HBH Angus with Northern Light Simmentals Sale

WELCOME

Welcome to the HBH Angus and Northern Light Simmentals First Annual Female Production Sale! For the last couple of years we have been thinking of doing this sale. A lot of people have asked me, "In 2020?" My thoughts, "why not!?" Both herds have grown to the point that numbers are exceeding where they need to be, so it becomes a natural time where we can have a female sale and offer the quality of females that we feel will work in the industry today!

At both farms, the heifers were ultrasound pregnancy checked early to confirm breeding dates or bred in the exposures. They are exposed to very top end sires with short exposures, so you know when they will calve. Both places the females will have all their shots up to date and have been treated for internal and external parasites prior to the sale. Ask for full details.

The sale is located at HBH Angus Farms in the heated calving barn and females will all be available for viewing a week before the sale. Feel free to give us a call prior to the sale and arrange viewing if you can't make it to the sale, we would love to have you!

There are so many thank yous needed throughout the year and firstly I need to thank my family for sticking with me and putting in the work that is needed year round, not just at sale time. Thanks to Dickson and Brock for having the trust in me to make the decisions at HBH that need to be made. Darcy and his family are a big part of the success at HBH, with Brayden being the full-time herdsman now and his sisters never hesitate to lend a hand when needed. Thank you to Calvin and Dave that help out full-time at Northern Light, which also gives me time to do what I need to do at home as well as at HBH. To both sales teams, thank you! This is not only at sale time but year round, we really appreciate how much advice we get along the way. When the sale was getting put together, one of my priorities was having both management companies helping out and it has worked out perfectly.

Thanks to Wilf and Marnee who do the Northern Light website. It is always enjoyable getting Wilf's input. You can never learn enough from a legend in the business. T Bar C office staff, thanks for putting up with all my bull **** all year. To changes in ads or catalogues, it always turns out great! There are so many other people that help out along the way; clipping, sale day, pictures, videos, harvest time and hauling cattle that I couldn't mention you all, but thanks!

We hope you can make it to view the cattle or join us sale day! If you can bring your trailer we would really appreciate it. If not, let us know and we can help arrange delivery. We are pretty easy to get along with so don't hesitate to ask any questions that you may have!

Merry Christmas!

Neil Carson

If you can't make the sale, it will also be broadcasted on DLMS!

From the Desk at T Bar...

The concept of this new sale comes with great excitement as Neil Carson and his crew have put forth an offering that is not only diverse but highly anticipated in both quality and volume!

The Northern Light Simmental herd has been widely known for decades as a superior source of Simmental cattle. The bred heifers available from this program are the kind that raise herd bulls that you'd come to expect from the Carsons. The full blood offering is special, starting with an absolute tank in Lot 1 and carrying the service to the \$60,000 Battle Cry! The red and black cattle offer many outcross genetics to most purebred herds that are also bred to the most popular and sought after bulls available.

The HBH offering is simply exciting. An opportunity to grab a hold of the top of the entire bred heifer pen. Heifers by Hot Lotto, Stature, President, Stunner, Homegrown and Rainfall that are on the cutting edge of genetics available today. Then you take these same heifers that have services to the \$30,000 JL Admire bull and the \$52,000 LLB Dominic bull and you'll soon realize the homework is done for you. Also included are 10 top heifer calf pairs that represent this cow herd nicely. I don't think I can stress enough the maternal strength of this program with attention on udders and feet always being closely monitored.

The idea of combining these two outfits together for an annual female sale is very fitting. Both are constantly breeding for the best kind of cattle one can buy. The T Bar C crew have been through these cattle numerous times and would be pleased to help you in any way shape or form to enhance your herd with the cattle selling.

Thanks again
See you there!
Ben Wright

Welcome

From all of us at Transcon Livestock, we are thrilled to be the Simmental Sale Management Team to assist our good friends, the Carson Family of Northern Light Simmentals! We have worked with them for decades and generational successions in marketing their Simmental cattle. The Northern Light herd has sincerely gained a reputation for cattle that excel with traits applicable to the

Simmental breed, particularly lots of growth/pounds, looser hided cattle that convert well and wonderful females that raise calves with loads of pay weight! That sums up the breeding philosophy, pretty darn good economic sense!

As Neil Carson has taken on another project, namely, managing the good HBH Angus program this joint venture seems a natural. We are familiar to the HBH program only by the reputation that precedes them for having a long running successful Canadian Angus bull sale! It's exciting to see these two herds, not only combining their efforts, but expanding their marketing plans with this first annual female sale.

We will be on sale site the day prior to the sale and available to answer any appraisal questions you may have about the offering. We look forward to another opportunity to working alongside our colleagues and friends from the reputable T Bar C crew, and encourage anyone needing any bidding/buying assistance to contact them or ourselves to handle your interests in your absence.

On behalf of all, have a Merry Christmas,
Jaymes E. (Jay) Good

This heifer reminds me a lot of her mother when we bought her from Dana Johns out of the Harvest Hoedown. She is thick, moderate and has lots of hair. Being a Northern Red she will be easy doing. I bet this heifer will be very bagged up and loose by sale time as her mom is always one that shows very early before calving.

A nice made Ladies Man daughter that traces back to the 1R cow family again. She is very smooth made with good thickness and I am very excited to see these females in production. I expect them to have good udders and everything looks that way so far. She has the blaze face that is very popular and has some full blood genetics on her dam's side which you will find quite often in our pedigrees!

AI bred to WS Epic E152 on March 29, 2020. Pasture exposed to Wheatland Front Runner 896F from May 13 to June 4, 2020. Ultrasounded safe to AI date.

Another moderate made, thick daughter of Doc Holiday. By the time I am done comments this is going to seem very repetitive but that is the way the Doc Holiday daughters are made. Her mother is a very thick made Westcott daughter. Westcott has worked well for us leaving very thick, well made animals. As these daughters keep raising calves I believe a lot of the cattle we are all after will trace back to Westcott!

Another big heifer out of 14Z. He is very consistent in the job he has done around here. Her dam is a beautiful baldy cow with a very nice udder. I think this heifer could turn into one that really produces.

AI bred to Winchester HR P8315 on May 8, 2020. Pasture exposed to X-T Doc Holiday 16D from May 13 to June 4, 2020. Ultrasounded, but too hard to tell between AI or early exposure.

A thick, moderate heifer out of Eagle Eye, a polled full blood bull we used. She comes from a good Master cow that traces back to a cow, XPP John's Devra, that made a huge impact on our herd. If you like buying females out of great females, check her out. This could be a sleeper in the sale that pays you huge dividends!!

AI bred to LFE Night Hawk 3013D on April 16, 2020. Pasture exposed to X-T Doc Holiday 16D from May 13 to June 4, 2020. Ultrasounded safe to AI date.

These two Eagle Eye females are very similar in type. They have a bit more spring of rib than some in a nice moderate package. Her dam is one of my favourite cows that is not the biggest but is made right, has a picture perfect udder and is easy doing.

AI bred to Hart State of War 056C on March 31, 2020. Pasture exposed to X-T Doc Holiday 16D from May 13 to June 4, 2020. Ultrasounded safe to AI date.

These twin heifers surely won't take away from the performance of your herd. With growth EPDs in the top 25% and still have good maternal with a milk EPD in the top 3%, they should make great mother cows. Their dam is always consistent and after having these twin girls still bred right back to calve in the first cycle again.

Here is a young cow that represents HBH very well. She is the type we are trying to produce. 157F is a powerful daughter of Hot Lotto that has done such a good job for us. She will become a deep bodied power cow that has a good udder and can raise a top calf. Her weaning and yearling EPDs are right at the top which is very typical for the Lotto progeny. If you are looking to add some power to your herd, look at this young female, you won't be disappointed!!!

One of the thickest heifer calves of the group. She has a ton of hair, very clean fronted and an amazing amount of rib shape. Look closely at her dam; if she turns out like her mom you will hit a home run! Sired by Integrity, a new sire for us, opens many opportunities on what to breed her to.

Our feature cow! I love this female from head to toe. She has a great look to her, is deep bodied, always in good shape and can raise a great calf. Just look at what she has beside her! This female is really hard to fault. The Rage females at HBH are for sure some of the best there are. I have had many comments from different breeders saying Rage may be the best bull HBH has ever had. Mark this cow down, she will be one to watch!!!

A very nice, moderate made Rage daughter with a nice udder, good feet and lots of rib! One I have marked high, I think this female has a lot of potential! She raised a bull last year that sold to Marvin Thiessen.

A moderate made daughter of Admire that we purchased from the Johnsons and he has impressed us with his calving ease and consistency. We have a lot of the bred heifers either bred to him or exposed after AI to him in this sale. A heifer that should turn out to be a good honest cow.

Here is a typical Kozi female. Moderate made, thick bodied with an abundance of middle. Any time we put a Kozi female in a sale comments could always be the same. Pretty good job for a heifer's first calf, I think this pair could get overlooked a little. It always is the hardest time to look at a young cow after raising a good calf and usually turns out to be some of the best buying opportunities in a sale!

Another Kozi female that is one of my favourites! She has the style and shape that I admire in the Angus breed. Good hair, tons of body and eye appeal, will make you fall in love with this heifer. If we were on the show road this fall this girl would have definitely had a halter on her head!!!!

Terms & Conditions

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING:

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by their breed association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HBH Angus Farms uses Canadian Angus
Performance Program whole herd reporting.**

**Northern Light Simmentals uses
Total Herd Enrollment (THE).**

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY:

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supercede any written material in the catalogue.
