# WELCOME TO OUR SALE

The 2023 edition of our bull sale has a diverse set of bulls, "Bulls for any cowherd"

Leading off the sale is our only Frontier 174E calf. The Frontiers are noted for easy calving ability.

This is a calf that is hard to part with.

The 206E and 70H are powerhouse calves, adding performance and growth to their progeny. 70H was the high selling bull in our 2020 female sale going to Beck-Powell in Indiana

Brooks Farms are offering up to bull from their Agribition showstring. Always keeping the best for the sale.

Please feel free to drop in at either farm to have a look or give us a call to discuss your herdsire needs.

Sale is again online through DLMS if you can't make it sale day.

# FROM THE DESK AT TBAR...

Welcome to ANL Polled Herefords and Brooks Farms Annual Spring Bull Sale on Sunday March 19, 2023, at the farm, Steelman, Saskatchewan. The folks at ANL are no strangers to the industry as they have been supplying high standard seedstock throughout North America for generations. Brooks Farms is rapidly becoming one of the great up and coming young herds in the breed. Together they present an outstanding set of bulls for your selection.

In the last few months in this exciting market, do ability, rustling, docility, low maintenance and sustainability have been essential in the beef cattle industry... traits which cannot be documented but are essential to increase your bottom line. In addition, performance, hair and high maternal values are key to success whether you are a purebred breeder or a cow/calf producer.

The 2023 lineup is outstanding! High performance sires with hair, soundness, shape, and presence. The quality and uniformity of the offering is consistent throughout the group as they are genetically similar. The "Bottom Line" sire group offers performance, stoutness with optimal birth weights and high maternal values. "Start Me Up 71D" and his son "Start Me Up 201H" will be a feature group sale day headlined by the Reserve Champion Hereford bull of the Presidents Cup at the 2022 Canadian Western Agribition. Both ANL and Brooks Farms celebrated tremendous success at Canada's national exhibition. Throughout the offering you will find bulls for your heifer pastures especially the sire group of "Kreed."

Among this strong lineup, there are many breeder bull opportunities that one can explore. You can be certain that each bull carries high maternal values... you will want to keep all the daughters for replacements. As we restock North America's cow herd, Hereford influenced females will demand a premium and have high asset value.

Both operations are relatively close so one can preview both groups of bulls in a short trip any time prior to the sale. Feel free to give ANL or the Brooks boys a call to discuss their bulls and the bulls that will add value to your breeding program. Plan to spend a Sunday afternoon with us... it will be well worth the trip!

If we may be of assistance prior to, or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.
