The newest addition,
Riley Ann Durie

On behalf of everyone at Duralta we would like to welcome you to the 18th addition of our bull sale.

Over the years we are really focusing on producing a consistent and functional product. The cow herd must produce offspring that will add value to the beef industry with the selection of sires we demand deep bodied, stout, rugged individuals. The birth weights on these bulls must be right. In both colours red or black the bulls must go out and work for the operations that purchase these bulls. We

pride ourselves on repeat customers and our customer satisfaction.

Feel confident when you take the time to come view these bulls and their mothers. The trip is worth the effort.

If there is any information you need on these bulls, please feel free to contact us, or the sales management team or view the bulls online. We are here to assist you in a professional and confidential manner with your herd bull selection.

Regards,

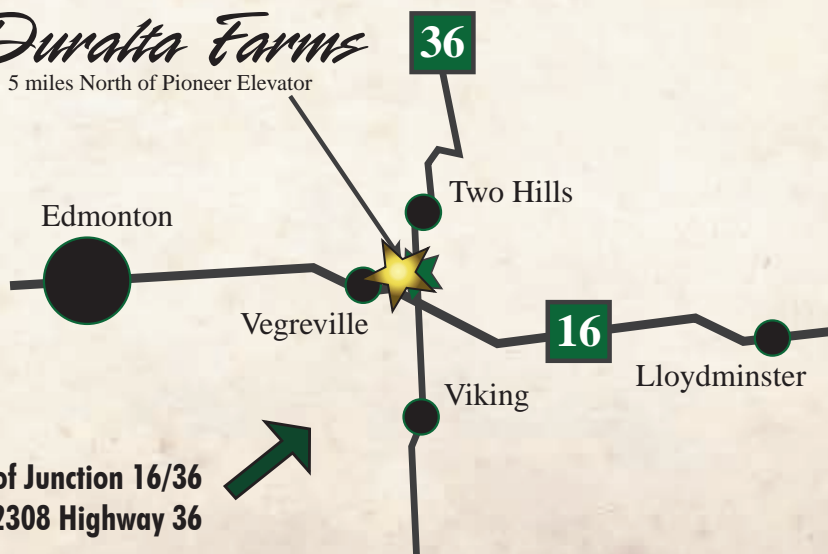

The Durie Family

*Join us for lunch
prior to the sale.*

From the Desk at T Bar...

Welcome to Duralta Farms Inc., Angus Bull sale on Friday, March 17, 2023, at the farm, Vegreville, Alberta. The 18th annual event for this multi-generational seedstock breeding operation. Through their tenure, Duralta has been the source of herd sires for many purebred livestock operations and multitudes of sires for the cow/calf producers... many repeat customers who return each year for the quality the program has to offer.

What a great group of bulls to select from... both Black and Red. As you go through this catalogue, check out the uniformity in birth weight and high weaning weights. Although credit is due to the boys who have assembled an outstanding sire lineup... a lineup which they add to each year. But the big credit goes to the cow herd they have established in the last several decades... a cow herd with calving ease and high milk production without sacrificing performance. It is only in a cow herd with predictability that one can find such uniformity at weaning!

The bulls on offer are powerful in all dimensions... be it performance, hair, testicle, soundness, and high maternal values... values that are very important because you will want to keep all their daughters. To the many repeat customers, it is great to see you each year at this time and to all the new customers, you are viewing one of the great seedstock operations in the nation. Feel free to stop by the farm any time prior to the sale, preview the bulls and have a peak at their mothers. They are conveniently located 5 miles north of the junction of the Yellowhead and highway 36. You can't miss that big barn on the hill. Do not hesitate to give any of the boys a call to discuss the bulls and those that will suit your breeding intentions... you can be sure to get a true and honest assessment. March 17th will be a good day to be in Vegreville... it will be well worth the trip!

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

Chris Poley

- Heifer Bull
- Traverse will be one of our leadoff heifer bulls. He runs in the big pen with a lot of the power bulls. Large scrotal, sound footed and has the power and muscle shape to run in that pen. With the ability to control birth weight and maintain calving ease he will be a highlight in the heifer bull division. A full sister sold last fall to Logan Dew out of the Ladies of the West Sale.

- Heifer Bull
- Here is a heifer bull that runs in the pen with all the big boys. A full brother was a high seller to the Huxley Colony last spring and Trinity X follows in his brother's footsteps. Take a look at his calving ease and maternal calving ease EPDs and you'll see why he will be a feature heifer bull.

**BW: 81 lbs.
WW: 880 lbs.**

- When we decided to start flushing females the thought process was to produce high-end genetics to add to our program plus sell their progeny to seed stock producers and commercial operations. The 173B cow has a little different twist in her pedigree being out of the Connely Complete bull that has worked so well for the Six Mile program. She is the mother to the Instagram bull working here and at Everblack Angus. These three sons out of 173B are very consistent in the makeup and will be predictable in their production. Take advantage of these genetics.

- Get in on the ground floor with this son of SSS Granite and our 78A donor cow. This cow's production record has made her a donor with sons like Target, Momentum, Bankroll and Express will follow in the footsteps of his brothers. Express is a dark red, black sound footed individual. His stoutness in skeletal structure, mass of muscle and his overall class of appearance will make him one of the highlights in this sale. Serious stockman pay attention to this bull. Here is a breed changer.

**BW: 92 lbs.
 WW: 860 lbs.**

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Insurance:

Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

Liabilities:

All persons attend the sale at their own risk. The sellers, facility owner, auctioneer and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either part to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Delivery:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Errors:

All announcements at sale time, written or oral, supercede any written material in the catalogue.
