by many as their pick of the bull calves at Denver 2020. Primetime is very clean fronted but yet explodes into a wide topped and thick butted bull all tied together with a stellar set of EPDs, especially calving ease. He is strong footed and very athletic in his movement on a near flawless phenotype and backed by an incredible pedigree going back to 8543.

### Homo Polled Hetro Black

This Broker son purchased from Adrian Rehorst, spring 2017 has continued to impress us as both an individual and how his progeny perform here at Double Bar D... So much so that we thought we would offer him to the industry. Like their sire, his calves perform very well with great feed efficiency and cattle that have extra top and rib shape. Driving by the herd bull pasture Emperor is most often the bull that catches your attention.

## SVS CAPTAIN MORGAN 11Z SEMEN

# Terms & Conditions

**TERMS:** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds. Double Bar D reserves the right to flush any of the females in the offering at the seller's expense and buyer's convenience.

**CERTIFICATE OF REGISTRATION:** Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**PEDIGREE ESTIMATES:**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HEALTH:** All animals in the sale have met all necessary health requirements.

**GUARANTEE:** Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

**PREGNANCY INFORMATION:** All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**LIABILITIES:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**DELIVERY:** Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

**PHONE, MAIL, WIRE BIDS:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**INSURANCE :** We strongly recommend that insurance is purchased for full value.

**ERRORS:** All announcements at sale time, written or oral, supersede any written material in the catalogue.

**Return Undeliverable
