THE
BEST OF THE BREEDS

■ Selected by many ■ ■ Supplied by few ■

Bulls on Offer...

- 18 ■ Yearling Black Angus
- 17 ■ Yearling Red Angus
- 31 ■ Red & White Charolais
- 24 ■ Red, Black & Fleckvieh Simmental
- 14 ■ Red & Black Gelbvieh

- All bulls are semen checked and veterinary inspected.
- Semen tests, all scrotals and weights will be available sale day.
- Half down on sale day with a May 1, 2017 post-dated cheque for the balance.
- Insurance available sale day.
- **Sight Unseen Purchase Program:** For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar or any of the sale staff.
- **Right to Draw Semen:** In the event that we would like semen on any of the bulls selling, we reserve the privilege to draw semen in the off season at our expense for in-herd use only.

“Haul your own bull” \$100.00 off per bull - If you bring your own trailer and take your bull home, receive a \$100 credit off your purchase.

Or Pay \$100.00 upfront sale day and we will take the yearling bulls home, feed and deliver them by June 1, 2017.

Payable at the time of settlement.

All bulls to be taken home and boarded must be insured.

Note - All 2 year old bulls must go home with buyer after the sale unless prior arrangements have been made with the breeder.

■ **Delivery:** We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

Host Hotel

Parkland Inn - 2 Kelsey Bay, Yorkton, SK 306-783-3297

We invite you to join us

Sale Day ♦ 12:00 Noon - Cattlemen's Lunch Available

Sale Starts: 2:00 pm

Please bring this catalogue with you sale day.

From the desk at T Bar...

Breeder quality with customer satisfaction is what makes an event grow and prosper or go the other way! From a small plan by Merv Schmidt (Belmont Charolais) thirteen years ago, "Best of the Breeds" has become a supply centre for five breeds and a "must attend" source for genetic quality... this fact is proven by the demand of many repeat customers over the past twelve years. At the onset, the plan was to supply local area livestock producers; but the plan altered, as customers have selected bulls nationwide!

This group of breeders come together with one common goal.... produce and supply the finest genetics possible for their customers to profit by. The mix of breeds is ideal as they are the tools for successful cross-breeding. The powerful performance of the continental breeds mated to the British breed with high maternal and calving traits is the ideal combination for the producer, the sale barn, the packer and Mrs. Consumer.

After touring the herds, we are excited about this powerful yet diverse offering of sires. Several breeder quality bulls will headline this event in addition to a strong group of ranch bulls with hair, shape and testicles.... ready to get the job done. Feel free to visit any of the herds and preview the bulls in their own environment where you can see the mothers or call any of these progressive breeders and they can answer any queries you might have. The bulls will be available for viewing on Saturday, the day prior.

Plan to be with us at Heartland, Yorkton on Sunday March 26th for lucky thirteen 'Best of the Breeds Bull Sale.' Come early and be guests for a complimentary noon luncheon, complete with hot and cold refreshments. Top bulls...top breeders...great hospitality....you owe it to your cows!

If we may be of assistance prior to or sale day feel free to call any of the T Bar Team or myself, we are willing to assist you in a professional, confidential manner.

BLACK RIDGE ANGUS

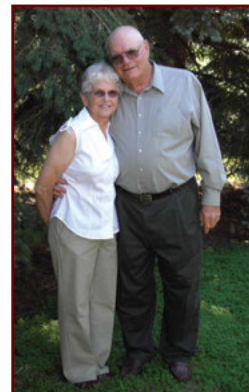

Black Angus

John, Bonnie & Family

My Grandpa and Grandma Moleski settled here on this farm back in 1905 and always had black cattle. But it was 60 years ago that my dad, when he was 20, officially registered to become a breeder of Purebred Black Angus Cattle. To this day, both my mom and dad are still living here helping everyday with the cattle. My boys, Chance and Lane, mark four generations living in the same yard that my grandpa settled.

The bulls were developed similar to last year, free choice whole brown oats mixed with 32% protein supplement, mineral tubs and hay, and then in the New Year we offered them free choice silage. Again these bulls have exceeded our expectations with their performance on whole oats. Please feel free to call or stop by at anytime. Please also check out our facebook page for pictures, videos and updates. The two year old bulls this year we have decided to leave at the farm due to – once sold and if they need to come back home they fight too bad and are very likely to get injured when reintroduced back into the pen.

 BLACK RIDGE LEAH 52C

A bull that has looked good since birth. Dam is a moderate framed wide based young cow that comes from a very good cow family here at the farm. Her pedigree combines Net Worth, Elba 1094 and 7078. and she is proving herself better every year. This bull weighed 1004 pounds on October 25 and 1460 pounds on February 10.

S A V Resource Sons

SAV Resource 1441 has sure left his mark in the Angus breed in a few short years. These three son's are all very similar in type. Wide based and topped, thick from muzzle to tail, low to the ground and very masculine and heavy muscled.

LFE Lewis 3028Z Sons

This is "Louie's" second set of bull calves coming to town. Louie saw very heavy service here siring over a 100 calves in natural service in two years, and he is still fit as a fiddle. A good description is the old cliché - Guts, Nuts and Butts...in a moderate frame and he is a very easy keeping bull. We feel his sons will be very similar to their sire.

A bull whom we should keep for ourselves, this calf is really impressive when you get into him, super wide top, so much capacity. His dam is a young cow who comes from an extremely solid cow family here at the farm. Weaned on October 25 at 1002 pounds, February 10 Actual Wt 1465 pounds, (just 4 days shy of his birthday).

CANADIAN NATIONAL LIVE STOCK RECORDS
 OTTAWA, CANADA

Date June 21/57

Name Steve P. Moleski
 Address Box 113, Dysart Sask.
 The letters **D U M** have been registered for your exclusive use in tattoo marking your **Angus** in the right ear for identification.

Animals born your property must in addition to these letters be tattooed in the same ear with a number commencing with "1" each year followed by a letter to designate the year of birth. Designating year letters are — ("J" for 1954), ("K" for 1955), ("L" for 1956), ("M" for 1957), ("N" for 1958), ("P" for 1959), ("R" for 1960), and so on. The letters "I", "O", "Q" not used as year letters.

When tattooing, place the number before the year letter, as 2G, 2H, 2J, 2K, and so on.

When making application for registration please state on each application form markings exactly as they appear in ear. This will be shown on certificate of registration, Directions for tattooing on other side.

These two bulls are out of the \$146,000 valued bull Believe, and these guys will be some of the first Believe calves on offer. We used Believe in the heifer pen and they were all born easily and unassisted.

Black Ridge Bulls Eye 3B Sons

This is the first set of calves from a bull whom we raised and used ourselves. He was used almost strictly as cleanup in one pasture and we managed to get 25 calves out of him as a yearling. He combines SAV Harvester 0338 and our old donor cow 60K. A neat twist in the pedigree is that her grandma was born 43 years ago – in 1974! These calves have tremendous performance, they are super deep, fleshy and have great hair. These sons of Bulls Eye have really impressed and they should add POUNDS to your calf crop.

This calf was born out on the grass in the middle of April, but his performance was so impressive we just had to bring him to town. At 188 days old he weighed 840 pounds, which should give him an adjusted 205 day weight of 910 pounds. On February 14 he now weighs 1299 pounds. Projected actual 365 day weight 1540 pounds.

TWIN HERITAGE FARMS

Red Angus

From our family to yours; welcome to the 13th Annual "Best of the Breeds" bull sale. Thank you to all previous buyers and bidders for your interest in the Twin Heritage Farms program.

It seems as though it were only weeks ago that we were preparing for last year's sale catalogue! My how time flies! Looking towards our sale on March 26, we are excited with what we have on offer. The bull pen is consistent and there are a few gems to take note of as they have the genetic and maternal backing to be game changers. Our offering is catalogued by herdsire grouping and we have sons off our Hustle 13X and Soldier 41Z bulls. Hustle 13X is no longer with us, but has left us with many sale toppers and some exceptional females on the farm. The two sons in the sale will be the last natural service sons and they are both worthy for breeder bull consideration. The Soldier 41Z sons are a strong group with the typical Soldier dark red color and a solid dark foot. We are extremely eager to introduce the first set of sons from our \$25,000 junior herdsire, Trigger 80B. They are a dandy bunch being very consistent in type showing thickness, wide base, good temperament, and excellent scrotal development.

Please stop by the farm, give one of us a call if you have any questions, or you can check us out online at www.twinheritage.com.

We thought it was appropriate to lead off this year's catalogue with a couple herdsire prospects from Hustle 13X. The old guy is no longer with us, but he has outbred himself a few times over and his sons in the sale this year are no exception. Hustle 29D is a performance leader. He is long sided, deep quartered, and smooth fronted. His dam is from the heart of the SSS herd and is a herd bull producer. Take a good look at this guy sale day as he is one to take note of. **Retaining 1/3 semen interest.**

We were awfully excited when one of our top cows, Cher 293S had this calf last year. Not only is she a perfectly uddered and Elite Cow, she is the dam of the high seller a few years back to Ter-Ron Farms. Hustle 39D happens to be a full sibling to the 25A bull that has bred well for Ter-Ron siring some of the high selling bulls and the high selling heifer in their sale last year. His birthweight is a little higher, being three days overdue, but his dam has averaged 89 pounds on four bull calves and 78 pounds on five heifers. We retained a full sibling heifer (KTH 9C) in the herd and she calved this year with a picture-perfect udder. If you are looking for predictable and proven genetics with a maternal base to build a herd around, Hustle 39D could be your bull. Powerful performance sons and broody, angular, good uddered daughters should be in his future. **Retaining 1/3 semen interest.**

MTH 16D is the only son on offer from our high selling Hustle 53B bull to Welsh Prairie Red Angus a few years ago. We were fortunate to use him on a heifer early on before delivering him to WPR. Hustle 16D is a moderate, well muscled, and smooth made bull. His dam is a moderate framed good uddered Rider Pride daughter that is a sure bet for calving ease. With a shot of Hustle, Prime Rib, and Gladiator, the genetic combination is rare but bullet proof. **Retaining 1/3 semen interest.**

MTH 3D leads off our Trigger 80B offering. We purchased 80B from Ter-Ron Farms a few years ago where he was one of the high selling bulls at \$25,000. It was a big purchase for us and we like how he has bred with his first set of calves. Hustle 3D is backed by the popular Owyhee cow family from Chickadee Farms. She is a good uddered broody female that breeds back early each year. 3D is a long sided wide based bull with excellent scrotal development. He should leave some excellent replacement females and thick steers.

With an index of 119, this bull was the number one indexing bull on feed. Some folks may shy away from his 106 pound birth weight, however his dam, Goldie 123A had a 73 pound bull in the sale last year that was one heck of a calf and she had a 77 pound heifer this year. She is a model Angus cow and backed by the calving ease sire Feddes Big Sky. If you buy your bulls on the strength of the cow family and are looking for a cow bull that will add some pounds to your calves, MTH 37D could be an option.

With his 78 pound birthweight and respectable performance indexes, Iceman 14D has a good balance of performance and calving ease. We purchased 14D's dam as a heifer calf from Kenray Ranch and she has done well on her first calf.

HARCOURT

Charolais

Doug, Tammy & Family

Welcome all cattlemen to Best of the Breeds 13. Again this year we have an excellent pen of bulls. No bulls are pre-sold. Buying quality bulls is where it all starts, as you know. Our focus is on providing the best genetics that will provide top quality bulls for your selection. We have a nice blend of calving ease and performance bloodlines with extra hair and as always, great dispositions. We pride ourselves in bulls that are easy to handle and will work for you.

Congratulations to those of you who sold market topping Char-cross calves again this past fall. Your commitment to the Charolais cross calf has earned you some extra dollars for sure. Now's the time to put those dollars to work in selecting your next herdsire.

Thank you to our past buyers and bidders for your support of our program. Feel free to give us a call if you have any questions. We are always happy to talk cows.

See you on sale day!

Doug, Tammy, Jennifer & Justin Harcourt

Stetson is a great example of a meat machine. He is soft made, stout, athletic and correct. You can't beat his temperament or that thick haircoat he has. His sire topped Sparrow's sale and we purchased his mother from Horseshoe E – a high seller from the Sterling! The Escobar sons are very consistent and the daughters are going to outshine the sons. Moderate birth weight with explosive performance. Stetson will leave an imprint on the breed before he is done. You can put on a lot of miles to find a bull like this. Check him out!

Chrome is everything we were hoping for when we used PCC Rome. He is long, smooth, soft made, correct and very quiet. 604D is the son of the reigning Agribition Grand Champion Bull PCC Rome 437D. This young herd bull is patterned just like his sire. Impressive to say the least. Everything on the check list of a future herd bull fits 604D. Great feet and legs, character head, big set of testicles. Exceptional disposition. He comes from a superior cow family. His mother 515R was high selling female in the Sterling as a bred heifer. Arguably the best female produced that year at Perrot Martin Charolais. She then produced HBC IKEA 220Z, the mother of HBC G2, the high selling Ledger son from 2015. G2 produced the second high selling heifer calf from the 2016 Sterling Sale to Hopewell Charolais. Genetic power is built into this great young prospect!

Hercules was in our show string at Agribition last fall. He is moderate, thick, correct and extremely quiet. Turton sires moderate framed cattle that pound down the scales with their length of body. This guy looks like he has an extra rib! His mother is a fantastic female that Justin showed successfully through 4-H and then in CCYA at Yorkton. She is a cow we will have in the herd for a long time. Her 2017G2 bull calf already has that look!

The first son of G2, the Ledger son that topped our sale two years ago. Calving ease in a solid muscle package. Zorro is a complete example of what a calving ease bull should be. Ultra smooth throughout his structure, athletic and attractive. Zorro is the real deal.

Homo Polled

Zorro 622D

DOGPATCH ACRES

Charolais

Welcome to the 13th Annual Best of the Breeds bull sale. As the cattle herds get larger and we get another year older, it is more important to have "hands off" cattle that take care of themselves. The goal is to raise the most pounds of live calf possible. This starts with selecting a herd sire with calving ease built in, and the performance to produce the pounds of red meat by fall.

This year's offering is a bit younger than normal. We were into our third week of calving before we got a bull calf! We have on offer moderate framed bulls that possess the characteristics that are important to us, like calving ease, hair, growth and disposition to name a few.

We used some exciting new AI sires to compliment our own bull battery. We consider Cederdale Zeal 125Z as a proven heifer bull. Winn Man's Big Rig is a new bull we tried with a low birth weight and a lot of thickness and hair. Kayr Velocity is a performance bull for those of you who can handle a little more birth weight, but has some extra punch down the line. Finally, CSS Gridmaker needs no introduction.

We are proud of this year's younger offering and know you will really like the thickness uniformity and consistency we are bringing.

Check out the videos at www.dogpatchacres.com

See you in Yorkton, your one stop bull shopping event!

Looky here boys!!! A smooth polled red bull with tons of hair, volume, and length. A real clean front end, and a top you can shoot pool on! This is a bull that can set you up in a purebred operation or top the market with a bunch of calves that look like this. By the way have a look at his birth weight EPD. A red herd sire you can confidently throw into your heifer pen. Dagwood started out backwards, but he definitely has things going in the right direction. All out of a first calf heifer. **Homo Polled.**
We like him so much we want to retain a 1/3 semen interest in the bull.

You know you're on target when you have calves that look like this. Strong topped, square hipped, and naturally thick, best describe this bull. Off one of the high selling, high performance AI sires, KAYR Velocity, you can be assured of a bull that is good footed, has loads of hair and polled performance. When you are dealt a hand like this, you'll want to Double Down!

Duke is the type of bull that will put some stretch into your calf crop. His smooth shouldered front end, and small head are followed up by a long spine and big toolbox! He has enough size to reach the mature cows. Duke will make an excellent cross on red, white or black, and produce the calves buyers will sit up and notice. **Homo Polled.**

Power bull that will add some punch to your calf crop. Dragon is deep, soggy and will produce the loose hided calves that demand premiums from the market. He has lots of volume, thickness, depth and style and the capacity to bring it all together. He will add some "gidly up" in your calves. A pedigree full of performance and correctness.

Here is an opportunity to get the high performance genetics of Velocity with a choice birth weight of just 97 pounds. Draft's dam is a consistent producer of lower birth weight calves, and his sire backs up the performance side of the pedigree. Tons of hair and red meat in this correct individual. A maternal brother is in the heifer pen at Tradewinds Charolais, Lintlaw, SK.

Power bull that will add some stretch in your calf crop. A little bigger birth weight from a mature cow, but if you can handle that, look out when his calves hit the ring. With all that hair and pay weight, you won't be able to fit your wallet in your pocket! Length, smooth fronted and a great hair coat contribute to this powerful young sire. Recommended for mature cows. **Homo Polled.**

Freifghtliner 86D

Both sides of this pedigree focus on calving ease, which is obvious with his negative birth weight EPD. Freightliner has a slightly larger frame than the other two Big Rig calves. His extra length and smooth front come from the Silver Bullet background, and the red meat making capability is brought on from Big Rig himself.

FORDEN FAIRVIEW FARM

Simmentals

We want to sincerely thank all our customers and friends who have supported our program in recent years. Whether it's buying bulls through this sale or open heifers off the farm, we greatly appreciate the confidence you have in our program.

We have been in the Simmental business for over 40 years. Our herd consists of over 100 red, black and fullblood Fleckvieh females and all our cows are registered. We are committed to maintaining a herd of highly productive and fertile females. As such, a cow needs to raise bulls for the bull pen or heifers for the replacement pen on a consistent basis or they are not retained in our herd. While we do selectively use AI, we believe in the strength of good walking herd bulls to provide consistency and uniformity in our calf crop. Our breeding program focuses on producing cattle with performance, natural thickness, maternal strength, calving ease and most of all a quiet disposition.

All bulls are Express Verified and treated with Pyramid FP 5 Presponse spring and fall. The bulls also receive double vaccination of fusogard for prevention of foot rot.

We'd like to invite everyone to our Bull Pen Open House at the farm March 18 & 19 from 1-5 PM. This is a great opportunity to view the bulls in their environment as well as walk through our cow herd to see the maternal strength that comes along with these bulls. Visitors are welcome any time, so if you can't make it for the open house, please do stop by whenever it's convenient.

Like us on Facebook "Forden Fairview Farm – Simmentals" to follow our program. We will be videoing the bulls again this year and the videos will be available on our facebook page in early March.

Phantom 79B

New for 2017, we have the first sons of BEE Phantom 79B, our new polled Full Fleckvieh herdsire. We searched across Canada in the spring of 2015 for a new polled full fleck bull and our search led us to Beechinor Bros at Bentley, AB. Phantom is an Anchor D Viper son out of Beechinor's She Devil donor cow. If you follow Fleckvieh cattle you will know all about the success of this pedigree as full sisters have sold for 15-20,000 in the Fleckvieh Equation sale in recent years. Once we toured the Beechinor herd and saw the She Devil cow and sisters to Phantom, we just had to own him. He was the high seller at their sale that year and I believe was the high selling polled Full Fleckvieh bull in Canada in 2015.

Fairview Payroll 19D - Homo Polled Full Fleck

Pontoon 26D

FULL FLECKVIEH: Full Fleckvieh cattle are a strain of Simmental that originate exclusively from Germany and Austria. There they were bred as a dual purpose animal, used for both milk and meat. Full Fleckvieh cattle are more moderate framed, easier fleshing than the "traditional" Simmental that came from other parts of Europe. Fleckvieh influenced bulls will add milk to your females and performance to your bulls and steers.

Homo Polled Fullblood P1173245 FDN 26D 21/01/2016

HOMOZYGOUS POLLED.FULL FLECKVIEH. NON DILUTOR. Pontoon is a special bull and is the star of the pen. Not only is he a homo polled Full Fleck, he is also the top ranking bull in the pen for yearling weight and average daily gain (ADG). He is wide topped, heavy muscled and travels well on his feet and legs. His dam was a first calf heifer and is a daughter of our Sering cow that is a foundation cow in our Fleckvieh program. She has had numerous sons and grandsons top this sale while also putting some excellent females into our herd. Pontoon's pedigree is also stacked with greats like Anchor D Viper, PRL Lopez, Eagle Ridge Patricia, Double Bar D Flashy and Anchor T Metro. He ranks in the top 20% for milk and top 10% for MWWT so one can expect him to produce excellent females.

HETEROZYGOUS POLLED. 100% FLECKVIEH. NON DILUTOR. We were looking to add some new genetics to our Fleckvieh program and where better to go than one of the first breeders of polled Fleckvieh cattle in Canada, Grinalta Farms of Alberta. Freestyle combines the genetics of Grinalta's homo polled 102U cow with the super stout, easy calving Xander bull. Freestyle is a full brother to Grinalta's HP Prime and a 1/2 brother to their Unique bull that has been used in many countries. As with embryos, birth weights don't mean a whole lot as the calves are carried by a recip dam. In this case the recip went eight days overdue so one could expect his real birth weight would have been closer to 100 pounds if he was born on time. Freestyle was a favorite all summer as he was super stout and had a real presence and style about him. He was also part of our Agribition pen of bulls where he had many friends and stood second in class.

HOMOZYGOUS POLLED.50% FLECKVIEH. NON DILUTOR. Pinnacle represents the culmination of one facet of our breeding program. We strive to produce blazed faced calves with extra muscle, hair and style by crossing our full Fleck bulls on red and black cows. Pinnacle is a soft-made, deep-sided, sound-footed bull with thick dense hair and a fancy heart shaped blaze on his face. His dam's pedigree is a combination of some top genetics of our herd, including Redstream and Louisville who produce excellent females. She then goes back to our Erica cow family that has been the most prolific of any on our farm and the foundation of our red program. Pinnacle was also a member of our Agribition pen of bulls that were second in class.

88% FLECKVIEH. NON DILUTOR. Rocky is a deep quartered, liver red son of the Balboa bull that Double Bar D used for a number of years. His dam is a daughter of our Zeus bull that we sold to Oakview Simmentals in 2013 and he has gone on to do great things in their program. You can expect calving ease with this guy as his dam was a first calf heifer and numerous other breeders have used Balboa with good success on heifers.

Express 36D

Reference Sire
Champs Bravo

HETEROZYGOUS POLLED. 100% FLECKVIEH. NON DILUTOR. Express is a true calving ease bull. With Champs Bravo and Anchor D's Mackenzie Cane bulls in the pedigree, his calves will come easy and on their own. If you need more proof, his early gestation and birth weight will be the answer. He may not be the biggest bull in the pen but he is made right and these polled Full Fleck heifer bulls are hard to find.

Monaco 59D

HETEROZYGOUS POLLED: A bull noted as such carries one polled and one horned gene (Pp). When breeding to polled cows the majority of their calves will be polled. There is the potential for the odd calf being horned depending on the polled status of the cows.

HOMOZYGOUS POLLED. NON DILUTOR. Monaco is one chunk of a bull. He is loose made, free moving with exceptional stoutness and depth. One appreciates him even more once you realize he was raised by a first calf heifer. As a breeder, it is something special when your heifers can raise top end bulls like this guy. Monaco's dam is a black blaze daughter of our Derringer herdsire, so she brings the influence of Wallbanger and Wheatland 680S plus the great Lewis breeding behind our Louisville herdsire. Add that to the pedigree behind Grand Prix which includes: a top cow family from Erixons in S-Paw 8S; KOP Crosby; and IPU Pocahontas 68M from Labattes; and you've got something real special. To top it all off Monaco has the popular blaze face which runs three generations deep in his pedigree so one can expect him to pass this style onto many of his calves. Add that all up and it's easy to see Monaco has the potential to do great things.

HETEROZYGOUS POLLED. NON DILUTOR. Formula One is another heavy muscled Grand Prix son. We are calving our first Grand Prix daughters this year and we are quite impressed. They are easy fleshing, excellent uddered, heavy haired young cows. When we bought Grand Prix we knew we were getting a top cow family from the Erixon program and we look forward to the contribution his daughters will make to our herd. Formula One is wide topped with extra length and the stylish blaze face that is in demand. His moderate birth weight and early gestation should prove to make his calves come easy.

HOMOZYGOUS POLLED. Rouge is a soggy, deep-sided bull with lots of capacity and extra size. He is our only Redstream son in the sale. While Redstream no longer walks our pasture, we selectively use him via AI as we want to maintain his influence in our program. His sons are sought after and his daughters are some of our best young cows. Rouge had an actual weaning weight of 939 pounds and continues his presence as one of the heavy weights in the pen. He has excellent performance EPDs so that combined with his size will have him produce some big weight steers and deep ribbed daughters. His dam is Leanne's Whitney cow and she has done very well for her, producing bulls for the sale or heifers for the replacement pen each and every year.

HOMOZYGOUS POLLED. McLaren is a smooth made Grand Prix son that you have to appreciate for his stoutness even though he is the youngest bull in the sale. He has style, eye appeal and loads of hair. He was the top ranking bull at weaning time and carries breed leading EPDs for weaning and yearling weights. He goes back to Leanne's Whitney cow and with Redstream in the dam's pedigree one can expect the females to be top quality.

Welcome to the 13th annual Best of the Breeds bull sale. We are very excited about the bulls we have on offer this year. We will have both red and black bulls that will work on heifers and performance bulls to produce those scale busting steers. Our bulls come from good footed, neat uddered cows that are low maintenance. At Goodview we put a lot of emphasis on our cows so you can buy with confidence knowing that the bull you purchased is from a sound problem free cow herd.

Gelbvieh is a continental breed that have very strong maternal traits such as docility and rich milk produced in tight correct udders. Gelbvieh will add that extra muscle to give your calves the extra pounds you're looking for at sale time. Gelbvieh calves are born with vigor which is one of the reasons why Gelbvieh influenced females wean more pounds of calf per cow exposed. Use gelbvieh bulls in your cross breeding program to get early maturing long lasting females as well as sale topping steer calves.

We continue to use the same feeding program which is a high fiber bull developer pellet mixed with whole oats, bunk fed barley oat silage and a grass alfalfa mixed hay. This diet develops a healthy rumen while maintaining good long term health. We target a 3.5 pound average gain to develop good footed, long lasting bulls that will last for their new owners.

Please join us on March 26 in Yorkton and evaluate our bulls and we can talk about your bull needs. If you can't make the sale feel free to call or stop by anytime to tour the bull pen as well as the cows and their 2017 calves. Join us Saturday evening at our hotel and stay the night. If you purchase a bull from Goodview Gelbvieh we will pay for your one night stay. Please join us for an afternoon of visiting and cattle viewing on Sunday March 19 for our customer appreciation day and bull viewing.

Plan to attend our CUSTOMER APRECIATION DAY AND BULL VIEWING ON SUNDAY MARCH 19 at 1 PM. Make sure to enter your name in a draw for a \$500.00 bull sale credit to be used in the 2017 Bull Sale.

 BLB GOODVIEW PLD MAXINE 1X

102D is one of the fanciest eye appealing heifer bulls you will find. He has four generations of calving ease and four generations of the dark red color. He is every bit as good as his picture. I would like to reserve the opportunity to use him on a dozen of my heifers this spring if it is convenient for the new owner. Selling full possession. Homo polled test pending.

149D was part of our show string this fall earning himself a red ribbon in his class. 149D has so much going for him. He is very eye appealing, deep sided with nice width in the hip for a calving ease bull. An Outback son from an SLC512T sired dam. 80 pound birth weight with a 3.62 pound gain on test.

TOTAL HERD PERFORMANCE

HWY #1 WOLSELEY 698-6400

Terms and Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding:

Each animal will sell to the highest bidder. In the case of a dispute, bidding will be reopened between the parties involved in the dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee:

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee:

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Charolais, Angus, Simmental, and Gelbvieh Associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made here under.

Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Delivery:

We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
