Email: jackson.hbsf@gmail.com

Welcome

Thank you for taking the time to look through our catalog and considering High Bluff Stock Farm bulls and females for your herd. This is our 20th sale – wow time flies! Thanks to everyone who has supported our bull sale the last 20 years and helped us grow; we couldn't do what we love to do without our customers. A couple new things this year - In the cattle world we're known as High Bluff Stock Farm: this year our Simmental cattle now have the High Bluff prefix in front of their name instead of our tattoo letters. Also new this year we have a guest consigner, Paxhill Farm, Tyler Digby from Dropmore consigning Black Angus bulls. Please join us in welcoming Tyler!

On the bull side to meet the variety of our customers' needs we have easy calvers and performance bulls in both the Charolais and Simmental breeds, no matter the breed or style all have been selected for disposition and sound structure, no exceptions. If you are able to stop by we'd be pleased to take you through the bulls before the sale or give us a call anytime to talk about your herdsire needs. We love talking cattle and finding a bull that will be a good fit for your herd.

On the female side we're pleased to be offering females in our sale once again this year. These are honest, hard working females that could go into commercial or purebred herds alike, we'd be happy to help identify which females would match your needs.

We will be hosting our 20th sale in person, it will be a video sale broadcasted on DLMS. We would love to see you sale day but if you have rather enjoyed staying at home and watching the sale on-line while leaving a bid with one of us or our sales team, bidding from the comfort of your home on the phone or on DLMS then by all means please do what makes you happy. Our pens are available to tour anytime. Videos of the bulls and heifers will be posted on-line at cattlevids.ca

On the family front we have lots of exciting news-Autumn and Remiel and older siblings Grayson and Mila welcomed Calder in May. Stephen and I bought a house in Inglis and welcomed our little girl Lainey into the family in November. For those of you that haven't met Stephen yet, Stephen comes from a grain and purebred Charolais background and we all feel pretty lucky that he has joined the High Bluff family and brought some Johnson Charolais females with him. We're so lucky to farm with family and get to spend so much quality time with all of our family throughout the year. The contributions of our family and the folks who work on the farm, who pretty much are family, can't go understated.

We're looking forward to spending another year doing all the things we love.

Erin

Meet our team!

Donna and Carman started High Bluff Stock Farm in 1984. They have worked hard to grow their Charolais and Simmental purebred herd and grain production to what it is today. Carman and Donna are excited to be able to farm alongside their family.

Erin and Stephen- Erin has always been active on the farm and has been home farming full time for the last 6 years; specializing in agronomy and the purebred cattle enterprise. This year Stephen has joined her and they now spend date nights snuggling a baby, calving cows and working on a crop plan.

Tomina Jackson- Tomina is an integral part of all the day-to-day activities in the grain and livestock operations. She specializes in being our barn mom and chief combine driver and mechanic. She spends Wednesdays and her weekends working on her Rolling D Workwear line.

Fawn Jackson- Fawn heads up the High Bluff PR department. She manages our social media accounts, helps with bull sale preparation and makes sure we are getting a show string ready to take out in the fall so she can spend her holidays doing what she loves the most- showing cattle!

Ang Becker- Ang joined the High Bluff team a couple years ago during calving season. Turns out the Aussie who started not liking being outside during winter has had a change of heart and now happily tolerates working outside all winter as long as it includes working with baby calves.

Jules Smyth- Jules has been helping casually on the farm for around 8 years. She's now away at University at Oklahoma but we are lucky that she still likes to spend her summers at home and working at High Bluff during her time off. Jules is a jack of all trades when it comes to our cattle operations and yard duties.

Charolais & Simmental Bull Sale

Friday, 2:00 p.m. CST

Performance

Birth weights, 205 day weights, 365 day weights and EPDs are provided wherever possible. Current weights will be available sale day.

Breeding Guarantee

The bulls are fully guaranteed to be a breeding bull as outlined by the Charolais and Simmental Breeder's Guarantee Guidelines. Semen tests will be done when recommended by our veterinarian. High Bluff Stock Farm reserves the right to be the first to know about any problems you might have with your bull. Should any bull fifteen months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller immediately when the problem is detected. The matter shall be reported in writing to the seller, enclosing a report prepared by a licensed veterinarian, within six months following the date of purchase or date of first exposure, or six months after the bull has reached 15 months of age. Any bull that does not prove to be a satisfactory breeder will be returned to High Bluff Stock Farm at the buyers expense. The seller will have the right and privilege of six months to prove the bull a breeder. Should the bull prove to be a breeder, he will be returned to the buyer, and the matter will be considered closed. If the bull fails his semen test or proves not to be a breeder we will replace your bull with another bull of equal quality or lend you a bull to make sure your cows get bred or give you a sales credit. No guarantee is given that semen collected from the bull will freeze.

Bull Preparation:

We are committed to raising cattle the best we can in the environment we have. Animal health, temperament, fitness and longevity are important to us and key to our own and our customers success. The bulls are developed on a TMR ration of silage, chopped hay, rolled barley, corn, minerals and vitamins as well as free choice hay. We work with a nutritionist to make sure all of our cattle's dietary needs are met. We have a complete herd health and vaccination program with Roblin Vet Clinic. Prior to the sale bulls will be measured and inspected by one of the vets at Roblin Vet Clinic. All bulls have been treated with Ivermectin twice and fusinguard once.

Terms & Conditions

The sale will be conducted under the standard Transcon Livestock Corp Terms & Conditions. Copies will be available at the settlement desk.

Photos & Videos

Pictures taken by High Bluff Stock Farm Crew and Maureen Tubman.
 Videos taken by John Wright - Wright Livestock Marketing Services
 Videos can be found at cattlevids.ca

Right to Semen

We reserve the right to draw semen on any bull in the sale for in herd use, at our expense and the buyer's convenience.

Delivery

Free delivery to your farm free of charge up to 200 km. Other destinations can be arranged at cost. We will Deliver bulls from March 20 to May 1st at our convience. If you are unable to take your bull when we are going by you can pick up your bull when it works for you. Board free until May 1st or until we are able to deliver your bull- whichever comes first. \$5/day after that. All animals left at the farm after the sale must be insured. The High Bluff team will provide the best care we can to the animals that stay on the farm but all bulls and females become the risk of the buyer once sold.

Welcome from Transcon Livestock Corp.

High Bluff Stock Farms 20th Anniversary Bull and Female Sale is a very exciting milestone and is hosted by great people. The Jackson family have been breeding and raising Charolais and Simmental cattle for many years and have become one of the major seed stock producers in Western Canada for fresh new and exciting genetics.

The way I see it HBSF has many exciting years ahead in the beef industry. The resiliency, dedication and determination put forth by this great family, at High Bluff Stock Farms, is second to none in today's agriculture industry. Repeat customers, new buyers, registered and commercial producers have successfully purchased bulls and females from the HBSF program.

This year's 20th edition is as deep and good in quality I've seen both in the Charolais and Simmental divisions respectively. The Charolais bulls truly offer something for everyone. These young herdsires are as stout, hairy and correct as you will find. They have been selected for performance, longevity and phenotype. The Simmental offering is equally as strong and are selected for the same traits with the same goals in mind - producing a top quality end product that will raise the bar on your calf crop at weaning time, bulls that have a little extra frame and are as big butted, big bodied and as hairy as one would want.

You can be assured that every bull on offer is backed by a quality dam. The HBSF cowherd is functional, sound and highly productive. The select group of females on offer are from the same proven genetics as the bulls. Females that very well could go on and be foundation females for the most astute cattlemen.

Please join us and enjoy the great hospitality along with a great set of Charolais and Simmental cattle that will be on offer. Friday March 17th at the ranch in Inglis, Manitoba

Please feel free to give us a call at Transcon to assist you with any information, appraisals or bidding/buying assistance that may be required in the event you are unable to attend.

HIGH BLUFF LADY SLIPPER 72F - Dam of Lot 1

HIGH BLUFF J LO 53J - Maternal Sister of Lot 1

100K Test Pending. A great bull needs a great cow backing him and that's exactly what we have here! Kolter is our pick of the Three Thieves bull crop phenotypically but also because his dam is one of our favorites around here. 72F is a feminine, moderate Triumph female, with a beautiful udder, she is big ribbed and has a great production record already.

We are excited about the future of this herd sire! A bull that was a standout since birth and we have enjoyed watching him grow and develop; we are continually impressed by this individual. Kolter is sound structured, good footed, nice skulled, excellent haired and has a nice mix of calving ease and performance.

Top end herd sire prospect here!

Another Three Thieves bull that carries the Three Thieves stamp - nicely made, smooth but well muscled and soft sided, hair, clean fronted with a good-looking skull. His dam is a moderate, big volumed, good uddered, good looking Triumph cow.

HIGH BLUFF HILTON 54H
Brother of Lot 3
2021 Three Thieves High Seller

3

HIGH BLUFF KISSINGER 180K

POLLED PMC850366 HBSF 180K February 25, 2022

Performance and style with great weaning and yearling weights in this Three Thieves son! He ranks 2nd in our Charolais bulls in both weaning and yearling weights. Kissinger has caught the attention of many visitors to the bull pen. He is powerful, smooth made, long bodied, hairy with that great herd bull presence. His dam is a powerful and beautiful Symbol x Esperenza female that has caught the eye of many people touring our pastures. This is her 3rd bull for the bull sale. She looks like the type of cow that should successfully keep on producing top end bulls for the bull sale. She's moderate made but big, tanky and powerful.

HIGH BLUFF KOHEN 122K

POLLED TWIN PMC850485 HBSF 122K February 7, 2022

100K Test Pending. A Three Thieves son with a ton of style and presence. He is a proud, attractive made bull with a good haircut. His dam is an attractive Triumph female who goes back to the Schatzi cow family. Her dam raised one of our high sellers last year to McTavish Charolais. Schatzi 105D raised both of her calves last year and calved to the first cycle this year, some real maternal strength!

ROLLING D LAURA 941W - 13 Years of Age
Dam of Lot 7

HIGH BLUFF JEFFERSON 76J
Maternal Brother working at KSL Simmentals and
Charolais

100K. HETERO POLLED, PARENT VERIFIED. Kracken has been a standout since birth. All summer long we looked at him and said it's really a shame we aren't showing cattle this fall. He was early maturing and has that herd bull presence that has grabbed our attention since birth.

His dam has a production record you wish all your cows could have, weaned in and registered 10 calves in a row and calved to the 1st cycle at 13 years of age. That is a production record to be proud of and something we really strive to find when bull shopping. As an added bonus her structure, movement, udder and teat quality are second to none, as can be seen by her picture taken at 13 years of age.

Kracken is a powerfully constructed Three Thieves son with extra expression in his muscle shape and dimension.

100K. HETERO POLLED, PARENT VERIFIED. When we first flushed 96A and she gave us 33 embryo's we thought what are we ever going to do with that many embryo's? A few years later there is only a couple left sitting in the tank. 96A offspring have been very well received by our commercial bull buyers and her daughters are producing well in our herd. The 96A bulls are all very similar - the power, depth of quarter, extra performance and growth is hard to beat. Combine that with a great hair coat and a good temperament and it makes for cattle that are easy to raise.

HIGH BLUFF KALAMAZOO 42K

POLLED PMC850491 HBSF 42K January 24, 2022

100K TESTED. HOMO POLLED. PARENT VERIFIED

Feature power packed performance individual. This bull hits you from every angle; explosive in his muscle pattern and yet a presence in him that screams herd bull. Kalamazoo has that extra dimension from his fore rib right out through his hip. He displays a massive loin and extra width of top that carries right down to a stout base. His dam was a good looking Original cow with an exceptional udder and youthful look. She's what you wish all 13 year-old cows could look like. She had a beautiful Mescalito heifer that sold in our sale last year. Kalamazoo has a disposition much like his sire's- he's an easy going bull. Triumph seems to stamp all of his offspring with a bit more of a rounded muscle shape and good disposition.

HIGH BLUFF KLEINFELDER 184K

SCURRED PMC850083 HBSF 184K February 28, 2022

100K TEST PENDING. Kleinfelder is a bull that once you sort him out of the group and analyze him you can really appreciate him for all that he is. A very complete bull that is soft made, is solid on all 4 feet with a nice big foot. He has a gentle disposition and an understated personality. He is a bull that we think could be a good fit for a lot of different types of cattle. Would be great in the 2nd calver pen, would work on cows and should sire a nice set of market cattle, bulls and replacement females. His dam 15Y has proven herself in raising top-notch bulls and females. She has multiple purebred bulls and females out working in fellow purebred breeders' herds as well as our own. She successfully flushes and produces top end progeny every time we ask her. She is an attractive, structurally sound, big volume cow that is quite moderate in her makeup. At 12 years of age, she still looks and produces like she is in her prime.

Pen Feature! 100K TESTED. HOMO POLLED. SIRE VERIFIED.
 Kickstart combines so many great attributes to make him a special breeding piece. You really have to admire his overall smoothness and how his muscle pattern is laid onto his correct skeleton structure. Kickstart is deep sided, very attractive up through his font third with a flat laid in shoulder that is topped off with a great skull. He's right at the top of the pen for yearling and weaning weights.

When a first calf heifer produces a bull like this one you can not help but get excited! His dam is a beautiful Monsoon female coming from the ever so popular Esperenza cow family. She has a great looking High Bluff JJ bull calf by her side this year!

100K TESTED. HETERO POLLED. SIRE VERIFIED. Kristofferson is a pen favourite around here. His style, presence, hair, softness and muscle shape are undeniable. He's backed by some of our most consistent genetics. His grand dam HBSF 176W was one of the nicest made, most consistent, top-producing cows in our herd. At 10 years of age she looked great, maintained her youthfulness and had impeccable udder quality and a great disposition. 87B and her sisters are beautiful females that are successfully following in their mothers' footsteps. 87B has consistently produced top end bulls and females for our sale. The Escobar females in our herd are some of our most beautiful cows. If you like the looks of him and wonder what the females might be like be sure to ask to see HBSF 2E an Escobar out of his grand dam, you won't be disappointed.

100K TESTED. HOMO POLLED. PARENT VERIFIED. We said it last year and we'll say it now- she's done it again! High Bluff Natassia 7E is well on her way to topping the favourite list around here. Better sign her up for our flush program! We have bred her 4 different ways and each time her offspring comes to the top of the pen and goes to work for fellow purebred breeders; her first female went to the Harvie girls where she was Grand Champion of the CCYA in AB that year, her Three Thieves bull calf was one of our high sellers to Borderland Cattle Company, and her last year's

Tried and True bull calf went to XXX Charolais. Natassia 7E has a friendly disposition and exceptional udder quality and solid in her structure. We really love our Triumph cows. Kilian is a well put together bull. He's smooth made and has natural muscling and presence. We own his sire, Legit with Triple C Charolais- we're excited to offer the first set of Legit bulls in our sale this year!

HIGH BLUFF DIESEL 25D

Maternal Brother of Lot 23 Working at Horseshoe E

SCR TRIUMPH 2135

Sire of Lot 23

We really appreciate the look of this bull, he's one of our favourites for sure!

We have a full sister to Knight working in our herd. HBSF 131C is a feminine, moderate, angular Triumph daughter, who is deep bodied and sound footed with a beautiful udder. We would say all of these things about Knights dam as well. We like 131C so much that we tried to make another one but lucky for you she had bull instead. His dam 100Y raised High Bluff Diesel 25D working at Horseshoe E.

In our mind this is a no miss bull, he would sire a great group of feeder cattle, make beautiful replacement females and sire a very solid and functionable set of bulls. There is a reason we are still using Triumph 2135 8 years in a row: consistency, functionality, longevity and very marketable cattle.

Calving ease herd sire prospect here!

His Artemis momma has been a favourite around here for awhile with her feminine look and beautiful udder. It's easy to see why she's a favourite when you see her dam - a gorgeous Triumph 50B female. Kuzco is an attractive bull, he has a good presence about him, has a nice sized head, is smooth made and has a good haircoat. We sold his sire Heaven or Bust to XXX Farms but before he left, we bred a couple heifers to him. Once they calved, we got thinking we maybe should have drawn semen on him before he left! If you are looking for calving ease and possibly making replacement females look no further! Kuzco is a bull we would try in the heifer pen.

SCURRED SMC850352 HBSF 110K February 4, 2022

A really good Mescalito son out of a gorgeous Triumph 50B daughter, a front pasture type of female for sure. The Triumph / Mescalito cross worked well to create a consistent set of bulls that have style, thickness, muscle shape and grow. Kryptonite is the type of bull that is easy to appreciate and would work well in many herds.

Here's a punchy, nicely put together, long bodied, haired up Mescalito son on offer. Kallen is backed by one of our favourite cows. HBSF 2E is a moderate, beautiful Escobar female with a nice udder. Her full sister is working at CK Stock Farm and her dam 176W is the dam of Game On a bull we sold to KSL Simmental and Charolais and who we use a bit ourselves.

Schatzi 43K is one cool and unique heifer. This is one powerhouse of a heifer: bold in her design and an abundance in depth of body. She ties her neck high into her shoulder with a "look at me" presence about her. Her dam already has a track record of producing impressive individuals. Her maternal sister last year sold to Johnson Charolais, and she is looking to be on her way to be one of the top in the 2 year old pen.

HIGH BLUFF KINGPIN 123K

POLLED PUREBRED BPG1418849 EGC 123K February 9, 2022

Power, Presence and Pride. When it comes to the cattle business there are highs and there are lows. There are times you question one's decision and there are times when it all comes together; Kingston and Kingpin are a result of when it all comes together! Two individuals we feel very honoured to have raised. Bulls that are special in their own right but carry some great similarities. The body mass, the muscle density, the phenotype, the hair and the foot structure. They have a presence about them that screams HERD BULL with great masculinity and character in their skull. These powerful herdsire prospects have great yearling and weaning weights. In size they are comparable to our performance Charolais bulls.

Their dams are both Grand Fortunes that go back to the Lashes cow family. They are moderate, good looking, good tempered and beautifully uddered black females. This cow family is known for their longevity, exceptional structure and producing top end progeny. Kingston and Kingpin have a Favor sister from the same cow family that easily comes to the top of our replacement pen. If you are shopping for a black bull these two are worth the drive!

HIGH BLUFF KINGSMAN 101K

POLLED PUREBRED PG1418848 EGC 101K February 3, 2022

Check out this herd bull candidate! We are excited about this Red Deputy x Red Lashes 77B cross. You really have to appreciate this bull for his presence, mass, softness and hair coat. His hair coat is definitely Canadian winter ready! His dam, EGC 77B is a farm favourite, she has lots of shape and volume, is structurally very sound and has a beautiful udder. She is part of the 72P cow family that we adore for all these reasons as well as their easy doing-ness and friendly dispositions. You can breed 77B any way you want and she always has a calf that easily comes to the top of the pen. We have flushed her twice, once to MRL Playmaker and once to IPU Lieutenant (a Red Deputy son). The 77B / Lieutenant females we have in our herd are beautiful, moderate females with a ton of capacity and great udders. Looking at the genetics track record, Kingsman will sire exceptional bulls or females for the replacement pen. Take a close look here! Parent verified. Non-Diluter. Homo Polled.

HIGH BLUFF KEYSTONE 18K

POLLED PUREBRED PG1418770 EGC 18K January 18, 2022

Keystone is an attractive made, soft sided, hairy, Epic son that we like quite a lot. This is our 4th year of successfully using Epic as a heifer bull. They are born the right size and a heifer can raise a calf that has weaning and yearling weights that compete with what the cows raise. It never gets old watching an Epic baby up and running around the pen and nursing a few minutes after birth. These are traits that we can all appreciate when raising cattle - calving ease, get up and go and grow! Keystone is a bull we would try in the heifer pen. He's in the top 25% for CE, BWT, WWT and YWT. Epic's have a good temperament and are easy to work with. Parent Verified. Non-Diluter. Homo Polled.

HIGH BLUFF KOOTENAY 24K

POLLED PUREBRED PG1418839 EGC 24K January 20, 2022

EGC Ms Touchdown 56Z has a great production record. We have registered every calf off her - 10 to date! Last year she raised twins - both made the bull sale - and then she calved back to first cycle with Kootenay. Gotta love females like that! Longevity, consistency and fertility is what pays the bills. The Wheatland Bull calves are a nice set of calves: consistent, correct and the right amount of growth with some calving ease.

Take a look at these two calving ease full brothers here! These are 2 bulls that we would try on heifers. We used their full brother as clean up after AI in our heifer pen. Their dam EGC Muchmore 72P would give us a 85 lb calf no matter which way we bred her. These bulls are moderate in their makeup, attractive and well put together. They have a nice amount of natural muscling and are soft made with a good amount of hair. Their full sister comes to the top of the 2 year old pen quite easily, she's a pen favourite to look at and in her friendly personality. We're hoping for a few more full sisters this year once our recip cows start calving.

Their dam is the one and only EGC Muchmore 72P aka "Chubby" known for her easy doing-ness and ability to raise a top end calf year after year, almost always a female. She is the matriarch of the Lashes cow family that backs many of the bulls on offer this year. We showed "Chubby" very successfully as a calf, bred and as a pair where she was Reserve Champion Female at Agribition. "Chubby" was impeccable in her structure, hoof quality and movement. On the sire's side these full brothers go back to Harviecrest Showdown who Harvie's showed quite successfully and the beautiful Ava cow owned by Black Gold Simmental and Canadian Donors.

141K- Parent Verified. Hetro Black. Homo Polled.

Homo polled. Mescalito is a bull we found at Cody Cattle Company in Kansas and bought with Harvie Ranching and Kay-R Charolais. Recently we sold the walking rights back to Cody Cattle Company. Mescalito is a bull that we really admire for his power, presence, style and big time volume and hip. A bull that has a great big foot under him and travels well. Mescalito has sired a group of bulls that have a lot of style, presence, muscle shape and mass, natural thickness who push the scales down hard at weaning. They are a consistent, uniform group. Mescalito females are super stylish, attractive, feminine and angular with a lot of natural capacity and performance.

Semen available for sale. Homo polled. Clean headed. "Cook" Triumph 50B, not to be confused with Triumph 2135, has turned out to be a great breeding bull for us. When touring Triple C Charolais we fell in love with SCX 128W, when she had a Triumph 2135 bull in the sale we knew he would be a good fit to carry on the Triumph bloodline in our herd. He possesses many traits we look for in cattle: tremendous body depth, easy keeping, a big wide top, sound structure, masculinity, and that great herd bull presence. It's hard to find a fault in his or his sire's structure. The way they move and cover ground is impressive to watch. It is hard to find a bull that breeds as consistently and as uniformly as Triumph 50B. His genetics have been admired and chased by both purebred and commercial breeders alike. Like his sire, he is in the top 1% for weaning weight and yearling weight. Our Cook females are a uniform bunch, shaping up to be good mother cows with nice udders that wean in top notch calves.

Homo polled. Clean headed. Three Thieves is a bull we bought a couple years ago to use on our 2nd calvers. Since then we have used him very successfully on 2nd calvers and in our cow herd. The first couple years of calving to Three Thieves all of his calves have been born unassisted. Three Thieves is a smooth made, eye-appealing bull that leaves a very consistent set of bulls – attractive in their makeup, hairy, smooth made, and controls birthweight quite well. He is a HBSF Bodacious son that goes back to ELH Ms Gellia 12W that was a real asset to our farm. She was a beautiful big volume cow that produced some exceptional bulls and females. Bodacious is a HD bull that we really admired and he has done exceptionally well at Palmers with close to 200 animals registered off of him. On his dam's side he is backed by HVA Whistle 66A a female that Carman really admired when we saw her.

Homo polled. After a few years of calving heifers to Epic he has proven himself to be a great fit in our heifer pen. The calves have consistently been born the right size and make. The Epic calves grow well and push the scales down hard at weaning time, having the offspring off of heifers easily competing with the cow offspring. Our Epic cattle are deep bodied, soft made, hairy, have a dark red coat, and the dispositions on them are really good. Epic has total outcross genetics, impressive phenotype, and a great set of EPD's. His CE, BW, WT and YT are all in the top 10%. The Epic females we have in production are good cows.

Paxhill Farms Black Angus

How exciting is this! Getting to sit down and write the opening message for my first ever bull sale. It's been a day five years in the making to get here with a steep learning curve, but looking at these bulls today I can't help but feel good about the results.

The Paxhill Farms Black Angus herd has its roots in a group of 20 bred cows and heifers that were purchased from HBH Angus that calved in the spring of 2018. Since then an AI program has been added to bring new genetics in and another group of 13 bred cows and heifers were acquired from Ray and Barb Airey's dispersal sale in 2019 which have greatly enhanced the quality of the herd.

After trying several different AI sires over the years, Bub's Southern Charm AA31 and SAV Rainfall 6846 have become our two go-to bulls to create great looking, gentle, highly productive females. Southern Charm brings great hair coats, larger frames, solid feet and udders with a high level of performance for use on our cow herd while keeping the birthweights and calving ease moderate. I can't say with enough emphasis how much we love the Southern Charm females. Rainfall brings some of the best calving ease genetics available in a solid and compact frame producing females with picture perfect udders and gentle dispositions in a smooth attractive package, making him our go-to AI sire for the heifer pen.

The purebred Angus herd at Paxhill Farms continues to grow with the acquisition of a group of bred cows and heifers from the Red Rose Angus Dispersal sale this fall, along with some exciting new AI and walking herd sires. There are some fantastic bull calf prospects being born this spring off of Southern Charm, Rainfall, Bar-H Mindbender 141D, RRAR TopShelf 3H, Ellingson Turn Key 0170, Ellingson Badlands 0285 and our homegrown Rainfall, Southern Charm, and HF Stature 87D son's that should make for a expanded and enhanced offering next year!

Shop with confidence knowing the bulls here today are hand picked from the top cow families in our herd and will greatly contribute to your bottom line as we move into the high end of the beef market cycle!

Here is a bull with calving ease written all over him, smaller framed, smooth made, structurally correct with a great disposition. Although he has smaller framed genetics in his background, he would have turned out a bit larger except for the tragic loss of his mother on pasture that resulted in him being weaned a bit too early in July. Don't overlook this bull for your heifer pen.

Here is the standout in this year's pen in my opinion, his mom is sired by LEB439A Excitement, and every one of the Excitement daughters is a standout with added frame, structural correctness, and perfect udders. His sire, Bub's Southern Charm, has been the go-to bull here to produce picture perfect females. As you can see the combination has resulted in a powerful bull with a strong top, big barrel, and square hindquarters built on a foundation of great feet. Combine that with a pedigree that should consistently produce attractive, productive females and.....well.... he's just one of those bulls that you can't afford not to have.

Have you read the notes on PAX 35K yet? Well here is another bull off of an Excitement dam, and the similarities between these two cows and their bull calves are hard to miss. An attractive, big barreled fellow who walks along on great feet. Sired by the highly sought after SAV Rainfall, this is another elite female maker that will yield those great Angus style udders with a gentle disposition. We love his dam so much that we have retained a Southern Charm son of hers, Paxhill Heavy D 15H, as one of our primary herd bulls.

Here is a larger framed Southern Charm son off of a Stature daughter, with that combination he can't help but have a quiet, easy to work with disposition and produce cows with strong maternal traits.

Old man winter caught me off guard with this one and unfortunately this bull paid the price in ears. Fortunately cows don't seem to mind the look so this thick, square, deep bodied beef maker Rainfall son can pass those genetics onto future generations. His dam is an incredibly deep bodied, easy to work with cow with a beautiful udder.

Here is a real smooth made bull off of one of my foundation females that has had an enormous impact on my purebred cowherd with several of her daughters and granddaughters fitting nicely in the upper ranks. They all have great hair coats, tidy udders, and great feet and this Paxhill Fiddy Cent 14F son is sure to improve on these traits and pass them on to his daughters in turn. With Fiddy Cent as this guy's sire, have confidence using him in your heifer pen.
