RANCH

Bull & Female Sale

Friday March 12, 2021 at the Ranch, Rumsey AB

RIGHNOND RANCH24th Annual Bull & Female Sale1:00 p.m. Friday March 12th@ The Ranch, Rumsey AB

Welcome Cattlemen! It is that time of year again to think about re-stocking your herd bull pen. It is with immense pride that we welcome you to our 24th Annual Bull & Female Sale. It could never be stated enough but we would like to thank our past buyers, bidders, neighbours, friends, and family once again for their continuous support in our program. The cattle business has been our passion and way of life for six generations now. Being a family run operation, we take considerable pride in our cattle and strive to raise the best for the industry. Here at Richmond Ranch, we believe in the strength of cow families and have emphasized on having the elite females retained into the herd. We have put a heavy focus on structure, soundness, udder quality, and maternal ability along with that deep broody look that every rancher desire's in their herd. You can be certain that behind this set of stout bulls is a very impressive, hardworking and productive set of females. Here at Richmond Ranch, we have always stood behind our cattle and backed our bullpen satisfaction fully guaranteed. We will continue with our Breeding Protection Plan that will help us to ensure your investment is protected and, furthermore, your cows are bred. This year we are immensely proud of our offering and feel even more privileged to be your herd bull source. We hope that you will mark your calendars and join us Sale Day where you will find over 116 lots on offer: Black Angus, Red Angus, & Limousin. Within the three breeds, there will be a variety of bulls with a selection of traits including calving ease, growth and performance that will add to your weaning weights in the fall. Feel confident in the purchase of a Richmond bull to leave great maternal features you will want to pass on to your replacement females. We make our living by selling bulls, so it is always such a compliment when year after year we have so many repeat customers. Understanding the importance of your investment in a herd bull, along with the expectations that come with that, we would like to assist you in any way that we can to make your selection easier. We want you to feel at ease after purchasing a bull from us because we will do everything to ensure your satisfaction from the time the hammer falls until you have calves on the ground. We believe that quality should not be just a goal, but a standard. Richmond Ranch; based on longevity, quality, and integrity. From all of us here at Richmond Ranch, we hope to see you all once again on sale day.

Sincerely, The Richmond Family

Longevity ~ Quality ~ Integrity RICHMOND RANCH Well to say that this has been an unusual, even, bizarre year would be an understatement. It is without fail though that days pass and life goes on. We can only hope for a remedy that allows us to reach balance and discover more and more familiarity once again. To some that day cannot come soon enough. If there is one thing we all know too well from being in the agricultural lifestyle, it is challenge: ranchers and farmers face adversities every day. It is as some would say, just part of the life. I could say 'job', but as any rancher and farmer know; this is not just a job to us. It is more than just our day to day; it is our livelihoods, our way of life. My great-grandfather used to say, "If you grab a cow by the tail, she'll pull you through anything." It is a saying I have grown to live by and today seems no different. One thing above all else remains true, ... people must eat. Ranchers and farmers are that resource; that entity that will forever provide a quality of product that cannot be matched. Beef!

To meet these new challenges, we are switching to a video sale. The bulls will still be penned and on display, that will not change. We have also decided that this year required a larger venue, and we are able to provide that in the new shop. To help accommodate this change we encourage you to come early and allow yourself more time to go through your selections. Let us know if we can be of any assistance.

Plan to attend the 24th Annual Richmond Ranch Bull & Female Sale, Friday, March 12th, 2021. Moving ahead, business as usual, we want nothing more than for you to feel welcomed like family. In addition, this year we want to ensure you can feel at ease and safe in your attendance. We are very aware of these uncertain times and are taking every precaution necessary to provide you a sanitary visit so you can feel complete safety at our event. Since the Alberta guidelines seem to change daily, we ask you to help us by letting us know if you plan to attend. This will allow us to gage our numbers and ensure we can provide everyone with the quality assistance and experience that our customers deserve.

Understanding the importance of your investment in a herd bull, along with the expectations that come with that, we would like to assist you in any way that we can to make your selection easier. In the event you cannot make it sale day, we have many capable folks who would be more than happy to assist you with your business. Please feel free to contact any member of the Richmond family or any of our sales staff. Every effort will be made to get you the right bull or bulls, at the right price, to make you a repeat customer. Can't come sale day but still want to view the bulls? No problem! Give us a call and stop in anytime! The bulls can be set up and on display for your viewing convenience anytime prior to sale day.

More than anything, we would like to be able to accommodate everyone. This is an incredibly special day for us, and it is largely because of all of you. It is the highlight of our day when we see so many familiar faces and we can spend the day catching up with each of you. Due to Covid-19 it is with extreme disappointment that we realize this year may look different. As much as it pains us to know that we may not have our usual full barn surrounded by friends, family, and neighbors, we ask that if we are limited on our attendance numbers that we reserve that space for our wonderful customers. Unfortunately, this will not be a year for spectating. We ask you to have patience and know that when the time comes, we plan to celebrate with everyone once again! Hopefully, this summer you can look forward to us hosting an Appreciation Day where we can once more have everyone in attendance. Details to come soon!

Friday March 12th

1:00 pm Richmond Ranch Bull & Female Sale

Sale Location: The sale will be held at the Ranch, 5 miles East of Rumsey, AB. In the new shop south of the pens.

Directions from Stettler: go South on HWY 56 about 60kms. Turn West onto HWY 585, go 1 mile and the farm is on the South side of the road on RgRd 202.

Directions from Trochu: go East on HWY 585 about 40kms. The farm is on the South side of the HWY on RgRd 202.

Directions from Drumheller: go North on HWY 56 about 60kms. Turn West onto HWY 585, go 1 mile and the farm is on the South side of the road on RgRd 202.

Stop in for a visit and tour of the bull pen anytime!

March 5th – March 11th, 2021. 10am-4pm. Daily. To ensure everyone has an opportunity to tour through the bulls efficiently we have added open houses with coffee and hot meals available for the week prior to the sale. If you are looking for some more one-on-one time with us to help select your next herd bull, then be sure to take advantage of this week, March 5th – March 11th.

Delivery Options: We encourage you to discuss arrangements prior to the sale. Bulls will be delivered free of charge to central points in Western Canada (Alberta & Saskatchewan) at Richmond Ranches convenience and at owner's risk. For cattle going to Eastern Canada or the US, we will arrange trucking at minimal cost to the buyer. If this delivery time is not convenient for the buyer, the bull(s) or female(s) will be kept free of charge and the buyer can pick-up the bull(s) at their convenience. Richmond Ranch recommends that all bulls left on site are to be enrolled in the Breeding Protection Plan or Insured.

H.S. Knills Transport 877-442-3106

Jr. Incentive Program: Offering 10% off to any Junior member on the purchase of any purebred female.

All Roads Lead Home

Cattle Nutrition: At Richmond Ranch our goal is to develop the cattle for longevity and succeSS in any program. The bulls are fed a growing ration of corn and barley silage, chopped hay/straw, and a Bullseye supplement at 0.75%. This system allows us to grow the bulls to seek the performance while maintaining their natural muscle shape. Our goal is to not only have bulls looking good for sale day, but most importantly, looking great while working in your pasture during breeding.

Kelly Resier **Beef Consultant**

Tom McNeely **Ryley Noble Beef Advisor**

I have had the pleasure of working with Richmond Ranch for several years now and each year they strive to improve the quality of cattle on offer. Richmond Ranch has been very progressive in the thought and development of their on-farm forages. We have worked closely with their program and develop balanced diets that start with high-quality on-farm ingredients. The cow herd utilizes a customized mineral program that is balanced throughout the year which supports proper bull calf development

from a young age. The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms and then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a foraged based TMR to help them develop to their genetic potential. Organic minerals are used to ensure proper immune function and overall health. Richmond Ranch uses a total nutrition program on their entire

operation, ensuring optimal cattle performance. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

(5 More Than hist Feed

Vaccination Programs: All our livestock are on the Express Verified Program as well as given Ivomec for parasite control. The calves are vaccinated and bolstered with Pyramid FP5 and Presponse SQ and Fermicon 7/Somnugen. Breeding Females: In addition to the above, our females receive an annual shot of Express FP 5 VL5 prior to breeding. The bred heifers also get vaccinated and bolstered with Scour Bos.

Semen Testing: All bulls have been tested, measured and palpated through the Stettler Veterinary Clinic by Veterinarian Dr. Jackie Dobinson.

If you're reading this, you are likely considering this great offering of bulls and females and everything that they will bring to your herd. Quality herd sires offer the fastest way to impact genetic potential in your herd. From a veterinary perspective, we often encourage producers to know the health of the animal they are bringing in to ensure that it's going to be a good fit. Richmonds due dilligence is spot on. The vaccination and health program at Richmond Ranch is the gold standard of veterinary recommendations. From a reproduction standpoint, everything in this sale is reproductively sound with a veterinary breeding soundness examination and their own responsible breeder guarantee. Health is directly linked to production and production is directly linked to dollars. Years of experience here and sound practices make up the quality you'll see flipping through these pages. We are proud to work with Richmond Ranch and congratulate them on another great offering! Sincerely,

Jackie Dobinson, DVM Stettler Veterinary Clinic PH (403)742-3338

LIMOUSIN DIVISION

Offering Elite Limousin Genetics

Are you looking for calving ease? Check out our calving scores on each bull!

Calving Rating or CR: We have taken into consideration our knowledge on the cow families, calving histories, birth weight, and phenotypical shape as a baby calf to help you better select a herd bull based on your calving needs. These numbers are not calculated; they are an estimate based on how we ourselves would use the bull if we were breeding our own cows. *All Bulls are guaranteed to calve easy on cows*

3 = Could be safely used on heifers.

2 = May be used on heifers with a family history of calving ease. Could be used safely on all cows.

1 =Can be used safely on all cows.

Richmond Ranch Guarantee: We stand behind our cattle 100% Richmond Docility Rating or DOC: This docility rating has been established to help you determine the temperament and manageability of the bulls. We as breeders strive to hold our livestock to a high standard and that includes docility. In our program, we do not tolerate any problem animals and feel you should not either. No one knows these cattle better than us and throughout the calendar year these bulls have been sorted, processed, handled numerous times and are strictly culled to remove any behavioural problems. Below is an index defining the different categories we have decided upon. These are simply our ratings and cannot be compared to other breeders or numbering systems. Please feel free to contact us about any questions you may have.

AND A RALADAR OF THE LASS

1 = Pets - These cattle are exactly that; pets. They can be scratched in the pen and handled at all times.

 $2 = \text{Calm} - \text{These cattle are very quiet, easy to handle when isolated. They do not frighten when you are working them but you cannot get close enough in the pen to scratch them.$

3 = Average – These cattle are calm in the group, you can walk through them without disruption. When sorting these cattle, they are easy to stop and hold but can get uneasy and impatient when worked alone.

4 = Slightly Restless – these cattle are the ones at the back of the group in the pen; they do not disrupt the rest of the pen; they are manageable in a group but become agitated and nervous when isolated or worked alone.

5 = Nervous – these cattle are constantly moving away from you in the pen, can disrupt the group, and needs to be managed with a buddy. These cattle are hard to stop when sorting and become easily agitated if alone.

6 = Heads Up – these cattle have a big flight zone, they will be the first to run away, should be handled with a buddy, cannot be stopped or isolated. When sorting in an alley, these cattle will run past sideways or snort at you. These cattle can become aggressive when agitated. These cattle are most commonly culled from our herd. 7 = Hunters – these cattle cannot be trusted at all, even in a group they will become aggressive and cannot be handled. These animals are culled immediately.

Richmond Ranch reserves the right to collect in-herd use semen on any bull in the sale. At the expense of Richmond Ranch and the buyers convenience.

Breeding Protection Plan

Last year, Richmond Ranch took our first step towards starting a comprehensive personalized Breeding Protection Plan for our bulls. It was very well received and we were able to help out some of our valued customers. We plan to continue this year in offering the Breeding Protection Plan in 2021. Our goal, as we are honored to be your herd bull source, is to help ensure your cows get bred and protect your investment. We know that no matter how many precautions we take, bulls will be bulls, and injury or death is always a possibility. The best Breeding Protection Plan you can buy is a backup bull, that you selected, that stands ready in your yard. We understand this is not an option for everyone.

With an additional 10% on the purchase price of your new bull: The Breeding Protection Plan will give you 1 year protection against injury or death with either a replacement bull, a credit for a future bull sale, or a combination of the two.

If you should have any problem with a bull – Make Richmond Ranch your first call. Jim or Stephanie at 403-323-8433 or 403-368-2103. We will do our best to resolve the issue with honesty and

integrity to keep you a satisfied repeat customer. Under our Breeding Protection Plan, your bull is protected from injury, sickness, accident, structural breakdown, or death. The Breeding Protection Plan will not protect from any injury or death due to malicious, willful intentional acts of mistreatment.

Richmond Ranch retains the right to request photos.

min

Richmond Ranch retains the right to request a vet report or Postmortem.

Please feel free to give us a call anytime to discuss this Breeding Protection Plan.

Richmond Ranch Guarantee: We stand behind our cattle 100% Richmond Docility Rating or DOC: This docility rating has been established to help you determine the temperament and manageability of the bulls. We as breeders strive to hold our livestock to a high standard and that includes docility. In our program, we do not tolerate any problem animals and feel you should not either. No one knows these cattle better than us and throughout the calendar year these bulls have been sorted, processed, handled numerous times and are strictly culled to remove any behavioural problems. Below is an index defining the different categories we have decided upon. These are simply our ratings and cannot be compared to other breeders or numbering systems. Please feel free to contact us about any questions you may have.

1 516

1 = Pets - These cattle are exactly that; pets. They can be scratched in the pen and handled at all times.

 $2 = \text{Calm} - \text{These cattle are very quiet, easy to handle when isolated. They do not frighten when you are working them but you cannot get close enough in the pen to scratch them.$

3 = Average – These cattle are calm in the group, you can walk through them without disruption. When sorting these cattle, they are easy to stop and hold but can get uneasy and impatient when worked alone.

4 = Slightly Restless – these cattle are the ones at the back of the group in the pen; they do not disrupt the rest of the pen; they are manageable in a group but become agitated and nervous when isolated or worked alone.

5 = Nervous – these cattle are constantly moving away from you in the pen, can disrupt the group, and needs to be managed with a buddy. These cattle are hard to stop when sorting and become easily agitated if alone.

6 = Heads Up – these cattle have a big flight zone, they will be the first to run away, should be handled with a buddy, cannot be stopped or isolated. When sorting in an alley, these cattle will run past sideways or snort at you. These cattle can become aggressive when agitated. These cattle are most commonly culled from our herd. 7 = Hunters – these cattle cannot be trusted at all, even in a group they will become aggressive and cannot be handled. These animals are culled immediately.

Calific al Weight and

ANGUS DIVISION Offering Elite Black Angus & Red Angus Genetics

Are you looking for calving ease? Check out our calving scores on each bull!

Calving Rating or CR: We have taken into consideration our knowledge on the cow families, calving histories, birth weight, and phenotypical shape as a baby calf to help you better select a herd bull based on your calving needs. These numbers are not calculated; they are an estimate based on how we ourselves would use the bull if we were breeding our own cows. *All Bulls are guaranteed to calve easy on cows* 3 = Could be safely used on heifers.

2 = May be used on heifers with a family history of calving ease. Could be used safely on all cows.

1 =Can be used safely on all cows.

Breeding Protection Plan

Last year, Richmond Ranch took our first step towards starting a comprehensive personalized Breeding Protection Plan for our bulls. It was very well received and we were able to help out some of our valued customers. We plan to continue this year in offering the Breeding Protection Plan in 2021. Our goal, as we are honored to be your herd bull source, is to help ensure your cows get bred and protect your investment. We know that no matter how many precautions we take, bulls will be bulls, and injury or death is always a possibility. The best Breeding Protection Plan you can buy is a backup bull, that you selected, that stands ready in your yard. We understand this is not an option for everyone. With an additional 10% on the purchase price of your new bull: The Breeding Protection Plan will give you 1 year protection against injury or death with either a replacement bull, a credit for a future bull sale, or a combination of the two.

If you should have any problem with a bull – Make Richmond Ranch your first call Jim or Stephanie at 403-323-8433 or 403-368-2103. We will do our best to resolve the issue with honesty and integrity to keep you a satisfied repeat customer. Under our Breeding Protection Plan, your bull is protected from injury, sickness, accident, structural breakdown, or death. The Breeding Protection Plan will not protect from any injury or death due to malicious, willful intentional acts of mistreatment. Richmond Ranch retains the right to request photos. Richmond Ranch retains the right to request a vet report or Postmortem. Please feel free to give us a call anytime to discuss this Breeding Protection Plan.

This April/May calving herd is made up of true do-it-themselves Ranch Cows that calve on grass; calving ease and mothering ability are essential. With strict attention to consistency, fertility, longevity, calving ease, udders, feet and legs, we have reached a point where the herd quality has come together on all ends. We have developed a fabulous set of working ranch cows. These bred heifers were chosen out of our replacement pen and we feel they are just that! These heifers have been exposed to the same bulls that we used on our heifers. Due to calve this spring, we are very confident in the calving ease of our bulls and have high hopes for these females.

Red Richmond Cowboy SRD 122G

The following Red Angus heifers were pasture exposed July 5th to August 19th to Red Richmond Cowboy SRD 122G. Due to start calving April 13th 2020. These heifers were preg checked by a certified veterinarian.

We encourage you to call and visit about our heifers or stop in and tour through them. We would be happy to answer any questions you may have.

Ever since we delivered the first bull out to the pasture years ago, we have been impressed with the quality in the cow herd, attention to detail and high expectations that they put on selecting their herd bulls. Running a one-iron angus cow herd, this is a program that doesn't leave anything out. We have always taken note of the incredible run of steers they sell in the fall at the Stettler Auction Mart. It was no surprise to us when we went to tour and select the heifers for our sale that we would find the quality of females that we were hoping for. We are very honoured to have this set of Angus heifers at our bull sale. Do not miss this opportunity to add these replacement heifers into your herd. We have seen the cows behind these females and you will not be disappointed with the future these heifers hold.

TERMS & CONDITIONS

Guarantee: Every lot is sold fully guaranteed. Every bull will be semen tested. We produce a quality product; therefore, we stand behind that product 100%. All bulls will sell under the normal breeder guarantee recommended by the Canadian Limousin Association and the Canadian Angus Association – printed on the back of your receipt. Richmond Ranch is never responsible for more than the value of the sale price of the bull(s) or female(s).

Terms of the Sale: Cash or cheque at par, payable to Richmond Ranch LTD at the clerks' desk Sale Day. U.S. funds will be accepted at current rate of exchange. No release will be given until settlement has been made. Please talk to us prior to the sale to make further arrangements. Should any purchaser fail to settle for their purchase; Richmond Ranch reserves the right to resell the animal to their best advantage either publicly or privately, without further notice.

Disputes: In the case of any disputes, the Auctioneer will open the bid between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

Announcements: Any announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.Breeding Protection Plan: Ownership to the purchaser commences when the Auctioneer's hammer falls. Each animal becomes the risk of the purchaser as soon as sold. Livestock Breeding Protection Plan will be available by adding 10% to your invoice at the clerk's desk.

Accidents: Those who attend the Sale do so at their own risk. Neither Richmond Ranch, sales staff, or the auctioneer assumes any responsibility in the matter, and disclaims any legal or otherwise in the event of an injury, accident, or loss of or damage to property or person.

Delivery Options: We encourage you to discuss arrangements prior to the sale. Bulls will be delivered free of charge to central points in Western Canada (Alberta & Saskatchewan) at Richmond Ranch's convenience and at owner's risk. For cattle going to Eastern Canada or the US, we will arrange trucking at minimal cost to the buyer. If this delivery time is not convenient for the buyer, the bull(s) or female(s) will be kept free of charge and the buyer can pick-up the bull(s) at their convenience. Richmond Ranch recommends that all bulls left on site are to be enrolled in the Breeding Protection Plan or Insured. **Transfer of Paper:** The registration papers will be transferred to the new owner upon receiving payment in full.

Semen Collection: Richmond Ranch reserves the right to collect in-herd use semen on any bull in the sale. This will occur at the expense of Richmond Ranch and at the buyer's convenience.

Sight Unseen Purchase Plan: If you are unable to attend sale day, we would be more than happy to assist you in your sale selection. Please feel free to contact any member of the Richmond Family or any of the sales staff. Every effort will be made to get you the right bull or bulls, at the right price to make you a repeat customer.

By attending the Richmond Ranch Bull & Female Sale, you are granting permission for your picture to be used for promotional and advertising purposes related solely to the Richmond Ranch Bull & Female Sale.
