

KICK OFF TO SPRING BULL SALE

MARCH 5, 2023

SALE TIME - 6:00 PM

HARTNEY, MANITOBA

WELCOME FROM MAPLE LAKE STOCK FARMS...

Welcome to our 14th Annual Bull sale.

Thank you to everyone who shows interest in our program.

Success of Maple Lake progeny is our satisfied buyers. They have been very pleased with the performance of our bulls. Our Percentage bulls have added performance, with solid reputable pedigrees. We are proud of our genetics that don't melt or breakdown in their healthy, work environment. Our purebred pedigrees are well built and are the best we have made. They would fit into many purebred programs. We are not committed to EPD's and papers, rather to the unbiased actual performance. We have been fortunate to obtain exclusive semen packages over the past few years. After years of careful selection of the industry's top genetics, we have produced this outstanding group of bulls here at Maple Lake Stock Farms. Gerry believes it is the best group of bulls made to date. Don't miss your chance to own one of these bulls with years of solid genetics, from proven foundation Maple females. Buy with confidence.

MARCH 5, 2023

SUPPER 5:00 PM • SALE TIME 6:00 PM

At the Farm • Hartney, Manitoba

Come early and tour the bull pens and the cow pens, enjoy some refreshments and friendship.

MAPLE LAKE INSURANCE PROGRAM

10% of purchase price

1 year coverage for Sickness, Injury, Death

Maple Lake will supply a replacement bull to finish the breeding season

In case of loss: The Purchase price less salvage price of bull will be credited to 2024 Bull Sale.

Maple Lake encourages you to bring your yearling bull back, for Maple Lake to feed for the first winter, Nov 15, 2023- April 1 2024.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association and Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Delivery:

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supercede any written material in the catalogue.

TERMS AND CONDITIONS

Terms:

The terms of the sale are cash or cheque, payable at the sale location. The right of property shall not pass until after settlement has been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Simmental Association and Canadian Angus Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health:

All animals in the sale have met all necessary health requirements.

The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms on a strict mineral program. All the forages are sampled and analyzed to ensure quality forages are used. Once the calves are weaned, they are slowly moved onto a balanced TMR.

The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. Matching suitable protein sources with proper starch is key to promoting lean muscle growth. Organic minerals are used to ensure proper immune function and overall health. If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program. Best of luck on sale day!

This powerful bull earned the lead off position. He is extremely deep. A great hair coat that is dark red almost black. He has a great cow family. A lot of proven genetics stacked up in this offering. The Warden calves on the ground this season are also stand outs. The Warden mated to our donor dam 9764W looks like it will be outstanding progeny

Lot 4 & 5 Hybrid vigor in these 2 full brothers. Their dam is an outstanding Black Angus donor dam. Bred to Swagger, gives them above average performance. Swagger stamps his sons with deep bodies, thick, big hip and a wide table top. Swagger is

homo black. We have many of these easy calving high performance bulls working well in the commercial herd. Bob McLeod has 2 bulls doing a great job for him.

The grand dam is our foundation Black Angus donor dam. Mated with sire LER 786T has made many outstanding progeny. This dam is a half blood female that did not get registered but should have. Every year her calf is the keeper pen. Add Swagger as a sire and you get a great performance bull.

This Bentley sire has lots of performance, with the right amount of chrome. The dam is a daughter of Maple Lake Platinum 6037, who consistently adds a touch of chrome to all his progeny. Bred to black angus excellent chance of chrome.
