MOOSE CREEK RED ANGUS YEARLING BULL SALE

Welcome to the 29th Annual Moose Creek Red Angus Yearling Bull Sale.

First things first, forewords and catalogues are something I've been getting lots of practice doing. As I look ahead to the completion of this one, there is one thing that I'm not getting tired of; selling cattle at these record prices!

Thank you to the bidders and buyers who made our February 2-year-old bull sale a huge success. On the top end bulls, bidding was fast and furious. On the more common bulls, it was quiet. That knowledge moved us to trim the numbers down in this sale. The contraction of cows in the industry is a cause and effect to our market. Calves are in higher demand, cows are in short supply and bull sales are plentiful.

I've touched on one of the obvious changes from last spring; prices, but the most impactful has been the weather. An enjoyable winter, adequate snow and hopefully a spring more lamb than lion is awaiting us. Not a single producer was interested in expansion after last spring. This year, I'm hoping those that could and did stay, are rewarded for their hard work and perseverance.

Our bull pen isn't as heavy and stout as years past. No denying it. March and April kicked the shit out of these calves and their mothers. They are making up ground everyday but will be a different group to view than previously. Also, more heifer bulls from 1st calvers than years before have changed the scope of the pen. But, the same quality, soundness, athleticism and breeding integrity is in each and every bull.

Please join us in-person or online if you're busy or in the middle of calving. We'd love to host you, bore you with our stories and make you laugh at our off-coloured jokes. That's what this business is all about!

Thanks and have a great, healthy 2023!

"There are no EPD's on the sale bulls. It's a decision that we've been wrestling with for the past few years. When the process of calculating EPD's became a battle of contemporary groups, the numbers become nothing more than marketing fodder. No different than show results or photo-shopped pictures. Instead of looking at fictitious, uneducated guesses, tour the cow herd, visit about the feeding program, and ask about the operations breeding philosophy. You'll learn a hell of a lot more from that, than from some indexes."
