

MANITOBA'S LARGEST SIMMENTAL BULL & FEMALE SALE

HOLIDAY MONDAY

FEBRUARY 20TH, 2023 · 1 PM ON THE FARM · STE. ROSE, MB

 *Welcome to*
Bienvenue à
STE. ROSE DU LAC
Cattle Capital of Manitoba

OFFERING 128 BULLS & 46 HEIFERS

welcome

Welcome & thank you for taking the time to go through our sales catalog as we know & realize how busy everyone is, we seem to spin around the sun just a little faster every year. This will be our 19th consecutive Bull & Female sale & our 44th year raising Simmental seedstock.

We are a mixed farming operation working on a land base of approximately 10,000 acres, half of which is crop land & the other half a split between pasture & hay land. Our cowherd is ran as efficiently as possible, we graze on native pastures & don't start feeding until the end of November, our cows have been designed for what we feel is the right type of cattle to thrive in this northern climate & raise some heavy weaning, soggy style calves geared for the commercial & seedstock businesses alike.

The offering in all categories are very exciting, the new sire groups on offer add a lot to an already deep & proven base with name stay herdsires anchoring our program with the likes of Charles, Avenger & Legacy just to name a few. You can be assured that every single sire group is of superior & exclusive quality. Be it Red, Fullblood or Blacks, we have your bases covered from Calving Ease prospects to big time performance bulls. The best return on investment in any cow/calf program comes down to the bulls you purchase. We operate under the same model as you our customers, buy top quality bulls & use them.

The heifers on offer are always some of the best value you'll find all spring, breed them when you want to what you want. This is your only opportunity to buy the sisters to all the bulls in the sale. If you want to raise beef bulls, these girls will do it.

We must acknowledge & thank our amazing customer base, without you, none of this would be possible. From the Dakotas to Eastern Canada to the Rockies, your continued support is so very much appreciated. Perhaps cliché in saying this but the people in this business truly are salt of the earth & the friendships made, last a lifetime.

The sale will be hosted in our comfortable & spacious machine shop, while the cattle being penned outside in their natural environment for you to evaluate. Videos of the offering will be up in early February, this has become a huge tool for most people in selecting their next herdsires. With that said, we still encourage you to contact either myself or any of our industry leading sales staff for a second opinion & set of eyes if you are unable to attend. Feel free to come prior to sale day to view the offering, this always pays dividends when selecting your next herdsire(s). The sale will be broadcast online with Mark Shologan & DLMS.

We cordially invite you to be with us on sale day & take in this fun filled day of visiting, coffee, refreshments & all you can eat meal.

See you on sale day!

David
204-447-7573

Settlement Terms

The terms of the sale are cash, cheque, Mastercard, Visa, or Interac payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made.

Guarantee

Bulls selling at the sale will have passed all essential tests and examinations. Every bull selling will be accompanied by a valid Breeding Soundness Evaluation Report, signed and stamped by a veterinarian of the Western Canadian Association of Bovine Practitioners.

Herd Health and Fertility

All sale cattle have been treated twice with Ivermectin & are on Full Herd Health Express Program: Pyramid FP5+Presponse & Ultrabac7/ Somnubac was given as calves & at weaning time. All bulls will be examined, scrotal measured, semen tested & palpated by a licensed veterinarian prior to the sale.

U.S. Buyers

The U.S. Exchange rate will be announced prior to the sale. We will attend to, and assist with, all necessary health testing, vet examinations, paperwork, and obtaining your state permits associated to export your animals. U.S Customs & UPS brokerage charges will be paid by the purchaser for a cost of \$300 US. per animal paid to Transcon at the time of settlement.

Sight Unseen Purchase Program

If you are unable to attend the sale but are interested in a bull or heifer, give any of our sales staff or David a call and they will personally go over the sale cattle and your program and recommend bulls or heifers that will suit your needs. Your complete satisfaction is our goal.

Delivery Terms

Option A Bull(s) will be delivered free of charge within 350 kms or to the nearest Canada/US border crossing. We will do our best to get them to your yard, however, at times, it may be required to meet at central locations. Delivery will be as soon as possible after the sale at the buyer's risk and the seller's convenience. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. Heifers to be picked up on sale day, unless other arrangements have been made. We can assist the purchaser on coordinating transportation.

Option B Sale Cattle can be picked up on sale day or anytime after

Option C Bulls can be kept at Rendezvous Farms free of charge until March 25. A charge of \$5.00 per day will apply after that date. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. We are not responsible for any injuries during that time. The purchaser must pick up the bulls.

Trucking

H.S. Knill Company.....519-442-6242
Martin Bellemare.....819-296-3043

Soliciting

It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.

Insurance

You MUST insure all of your purchases for your own specific needs, preferably through our agent:

Lois McRae, Keystone Livestock Services, 204-728-3058

Attention Canadian bull buyers are asked to apply "Broad Form & Loss of Use" insurance coverage on all your bull purchases in order to fully protect your investment.

U.S. Bull buyers- Sheila Jensen, Courtland, Kansas 785-262-1116

welcome from Transcon

The opportunity in today's market to REALLY choose where and who you buy your bulls from is as important as ever. Therefore, business savvy should dictate this decision and raise Rendezvous Farms to the top of the list. The sheer commitment that this family has taken to owning their own herdsires to make sons exclusively for the commercial or registered breeders is a benefit in itself. The very opportunity, especially to those needing more than one bull, exists to own brothers created from very intentionally created sire groups. This actually goes much deeper as the cowherd has been defined from years of self-owned herd bulls patrolling the pastures creating multiples of sisters that in turn can provide sets of bulls that are more than even just 1/2 brothers! The pedigrees read deep on stacked generations of walking herdsires at Rendezvous Farms. There is no better way to breed predictability into your calf-crop as to use bulls from a program like this that has done all the research for you!

The succession from several generations now of family that have bred Simmental cattle with common philosophies throughout, is beneficial to the advantage that you have when incorporating a Rendezvous bull into your program. If you're needing 1, 2 or 10 bulls, the genetic prowess exists here for you to expand that important bottom dollar!

Quality replacement females are always something that exists in any herd's evolution. The heifers being offered in this large sale are of course sisters sired by the same patriarchs as the bulls. This segment annually offers, as said, a fantastic replacement opportunity, or the start of your new registered herd!

I have often spoke of the agricultural presence that Rendezvous Farms has, not only as a Simmental breeding program, but the diversity that exists inclusive to the respectable sized grain farming operation. This diversity adds more knowledge of the agriculture sector and in many cases, brings a common bond to so many that you will do business together as peers for many years.

Founding generation, Laurent & Lorraine, sadly both passed in 2022, and we once again leave our condolences to all the Maguets. But also happily, we can report that

next generation of the family continues to grow with 2 new children/grandchildren born in the past few months! Congratulations!

We encourage you to join us on February's Holiday Monday right on the farm, just off Highway 5, South of Ste. Rose in the spacious sale facility to enjoy the excitement of this live auction and of course some great Rendezvous hospitality! The sale offering are conveniently displayed in outdoor pens near the sales arena. All are welcome!

If you can't attend, but would like to visit about prospects that interest you to better your herd, please don't hesitate to call any of our cell phones listed. We will be on site the days prior to the sale analyzing the offering and are of course available to bid confidentially for you in your absence. Many cattlemen have successfully used this highly-reputable service with great satisfaction.

For the Maguet Families,

Jaymes E. (Jay) Good

Without a doubt one of the most talked about bulls to sell in the spring of 2016. Charles was bred by the wonderful people at Lockhart Valley Simmentals, Rimbe, AB. Lee, Tina & Hanna Robson toured us around their farm & made sure to show us the dam of this great bull. After only a few minutes of viewing both "mother & son", my wife Rachelle & I knew that we had to own Charles, there was no other alternative. We also knew there would be some very strong competition in doing so. When the dust settled, we managed to purchase him outright for a ground breaking \$75,000! We felt we needed to add this powerful, perfectly made, genetically unique individual to our herdbull roster for our customers as we know too well that trying to find that ideal individual in the Fullblood business is a very, very tough job. In all honesty, I've never been so excited about a bull as the day we saw Charles & that feeling has continued every single day. His first calf crop was embraced by both Purebred and Commercial breeders with his sons averaging \$10,616. The best thing we've ever done was use Charles in our program. We truly believe the best thing you can do is to use his sons.

Homo Black, Homo Polled There's a bit of a story as to how we acquired Percy 37D. He was originally purchased out of the MRL sale in 2017 by Grant Gordon, Kisbey, SK. When delivering cattle at Percyview one day, he showed me his bull pen. A particular blaze faced bull really stood out, he was so impressive, thick, long, wide topped & only a 2yr old! We kept this idea in the back of our mind & come the spring of 2019 after a few herdbulls getting injured we called up Grant to see if he would consider parting with his awesome bull. Anyone who knows Grant will tell you he's a heck of a good stockman & a real gentleman. As luck would have it, we managed to make a deal & Percy became our first blaze faced black herdsire. Percy himself is all about performance, his progeny have a lot of jam & should be a great fit for Angus cattle who need a bit more power.

Homo Black, Homo Polled Our pick of the Beast Mode sons at Lewis's 2019 sale where they were the feature sire group that year. Bringing fresh new genetics is paramount to our program & Avenger is a bull we are extremely high on. The absolute length of body, mellowness accompanied by square hindquarters makes this young sire a rising star with a lot of potential for years to come. Avenger saw heavy service in 2020 & we have a bunch of awesome looking calves already hitting the ground.

Commander was our pick of the Black Gold bulls in the well respected Next Generation Sale in Lloydminster in March of 18. He was also their second high selling bull that day. Randy & Vanessa Noble showed me both the sire & dam of this impressive young bull which really helped me cement the idea of adding him to our herdbull roster. He weighed over 1600lbs on sale day at 13 months of age. His superior depth & overall thickness is transferred over to his calves as well. We've been very pleased with how well he has bred, calved & in the development of both male & female offspring. Commander saw heavy service this year & we feel will really complement the Charles line in the Fullblood program.

Homo Polled Our new heifer bull who's really taking things to the next level. When I found this guy at Blair McIntosh's herd, I really liked him & you know what they say about first impressions. The more I circled him, the better I liked him & felt he would be the answer for heifers. With an 84lbs birth weight, +10.9 CE number, on top of a smooth shouldered, small head & long bodied conformation we figured this guy would be ideal for our program. Blair also showed me his dam & she is a nice moderate made female with a nice udder.

Fast track things to January 2020 when the real test would come to reality. Perhaps the easiest calving sire we've used to date. These Legacy calves slide out so easily, a few pushes & they are out. We are absolutely thrilled with how his calves get up & grow. You will be impressed with his offering & considering all of his sons & daughters are out of first calf heifers. Calving Ease & growth, all in a desirable package. We have nothing but good things to say about this young sire.

The search for the next heifer bull is a never-ending quest. When the opportunity presents itself, best to grab it has been our motto. Empire had all the positive attributes we look for when researching a calving ease sire plus his outcross pedigree to our program made it a slam dunk. One of the feature long yearling calving ease sires from LFE in 2020, we've been very pleased with how well he's worked out. Look to his sons for that same style, structure & smooth shoulders.

Our pick of the yearling red bulls at Lewis's in their 2020 sale. We really liked this Amber Jack bloodline & are happy to incorporate it into our ever-evolving red program. Thriller is dark red, long bodied & thick made. He is a great breeder & very athletic. The cow family behind this bull is top shelf & one of the very best according to Kyle. We have a great sampling of Thriller progeny in this year's sale & look forward to a large offering being born this winter.

Quality Fullblood bulls are always of huge importance to us. When we found Starfire, I was really captivated by his sheer length of body, free moving stride & overall structure. Josh Tyler made sure to show us the dam of Starfire, which definitely added to the positive checklist. A thick made & easy keeping bull, he ended up being the high seller for Red Willow at the 2020 Next Generation sale.

We typically like to get out & scout for new herdsires however with time constraints & unplanned need for an extra black bull we acquired Dynasty sight unseen through the T Bar crew. Between Ben, Shane & Chris, they unanimously gave us the green light on this feature bull. The Spring Creek program is highly respected & long-time breeder in the black Simmental business, therefore we were very happy to be the successful bidders on this bull. The Dynasty calves really stand out, they have that extra depth of body, great hair & mellow easy keeping characteristics. Check out his outstanding offering.

The lead off bull & one of the high sellers at the inaugural Spring Lake bull sale in 2020. We've had tremendous success with all our Zimmer bred bulls & we feel Centurion will carry on that track record. He's got that trademark purple red color, smooth shoulders, excellent calving ease yet has a lot of length & performance. He's built the way we like them, after seeing heavy service as a yearling, Centurion kept his condition & looked top shelf all summer. We used him on a lot of cows this past spring & are expecting a large calf crop to be born this winter.

The \$25,000 high selling red bull who created quite a stir at our sale 16th Annual sale. Larkspur Ranch of Eddystone purchased him to use on their elite cowherd of red goggle eyed Simm cows. After a glass or two of red wine, Kelly & Lorraine agreed to sell us a share back into this powerhouse bull. We used him sparingly on a handful of cows as a yearling. The following year he ran with our cows for 2 months then went straight to work at Larkspur. He came out of the breeding pastures in mid August after severe drought conditions & still carried great flesh. Look forward to the Glacier cattle in years to come, they will stand out.

Homo Black, Homo Polled The lead off & high selling bull from the Southwest Showcase Sale in Swift Current, SK, bred by Boundary Ranch. We had already started our breeding season when we purchased Motley therefore you'll notice his calves birthdate start later then the rest. Jay Good gave great praise on his thorough inspection of Motley for us, we bid a few extra times to get the job done & by judging his first calf crop, he was well worth his money. What impresses us the most with Motley is his true curve bending ability. His calves come small & easy, then take off & grow exponentially. Highly desirable traits in this day of age. As a 3 year old now, he is impressive.

Homo Polled The \$37,000 high selling bull from Oakview Simmentals who caused quite a stir in 2021. Hershey checked off a lot of the boxes for us when it came to selecting a bull who would be suitable for 2nd calvers. In saying that, many felt he would even work on heifers which after calving season, we would agree. However we've used him mainly on 2nd calvers & some larger framed cows to bring in some CE meanwhile maintain performance. A very docile bull, his progeny is the same. You can easily pick out his sons & daughters as they are very similar in structure, dark red hair coat, low to the ground, soggy made cattle.

Home Black, Homo Polled 476H sold through our 2021 Bull sale & was purchased sight unseen by Lakeside Ranch of Eriksdale, MB. Hardly a week into the '21 breeding season, his sire, Direct Drive suffered a major injury ending his career. Not knowing where we would find a Homo Polled, Homo Black bull suitable for heifers, we looked into our own bull pen. Many thanks to Frankie on allowing us to use his bull until the end of April that year. The resulting calves were exactly what we expected. They came out small & easy & have developed extremely well, displaying a lot of natural flesh, muscling ability & a great topline. You'll pick out the 476H sons in the pen, they definitely have their place.

AIA 182G MATERNAL BROTHER TO LOT 1

Hetero Polled, Hetero Black Performance, length, thickness & depth all in a well built package. 182K is pretty hard to punch any holes in. Soggy made, wide topped bull, he will crank out some scale crunching steer calves. His daughters will be top caliber, following into his mother's footsteps. Karson Haman of Rugby, ND has a maternal brother in their family's 900hd cow/calf operation along with the good folks at K Bar Livestock of Ste. Rose who own another brother.

Homo Polled, Homo Black An interesting blaze faced bull who will knock all the horns off & color them all black. His mother also has that symmetrical money stripe as well. A moderate made bull yet he weighs a lot for his size, having so much depth & middle. This guy will excel in those tougher pasture conditions as he will keep his condition year-round. A maternal brother was purchased by Reid McLoed of Plenty, SK in last year's sale. The year before a brother was purchased by Okraince Land & Cattle of Glentworth, SK.

Hetero Polled, Homo Black

A stout made bull who was born at 93lbs, he should give you the performance we all seek & still give you the calving ease advantage. Wide topped, thick butted with a large set of testicles. I can just picture him mature, he will be impressive. A brother sold in last year's sale to Haman Ranch, ND. The Haman's purchased 9 outstanding bulls in last year's sale. We certainly appreciate their support!

Homo Polled, Homo Black

A bull who catches your attention when walking through the group. He certainly has a presence about him. The heaviest black on weaning day, crunching the scale at 1095lbs at the end of August. An awesome performance bull who checks off the boxes for even the most discriminating cattlemen, ranking in the top 1% for both WW & YW EPD's. The dam of this bull is also a front pasture kind of cow, she has a beautiful udder, blaze down the middle of her head & a whole pile of middle & thickness. We have a full sister to this bull in our herd & she is set to calve in January. A maternal brother sold in 2021 to the great folks at Haman Ranch in Rugby, ND. The Haman family have been volume buyers in both 21 & 22 with a total of 15 bulls going to their program.

Homo Polled, Hetero Black

It truly feels repetitive when talking about these Avenger sons. They are all like peas in a pod. A bull with a lot of performance, just look at his weaning weight. His birth weight is a bit higher but he was born unassisted & is expected as his mother always has a bit heavier calf due to the extreme length. We've all learnt the value of pounds coming from long cattle, a trait that is worth capitalizing on. A full brother was selected last year by repeat customer Darwin Froese of Grandview, MB for \$6750.

Homo Polled, Homo Black A bull who's hard not to miss, he's had that herdbull look since a young age. Good hair, wide topped & thick butted, he should follow in his father's footsteps. Last year's brother was purchased by Hanna Geertsema, at age 3. One click on DLMS is all it took for this young lady to buy a bull for her dad Trevor. Grandpa David decided to pay for Hanna's first bull. Now that's really a story of starting them young in the cattle business! The Geertsema's of Ochre River have run black cattle for as long as anyone can remember in these neck of the woods.

Homo Polled, Hetero Black

A solid made individual with a balanced set of numbers. These Percy sons though less in numbers this year are really quite impressive. This guy is long bodied, good footed & has a big set of nuts. A brother sold last year to Ironside Ranch of Manitou, MB with T Bar's Levi Rimke handling the order. Other siblings have sold to Siroski Simmentals, SK, Mark Ferguson, MB & Vigfusson Farms Ltd, MB.

Hetero Polled, Hetero Black Our only black single cross bull this year, mothered by a first calf Fullblood female. A bull with a balanced set of numbers, he would be a great fit on second calving black females. Adding that shot of Fullblood behind him will greatly benefit your calf crop all the while keeping the variables in check.

Homo Polled, Homo Black

A beefy Dynasty son with a touch of the money stripe. An easy fleshing bull who adds a bit of that Fleck influence on his grandmother's side all the time maintaining the polled trait & color being Homo Homo. This guy's quarter comes down low & carries that extra meat which will translate into poundage. This guy is climbing to the top of the favourite's list more as every day goes by. Use him on some 2nd or 3rd calvers & he will get the job done.

Hetero Polled, Homo Black

If you like them big, long & powerful with some chrome, then 164K is the bull for you. A bull with a lot of grow, he pushed the scale down hard at weaning time, weighing in at 1075lbs. His mother isn't our biggest cow, but year after year she lays down, has a super long calf which does translate into a bit more birthweight but always does it effortlessly without assistance. Brothers to 164K have both went to North Dakota to guys who like to produce calves that tip the scales. David & Dawsen Bueligen own one brother along with Joe Haman & the boys owning the other one.

RENDEZVOUS MS STEAL 164C DAM OF LOT 20

Hetero Polled, Hetero Black

A bull with a lot of punch. Soggy sided, thick made with a lot of rib. We really like the way this baldy bull is put together. His dam is a fantastic cow who's gained some notoriety being the mother of Rendezvous Paramount who sold as our high selling black bull a few years back. He's done a great job at Spring Creek Simmentals, the results were evident last December at their dispersal. Buy with confidence with 230K.

Homo Polled A low birthweight heifer bull prospect with some LFE genetics on the top & bottom of his pedigree. A unique pedigree without a doubt plus the likes of Cobra in the back just sweeten the deal. The dam is a big barreled female who is developing into a nice, wide topped cow. We somehow missed testing him for color, he is out of 2 black parents & without going to the optometrist I would say he is black.

Kelly's first year in 4H,

Homo Polled, Hetero Black A solid built bull who travels out real nice. Everyone keeps commenting on that extra depth the Motley sons have all the while not displaying extreme frame size. 105K should be very similar to his sire once mature and hold a good size hoof. The dam of this bull is a long bodied blaze faced cow who goes back to a really hardworking Stealth cow, 164C. She also has a son selling in this sale, he's lot 20.

Homo Polled, Homo Black We really like the build of these Motley sons, they display a lot of rib, girth & overall masculinity. This bull's mother is perhaps our most eye catching black blaze faced cow on the farm. She's always in top shape, has a beautiful udder & great feet. Add to the fact that 16K is also 25% Fleck, you've got a tremendous genetic package in this bull. Brothers to this guy have sold to Bob & Shelly Dyck, MB, Darryl Craik, MB & Nick Stormo, SD.

AIA 16H MATERNAL BROTHER TO LOT 25

Hetero Polled, Homo Black

A bull with a ton of capacity, spring of rib & wide topline. This guy would also be an outcross to all of our other black bulls on offer being mothered by a Meadow Acres cow that goes back to their famed Pashmenia cow family. The dam is a big broody cow who packs some punch. 109K should be a double duty kind of bull, siring both market topping steers & tremendous replacement heifers.

Homo Polled, Homo Black

As time has progressed, one has to really appreciate the growth in this March born rascal. He boasts a ton of capacity, deep rib & wide top. I can just visualize him as a mature bull & he will be the one everyone picks out first. The Adj WW on this bull is worth noting. The grandmother of this bull typically cranks out one of the most powerful bulls every year, this year being no exception, check out lot 8. There's a lot of strength in this 98K bull's pedigree. I've seen bulls like this end up being the sleeper of the sale, mark him down in your catalog, he ranks extremely high in our books.

Homo Polled, Homo Black With this being the first set of calves off the \$33,000 Motley bull, we are very pleased with how he's produced. This rockin' good bull has the classic money stripe right down his head. When considering 342K's WPDA, he would rank as good as any of the January born bulls on offer. A maternal brother was purchased last year by Springbrook Farms of Fort Qu'Appelle, SK to produce more desirable replacement style females.

Will let you decide on which brother you prefer, quite frankly, most guys running a couple hundred cows would just take both home & run them together. This pair of Centurion sons are soggy, easy keeping beef bulls who will blend in performance & calving ease together. Cudos to the mother on producing these two bulls, they started out life small but have sure grown like weeds. A maternal brother sold last year to work in the Zdan Farms heifer pen for \$8000.

Homo Polled The trademark on this sire group is quite evident with the dark red color in all of these Centurion sons. Alaska & Benjamin on the bottom side, some bulls we owned & wish we could've used a little heavier if we could go back in time. With a low 77lbs birth weight, this guy should calve exceptionally well. A maternal brother sold in last year's sale to hard working brothers & guys who can fix anything, John & Dan Rosteski of Fork River, MB.

Homo Polled

Another useful solid red, natural dehorner here. Without being repetitive in these notes, this bull has that Centurion trademark of length, thickness & structural soundness he stamps all his progeny with. A different pedigree on the dam's side, tracing back to a black 680S son we purchased from Barry LaBatte over 10 years ago. Not too often you will find any 680S breeding in the red Simmis, here's an opportunity for any one wanting to add that bloodline into your program.

If there was ever a bull we could make the poster boy for this breed it would be 183K. What a standout bull. He is impressive from every angle. Thick & soggy, deep bodied with unreal spring of rib. This guy has the hair we need along with the thick, wide hind quarters & large testicles. He has herdbull written all over him. Weaning off at 1040lbs, this guy has been one we've been watching since he was a young calf. If your game is raising quality stock be it purebred or commercial, here's a bull who would do a lot of good in anyone's program. Sisters to this guy have sold to Percyview Farms, SK & Brett Siroski, SK.

Homo Polled

A bull who I would recommend to the most critical rancher, just on his mother's merit alone. A stout made, deep bodied, soggy bull who has those easy keeping genetics built right into him. His Benjamin mother is a never miss cow. She's a hassle free, bring home the bacon kind of cow. She raised a \$10,000 Patriot son a few years ago going to Aldentalers of South Dakota. She's also sent offspring to Triangle 33 Simmentals, SK, Double G Farms, SK, Abraham Farms, SK along with 2 daughters retained in our own herd. We could go on & on about this bull but will spare you the reading time & give you more time to visual evaluate this awesome bull for what he is.

Homo Polled

A square hipped, wide topped beef bull who will definitely add some meat to his offspring. 71K has a balanced set of numbers & has a few Skor bulls on the bottom side. We all know the impact the Skor program has had in the Simmental world. A full brother sold in last year's sale to long time customer Greg Dunning of McCreary, MB. A sister to 71K has a Glacier son selling in the sale, he is lot 38. You'll notice a lot of the same characteristics in that guy as well, which in turn shows you the consistency of these cattle we are raising.

Homo Polled

A popular bull in the pen with his baldy appearance package. From hoof to tail, this bull is super correctly built. Thick butted, wide topped with good length & depth. His hair coat is what we as breeders aim for, like it or not in our cold climate, these kinds of cattle excel. The 151A cow has been a pillar in our herd, she has generated a lot of revenue over the years & put a lot of sons in daughters in some of the leading herds across the continent such as Hill 70 Quantock, SK, Craig & Shannon Mills, SK, Taylor Wilton, MB, Boomer Creek Livestock, ON, Wilson Stock Farm, AB, Lone Butte Ranching, AB & Triple V Ranch, ND.

	95	855	808		6	4	67.5	99.7	35.1	2.4	68.9

Homo Polled The importance of hair on our cattle has never been greater. Without bringing back sour memories of all the storms in the spring of 22, you can easily spot the calves with some extra hair, they stretch out & run out on the straw pack a lot quicker than the flat haired ones. Look to 497K to add that hair along with muscling & depth to his calf crop. His mother is a really easy doing Express female. Express needs no new introduction here as anyone who's participated or watched this program knows the impact he's had. A maternal sister sold in 2021 to Bernard Viel of Quebec for his registered herd.

Homo Polled A smooth made blaze faced bull who's got a nice head & profile. The dam of this bull was an awesome looking cow with a beauty of an udder. She unfortunately got a bad bout of foot rot over summer & we had to send her to town. She struggled this summer to keep with the rest of the herd so her calf didn't

quite wean off at where he should have but he's really picked up the pace since then. Put all those things into consideration when evaluating this guy. A maternal brother was a feature red blaze bull last year, he sold for \$13,500 last year going to an awesome mixed farming operation near Hodgeville, SK, Stolson Farms Ltd.

Homo Polled There's a few of these Centurion X Mandako bulls selling & they all are similar in build & phenotype. One of the most common things we hear is how well it works to use some of these ½ & ¾ brothers in the same pasture. The increase in calf crop uniformity pays not only being able to group the calves in a better fashion but also with the more similar females you retain as replacements. A maternal sister sold in last year's sale to Dean Stewart of Watrous, SK.

Homo Polled

A popular bull here to say the least, he's been a real showboat since a young age. Exceptionally long bodied, thick made, super deep sided with a lot of eye appeal makes 458K one of the top bulls in this large offering. You'll have a hard time picking this guy apart. Watch him strut his stuff in real life or on his video, you will see he has that confident "I'm a herdbull look". The dam of this bull is one of my favourite young red cows, she is exactly what we aim our program to look like. If there was ever a red cow to flush here, it would be the dam of 458K. Last year a maternal brother sold to one of the sharpest cattlemen we have the privilege of doing business with, Ron Boerchers of Rainy Ridge Farms just down the road in Laurier, MB. Talking to Ron in November, he told me that's the nicest bull he's ever purchased... and Ron has been known to always pick out the good ones!

Homo Polled Some Spring Lake breeding on both the top & bottom side here with Centurion & Mandako. It's no wonder this guy is dark red! With a balanced set of numbers, 254K will deliver. With so many red bulls selling in this year's sale, chances are some of these mid February bulls could be overlooked, get some homework done, watch the videos on these guys & be ready to pull the trigger on sale day. A sister sold in this sale 2 years ago, she was purchased by our herdsman, Trevor Kristjanson, take note on that, as Trevor knows this cattle herd extremely well & knows the good ones.

Hetero Polled A powerful Centurion son who will just be a year of age on sale day. If you like them quiet & docile, this guy is for you. His mother is a larger framed Hummer cow who's had a few birthdays here & has cranked out a lot of marketable progeny over the years. She has a \$13,000 son working at Haman Ranch, ND. Another son over at Moose Creek Red Angus, SK, Plowboy Acres, MB also selected a son a few years back along with perhaps one of the best females Momotiuk Farms have purchased to date also came from the mother of 94K. With a track record like that, the book writes itself.

Homo Polled The last calf to sell from an epic, big volume, blaze faced Icon cow who did a lot of good here for over a decade. If you aim for predictability & base a lot of your bull buying decisions off of the mother cow, here's a sure fire bet. Two sisters to this bull also have sons selling in this sale, a Hershey son as lot 79 & a Legacy bull as lot 90. Brothers to 468K have had a profound impact on many people's herds. Talk to Brad & Deena Yaciuk of Ashville about their "468 Express" bull & what he's done for their program. Other brothers have gone to GV Thompson Farms Ltd, MB, Todd McPeak, ND & JR Richter, SK.

**Homo Polled**

A ¾ brother to the lot 58 bull. Between color & structure, pair these two together & they fit nicely together. 55K is wide topped, with quarters that come down low. A bull that would work well on some Hereford influenced cows or more Fullblood like Sims. A maternal brother sold in 2021 to 49th Parallel Farms Ltd of Pilot Butte, SK.

Homo Polled

We challenge you to find a darker red/purple bull than 34K. You can't eat color, however if your selling replacement females you'll likely already be aware how the dark red ones will be selected early on. 34K brings that element of no worries calving ease with his sire, Centurion, his grand sire Rambo & great grandsire Express. A maternal brother was purchased in our 2021 sale by 4M Cattle Co, Kevin Marcinek, AB to use in his heifer pen.

Hetero Polled A baldy bull bull, mothered by a really sweet baldy Alaska female with a very tidy udder. If you're wanting a bull to work on some 2nd/3rd calvers, add chrome & retain females, here's as good of a candidate as any. Born February 28th, he's no slouch in the pen.

**Homo Polled**

The only half blood bull on offer & he's a heavy hitter. Long bodied, smooth made, this F1 is the real cat's meow. Mothered by a moderate framed Red Angus cow with a tidy udder. 1002K is actually owned by our herdsman Trevor Kristjanson. Trevor has a few cows here with us, this is his only bull this year & he's a real dandy. Unregistered.

Consigned by
Trevor, Kayla & Axel Kristjanson

Homo Polled I had to do a double check when registering & doing footnotes on this guy. A March 1 born bull who's as big as the January boys. With an adjusted weight of 972lbs at weaning, this guy's stats are very impressive. Lots of hair, body length & overall thickness. The dam of this bull is a maternal sister to one of our high selling reds who sold last year to Tri-K Simmentals of Beaverlodge, AB.

Homo Polled

A son out of the lead off Rampage bull in our 2021 sale who was purchased by Cole & Landon Weiss of Maple Creek, SK for \$17,000. We used this exciting dark red bull on a handful of cows that spring before delivery & here is one of the resulting offspring. 43K is very well put together & checks off a lot of the boxes. Thick butted, hairy, long bodied & smooth built best describes this bull. His dam is a great young cow who goes back to a Bodybuilder female who was a front pasture kind of cow. 43K is a bull who's easy to recommend.

Homo Polled

A very interesting herdsire candidate. 102K came to us in dam from Jeff McRuer & family of Boissevain. We purchased this SVS Tycoon daughter as the high selling red female at Transcon's Season Wrap Up sale. This heifer laid down & calved this calf unassisted as I watched from my camera on the phone as we did chores. Since a day of age, this young guy has impressed us & has really kept up the pace. Thick made, long bodied with a pile of depth & performance. His pedigree is also a different twist for most. Considering he was born to a heifer, he weighed in at 985lbs at weaning time, needless to say that is quite a feat in itself. Expect good things to come from this outstanding bull.

Perhaps the longest bodied bull in the entire offering. That says a lot since we've always pushed to breed cattle with that extra length of body. There're not many free things in this business but length will give you free pounds which in turn is the difference between breaking even & making a profit. This bull is very gentle in his demeanor. We have a Legacy sired sister in our herd, she's a real dandy. 336K will give you maternal power on the female end & steer calves that push down hard on the scale on sale day.

**AIA 158J** MATERNAL BROTHER TO LOT 56

Homo Polled These blaze faced bulls are always popular with all progressive commercial breeders. It's no wonder, sit in at any local auction barn & watch those blaze faced calves top the market across the country. That distinguished Simmental influence indicates great gains to the feedlot operators. 158K should have some friends on sale day, he's deep sided, has great rib expression, large testicles & a good hind quarter. All characteristics we seek in our next herdsire. A maternal brother (who was also blazed) brought \$10,000 last year & sold to one of the top mixed farming operations we have the pleasure to do business with & also call friends, Bar 7 Farms Ltd, of Kelwood, MB. The Gilmore's run a very impressive red Simmental cow/calf herd & sell their calves annually through TEAM commanding top dollar every time.

The month of July flew by
 spraying & haying

Homo Polled

A choice bull here. If we had to retain a Thriller son to replace him at some point, we would be leaning pretty hard on this guy. This meat machine is super thick butted, full in the flank, deep bodied with great rib expression. A bull who will have some friends on sale day. His mother is an awesome blaze faced Caesar cow who impresses anyone while pasture touring. She's a big volume, high production kind of cow, being no stranger when it comes to raising the good ones. Last year she produced a high selling red at \$13,500, he was selected by top cattleman, Ryan Stolson, SK. The year before, she raised a high selling red heifer who was selected by another long time reputable cattle outfit, Double RN Ranching Corp.

Homo Polled

A Thriller son who ranks at the top of the red pen. As breeders we typically know which cows have that extra potential to crank out multiple top end bulls, 197K is no fluke. The dam of this bull is a phenomenal mother cow, dark red, good uddered, great milking, deep bodied, easy keeping female. She also raised our high selling bull in 2021, Rendezvous Lombardi at \$21,500 to Beechinor Bros, AB. John has been very pleased with the way Lombardi has worked & you will see some sons selling in their bull sale this spring. 197K is a long bodied, hard muscled, deep bodied bull who has a real presence about him. A bull with a bright future ahead of him.

Here's some natural flush mates & we didn't incur the costs of transplant work either. A pair of Thriller sons out of a really maternal, productive Red Knight cow. These two are similar in type & build, they are thick made, solid muscled with great length. We have 2 sisters to these guys producing in our herd, you will hear more about them in years to come. Another sister sold to Otter Creek Farms of Neebing, ON in 2020, a bull to B. Levandoski Cattle in 2019 & another bull in 2018 to Momotiuk Farms. Just ask Greg about what "Rambo" did for their program.

Hetero Polled With a larger offering of Thriller sons this year, we feel this really gives you the prospective customer the opportunity to compare with the other prominent red sires we've used. We also really like the genetic outcross that this sire group offers. 370K is a robust, deep ribbed, thick butted bull who should mature to be a good size. Mothered by a Rambo female, they make good momma cows that milk more than your average reds. A brother sold last year to repeat customer & good cattleman, Travis Burgard of North Dakota. The year before a maternal sister was the high selling open red heifer going to the highly respected program of Red Willow Ranches in Cutknife, SK.

Homo Polled

A popular red bull, he commands your attention with his thick made profile & impressive body conformation. A solid made individual, his mother has been a heck of a cow, this is her 4th consecutive son to make the bull sale. A full brother sold last year to long time customer, Mark Ferguson of Gladstone for \$6000, the year before a Patriot sired brother went to Haman Ranch of Rugby, ND for \$7000 & the first brother to sell through the ring in 2020 was selected by Schmitt Ranch, also of Rugby for \$8750. When you have high caliber cattle outfits like the above mentioned, that in itself is a real testament to the confidence they hold in this bull program.

Hetero Polled These Thriller sons are sure gaining in popularity with the commercial cattle producers. Rightfully so, they are thick made, hard muscled & keep their condition during breeding season. 129K is exactly all those things. Two brothers to 129K reside in our area, one next door at Denna Farms, Denis & Donna Parthenay's & the other at Trevor & David Geertsema's by Ochre River.

Homo Polled Here's a bull who's not to be underestimated. He may not be as big as his contemporaries today due to his age, however that may work to your advantage in getting him bought as he will likely fly under the radar. Interestingly enough, his brother last year was our heaviest red bull in the sale, he sold for \$13,500 to Glen Aldentaler of Britton, SD. You may see where I'm going with this footnote now. Another brother has sold to Nick Stormo also of South Dakota. We've retained a sister to 13K & have sold sisters that have went to Triangle 33, SK & Kwiatkowski Cattle, AB.

Homo Polled Likely one of the top red bulls to sell in this province all year. We just can't say enough about this amazing powerhouse. Dark purple red, long bodied, exceptionally thick butted, wide topped with a ton of depth, he looks the part from every avenue. Glacier has bred extremely well & this guy definitely takes the cake. If you like performance, which who doesn't, his 1050lbs weaning weight tells the tale of what kind of potential 39K beholds. The mother of this bull is no slouch of a cow around here, in fact she would rank in the top 3 for our red cows. She's awfully hard to fault & has the track record to prove it. Her first son was our lead off bull in 2021 selling for \$17,000 to Weis Cattle Co of Maple Creek, SK. Last year's son was also a feature bringing \$11,500 to Darrin Bulas of Plumas, MB.

**Homo Polled**

A ripping good power bull, here's a candidate for your top cows to make those big heavy steers the order buyers fight over in the fall. A wide topped bull with a deep quarter, he will mature into a very impressive bull. His mother is a fantastic broody cow who cranks out the good ones. A brother sold to Bert & Brett Levandoski of Eden, MB in 2021. The Levandoski's have bought 12 bulls here in the last 6 sales, we really appreciate your support every year. Another brother sold in 2018 to Bar 7 Farms Ltd., where he has gone on to be on of their feature herdsires.

AIA 93J, RENDEZVOUS CELEBRATION MATERNAL BROTHER TO LOT 69

Scurred. A bull with a lot of thickness, hair & top. Get behind this guy or any Glacier son for that matter & you'll see what we mean. We really like the dam of 93K. So much in fact we retained her Legacy son last year & used him in our heifer pen. We later sold him in the summer in a moment of weakness to Aaron Bergman of Langenburg, SK.

**Hetero Polled**

A good power bull here, backed by a great young Patriot cow. If there was one bull in the last 5 years that really shined through & surpassed our expectations with not only his sons but his daughters, it would be Patriot. The udders & feet on these cows are just ideal. 178K is a top notch bull from front to back. Thick butted, lots of hair, long bodied with good depth & balance. With so many red bulls this year, touring the pen can get a bit intimidating however, going home with this bull would be one of the best decisions you could make for your herd. A brother to this guy was one of my top picks back in our 2021 sale, he was selected by Dave Schultz to use in his registered herd.

Homo Polled A solid built bull out of a good producing, tidy uddered Hashtag cow. We often refer to what the mother has done as a signal of quality. The dam of 193K has put as many offspring into herds as any cow here. She's sent sons & daughters to Triangle 33, SK, Nick Stormo, SD, Ryan Alford, MB, Cornerview Cattle Co, ON & MJD Farms Inc, MB. 193K himself has good length, thickness & hair. After so many years of breeding for the commercial beef industry, bulls like this are exactly what producers seek.

Hetero Polled A more moderate built bull, who's dam was a 1400lbs cow. This guy will be a middle of the road kind of bull who will still give you the thickness & natural fleshing ability in your calf crop. A sister sold in last year's sale to Triple D Simmentals of Baldur, MB. Brothers have gone to Dombowsky Farms of Avonlea, SK & Austin Steffan of Manning, ND.

Hetero Polled

Cowboys look here, a blaze faced powerhouse with a thick haircoat for those frigid temperatures. Length of spine, depth of rib & absolute wide, thick quarter makes this guy a top prospect for any high end commercial breeder. He reminds us a lot of his sire in the way he is built. A brother to this guy sold in 2021 to Geisler Cattle Co for \$12,000. Randy is an elite cattleman & doesn't shy away from buying the good ones, he's built his herd with using only the best bulls & top management skills. 279K will put you on the map with the calves he'll produce, just get him bought.

Hetero Polled A bull who gets picked out easily when touring the reds. It's likely no wonder, he reminds us a lot of his sire. Rendezvous Glacier was the \$25,000 high selling red bull in 2020 who was purchased by Larkspur Ranch of Eddystone, MB. Purchasing quality seed stock definitely paid off for Lorraine & Kelly Johnson, they just came off a wildly successful bred cow sale in Ste. Rose last December.

There's no better way than growing up on the farm

A pair of Hershey brothers & it's getting tougher every day to pick between these two soggy meat machines. Mothered by a fabulous young blaze faced Mandako cow with a beautiful udder & is just the right size. Her own mother was a top Fullblood cow whom we bred red or black for a number of years to elevate our purebred programs with some of our best FB genetics. Don't take that fact likely as there is a reason why these two rascals are as good as they are. A maternal sister sold last year to repeat customer & longtime Simmental breeder, Jack Hansen of Neebing, ON.

RENDEZVOUS 451U MATERNAL GRAND DAM OF LOT 75 & 76

Hetero Polled

Be the first to get a Hershey son this season, you won't regret it. Just like the Hershey bull, 166K is a curve bender. Born at 76lbs & weaning off the cow at 875lbs at the end of August, those stats are what the cow/calf business is all about. This bull is long bodied, dark red & has a great hair coat. A free moving individual, be it via video or in person, you'll like what you see.

They say conformation is key, well here's your gateway to breeding correct made cattle. 269K is in our opinion, an ideal built bull. From top to bottom, front to back, he is smooth & shows that extra refinement, starting with his appealing head & eye appeal. Long bodied, deep sided & thick quartered & very well filled in the flank area this is a very exciting herdsire prospect. The dam of this bull is a lovely good volumed cow with a super tidy udder & perfect teat placement. She weaned this guy off at 1020lbs, rough math would peg her yielding 68% of her body weight in about 8 months.

AIA 237H MATERNAL BROTHER TO LOT 79

Homo Polled

The demand for these blaze faced bulls & replacement females has skyrocketed the last half dozen years. That signature Simmental look essentially secures you an easy dime per pound when selling your calves through the ring in town. 237K himself is long bodied, smooth shouldered, correct made, he's hard not to keep coming back to when touring the pen. A brother a few years ago sold for \$10,000 to Glen Aldentaler of Britton, SD. Another brother was selected by VanBuuren Stock Farms of Pipestone, MB.

Hetero Polled Yet again a dark red bull who will give you that balance of calving ease & performance. The numbers don't lie, born at 88lbs & weaning off at 925lbs, you don't need to be an accountant to figure out that he will be a money maker. This easy keeping rascal is thick butted, low to the ground & chuck full of meat.

The cow family behind this guy is stellar to say the least. A Patriot mom is like hitting the lottery, they are turning into quite likely our top producing young red females.

Homo Polled A son from the high selling \$37,000 Hershey bull, this guy shares a lot of those same traits as his sire. Thick made, good length, low to the ground & should breed like a jack rabbit, just like his sire. His Alaska mother has a beautiful udder & is turning into a really nice young female. A maternal brother sired by Empire sold last year to work on Travis Wadsworth's heifer pen, where he now calls South Dakota home.

AIA 214J MATERNAL BROTHER TO LOT 81

Homo Polled

Where do I even start with this guy! Here's an awesome herdbull prospect out of a fantastic first calver. 251K is a blaze faced beef machine. A barrel on 4 legs essentially. He moves out so well & has always carried that extra condition even at 3wks of age. Wide topped, thick butted, this is the goal for a first calver, look at those curve bending numbers from birth to weaning, pretty impressive. You won't find too many heifers that crank out 940lbs calves at weaning time, but when you do, buying such offspring is a heck of a great hedge for your next calf crop.

Scurred. An awesome built bull mothered by one of our very best Fulblood Charles heifers in the pen last year. 157K has a nice square hind quarter, a lot of top & overall muscling. Weaning off at 900lbs from a first time mother is definitely something to speak of. This guy also ranks in the top 10% for CE with a +11.3. If you're finding your Red Angus cows needing a bit more punch but want to maintain that calving ease look to 157K to get the job done.

Hetero Polled A unique pedigree with this single cross red bull, a Fulblood Commander daughter as the dam & the reliable go to heifer bull, Legacy as the sire. Here's the best of both worlds when it comes to the Simmental breed. A long bodied bull, with that curve bending capacity. Interestingly enough, the mother is a maternal sister to the \$25,000 Charles bull that Zdan Farms purchased back in 2020. Curtis says this is bar none the best bull he's bought to date. Bid with confidence on this Legacy bull, 344K, he's got all the genetic backing to make him a standout herdsire.

**Homo Polled**

A heifer bull prospect in our humble opinion. Born small at 81lbs & 11.5CE he ranks in the top 15 percentile of the breed. Small head, smooth shoulders all the things we search for in the never ending heifer bull quest. This super hairy bull is still thick made & has great structure. The pedigree on the bottom side is also very unique, boasting some legendary bulls we've used in the past yet you won't find much of elsewhere. This bull is a real find.

A powerful Legacy son from a Fullblood Banquet daughter. These first cross reds never goes out of style, though a lot harder to find these days. Dark liver red, just look at his numbers, born at 88lbs to a heifer, he will be a curve bender. We could ramble on about bulls like 8K but between his picture & video, will let you be the judge.

Homo Polled

A remarkable bull born to a fabulous easy keeping Walkerson daughter. The dam of this bull is one of our top blaze faced females born in her respective year. With her first kick at the can, producing such an impressive bull as 358K tells us she will have a bright future here. This particular bull has a lot of potential to breed him to a multitude of different cows in your program as he checks off a lot of the boxes when herdsire hunting. He's also in the top 15% of the breed for both CE & BW.

A personal favourite of mine in the calving ease/heifer bull department. Check out his numbers, they are extremely impressive, both EPD's & actual weights. With a +12.4 CE, that puts him in the top 5% of the entire breed. This baldy bull is smooth made, long bodied, thick butted & has those slender shoulders that will definitely translate into calving ease. I wish we had a picture of this guy with his mother at pasture as they both have the exact same baldy face. Expect to hear more about this guy's dam, she's done a fabulous job on her first calf.

82	725	790		10.9	1.4	62.7	88.7	24	6.8	55.4	

Homo Polled This guy was on our short list for retaining in our own herd as a replacement for his sire, Legacy. We will probably be kicking ourselves in a year's time not having kept him back. A bull we would have used in the heifer pen, that's for sure. Born small, like all Legacy offspring, 417K has developed very well. His mother is a lovely young Mandako female who went back to a pillar red cow, 475X. Being able to trace cows back 40+ years with our herd prefix is a real advantage when it comes to making those important breeding decisions. 417K will no doubt be the silver bullet you've been looking for in the CE department. We couldn't get a good picture of 417K but be sure to watch the video to get a true feeling of what we mean.

An interesting individual here. Born to a first calving Fullblood Virginia Banquet daughter, he came to life small & vigorously at 73lbs. Come weaning time, he surprised us all weighing in at a whopping 905lbs. This guy encompasses both calving ease & performance genetics all in a moderate but efficiently built package. Capitalize on owning an Empire son this year as this will be his last calf crop to sell. The Empire bull now calls Morgan Farms of Sifton, MB home.

Homo Polled

Probably the best Empire son to sell to date. I don't usually make such bold statements however 437K is really a cut above the rest. On paper this guy spells out calving ease. In real life when you start circling & evaluating him, you quickly realize he is also going to sire some growth in his calves. Likely the best of both worlds here. A bull whom we've really contemplated retaining for our own heifer pen, however we decided to offer him to the public. Opportunity knocks.

Hetero Polled We always breed our Fullblood females either red or black the first year as heifers & 175K is a great example of the results. A deep sided, long bodied bull mothered by one of our very top Charles daughters last year. The mother is actually a full sister to Rendezvous Max, the \$27,000 bull that McRuer Simmentals purchased a few years back & did extremely well with. Max is now working at Vandeveld's registered herd now.

Hetero Polled Deep, dark, cherry red, a prospect for some second calvers. This would be the first bull to sell out of a Rampage daughter. Rampage was the \$70,000 power red bull we purchased a few years back, he gave us waaaayyy more bulls than females but the few we did get are at the top of the replacement pen. 371K himself is an all around good useful prospect, he's full in the flank, has good quarters & moves out nicely.

in memory of Laurent & Lorraine Maguet

Grandma & Grandpa, married for 72 years, passed away within 4 days of each other. They worked hard & established this farm and are the reason our family has been in the purebred business for close to 8 decades. We would not be where we are today if it wasn't for all of their efforts & devotion, their love of the land & their livestock. May they rest in peace together forever.

Non-Dilutor This has been an absolute bullet proof combination for us. Breeding Charles to 85Z is a winning combination year after year. This particular bull is no exception. A very long bodied, deep ribbed, exceptionally thick butted bull with a perfect color pattern. Big testicles, masculine looking with his crest, he's a humdinger. Full brothers have been high sellers & have averaged \$13,250. They've sold to some of the leading commercial herds we have the privilege of doing business with, Kotowich Evergreen Farms, AB, Zdan Farms, MB & Mack Ranch, ND. We've only ever made one sister available; she was scooped up right away by keen Simmental enthusiast, Henry Janssen of Ste. Rose. Henry could school a lot of ppl on bloodlines. Obviously the mother of this bull has been one of our top producing cows in her career, she's generated over \$62,000 of revenue with 7 calves. The numbers don't lie with 85K, all signs point to great things for this fella's future.

Non-Dilutor Another bulletproof combination here, we've bred the 118Z cow to Charles since the first year we purchased the old boy. This will be the 6th Charles X 118Z calf, we've retained 2 sisters in our herd, sold one through the sale where she was a high seller at \$7000 to Crimson Creek Simmentals, MB. Brothers have sold to Roach Ranching, SK for \$13,000 and Andres Stock & Seed & Jason Becker partnered on one at \$15,500. This year's bull is one of the longest bodied bulls in the entire offering, he's marked the way we want them & is an overall very appealing package. Large testicles, yet smooth made with his length, he should calve well & produce some growthy calves. Mark this guy down, he's got the credentials to make a difference in your herd.

A poster boy for what most sought after Fullblood bulls should look like. Deep dark cherry red, masculine crest, long bodied, thick butted, wide topped, big nuted, he's the whole package. We've sold 82 Charles sons to date not including this year's offering, all by natural service might we add. 369K would rank at the top end of all these bulls bred here. His numbers read exceptionally well, his Milk EPD's puts him in the top 2% of the breed. A bull who deserves some serious consideration from both purebred & commercial beef producers. A full brother sold in 2021 to Leonard & Blair Zdan of Alonsa, MB for \$10,000.

Slam dunk once again with this genetic combination. Another powerhouse bull, there's a reason why this guy's mother gets bred the same way every single year. A feature Fullblood, he's looked stellar since a week of age. Weaning off at 1035lbs & boasting a jaw dropping +46 for Milk puts him in the top 1% of the breed. Long bodied, thick made, stands correctly & walks like a boss, here's a bull that will get things done. Full brothers have been high sellers every year, in 2020 Maple Lake Stock Farms purchased a brother for \$19,000 being the lead off bull that year. In 2021 another full brother was selected by Lake Manitoba Cattle Co of Vogar for \$13,000 to use in their highly respected program. Then last year in 2022, Dustin Heitkamp of Wyndmere, ND purchased another full brother for \$12,000. Pretty tough to argue with that kind of track record let alone reputation outfits purchasing those bulls.

If you like them big barreled, wide topped & with some punch, have a look at 396K. Length galore, tons of middle, big nuts, turn him loose with some Hereford cows & those calves will be impressive come calving time. Cockerill Farms of Roblin selected a brother to this guy a few years back. Dane tells us that his Fullblood herdsires he's gotten from us stand out & are his favorites, I'd hate to guess but that's probably out of 50 bulls or better in the Merridale hills.

Non-Dilutor It would be easy to buy this bull on pedigree alone. Being born from proven parents definitely makes the decisions a lot easier for anyone bull shopping with this guy in their sights. A full sister sold last year to neighbors down the road, Henry & Gail Janssen, longtime Simmental breeders. A full brother sold the year before commanding \$11,500 & going to Triple V Ranch of Carrington, ND to use on their good red SimX cows.

AIA 438H MATERNAL BROTHER TO LOT 106

ZSL MISS DAKOTA 151E DAM OF LOT 107

**Non-Dilutor**

Colored just like momma & his daddy, this awesome bull is an exciting individual. Smooth made, small head & built right, here's a bull who could work in a multitude of different herds & programs. We purchased his dam as a bred heifer from Eric & Doug Zimmer of Spring Lake Simmentals a few years back, she's been a great producer & like Doug had told us "She'll make a good honest cow" 3K himself has great feet, is very docile & ranks in the top 2% of the breed with a +42 for Milk. Look to this bull to raise you some amazing replacement females, if they're anything like his dam, you'll be pleased. A maternal brother sold last year for \$9000 to a really astute cattleman, Ken from Huron Colony, SK.

Non-Dilutor This is the 4th consecutive Charles X 160Z son on offer. This year's calf may have gotten a bit behind for a while due to his younger age & his mother suffering a bad bout of footrot. He ended up getting weaned off a few weeks earlier than the rest of the bulls due to his mother not being able to keep up to the rest of the herd. Evaluate this guy for what he is, long bodied, good hair, thick made & has the Charles look. If track records mean much, this guy's brothers have been high sellers every year. In 2020, a full brother brought \$21,000 to M.C. Quantock Livestock, AB, 2021 that brother sold for \$12,500 to S&A Frericks Farms, SD & last year in 2022 the most recent brother brought \$14,000 to Richard Van Sprundel, SK. From a genetic standpoint this bull is a real gem, don't pass him up.

AIA 160G (left) & AIA 160J FULL BROTHERS TO LOT 109

Non-Dilutor

The youngest bull on offer & the last calf born in 2022. We typically don't sell that many younger bulls like this however this guy we know will mature to be a top prospect. His dam is a roomy, easy keeping, good milking mamma cow who's done extremely well for us. Two full brothers to 191K have been purchased as high sellers for \$13,000 & \$13,500 to Jason Becker & Jeremy Andres out in the Roblin area. Typically when someone comes back the following year & buys a full brother, it's for a very good reason. Take that into consideration when looking at this 191K bull. A full sister to these guys has one of our best Starfire sons selling, he's lot 122. This just goes to show you the power in this guy's breeding.

FULL BROTHER TO LOT 112

Non-Dilutor This is the 11th calf from our epic 586U cow. A younger bull today but he will knock your socks off by the time he's mature. A full brother to the \$26,000 Rendezvous Prince Charles bull who was purchased by Spruce View Acres, AB. Another full brother sold last year for \$10,000 to Evan Okraince of Glentworth, SK. Now, let's talk about the dam, the 586U cow, having generated in excess of \$100,000 of progeny, all by natural birth. You don't come across those kinds of females every day, being hard pressed to find flush cows that would make that kind of money. Go for the gold here & get this herdsire prospect bought. The credentials behind him are unreal.

 RENDEZVOUS 80U

A stout made bull with that extra capacity & rib development. Wide topped, thick butted, loose hided, he's a well put together bull that stands out. This is the kind of bull that will breed even better than you hope for. He reminds us a lot of his full brother who was one of the leads offs in last year's sale. He was purchased for \$11,500 by Kotowich Evergreen Farms of St. Paul, AB. If you're ever up in that neck of the woods I encourage anyone to look these hard working folks up, you will be impressed by perhaps the best F1 SimmX Hereford cross cows in this country. Their replacement females top the market every year at NLS in Lloyd for a reason.

A rugged, stout made beef bull who will stamp his calves with a thick hind quarter, a ton of hair & some punch. Mothered by a great young Charles female with a super tidy udder, she traces back to a legendary cow family here, the 80U grandmother then goes back to the old 74D cow whose descendants always end up being features. A maternal brother sold in the 2021 sale for \$10,000 to Ken of Huron Colony.

If this bull isn't the ideal type for the commercial beef industry, it might be time for us to retire! A rugged, masculine beef bull who's got it all. Depth, thickness, loin, filled in the flank, the list goes on. One also has to touch on his hair coat, this is something we breed for & feel is very necessary with how frigid our winters can be. Weaning off his mother at 1005lbs at the end of August, he just spells payweight. A full brother sold \$9000 in 2021 to first time Simmental buyer, Gumbo Flats Ranch, ND. Another brother sold a few years ago, sired by Charles brought \$12,500 to Austin Vollman, SK. A Charles sired sister was a high seller in 2018, where she's done a tremendous job for Brooks Simmentals, SK.

RENDEZVOUS MS DRACO 76Z DAM OF LOT 116

We've had good success breeding Commander to all kinds of cows, the result has been very consistent & you can pick his calves out easily in both the heifer & bull pens. This 76K bull has those signature trademarks consisting of the extra depth of body, soggy make up & growth. Full brothers have both went south of here, to long time customers, one to McCreary at Richard Puhach's & the other to Kelwood at Bar 7 Farms. Other brothers have gone to the Lasota's of Chaplin, SK, Ryan Alford of Swan River, MB & Brett Callin of Bredenbury, SK. A maternal sister sold last year to Zach Nedelec of Meota, SK. Pretty impressive track record on this guy's mother if you ask us.

A very well pigmented bull with a ton of depth. You'd be hard pressed to find a deeper sided bull than 272K. He may not win the show ring, however he'll do much more than that by producing sound functional females. His mother is a lovely cow with super feet & legs & a ideal udder for a Fullblood cow. A brother to 272K went to work last year at Zdan Farms. A few years before that another brother sold to Darrell Goosen & boys of Kelwood. Darrell runs Ridge Road Welding & sells some of the strongest freestanding panels in the country!

Non-Dilutor These quality Fullblood bulls aren't easy to come by these days. They are no doubt tougher to make but when you hit the ball, it's usually a home run. 40K is a long bodied, good haired, thick butted beef bull, he's the rugged kind that pay their way & do a lot of good for a herd. His mother was our best Charles daughter born in 2019. The picture of her is as a bred heifer in October of 2020 on just dried out grass. She raised a sweet made

heifer who sold in last year's sale & was selected by Trevor Kristjanson...when the guy who works with them every day buys one, he should have a good feeling on which one to pick.

	103	900	844		2	7.4	80.4	121.9	41.3	2	81.5

Non-Dilutor These kinds of Fullblood bulls have gained a lot of traction in the commercial beef industry in the last 5 years. Their usefulness in crossing on red, black or char cattle have proven their worth. Plus, the additional milk component on the females off of these bulls have really been a game changer. A maternal brother sold in 2020 to long time customers, MJD Farms Inc. The Dunn's run a fantastic mixed farming operation just north east of Carman, their crops & cattle are of the highest quality.

Non-Dilutor

A fan favourite since a young age, this dark red goggle-eyed bull has the length, thickness, depth of body that really sets him apart. No doubt one of the features of his particular sire group. His mother was the pick of our G heifers in her respective year. Her full brothers have averaged over \$13,000. It's always the same cow families that yield your top calves every year & this is a great example of that scenario. A bull with big testicles, masculinity & character, he will have some friends on sale day. Would work really well on a pen of black cows being a non-dilutor.

It's been entertaining watching these two brothers develop. Born as twins but both were totally regular sized which is unusual but with a big roomy Fullblood mother, we've found this possible. These two guys are extremely long bodied, easy keeping, meaty individuals. The grandmother, 160Z has been a cornerstone cow in our Fullblood program, she's generated a pile of cash with her offspring. Siblings to these two bulls have sold to Spring Lake Simmentals, AB, Christian Doegler, MB & S&A Frericks, SD.

Non-Dilutor

22K will just be year old by sale day, he's a sharp looking Starfire son & mothered by a great producing Nero cow. When studying Fullblood genetics, one could say that he holds a rich & more diverse pedigree than a lot of the FB cattle you'll find out there today. A maternal brother was selected for \$7500 by Paul & Dee Valstar of Springside, SK in 2020. A sister sold in 2019 to TJ Farms of Drake, SK. A sister to 22K has a really impressive Commander son in the sale, he sell as lot 114.

You would be surprised by the amount of inquiries we get each year about tan Fullblood bulls. Here is this year's candidate. A low set, beefy made bull mothered by a moderate, fleshy & good milking Commander female. His birthday will be on sale day, put that into consideration when you evaluate his stats. If he's anything like the Starfire bull, he will grow out to be a good sized bull. We ended up selling Starfire this spring to the Gabors south of Plumas, MB as they needed a bit more bull power & we were winding down on breeding season.

Here's a blast from the past, the only Virginia's Kingbuster 6K son on offer. Many of you will remember his sire in the mid 2000's as he was one of our main go-to herd sires. We have some semen in the tank & decided to AI a few cows with Kingbuster in hopes to making some outcross females. Even though Kingbuster was bloodtype'd & all from back in the day, new CSA bylaws do not allow this bull to be registered. The bureaucracy won't change the fact that this bull is still a Fullblood but will sell with no registration papers. Most cows can't read papers anyways so I doubt they will mind, look to 562K to be a female maker.

AIA 562G MATERNAL BROTHER TO LOT 128

black open heifers

BLACK OPEN HEIFERS LFE AVENGER 834E DAUGHTERS

A feature black heifer who really stands out. If you're looking for a female with a bit more jam, here is one to consider. Long bodied, deep sided & broody, she will make a fabulous mother cow. Siblings to 12K have sold to North Coulee Cattle, SK, Chad Blair, MB, Clint Sigurdson, MB, Alex Ayotte, MB & Tiffany Sobie, MB.

This gal seems to always grab everyone's attention while in the pen. A classy looking female with a great top, thick hind quarters & great spring of rib. The bottom side of the pedigree includes some foundation Lewis bred bulls we used over the years.

I'm not entirely sure why we are selling this heifer however we certainly can't retain them all. This heifer has some top black bulls in the pedigree plus you'll notice some Charles breeding on the very bottom. Pretty neat genetic combination. The dam of this cow is a really easy keeping blaze faced cow. She raised a bull who sold in last year's sale to repeat customers, Momotiuk Farms of Winnipegosis to use in their heifer pen.

 RENDEZVOUS MS DRACO 126A

We all know a crucial trait in this business is longevity & fertility. 625K was raised by a 15 year old cow who's never missed a beat. We've retained 6 sisters to this heifer over the years. A brother was used successfully in Jack Hansen's purebred program in Ontario where they marketed numerous offspring from that bull.

The first set of Motley heifers to sell are in fact full sisters, mothered by a really sound & functional Western Star cow. These two are like peas in a pod, smooth made, feminine & deep ribbed. A maternal brother was selected last year by Jacob Bach of Watertown, SD, the year before that Larry Dudar of Ethelbert purchased a brother.

A middle of the road kind of heifer, she should turn into a good productive cow. A lot of cow power behind this female, Motley's mother is one of the elite cows at Boundary Ranch. Then add Western Star on the bottom side, you won't find another bull who corrected udders & built them the way they should be as him.

Another dandy Motley daughter. Mothered by an eye appealing blaze faced Western Star cow, with great feet & legs. The 108D cow has been a very consistent producer having put 4 sons consecutively through our sale. Those bulls sold to Salty Fox Farms Ltd, Fork River, MB, Rick Miller, Lundar, MB, Jarret Bieber, Wolsley, SK & Prairie Land Acres Ltd of Plumas, MB.

A 476H daughter out of a first calver. Great EPD's & great actual weights as well. Long bodied, smooth made & feminine. These open heifers will trade at half price compared to what breds will sell come fall time. Opportunity awaits.

A daughter of the now deceased Spring Creek Dynasty bull, she will be an impressive mother cow once mature. A soggy, mellow made female, this is what we all want our heifers to look like. The dam of this heifer has been a very reliable cow having produced a marketable calf every year. She's sent sons to Travis Burgard, ND, Bar 88 Ranch, MB, Springbrook Farms, SK, Mark Ferguson, MB. A daughter is also working in Quebec at Les Entreprises J.P. Barette.

A black Empire female who should grab your attention. Being able to cross the red & black cattle this way just gives us that many more options in the genetic vault. We're calving out the first set of Empire heifers this year & so far we are pleased with their development.

red open heifers

One of the heavier red heifers come weaning time. Our cows with heifer pairs go out on a pasture that is 15 quarters & has minimal cross fences, one paddock being 1000ac. They are not pampered, this is real world cattle that have to work. 539K is exactly that & will thrive under those conditions. If you want to raise bulls, here's one that is bred for that job.

The only way you could get this heifer any darker color is if she was black. This has been a signature trait in this entire cow family. Interestingly enough we have 4 generations of cows still on the farm producing today. That isn't something you see all that often. If they all stayed that long, its for a very good reason. Spring Lake Simmentals selected a maternal sister 2 years ago & we all know how dark red they have to be for Eric & Doug.

This heifer got orphaned in mid April, her mother sustained an injury while cycling & we had to put her down. Between stealing milk from other first calvers & some creep feed until June, she went to pasture with everyone else & came back home healthy & happy. These Legacy cattle are becoming fan favourites with everyone in both the commercial & purebred world.

It's amazing how much demand there is for these single cross reds, they bring the best of what the Red & Fullblood cattle have to offer. 199K is a stout, easy keeping heifer who should mature into the perfect size cow. The feet on these Legacy cattle have been excellent, a trait that is super hereditary.

A heifer who stands out not only because of her money stripe but because of her profile & pedigree. Mothered by an absolute tank of a Fullblood first calver, 585K will carry that extra milk into the next generation. With the grand dam & great grand dam still in the herd producing, take note, that spells longevity.

Gerry & Richard wiring up some lights for the calving pens

Ron Raffray is our night shift guy during calving & has worked here since 1990, thank you for all your years of service Ron!

Here's an interesting heifer to sell, a Empire daughter out of a Fullblood Charles daughter who goes back to a cow we purchased from the Camrose Classic sale a few years back. The only offspring we've sold from the Elsa 744E cow was her first calf, Rendezvous Governor who brought \$18,000 to Brooks Simmentals. Konrad tells us the impact Governor has had on his herd has been unreal. 626K could have that same potential.

An eye appealing heifer who catches your eye when she walks by. Easy keeping, good haired, quiet in nature. Her dam was one of our top Legacy females as a bred heifer. She did an alright job with her first calf as it shows in 72K. The grand dam is a sound, functional easy keeping cow who has an exciting bull in this sale, he sells as Lot 66.

Processing crew, we just have to convince Gerry on a hydraulic chute one of these years!

fullblood open heifers

FULLBLOOD OPEN HEIFERS LHSV CHARLES 29C DAUGHTERS

AIA 238F FULL BROTHER TO LOT 162

Here is a beauty of a Charles daughter right from the top of our heifer pen. It's hard to part with females of this caliber however with the numbers we are running we feel it is only fair to sell a few of those elite females every year. Full brothers to 609K have brought top dollars every year, they've went to some outstanding cattle operations such as Belle Plaine Colony, SK, Beau & Kelly Richardson, MB, Moose Creek Cattle, SK & Riverdale Colony, MB.

**AIA 312G** FULL BROTHER TO LOT 165

A younger heifer but perhaps the one with the most potential of them all. Her dam is a super productive cow with unbelievable depth of rib & length. She is a front pasture kind of cow. She's also raised some high end bulls such as last year's Fullblood high seller at \$16,500 to Randy Geisler. A few years before she cranked out another son who brought \$13,750 to Jeremy Andres & Jason Becker.

terms & conditions

TERMS The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp. and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
