**Feb 10th-15th 2023. 10am-4pm. Daily.**

To ensure everyone has an opportunity to tour through the bulls efficiently we have added open houses with coffee and snacks available for the week prior to the sale. If you are looking for some more one-on-one time with us to help select your next herd bull, then be sure to take advantage of the week prior to the sale.

*Longevity ~ Quality ~ Integrity*

Give us a call and stop in anytime! The bulls can be set up and on display for your viewing convenience anytime prior to sale day.

**Thursday February 16th**

1:00 pm Richmond Ranch Bull & Female Sale

**Sale Location:** The sale will be held at the Ranch, 5 miles East of Rumsey, AB. In the new shop south of the pens.

**Directions from Stettler:** go South on HWY 56 about 60kms. Turn West onto HWY 585, go 1 mile and the farm is on the South side of the road on RgRd 202.

**Directions from Trochu:** go East on HWY 585 about 40kms. The farm is on the South side of the HWY on RgRd 202.

**Directions from Drumheller:** go North on HWY 56 about 60kms. Turn West onto HWY 585, go 1 mile and the farm is on the South side of the road on RgRd 202.

*Stop in for a visit and tour of the bull pen anytime!*

**26 years! 6 generations! 3 breeds! 1 Family run operation!**

It is both an honor and a privilege to be your herd bull source. As we approach the 2023 bull sale season it is a touching sentiment to our family each year to receive so much support from our family, friends, neighbors, and customers. We would like to extend a token of gratitude for their continued loyal support and confidence in our breeding program. The cattle business has been our way of life for 6 generations now and each year we are extremely humbled and could not be prouder to see our prefix flourish in herds across Canada. Being a family run operation, we take significant pride in our cattle and every year we set the bar to breed the type of cattle that will be sustainable in the beef industry, while focusing on the productivity and profitability for the cattlemen who sell quality pounds for a living. Here at Richmond Ranch, it has been our unwavering belief in cow-families and have emphasized on having only elite females retained in the herd. Our disciplined breeding program has focused on structure, soundness, udder quality, performance, and maternal production. You can be certain that behind this stout set of bulls is a very impressive, hardworking, and productive set of females.

As we present what we feel is one of our strongest bullpens yet, we will continue with our Breeding Protection Plan to help ensure your investment is protected and, furthermore, your cows are bred. Understanding the importance of your investment in a herd bull along with the expectations that come with that, we would like to assist you in any way we can to make your selection easier. We hope that you will mark your calendars and join us, Sale Day.

Sincerely,  
The Richmond Family

We will be offering our Breeding Protection Plan once again. Our goal is to help ensure your cows get bred and your investment is protected. We know that no matter how many precautions we take, bulls will be bulls, and injury or death is always a possibility. We still encourage that the best defense you can buy is a backup bull. One that you have selected, that stands ready in your yard. However, we understand this is not always an option for everyone and have designed our Breeding Protection Plan to better serve our valued customers.

With an additional 10% on the purchase price of your new bull \* \$500 minimum\* - The Breeding Protection Plan will give you 1 year protection against injury or death with either a replacement bull, a credit for a future bull sale, or a combination of the two. If you should have any problem with your bull – Make Richmond Ranch your first call. Jim or Stephanie at 403-323-8433 or 403-368-2103.

Richmond Ranch will do our best to resolve any issue with honesty and integrity to keep you a satisfied and repeat customer. That is our uncompromising commitment. Under our Breeding Protection Plan your bull is protected from injury, sickness, accident, structural breakdown, or death. The Breeding Protection Plan will not protect from any injury or death due to malicious, willful intentional acts of mistreatment.

Richmond Ranch retains the right to request photos.

Richmond Ranch retains the right to request a vet report or Postmortem.

Please feel free to give us a call anytime to discuss this Breeding Protection Plan

**EPD's are available upon request. They can be found on each respective breed association website.**

### **Producing Cattle that GAIN on GRASS.**

The 2023 bull pen gained over 3 lbs. on grass

We are very proud of this offering. The purebred cattle here at Richmond Ranch are raised ranch style and calved out the way you calve, so the cattle will excel in ranch conditions. The do it themselves ranch cows stay out on native grass until late fall when the calves are weaned off. The calves are wintered in a 20-acre pen on a combination of quality forages ensiled to get them through the winter and back on Grass. This program is designed to develop cattle for longevity and success in any program. We have always selected cattle that thrive on grass, selecting powerful herd sires that stick to the basics of beef, thick and naturally fleshing. This past May 27th we took a weight on our sale bulls just before we sent them to grass. We brought them back home on Oct 8th for a weight off pasture. They went back to the pasture but were supplemented as grass was becoming dormant.

The Bulls came back to the yard Nov 12th for the winter to get ready for the sale.

We calculated the Gain on Grass from the May 27th weight and the Oct 8th weight. Over the 134 days the whole pen averaged 3.29 lbs. per day – (The Cheapest gain we can get!)

We have entered this data on each sale lot under “GOG” Gain on Grass.

We also calculated their Average Daily Gain from Oct 8th to their Jan 1st weight.

Over the 84 days the whole pen averaged 3.46 lbs. /day

We have entered this data on each lot under “ADG” Average Daily Gain.

**When pounds and profits matter, choose your next herd bull from quality genetics.**

**Cattle Nutrition:** At Richmond Ranch our goal is to develop the cattle for longevity and succeSS in any program. The bulls are fed a growing ration of corn and barley silage, chopped hay/straw, and a Bullseye supplement at 0.75%. This system allows us to grow the bulls to seek the performance while maintaining their natural muscle shape. Our goal is to not only have bulls looking good for sale day, but most importantly, looking great while working in your pasture during breeding.

New Date, same high quality!!! Feb 16th, 2023, plan to head to the ranch for an outstanding set of bulls. With the hot dry conditions forage volumes were "okay", but as predicted quality was high. I have had the pleasure to work along side the crew at Richmond Ranch to develop balanced diets that start with high-quality on-farm ingredients. The cow herd utilizes a customized mineral program that is balanced throughout the year. This supports proper bull calf development from a young age. The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms and then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a foraged based TMR to help them develop to their

genetic potential. Organic minerals are used to ensure proper immune function and overall health. This program uses a total nutrition program on their entire operation, ensuring optimal cattle performance. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

**Doug Roxburgh**  
*Beef Consultant*  
**(403) 392-4541**

[doug.roxburgh@bullseyefeeds.ca](mailto:doug.roxburgh@bullseyefeeds.ca)

**Vaccination Programs:** All our livestock are on the Express Verified Program as well as given a combination of Safe Guard, Clean-up 2 and Ivomec for parasite control. The calves are vaccinated and bolstered with Pyramid FP5 and Presponse SQ and Fermicon 7/Somnugen.

**Breeding Females:** In addition to the above, our females receive an annual shot of Express FP 5 VL5 prior to breeding. The bred females get vaccinated with Scour Bos.

**Semen Testing:** All bulls have been tested, measured and palpated through the Stettler Veterinary Clinic by Veterinarian Dr. Jackie Dobinson.

*If you're reading this, you are likely considering this great offering of bulls and females and everything that they will bring to your herd. Quality herd sires offer the fastest way to impact genetic potential in your herd. From a veterinary perspective, we often encourage producers to know the health of the animal they are bringing in to ensure that it's going to be a good fit. Richmonds due dilligence is spot on. The vaccination and health program at Richmond Ranch is the gold standard of veterinary recommendations. From a reproduction standpoint, everything in this sale is reproductively sound with a veterinary breeding soundness examination and their own responsible breeder guarantee. Health is directly linked to production and production is directly linked to dollars. Years of experience here and sound practices make up the quality you'll see flipping through these pages. We are proud to work with Richmond Ranch and congratulate them on another great offering!*

Sincerely,  
Jackie Dobinson, DVM Stettler Veterinary Clinic PH (403)742-3338

# *LIMOUSIN DIVISION*

*Offering Elite Limousin Genetics*

## **Are you looking for calving ease? Check out our calving scores on each bull!**

**Calving Rating or CR:** We have taken into consideration our knowledge on the cow families, calving histories, birth weight, and phenotypical shape as a baby calf to help you better select a herd bull based on your calving needs. These numbers are not calculated; they are an estimate based on how we ourselves would use the bull if we were breeding our own cows. \*All Bulls are guaranteed to calve easy on cows\*

3 = Could be safely used on heifers.

2 = May be used on heifers with a family history of calving ease. Could be used safely on all cows.

1 = Can be used safely on all cows.

## **Richmond Docility Rating or DOC:**

This docility rating has been established to help you determine the temperament and manageability of the bulls. We as breeders strive to hold our livestock to a high standard and that includes docility. In our program, we do not tolerate any problem animals and feel you should not either. No one knows these cattle better than us and throughout the calendar year these bulls have been sorted, processed, handled numerous times, and are strictly culled to remove any behavioural problems. Below is an index defining the different categories we have decided upon. These are simply our ratings and cannot be compared to other breeders or numbering systems.

**The individual ratings on the bulls have been formed after each bull has been handled alone.**

1 = Pets – These cattle are exactly that, pets. They can be scratched in the pen and handled at all times.

2 = Calm – These cattle are very quiet, easy to handle when isolated. They do not frighten when you are working them, they are easily approached but you cannot get close enough in the pen to scratch them.

3 = Average – These cattle are calm in the group; you can walk through them without disruption. When sorting these cattle, they are easy to stop and hold, but can get uneasy and impatient when worked alone.

4 = Restless – these cattle are the ones at the back of the group in the pen; they do not disrupt the rest of the pen; they are manageable in a group but become agitated and nervous when isolated or worked alone.

5 = Nervous – these cattle are constantly moving away from you in the pen, can disrupt the group, and needs to be managed with a buddy. These cattle are hard to stop when sorting and become easily agitated if alone.

6 = Heads Up – even in a group these cattle have a big flight zone. They will be the first to run away, should be handled with a buddy and cannot be stopped or isolated when sorting in an alley. These cattle can become aggressive and are culled from our herd.

## **Richmond Docility Rating or DOC:**

This docility rating has been established to help you determine the temperament and manageability of the bulls. We as breeders strive to hold our livestock to a high standard and that includes docility. In our program, we do not tolerate any problem animals and feel you should not either. No one knows these cattle better than us and throughout the calendar year these bulls have been sorted, processed, handled numerous times, and are strictly culled to remove any behavioural problems. Below is an index defining the different categories we have decided upon. These are simply our ratings and cannot be compared to other breeders or numbering systems.

**The individual ratings on the bulls have been formed after each bull has been handled alone.**

1 = Pets – These cattle are exactly that, pets. They can be scratched in the pen and handled at all times.

2 = Calm – These cattle are very quiet, easy to handle when isolated. They do not frighten when you are working them, they are easily approached but you cannot get close enough in the pen to scratch them.

3 = Average – These cattle are calm in the group; you can walk through them without disruption. When sorting these cattle, they are easy to stop and hold, but can get uneasy and impatient when worked alone.

4 = Restless – these cattle are the ones at the back of the group in the pen; they do not disrupt the rest of the pen; they are manageable in a group but become agitated and nervous when isolated or worked alone.

5 = Nervous – these cattle are constantly moving away from you in the pen, can disrupt the group, and needs to be managed with a buddy. These cattle are hard to stop when sorting and become easily agitated if alone.

6 = Heads Up – even in a group these cattle have a big flight zone. They will be the first to run away, should be handled with a buddy and cannot be stopped or isolated when sorting in an alley. These cattle can become aggressive and are culled from our herd.

# ***ANGUS DIVISION***

***Offering Elite Black Angus &  
Red Angus Genetics***

## Are you looking for calving ease? Check out our calving scores on each bull!

**Calving Rating or CR:** We have taken into consideration our knowledge on the cow families, calving histories, birth weight, and phenotypical shape as a baby calf to help you better select a herd bull based on your calving needs. These numbers are not calculated; they are an estimate based on how we ourselves would use the bull if we were breeding our own cows. \*All Bulls are guaranteed to calve easy on cows\*

3 = Could be safely used on heifers.

2 = May be used on heifers with a family history of calving ease. Could be used safely on all cows.

1 = Can be used safely on all cows.

### **Producing Cattle that GAIN on GRASS.**

The 2023 bull pen gained over 3 lbs. on grass

We are very proud of this offering. The purebred cattle here at Richmond Ranch are raised ranch style and calved out the way you calve, so the cattle will excel in ranch conditions. The do it themselves ranch cows stay out on native grass until late fall when the calves are weaned off. The calves are wintered in a 20-acre pen on a combination of quality forages ensiled to get them through the winter and back on Grass. This program is designed to develop cattle for longevity and success in any program. We have always selected cattle that thrive on grass, selecting powerful herd sires that stick to the basics of beef, thick and naturally fleshing. This past May 27th we took a weight on our sale bulls just before we sent them to grass. We brought them back home on Oct 8th for a weight off pasture. They went back to the pasture but were supplemented as grass was becoming dormant.

The Bulls came back to the yard Nov 12th for the winter to get ready for the sale.

We calculated the Gain on Grass from the May 27th weight and the Oct 8th weight. Over the 134 days the whole pen averaged 3.29 lbs. per day – (The Cheapest gain we can get!)

We have entered this data on each sale lot under “GOG” Gain on Grass.

We also calculated their Average Daily Gain from Oct 8th to their Jan 1st weight.

Over the 84 days the whole pen averaged 3.46 lbs. /day

We have entered this data on each lot under “ADG” Average Daily Gain.

**When pounds and profits matter, choose your next herd bull from quality genetics.**

### **Breeding Protection Plan**

We will be offering our Breeding Protection Plan once again. Our goal is to help ensure your cows get bred and your investment is protected. We know that no matter how many precautions we take, bulls will be bulls, and injury or death is always a possibility. We still encourage that the best defense you can buy is a backup bull. One that you have selected, that stands ready in your yard. However, we understand this is not always an option for everyone and have designed our Breeding Protection Plan to better serve our valued customers.

With an additional 10% on the purchase price of your new bull \* \$500 minimum\* - The Breeding Protection Plan will give you 1 year protection against injury or death with either a replacement bull, a credit for a future bull sale, or a combination of the two. If you should have any problem with your bull – Make Richmond Ranch your first call.

Jim or Stephanie at 403-323-8433 or 403-368-2103.

Richmond Ranch will do our best to resolve any issue with honesty and integrity to keep you a satisfied and repeat customer. That is our uncompromising commitment. Under our Breeding Protection Plan your bull is protected from injury, sickness, accident, structural breakdown, or death. The Breeding Protection Plan will not protect from any injury or death due to malicious, willful intentional acts of mistreatment.

Richmond Ranch retains the right to request photos.

Richmond Ranch retains the right to request a vet report or Postmortem.

Please feel free to give us a call anytime to discuss this Breeding Protection Plan.

Simmental heifers.

**SS**

Bred to a proven limo heifer bull.

Due to start calving March 16.

We are looking for more heifer calves with Richmond Ranch genetics to produce commercial bred heifers for the 2024/2025 Richmond Ranch bull Sale. If you are interested in partnering with us on this new growing venture, let us know so we can plan a herd tour and make some plans.

Looking for our bred heifers? We're sorry you missed them but don't worry they are still available. Some big changes have taken place along with moving our sale date. They will be available this spring, calved out, after all the risk and work is done. We will video the pairs in the spring and post the videos. Please leave us your name and we will contact you directly.

## TERMS & CONDITIONS

**Guarantee:** Every lot is sold fully guaranteed. Every bull will be semen tested. We produce a quality product; therefore, we stand behind that product 100%. All bulls will sell under the normal breeder guarantee recommended by the Canadian Limousin Association and the Canadian Angus Association – printed on the back of your receipt. Richmond Ranch is never responsible for more than the value of the sale price of the bull(s) or female(s).

**Terms of the Sale:** Cash or cheque at par, payable to Richmond Ranch LTD at the clerks' desk Sale Day. U.S. funds will be accepted at current rate of exchange. No release will be given until settlement has been made. Please talk to us prior to the sale to make further arrangements. Should any purchaser fail to settle for their purchase; Richmond Ranch reserves the right to resell the animal to their best advantage either publicly or privately, without further notice.

**Disputes:** In the case of any disputes, the Auctioneer will open the bid between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**Announcements:** Any announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**Breeding Protection Plan:** Ownership to the purchaser commences when the Auctioneer's hammer falls. Each animal becomes the risk of the purchaser as soon as sold. Livestock Breeding Protection Plan will be available by adding 10% to your invoice at the clerk's desk. \* \$500 minimum\*

**Accidents:** Those who attend the Sale do so at their own risk. Neither Richmond Ranch, sales staff, or the auctioneer assumes any responsibility in the matter, and disclaims any legal or otherwise in the event of an injury, accident, or loss of or damage to property or person.

**Delivery Options:** We encourage you to discuss arrangements prior to the sale. Bulls will be delivered free of charge to central points in Western Canada (Alberta & Saskatchewan) at Richmond Ranch's convenience and at owner's risk. For cattle going to Eastern Canada or the US, we will arrange trucking at minimal cost to the buyer. If this delivery time is not convenient for the buyer, the bull(s) or female(s) will be kept free of charge and the buyer can pick-up the bull(s) at their convenience. Richmond Ranch recommends that all bulls left on site are to be enrolled in the Breeding Protection Plan or Insured.

**Transfer of Paper:** The registration papers will be transferred to the new owner upon receiving payment in full.

**Semen Collection:** Richmond Ranch reserves the right to collect in-herd use semen on any bull in the sale. This will occur at the expense of Richmond Ranch and at the buyer's convenience.

**Sight Unseen Purchase Plan:** If you are unable to attend sale day, we would be more than happy to assist you in your sale selection. Please feel free to contact any member of the Richmond Family or any of the sales staff. Every effort will be made to get you the right bull or bulls, at the right price to make you a repeat customer.

**Homozygous Polled Testing** was completed at NeoGen. Richmond Ranch does not guarantee the results. EPD's are available upon request. They can be found on each respective breed association website.

By attending the Richmond Ranch Bull & Female Sale, you are granting permission for your picture to be used for promotional and advertising purposes related solely to the Richmond Ranch Bull & Female Sale.
