18th Annual

ONTARIO AUTUMN SIMMENTAL CLASSIC

1:00 pm - Saturday, September 12, 2020 - MapleHill Auctions - Hanover, Ontario

Welcome to the Ontario Autumn Simmental Classic Sale

Welcome to the Annual Ontario Autumn Simmental Classic Sale. These days it sure is nice to own a farm and be able to work with good Simmental cattle. This year is no exception, we have some really good breeding Simmental cattle to offer you, from some of the best consignors in our area.

We have a tremendous bunch of bred heifers, cows, open heifer calves with a couple of good bull calves. Fullbloods, Fullflecks, Red, Blacks we got 'em. Look over the catalogue, bid and buy the cattle you like. Thank you for participating in this year's sale. Thanks to the consignors for putting in these good lots.

Thank you to Chris, Shane and Ben and all the other T Bar C staff, Laurie and Denyel and all the staff at MapleHill Auctions.

For more information on this good set of cattle, feel free to call any of the sale staff or myself.

Thanking you all in advance!

- Carl M. Wright

Car-Laur Ms Girlfriend 850G is a direct daughter of our high producing Barbarella 845Y cow. We have sold a lot of high sellers out of this cow here at the Autumn Classic Sale, with more daughters in the sale here today. Barbarella is one of the nicest uddered Full Fleck cows I have ever seen. Good footed, perfect frame size and she always has a heifer calf. 850G comes to you perfectly marked, stamped just like Barbarella, she also will make a tremendous brood cow. Serviced to Polled Double Bar D Hombre 59G, will make another exciting calf to look forward to in the new year. 850G is a powerful made female. She is deep bodied, thick with lots of rear quarter to her. Another highly pedigreed female out of Thunder and Barbarella. Nice!

Bred to Double Bar D Hombre 59G on May 17, 2020.

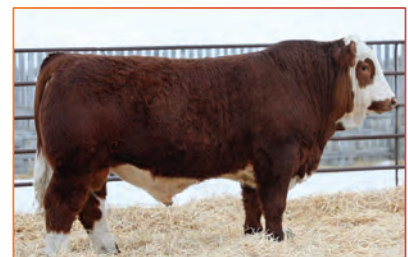

Consigned by Car-Laur Simmentals

Maternal sistersold to Leahy Livestock for \$13,500

Maternal Sister selling as Lot 4

Service Sire - Double Bar D Hombre 59G

MISS ELLA Lot 2

This stunning, young, attractive female is bound to carry on the Barbarella cow family's good fashion. She has three other maternal sisters selling in the offering for an example of what to expect and also look at her big, stout, Polled bred heifer also on offer. Her 2020 bull calf will be for purchase come spring 2021 and also, her mating to Guerrero is something we think will really click. This Yukon daughter is dreamy uddered, great footed and sound in a striking presence. Young in age and bred for profit, we are really excited about her long future ahead

Bred to FGAF Guerrero 810Y on April 1, 2020.

Consigned by Otter Creek Farm

FGAF Guerrero 810Y - Service Sire

800G Lot 3

This big, proud, Polled heifer gives you the exact example of what we strive for on the second and third generation of the Barbarellas. Her beautiful mother leads the charge with a picture perfect udder that you can also expect from this big girl. Study the many decedents in the sale that trace back to the core of the Barbarella family and you'll be reassured on the future of these cattle. Again, mated to Guerrero, who has become a calving ease specialist and also Polled!

The Barbarellas just don't miss. This attractive, well marked donor type candidate has all the credentials the Fullblood world is searching for. Her sire has shown his maternal strength with many paternal sisters with beautiful udders and the ultimate look of what cattle should be designed liked. But her most notable attribute is her famed mother. With three other maternal sisters selling in this very sale, you are able to witness the strength of this cow by seeing her offspring at every level. Calm natured cattle that are proven and predictable. Her fellow maternal sisters have sold for an average of \$15,000 plus per head and this beautiful cow is right in the prime of her life. Mated to Guerrero, will insure colour, looks and Polled! Her 2020 bull calf at side will be available come spring as he appears to have a promising future!

Bred to FGAF Guerrero 810Y on May 13,2020.

Big, deep bodied, quiet, tremendous type heifer. She came out of the Autumn Classic last year, I bred her, got her ready and brought her back. She is right. Homozygous tested pending.

Bred to Double Bar D Hombre 59G on April 9, 2020.

Consigned by Car-Laur Simmentals

FEBE Lot 9

GISELLE Lot 10

You saw her at the 2019 Royal alongside her full sister, a bred yearling. Her dam was shown at the 2017 Royal and would have been shown this year with her exceptional Polled bull calf at side. 27G carries all the genetic strength of this foundation female family.

She is red, goggled and shows femininity with excellent confirmation, feet and legs, spring of rib, body length and depth. She is loose hidid indicating ease of feeding. Her disposition is second to none.

Bred to the \$26,000 Homozygous Polled Full Blood bull, Sunny Valley Freedom 22F, purchased by Ultra Livestock of Alberta, her calf will have strong and unique genetics. His dam is regarded as one of the foundation cows in the Sunny Valley herd in Hanley, Saskatchewan. In my opinion, after breeding Full Blood Simmentals for 50 years, 27G can definitely be regarded as the start of a new genetic foundation female in anyone's herd.

Kern Simmentals thanks Carl Wright and T Bar C for inviting us to consign.

Bred to Sunny Valley Freedom 22F on May 13, 2020. Preg tested safe to Sunny Valley Freedom 22F on July 7, 2020 by Dr. Everett Hall.

Consigned by Kern Simmentals

This cow has always been a good producer of top-notch calves that aren't hard to sell. She has double goggles and very attractive. She's also a short gestation, heavy milker that's deep ribbed, docile and has a lot of presence. This well-rounded cow would make a great addition to any herd!

Bred to LRX HP Rocket 23Y on May 20, 2020.

Greta has got an interesting pedigree with Sanmar Polled Pharao. She has impressed me on how quick she caught the rest of the heifers for being younger. We bought her mom from Dwayann Simmentals and she did an amazing job on this heifer but unfortunately, she didn't come Polled. She's a moderate framed, long bodied female with good feet and she has a good udder and milks well. She's not going to be a big cow but should make some nice females you will want to keep. Bred to Sedan as well for calving ease and possibly a Polled calf.

Exposed to JNR Sedan from March 15 to July 1, 2020. Vet checked safe to around the end of January or early February calving.

Consigned by Dobbie Simmentals

Miss Primo, she's a looker, dark cherry red with big goggles, lots of natural thickness and a standout. Bee Primo was a high selling bull in his year. Ben pushed hard to get this heifer for the sale and she was my second best out of 16 heifers in the pen, but we held onto our Barbosa daughter. We purchased her mom from Eagle Ridge in Alberta and she did a wonderful job on her. She has great feet and a good udder with a good temperament and will be a good animal to build around. Bred to JNR Sedan and could give you a Polled calf that could be dark red just like her; should come easy and wean well. Wherever she ends up, she will be a nice front pasture heifer.

Exposed to JNR Sedan from March 15 to July 1, 2020. Vet checked safe to around January 6, 2021. Vet thinks it's a heifer she's carrying.

Goldie's dam is no stranger and she has put a heifer or a calf in the last two sales. She's a yellow FGAF Esposito daughter with lots of power and natural thickness. She turned out Polled and her calf should come out the same way off JNR Sedan. The color will hopefully be dark red. She will be a heifer that will wean some big calves. With French Attack in the pedigree, there's lots of potential for her to be your top cow.

Exposed to JNR Sedan from March 15 to July 1, 2020. Vet checked safe to around January 6, 2021 calving.
Consigned by Dobbie Simmentals

Welcome once again to the sale. We would like to thank everyone from the past who has showed interest in our program. We are once again very pleased to be here with T Bar C and the Wright family. The cattle on display are our very best, they have risen to the top of our replacement pen and are here for your appraisal. The bred heifers were pregnancy checked mid June by Paisley Vet Services and are safe to their early AI service, with no exposure. These cattle are quiet, halter broke and are on an annual herd health program. With the challenges of the 2020 COVID pandemic you will find videos on Cattlevids.ca, if you have any further question please don't hesitate to call us or T Bar C.

Thank you

Jeff

Herd bull. The maternal power in this calf is strong. His seven-year-old dam is a strong cow that never misses. Still as athletic and tidy uddered as a yearling, 301A gets the job done every time. Sired by a bull from one of the top programs anywhere in the land, MRL Western Force, stamps them long and cherry red. This young bull will impress you with his big foot and bone structure. He is thick and deep from front to back. His performance so far has been very exciting to watch. Coupled with aggressive testicular development he will go on to perform and improve any beef herd out there. He is a good mix of calving ease with performance, the type that we try to produce. If your looking to produce replacement females or steer calves that the order buyers fight over, this bull will do both.

JHM 200H - Picture day weight - 852 lbs.

Consigned by MacCrostie Livestock

Choice of Lots 31 or 32

Coming from one of the most illustrious cow families in the country, JHM 65D's track record is flawless so far. Producing three great heifer calves. 92G being her second by TKCC Carver. This yearling's eye-popping phenotype will grab your attention from across any pasture. Standing on an extremely tidy foot and bone structure, she possesses ample muscle expression with a ton of middle. Just like her mother, the kind that will excel on forage alone. 65D upped the anti this year with a heifer by Mader The National. This bull leaves performance that speaks for itself. This young open heifer is one of our best yet: thick, deep, fancy and should have a leather halter on her head. The potential in this prospect is endless, if retained she will become our first donor. It would hurt too much to give up both of these females so we are giving you the choice and we will take the other home.

JHM 92G - Picture day weight - 1245 lbs.

MISS 93G Lot 34

Everyone in the industry will know Mader the National. Mothered by one of my favorite cows, LFE 641A. This bull is leaving females like her, soggy and deep. 93G is no exception to this. She is a tank, lots of bone and foot and as deep as they come. I do believe she will have an udder much like her paternal granddam, flawless. Coming to you from a no miss young cow that is a long, powerful milking Absolute daughter who has a full sister to 93G this year at side. Bred along early to the 2019 Royal Junior Champion Bull, a very exciting herd sire from one of the country's pioneer Simmental breeders, Maple Key.

Picture day weight - 1240 lbs.

AI bred to Maple Key Black Powder on April 7, 2020.

Consigned by MacCrostie Livestock

JHM Miss 93G as a calf

Hot topic is just that, one that visitors come back to every time. She's deep bodied, bold ribbed, docile and as stout as they come. Her three-year old mother came to us in dam from Lewis' and both cows have consistently produced year after year. 1H is moderate, has an incredible hair coat and comes with a really neat face pattern. These Loaded Ups are no slouch in the ring and with her maternal background will get it done in the pasture.

A true breeding piece offered here. Probably the very first chance to acquire progeny by the \$77,500 RF Capacity in Ontario. 47H is out of a really good uddered three-year old Spark plug cow from Springcreek Simmentals in Saskatchewan. Head Over Heals is incredibly long bodied and comes on a bigger frame. 47H is shaping up to have an incredible udder like her mother and is always the first one to greet you on pasture. An intriguing pedigree with great numbers.

This is the first embryo calf out of RHF Heathers Vision 701E and WINC Live Ammo 420B we have to offer and she screams power!

Brooksland Heather 701H's dam was one of the top selling females of this sale in 2018. She has done phenomenal things for our program and here's the proof. We believe this heifer is going to be a spitting image of her mom. Her sire, WINC Live Ammo 420B, needs no introduction and has produced many top end heifers. Brooksland Heather 701H has the pedigree, style and power, don't miss this chance to improve your herd with this flashy heifer

More chrome!! Check out this blaze face WINC Live Ammo 420B heifer. She's flashy, stylish and just an overall sweetheart. Her dam, Maywood BLK Heather 29X is easily one of our favourites, she's a big power house type of cow and this heifer is following in her momma's footsteps. We are loving these Live Ammo calves and you can see why! Brooksland Heidi 29H would make a great addition to any herd!

This black heifer calf sired by the Wheatland Bull 786T and out of a Bodybuilder cow will make an easy keeping female down the road. Lots of middle thickness to her. Breed her next year how you want. The Maple Lake cow calved her, of course, unassisted.

Here is a great opportunity on a bred heifer that is easy to get excited about! This heifer excels in terms of performance, pedigree, phenotype and structural soundness. She has pure cow power and a long list of industry defining females in her pedigree. This makes it easy to be confident that she will be a powerful and productive female moving forward.

Alton Red Pepsi Rocket 2055G has an impeccable structure that is clean jointed. She tracks extremely well, while being effortlessly agile on the move. She has a ton of mass and capacity that blends into a beautifully feminine front one third. She is confirmed bred to the 2016 Supreme Farm Fair International Champion, Red Summit. This sire has lower birth weights and a shorter gestation all while producing highly productive and sought after progeny. This female is a complete package for any herd.

Bred to Harvie Red Summit 54B on April 4, 2020. Due January 11, 2021.

Consigned by Alton Century Farms Ltd.

PEPSI ROCKET Lot 40

HIROSHIMA Lot 41A

We decided when we put his dam in the sale, we wanted to show what she can do. This black bull has a good-looking front end and an overall, very fancy body but to make him even more appealing, this animal was the only bull calf that came from RF Capacity in all of Ontario this year. Bringing genetics from both IRCC and Rancier Farms really seemed to work here! Look to improve functionality, style and udder quality in his offspring.

Everybody likes the "money-stripe"! This easy keeping animal still has plenty of potential left in her. Due to our small herd size we had no choice but to pick an impressive one to sell. Lots of hip and still with a great udder, she will be a great ROI.

AI bred to RF Merchant 481B on April 14, 2020.

Consigned by Locust Hill Farms

We purchased a package of embryos from Rainbow River Farms and were very fortunate to get two heifer calves and one bull calf from it. Their dam was a \$23,000 high seller in the 2017 Simmsational Sale and their sire brings a lot of power and has made a pile of good footed, well uddered females. This red beauty is going to hurt seeing leave, as we have been trying to balance our red and black females and was in love with her from day one. She is halter broke and ready to compete in the 2021 show season!

This is an exceptional female out of a half blood female we purchased as our pick of the red factor heifer calves at the Bar 5 Dispersal in Markdale. 90G has a ton of maternal character like her moderate mother that produces pound for pound with any cow in our herd. We like the Red Rocket cattle and believe the easy calving of the Epic bull will get 90G started on a bright future.

AI bred to WS Epic 152E on April 23, 2020. Exposed to TNT R77's Legacy Z330 from May 1 to July 15, 2020. Safe 3 ½ months on July 29, 2020 (due: February 2, 2021).

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. The Ontario Autumn Simmental Classic Group reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase the seller reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID: Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

ANNOUNCEMENTS: From the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

HEALTH: It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

CERTIFICATE OF REGISTRY: A registration/recording certificate issued by the Canadian Simmental Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING: Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE: As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assume any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

Consignors
