## *Welcome from M&J Farms...*

On behalf of our families, I would like to welcome you to the 2023 edition of the M&J Farms Bull Sale. I'd also like to take this time to say "Thank You" - whether you just heard of our program, or you are a loyal customer that has many of our bulls, we would like to thank you for taking the time out of your day to read this and learn more about our offering. Without you, we couldn't do what we love.

We are a mixed operation that consists of the cattle operation, along with our grain farming operation. If you notice the birthdates of these bulls on offer, you will notice that a lot of them are born when the seed drill is running as well. The cowherd has had to become low maintenance, not only out of our desire, but also out of necessity. We develop bulls slowly and let them grow, with longevity and reliability for our customers at the top of our minds.

The bulls are weaned off of their mothers and put on a high roughage grower ration that meets all of their nutrition needs, while not pushing for top gains. Come grass time, these guys are hauled to pasture to graze all summer. In late fall, they are started on a high roughage TMR ration and brought along slowly. We grow the majority of all of our ingredients right here at the farm. This produces sound, stout, functional future herdsires that we are extremely confident in and proud of.

M&J Farms and Glasman Farms are strong believers in consistent, functional working bulls. We aim for complete customer satisfaction. We are also realistic people, who understand that these are animals - should a situation arise, you can rest assured, we have your back. We pride ourselves in customer service that doesn't end on sale day.

This year, we will be having a live auction at the farm. We encourage you to join us on sale day for lunch and hospitality. If you can't join us in person, join the live broadcast on DLMS and bid with confidence online.

We invite and recommend everyone to come through and tour the bulls ahead of the sale. We understand that getting away is not always easy or even possible sometimes. There will be videos online of all the bulls for you to view. We offer one of the best sight-unseen programs in the business, with personalized service that is tailored to meet your bull needs. If you aren't happy with your purchase at delivery or pickup, you don't own him.

Please feel free to call us at M&J Farms or Glasman Farms if we can help answer any questions you may have. Miles, Matthew and I would be happy to assist you. The T Bar C staff can also work with you on your bull selection or field your questions.

We wish you the best of luck in securing your selection on sale day. Thank you in advance for your consideration of our 2023 sale offering.

Cheers,

*Jared*

## *From the desk at T Bar...*

Welcome to M & J Farms and Glasman Farms Simmental and Angus Bull Sale! This annual event will kick off at 2:00PM on February 26, 2023, at the farm, 2 miles south of Russell, Manitoba off the Yellowhead Highway, and online with DLMS.

This breeding operation ranks amongst the finest in the province and is steeped in history... first in the Angus breed and then the Simmental component... giving the Glasman Family a very large cow herd base to select high quality bulls for their many repeat customers. The program is based on two-year-olds born on grass in late April and through seeding. They are summered on grass then supplemented with a high roughage ration in the fall to ready them for sale. Basically, the bulls are maintained and cared for just like that of their customers. During the summer process, Miles and Mother Nature do much of the culling... feet and legs... disposition... do-ability to name a few. There is no smoke or mirrors in this operation.

The lineup is stout, muscular and rugged... sound of feet and legs that are designed to cover plenty of cows in big pastures. Whether it be Simmental, Red and Black or Black Angus you can be assured of added value with your purchases and selections simply because you will want to keep all their daughters in the replacement pastures. The sons will speak for themselves in the sale barns you choose to market at.

Plan to stop by the ranch any time prior to the sale, preview the bulls and see their mothers. Do not hesitate to give any of these good folks a call to discuss the bulls... they will give you an honest assessment. Plan to be with us on February 26th... it will be worth the trip

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

Every aspect of this guy has great herdsire stamped all over him. He has a commanding presence about him. Being full of character and style, while still being wide based and offering a ton of shape. His mother, 7127E is white-faced and Jared's favourite in the herd. See his video on DLMS.

## TESTIMONIAL

We have been buying bulls from MJ Farms and Glasman Farms for seven years now, sight un-seen. We have been 100% satisfied with our Angus and Simmental stock purchases. All have demonstrated improved wean weight, docility, and milk production. In purchasing roughly 25 bulls, we have had no issues. Longevity is a priority in their cattle, along with customer service.

A stout made, moderate framed "Ted" son that is line bred by design. 131L on both sides of his pedigree, the consistency that comes with that is sure to pay off in stamping his progeny. View his video on DLMS.

## TESTIMONIAL

We have been using M&J Farms/Glasman bulls for 12 years. There has always been confidence in their program and that has only increased year to year. 2 year olds that are ready to go to work, moderate birth weights while still being standouts at weaning and have the genetic package you want in your herd. The quality and consistency of our herd is where we want it with M&J/Glasman bulls being large contributors. The entire family is great to deal with, no nonsense, salt of the earth, the type you want to do business with.

This good natured red fella is loaded with performance and durability. The maternal side of his is extremely powerful, going back to the 7127E cow as well. He is bold, deep ribbed and long spined, while still being soft made and impressive on the move. Have a look at his video on DLMS.

A real eye appealing, powerfully constructed Crimson Tide son. Massive topped with a tremendous amount of shape of rib as well. Be sure to mark him if you are on the hunt for a really good red bull. Check him out on DLMS.

LOT 18

## TESTIMONIAL

We purchased MJ Black IBull 7100E (who we call Bear in Missouri) from Jared and his family a few years ago. We purchased our bull sight unseen with Jared and he was absolutely amazing to work with. We gave him a budget and we're super impressed that he bought the bull under the amount we told him. Once we got Bear home to Missouri he went right on cows and when we got his first calf crop my father was so impressed with his calves. For three calving seasons now we have yet to assist a cow with a delivery, those calves jump up and flat grow. They have brought top dollar at local markets and we will be calving out his first daughters this spring and they have the looks to make excellent maternal females. I can assure you that you will not be disappointed in trusting the M&J crew for your next herdsire purchase as they are a top notch family that believe in good cow families that make top notch bulls that will earn your investment back for the future.

— Sincerely Gary Reichel Reichel Farms Missouri

## Welcome from Glasman Farms. . .

Welcome to the 2023 Glasman family bull sale. We are grateful to again be consigning alongside my family and the M&J offering.

This business is really a lot to do with the people so we'd like to start by saying thank you to our customers, friends and family for supporting our program. Whether you like or share a social media post, are a bidder or buyer, an extra body or babysitter when needed, etc. we couldn't do any of this without you! I believe the cattle cycle isn't broken and we are headed in to good times. With inputs and expenses higher than ever it is even more important to invest in trouble free, efficient growth cattle to make this lifestyle more profitable and fun.

The bulls came home from pasture late December and were still transitioning onto new feed around picture time. Between then and now even they have continued to change and excel. Please accept this as your invitation to stop by the farm to view the bulls for yourself and let them do the talking. Videos of each lot will be available on our webpage and through DLMS as well as internet bidding on sale day.

We all want trouble free cattle. We definitely have to have them here as I am 3000 feet underground half my life and do most farm projects as a family with three kids in tow. Our cattle need to be low input and efficient but high output; continuously improving and progressing our herd and moving the breed forward.

We are very excited to bring you our new sire group by Lancaster. They are a must see! Their half sisters are even super impressive and absolute standouts. The Earnhardt sire group is as strong as ever. Followed up by excellent Bond, Black Gold and Alacataz sire groups as well as Simmentals sired by RF Merchant. Reference sire pictures and additional info is available on page 27.

Thank you for your interest in our program and please let us know how we can be of assistance with your selections. We are excited to host in person again this year and look forward to seeing you on sale day!

### Matthew

REFERENCE SIRE: PEAK DOT LANCASTER 26G

### SALE FEATURE!

The stoutest Angus bull in the pen. This fella is big scrotalled, muscular, deep bodied and has the true character of a herd bull. As a calf he was definitely the most muscular and early maturing and looked like a herd bull early on. His moderate, super fronted, great uddered dam by Bond has a super production record on her first three calves. Her first daughter by Alcatraz has one of the stoutest bulls in the pen for next year's sale. The Density grand dam to this bull may be one of the most powerful, biggest volume Density daughters I have ever seen.

This bull may be the widest topped bull in our offering with a big scrotal and great temperament. He stems back to one of the greatest cows in the Angus business, Crescent Creek Rosebud 115F. Lancaster 1021 is sure to sire calves with extra base width and depth. His females will be easy keeping with excellent maternal traits.

LOT 30

This outstanding bull is a crowd favorite and he and his dam made me want to hit the show road every time I saw them as a pair out on grass as I knew they would have been quite competitive in the show ring. Lancaster 1037 shows extra length of spine and herd bull character with excellent structure. This bull was super hairy as a calf and will add that hair to his calf crop. His phenomenal dam by Density has massive volume with big sweeping rib shape and is always a favorite to visitors.

MLG Earnhardt 1022 is one of the most attractive and complete bulls in the offering. Deep, stout, and hairy with smooth shoulders that lead into a proud herd bull skull. He is backed by the Blackbird cow family that always has a large percentage of bulls in our offering and is maybe the most popular and proven cow family in our herd thus far. His dam is a favorite perfect uddered Authority daughter who is a full sib to a past high selling bull to Felton Angus Ranch in Montana. His full sib was a feature in last year's sale. No research to do here: consistency is bred in!

Phenotypic standout here! This moderate Earnhardt son is so structurally correct and has that undeniable herd bull character Earnhardt stamps his sons with. His dam is one of our most eye appealing Pioneer daughters. She is full sister to MLG Tibbie 5033, the dam of Authoritive and Lot 41 MLG Brosnan 1099.

LOT 38

Maureen  
@Brosnan

## TESTIMONIAL

MLG Authoritive has been nothing but exceptional for us. He has been so much more than Matt said he would be. Authoritive has proven to breed exceptional replacement females along with some of the most phenotypically attractive, and easy fleshing sons we have had here to date. Matt and Leanne have one of the most productive and impressive herds I have toured and are without a doubt one of the greatest operations we have done business with and we certainly look forward to doing more business with them in the future.

Another rugged built Earnhardt. These extra age bulls are athletic and built to last. 1087's gorgeous Authority dam is the ideal cow - long made, excellent uddered, and feminine fronted.

This bull has a major presence in the pen. He is one proud individual stamped with true masculinity, muscle and unmatched depth. His front pasture dam has an ideal body type and production record. Her first calf by Lithium was our highest performing calf and high selling bull in our 2021 sale.

Wow! This bull is a powerhouse of a freight train! Here is our lead off Bond son who can be appreciated for his impressive stature, length of body, and flawless structure. His productive dam is also the dam of the MLG Authoritive 8024 herd bull for LK Ranch, a bull that has consistently sired top quality seedstock for their operation, including siring two of the Champion pen of three bulls at Agribition. Congratulations Frey family!

Recommended for heifers. The Alcatraz cattle have calved easy, grown fast and are a consistent group with outstanding temperament. 1023's dam, 33D, is climbing the ranks and becoming a favorite cow around here. Her daughters are outstanding and productive beyond expectations. McHenry Lass females are the front pasture kind – oh so feminine with impeccable udders!

This low birth weight red blaze face son of Merchant is out of a red High Roller female that is wedge shaped, good uddered and consistently has low birth weight calves that don't sacrifice growth. All of her bulls have made the bull sale and heifers are in the top cut. 1013's sire, RF Merchant, needs no introduction in the Simmental business. He leaves beautifully made, excellent uddered females that are very productive and as a bonus, most times leaves a splash of the sought after chrome too! If you're looking for a calving ease red blaze face bull, don't pass this guy up.

REFERENCE SIRE: RF MERCHANT 481B

Major league herd sire prospect here! Better than his picture, this blaze face son by Merchant is extra stout, big ribbed and has an abundant amount of hair. His excellent uddered, broody dam by Rampage is as good as you can make them. She has our best Simmental heifer in the replacement pen. Be sure to check out his video on DLMS.

Black Gold is a calving ease specialist out of a foundation cow family at J Square S. His granddam is still in production at 16 years of age and has raised herd sires like Fireman who sold to Hamilton Farms of Cochrane, AB.

# Family Farm Life

# *Terms & Conditions...*

## **Terms**

The terms of the sale are cash or cheque, payable at par. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## **Payment Options**

Payment in full sale day will be the norm. If special arrangements are needed please discuss with Miles Glasman (M&J Farms) and/or Matthew Glasman (Glasman Farms) prior to the sale.

## **Insurance**

All bulls staying at M&J Farms/Glasman Farms must be insured. Contact Keystone Livestock Insurance at 204-728-3058. We strongly recommend that insurance is purchased for full value.

## **Delivery**

Bulls will be kept until April 1, 2023. After this date a \$3/day yardage fee will be payable. All bulls will be delivered by April 30th free of charge unless special arrangements have been made at M&J Farms/Glasman Farms convenience. Every effort will be made to get your bull to your farm, however some long distances may dictate delivery to a central point.

## **Breeder's Guarantee**

All bulls will be semen tested prior to the sale. The bulls sold are sold with a breeder's guarantee. If problems arise please notify M&J Farms/Glasman Farms immediately so the replacement or credit towards another bull can be dealt with in a timely fashion. At no time will M&J Farms/Glasman Farms be responsible for more than the purchase price.

## **Pedigree Estimates (PE)**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## **Announcements**

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## **Exception Guarantee**

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

## **Liabilities**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## **Rights and Obligations**

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**We retain the right to  
DRAW SEMEN ON ANY OF THE BULLS SOLD  
FOR IN HERD USE**
