

A man in a blue jacket and cap is shown in profile, looking out over a field of cattle. The background is a soft, hazy landscape with a line of trees in the distance. The cattle are scattered across the field, some standing and some grazing.

# Welcome

As I sit here at the kitchen table in mid October and write this welcome to our Charolais herd dispersal, it is raining. That is something we haven't been able to say much the last couple of years.

I also realize just how much of this business happens at kitchen tables.

I still remember that evening almost 50 years ago when our family sat down for supper and my Dad started talking about Charolais heifers. It was all so new in the early 70's. Later that fall, 4 "E" heifers arrived from Doug Carlson at Emo, Ontario. Doug had a connection with Manitoba breeders and as they say, "the rest is history".

In 1980, I was working for Rob Matthews at Highland Stock Farms and one day, a few breeders were standing around talking about someone who had been "around the alphabet". I know what that means now.

Well after being through the alphabet a couple of times and a little more, we have made our decision to sell our Charolais cow herd. We will continue to have commercial cattle. Our plan is to travel and spend a little more time with our family: Matt, Blanca and granddaughter Anna in Elmira, Ontario and Jay and Blanca in Madrid, Spain. Our friends and family have been a great help with putting this event together.

The cattle we are offering for sale are the very same cattle that we would have continued on with into another management year. Every animal being offered for sale was born here. They are all individuals, but it is very important that when you put them together, they make a herd.

We encourage your interest and welcome you to our kitchen table and would be more than happy to give you a tour.

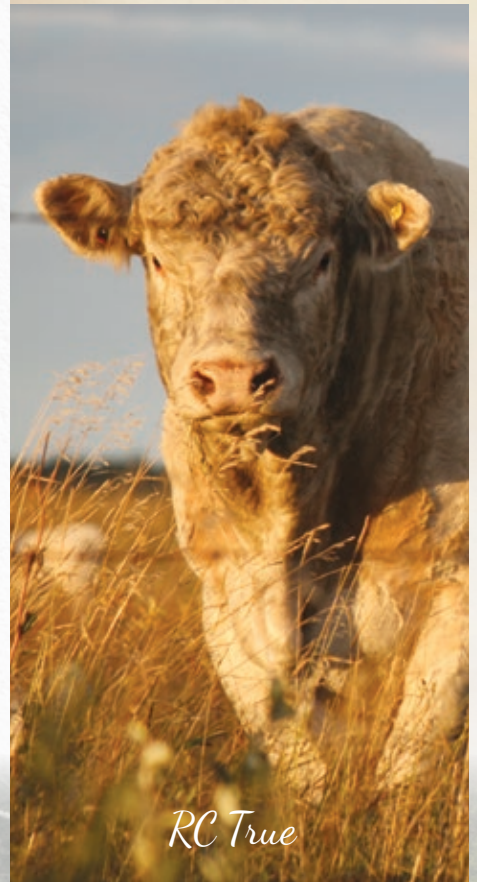

It is our hope that these cattle will start some new herds and help complement others.

Best of luck with the letter "K".

## From the Desk at T Bar C

Welcome to the Neilson Cattle Company Complete Charolais Dispersal, December 1, 2021, at Johnstone Auction Mart, Moose Jaw, Saskatchewan. This is Canada's largest one-iron Charolais dispersal with every animal in the sale having a NCC prefix. Mike and Joanne Neilson have been breeding and raising Charolais seedstock for over three decades, but Father Time and labor shortage has helped these folks make the decision to slow down.

The Neilson's run a two-year-old bull program. They calve on grass in the spring months and after weaning the bulls are run in a big pasture and supplemented in the fall to ready them for the spring bull sale. The only females sold are culls and sold through a market. This ranch raised herd is built on cow families, many cow families that add their exceptional traits into the program.

Neilson Cattle Company is a supplier to some of the biggest breeding pastures in Saskatchewan year after year. Their loyal repeat customer base tells us that the performance and soundness bred into the cow herd is a selling feature and that the bulls... work! In this event the yearling bulls that would normally sell next spring will sell along with the current year bull calves. This will give you an opportunity to get your 2022 bull shopping done in December and save a few tax dollars.

Although we will miss Mike and Joanne, their dispersal offers the opportunity to take advantage of thirty-some years of breeding and selection. The bred yearling heifers will be a feature in addition to the many cow families to choose from. This is a very large sale, with selections for all types of programs and all types of budgets.

We all know the economic value of using Charolais bulls as they add dollars in your pocket whether it be your stocker or salvage values. The problem over the past decade has been a shortage of Charolais seedstock. It is only sales of this nature that you can add more predictable genetics into your program whether you are an established breeder or just starting out.

Feel free to stop by the ranch one kilometer south of Willowbrook on highway #47 and see the cattle in their natural surroundings or give the Neilson's a call to discuss the livestock, you will get a true assessment of the herd.

Plan to be with us in person, online or on the phone for "The Neilson Charolais Dispersal". During these times, feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

## The Cows...

Our cows calve on pasture. We have been calving about 250 cows, half being purebred and half commercial.

We expect the cows to calve unassisted and we want the calves to suck on their own. These cows also must have acceptable temperament to be handled in an open pasture. Newborns are tagged and weighed using a quad and calf cage.

Having a strong cow herd takes a lifetime of work. We are proud of our cows and have been improving them with in herd replacements and careful selection of sires. Our cow breeding program avoids matching extreme epd's. When we do our turnout, we are confident that the cows will pair with any of our walking bulls.

Building a cow herd is rewarding. This herd is honest and hardworking. We expect that each cow will work well with the Charolais herd bulls being used by breeders today.

## The Heifers...

The 2019 calf crop leaned heavily to heifers and now we have a bigger than average, but an excellent pen of bred heifers on offer.

As breeders, our philosophy on cattle type is similar to Rambur Charolais breeder Howard Rambur's—"middle of the road" belief.

When we lived on the northern border of Minnesota in Rainy River District of Ontario, most of our bulls sold into North Dakota and northern Minnesota. This was from the late 80's until early 2000's.

Sometime in the early 90's, Joanne and I arrived at Rambur Charolais in Sidney, Montana the day before their bull sale. Howard explained about how important uniformity is in cattle marketing. He would know with a purebred herd, commercial cattle and a feedlot right on site.

Until this day, we still use Howard's rule and only select the middle of the road heifers from the pen. We take the big ones, the little ones and some of the others out that don't fit. We also check udder type on the yearlings before they go to the breeding pasture.

After our tour that warm April day, with the dandelions blooming and the robins hopping around, we went to the house for supper. When we were nearly done a big spaghetti supper, one of Howard's young daughters said, "I know you are going to buy a bull because you ate spaghetti here!" Well, we have bought several excellent Rambur bulls over the years and you will see the influence of the RC prefix in our pedigrees

# The Pipes Family

- Ranks in the top 25% of the breed for milk, total maternal and marbling

- Two maternal sisters sell – NCC Liz 31F as lot 134 and NCC Liz 73H as lot 135

## The Bulls...

The long yearling bulls are offered for sale at the time of our dispersal. We will not be having a spring 2022 bull sale.

These bulls have been on summer pasture and are brought into large pens in late October. Bulls will be eased onto their winter ration prior to the dispersal and they can easily fit into the wintering program of their new owners. Long yearling bulls will be semen tested.

The 2021 spring bull calves will be offered for sale. On the bull calves, the new owner can arrange a wintering program by talking to Mike. Please see details inside back cover of catalogue.

# Terms & Conditions

## **Terms:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## **Bidding:**

Each animal will sell to the highest bidder... no by-bidding will be permitted.

## **Disputes:**

Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

## **Announcements:**

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## **Breeder's Guarantee:**

As this is a dispersal sale, all cattle sell with no further guarantee. Any known defects will be announced before the cattle are sold.

## **Certificate of Registration:**

Each animal will carry papers issued by the Canadian Charolais Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## **Health:**

All animals in the sale have met all necessary health requirements, cow herd is on a full herd health program.

## **Insurance:**

Will be available sale day. We strongly recommend that insurance is purchased for full value.

## **Liabilities:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. T Bar C Cattle Co. (2013) Ltd. does not assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## **Rights & Obligations:**

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

## **Phone, Wire, Mail Bids:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## **Pedigree Estimates:**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## **Delivery:**

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

## **Errors:**

All announcements at sale time, written or oral, supersede any written material in the catalogue.

# Bull Terms & Wintering

**Long Yearling Bulls:** The buyer of the long yearling bulls will take possession immediately following the sale. These bulls will be semen tested before the sale. Insurance will be available sale day.

**2021 Bull Calves:** A wintering program is available.

- **Terms:** 50% of purchase price due sale day with a post-dated cheque for the balance dated May 15, 2022.
- All 2021 bull calves that are wintered will be semen tested prior to pickup and guaranteed to pass the semen test.
- A wintering fee of \$1000 per bull, which includes the semen test, is payable at the time of the sale.
- 2021 bull calves taken at the time of the sale will sell with no further guarantee.
- All wintered bulls must be insured for injury and mortality. Full insurance will be available sale day.
- All wintered bulls must be picked up by June 1, 2022.

# Herd Health

- Cows are vaccinated each spring pre-breeding with Covexin Plus, Express FP5-VL5 and for Anthrax.
- Calves are vaccinated in the spring with Fermicon7/Somnugen, Pyramid FP5 plus PresponseSQ and are boosted at weaning.
- Bred heifers and long yearling bulls are vaccinated as yearlings for Anthrax and boosted with Covexin Plus, Pyramid FP5 plus PresponseSQ. Bulls are vaccinated with Fusogard.
- Ivermectin is applied in the fall.
