#### Welcome to the LIRT Cinnual Bull Sale!

Welcome To The 2023 Edition Of Our Bonchuk Farms Annual Bull Sale!

We look forward to working with our great customers and meeting new ranchers that might be looking for herd Bulls. We have developed many long lasting friendships and truly treasure these relationships. All of us have a common goal and that is the production of high quality beef for the world. We are passionate about what we do and look forward to helping you to choose a herd sire that will make your program go into the direction you want.

We feel the calves that you raise these next two seasons might be highest value animals to ever sell. Herd numbers are down in North America making the market pay attention to where the beef will come from. Spend some time, do your homework to find the best possible herd sire that will make your bottom line match your expectations.

We know our cows and the sires we are using, they are capable of increasing your profits!

We have an exciting group of bulls for your evaluation. The yearlings are a very strong group and there is an exceptional group of 2 year olds. Herd bull selection is a major decision and producers should be as informed as possible. We welcome all calls and visits to help answer any questions you may have.

The bulls are always available for viewing at the farm anytime. They will be in Virden on Sunday before the sale. Give anyone of us a call if you have any questions or the T BAR C staff – Chris, Shane, or Ben. They have been through the bulls and will be happy to help. Mark Shologan and staff at DLMS will be live broadcasting our event. We will have all the lots on video by the capable crew of DLMS. We hope you will join us in Virden on Tuesday, March 7, 2023 to evaluate our offering and share in our Bonchuk style of hospitality.

Where the coffee is always on...
The beer is cold
And the perogies are homemade!

#### From the desk at TBar...

Welcome to Bonchuk Farms Annual Spring Bull Sale, Tuesday, March 7, 2023 at Heartland Livestock, Virden, Manitoba. The Bonchuk operation hosts one of the feature bull sales in Western Canada... they are getting good at it as this is their 23rd annual event. The Bonchuk's are high in community and family values and truly dedicated to agriculture over many years past. They believe quality product comes with quality customer service and from this principle come many repeat customers... since they know that quality comes with a Bonchuk bull.

It takes a lot of mother cows to produce and offer bulls each spring and bred heifers each fall while building and improving an already powerful cow herd base. The Bonchuk cow herd ranks amongst the finest in the industry... soundness, optimal frame, great udders, fertility, and longevity make the Bonchuk bred cattle predictable.

The 2023 lineup offers many avenues of opportunity. The Red and Black domestics are stout, complete with performance and muscle shape. Hair is important... we find that fact from November to April and every front row in sale barns throughout the country. The Fullbloods are a rugged bunch and will add more pounds at weaning... we wish there were more in the offering. The quality and uniformity runs deep and the diversity of genetics makes this event a bull buyers bonanza.

Feel free to stop by the ranch any time prior to the sale, preview the bulls and view the mothers and the sires. Don't hesitate to give Dave or Wayne a call to discuss the bulls and those suitable for your breeding intentions. Plan to be with us to get the "Bonchuk Brand" bulls for your program.

If we may be of assistance, prior to, or saled ay, feel free to contact any of the TB ar Team or myself, we will help you in a professional manner.

A very attractive, blaze faced calving ease prospect that has had his share of admirers. 44K has been a standout since he was born. Low birthweight with exceptional performance, and that attractive baldy face. The dam is a young female that will quickly make her way up the ranks of our program, as she comes from a long line of excellent producing females. 44K has an impeccable pedigree, phenotype and is a prospect that we are really excited about.

The 5015C herdsire is probably one of the most consistent herd bulls we have had the honor of using. He continually sires progeny that calve easy, get up and grow. 79K is an individual that portrays this. Low birthweight, great performance, eye appeal, hair coat, and comes from an amazing female that has brought them to town before. 156C has a great production record, and has always been consistent. No guess work here. Hetero Black.

A Sim-Angus bull that is just plain good, he displays incredible depth, capacity, eye appeal, hair coat and comes from an amazing cow family. 295K has super performance, his calves will weigh up, have some chrome, and the replacements should be incredible. 45G is a descendant of our Whoopie D92 cow family, that , that we have many daughters, grand daughters and great grand daughters of in herd. Lots of predictability here.

# NOTES

# TERMS & CONDITIONS

#### **TERMS**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### **CERTIFICATE OF REGISTRATION**

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

#### **PEDIGREE ESTIMATES**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

#### **HEALTH**

All animals in the sale have met all necessary health requirements.

#### **GUARANTEE**

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

#### **LIABILITIES**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

#### PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### **INSURANCE**

We strongly recommend that insurance is purchased for full value.

#### **ERRORS**

All announcements at sale time, written or oral, supersede any written material in the catalogue.

#### **DELIVERY**

Shipping assistance will be given in making shipment after sale but sale management or seller assumes no risk. Bonchuk Farms will assist in arranging trucking to central points across Canada. All costs associated with shipping will be the responsibility of the new owner. Each animal becomes the risk of the purchaser as soon as sold.

### **HERD HEALTH**

All bred cattle received Express 5 before breeding and Total Herd has been on the Express program for over 10 years, making the ranch BVD-free. Bred heifers also received black leg vaccine before breeding. All pregnant cattle have their first shot of Scour-Bos vaccine and treated with Ivomec.

Bonchuk Farms reserve the right to draw semen on any of the sale bulls for in herd use at the buyer's convenience.
