## Welcome . . .

Our family extends a warm welcome to friends and neighbors and cattlemen to our 23rd Bull Sale.

Once again we are selling the Bulls on Video with Chris Poley auctioneering and DLMS online.

We are always thankful to our customers for giving our program a chance to work in theirs and for coming back year after year with solid support.

Whether you are a buyer, a bidder or come for a visit, you are important to us and we look forward to seeing you Feb. 11th!

Plan on coming for lunch and staying after the sale for a social.

Sincerely,  
Mick & Debbie

**MJT**

bulls are raised with the basics in mind.

Basics is what have made the Hereford and Angus breeds attractive for generations.

We decided a long time ago that we didn't want to produce just numbers to sell. At MJT we want to raise sound, economic, high performance traits without sacrificing birth weights or milk.

We feel our commitment to this should help you, the rancher, produce predictable and profitable cattle from MJT genetics.

Our cows can wean a calf crop under almost any conditions.

cattle are sold with 100% guarantee and we strive to be #1 on service.

We know sometimes things go wrong with bulls and if you have trouble we want to be the first to know.

isn't in this for the short haul. We have been in the "Bull Business" for many years and this is our 23rd sale at home.

We know good cattle can sell themselves and we try to offer a good selection of bulls that are affordable to the budget of the rancher.

We consider it a privilege to have our bulls working in so many ranchers programs.

**MJT**

is confident in our bulls and we know there is no substitute for quality. MJT bulls are not pampered. They are raised right from the beginning to stay sound and athletic and are ready to go to work for the rancher.

0% of MJT sale bulls have had their feet trimmed and we consider one herd bull battery to be the best genetics available.

The most significant concern of any rancher is the profit he makes

from his cows. We feel that having kept the basics in the cattle business in mind our genetics should produce cattle that can put profit in your jeans.

**MJT**

has many options to buy your bulls – in person, on line with DLMS or on the phone with us or one of our sales staff.

We do have sight unseen option to and if you are not happy with your purchase when the bull is delivered you are not required to purchase the bull.

The majority of our cows calve out on grass, on their own with minimal supervision. Our cow herd is young and we do not make any exceptions or excuses for them. Doing this really gets easier when you see the benefits.

We would be happy to show you the bulls and cows anytime.

Our philosophy is the same for every animal in the sale and each one carries the same 100% guarantee. We stake our reputation on selling cattle that work.

We sincerely thank the ranchers who have supported our past sales. You are integral to our progress and our program.

We have worked to build a reputation for ourselves and our cattle and we continue to challenge ourselves to do better.

There is always ups and downs in this business, but there is one thing that never changes – the many ranchers and their families we have had the privilege to get to know and call our friends.

We are very excited about hosting our 23rd sale at the ranch. Come in your car or your pickup sale day and have a look at the cattle. We will show you our best hospitality and a good beef dinner.

We hope you choose to come on February 11, 2017!

A grandson of the three time North American Champion Remittal Online 122L. His mother is a daughter of Agribition Reserve Champion ANL SBS 57G Frontier 4M. Avatar is also the sire to the 2013 Reserve Champion Female in Agribition - MJT 151R Aimee 454Y purchased by Steve Hordos and family from Raymore, SK. His first daughters are in production and they are outstanding. Avatar's birth weight averages are low 80 lbs! He doesnt have any sons in this sale, but we used Avatar on a large group of Hereford heifers this past breeding season. Some of Micks favorite females are out of this fella!

# HEREFORD 2 YEAR OLD BULLS

A solid group of Hereford Bulls ready to go to work. No feet have been trimmed and they are virgin bulls. We calve a small group of cows in January and the rest of the cow herd calves mid April. These fellows were weaned September 10th, 2015. We are also pretty excited about their sisters this year, and are confident these bulls will not only raise you some pounds for market, but some beautiful replacement heifers as well.

## XXX CALVING EASE XXX

We have several customers who take home our bulls for use on their first calvers. We decided to make a system to help you when choosing your next heifer bull.

*This system is based on the following...*

1. BW in lbs.
2. Consistency of BW of sire
3. Consistency of BW of dam
4. Consistency of calving ease of both sire and dam.  
(eg. build of calf)

The following is what we recommend...

- X** Recommended for cows only
- XX** Recommended for cows or larger framed heifers that were not big at birth
- XXX** Recommended for heifers

*Always keep in mind – 50% of your calf's BW relates back to his mother.*

When we lost our 20/20 Touchdown 20X herd sire we picked 505Z to replace him. 505Z follows the pattern we admire of 20X! That round muscle, good feed and soundness were qualities of the old bull. 505Z's mama is out of a top cow family that never misses. Longevity, excellent milk and sound feet and leg structure 505Z travels well, he is athletic and breeds consistent birth weights. With a 76 lb. birth weight and a short gestation makes him a valuable sire in the MJT Herd Bull Battery.

Mick found First Impression as a calf in 2015 at the Denver National Stock Show. He was a mid-April calf and at 9 months old his natural muscling and early maturity was impressive. Seeing his mother sealed the deal for us!

This pedigree is new to Canada. First Impressions sire – Dameron First Impression – was the 2012 Denver Grand Champion Angus Bull. His progeny has been dominating shows across North America.

The dam of Dameron First Impression is a First Class daughter and is of the best Angus females we have ever seen – her sire Lagrande MAF Antidote 5775 has earned the respect of many cattlemen. You can find many of her progeny in championship rings across North America.

With a loaded pedigree and combination of calving ease and performance MAF First Impression 4420 has the best of both worlds!

With an 81 lb. birth weight, early maturity and great carcass numbers he is hard to overlook. His gentle disposition and ability for feed conversion makes him a valuable herd bull in our program. Watch for his calves in the future!

# BLACK ANGUS YEARLING BULLS

Mick was eager to put Shade to work and these yearlings are a result of this. They are a strong group of bulls, quiet and ready to go to work and will be semen tested before the sale. These boys were weaned August 1, 2016 and were weighed that day.

## Cows, Kids & Character

Now, the smartest of God's creatures, a cow may never be,  
But they can build a little common sense in folks like you and me.  
There's a peaceful, kind contentment when you drop a load of hay,  
For a bunch of bovine critters on a cold and snowy day.  
And the antics of the babies sorta make you want to laugh,  
'Til that good ole mamma cow tries to fight you for her calf.  
Working, caring for cattle, has allowed your kids to grow,  
And you've watched them learn some lessons that the town folks just don't know.  
About the beauty found in nature and a faith in god above,  
Of the dignity in labour, and the strength of family love.  
So when the cattle market weakens and it starts to get you down,  
And you think the time has come to sell the farm and move to town,  
Just remember what it means to be a farmer or his wife,  
And know you children have a future, cause they've led a farmers life,  
Since you've raised 'em in the country where they grew up proud and free,  
Your sons and daughters now can be what e'er they want to be,  
And the best thing you and those old beef cows ever did,  
Was to build some depth and character on the inside of a kid.

## BLACK ANGUS 2 YEAR OLD BULLS

We have selected and bred for low birth weights and calving ease in our Black Angus herd from the beginning.

We now have generations of consistent low birth weights in our cow herd base.

Many bulls in the sale can be used on heifers.

These big rascals were calved on grass starting mid-April. The majority are heifers first calves. We weaned them on November 1, 2015 and they went onto a haylage oat ration for the winter, then onto summer pasture. They are a good, solid group with not a lot of difference in their type. **All virgin bulls and NO feet trimmed.** The weaning weights are actual weights on weaning day - November 1, 2015.

The Kodiak sons have worked well in many of our customers programs. They are excellent on their feet and carry ample muscle and the Kodiak females are awesome. This boy will measure up at the top end of the pen.

This set of Touchdown sons will be his last; unfortunately we lost him due to a shoulder injury. They are easy doing, easy calving and just good, honest bulls that have a place in the industry. This young fella fits the mold!

Another Touchdown son that will work well on your heifers and let you rest during calving season! His mama is a beautiful uddered Kodiak daughter. This bull is purebred but sells without papers.

bulls are raised with the basics in mind.

Basics is what have made the Hereford and Angus breeds attractive for generations.

We decided a long time ago that we didn't want to produce just numbers to sell. At MJT we want to raise sound, economic, high performance traits without sacrificing birth weights or milk.

We feel our commitment to this should help you, the rancher, produce predictable and profitable cattle from MJT genetics.

Our cows can wean a calf crop under almost any conditions. cattle are sold with 100% guarantee and we strive to be #1 on service.

We know sometimes things go wrong with bulls and if you have trouble we want to be the first to know.

isn't in this for the short haul. We have been in the "Bull Business" for many years and this is our 23rd sale at home.

We know good cattle can sell themselves and we try to offer a good selection of bulls that are affordable to the budget of the rancher.

We consider it a privilege to have our bulls working in so many ranchers programs.

is confident in our bulls and we know there is no substitute for quality. MJT bulls are not pampered. They are raised right from the beginning to stay sound and athletic and are ready to go to work for the rancher.

0% of MJT sale bulls have had their feet trimmed and we consider one herd bull battery to be the best genetics available.

The most significant concern of any rancher is the profit he makes from his cows. We feel that having kept the basics in the cattle business in mind our genetics should produce cattle that can put profit in your jeans.

has many options to buy your bulls – in person, on line with DLMS or on the phone with us or one of our sales staff.

We do have sight unseen option to and if you are not happy with your purchase when the bull is delivered you are not required to purchase the bull.

The majority of our cows calve out on grass, on their own with minimal supervision. Our cow herd is young and we do not make any exceptions or excuses for them. Doing this really gets easier when you see the benefits.

We would be happy to show you the bulls and cows anytime.

Our philosophy is the same for every animal in the sale and each one carries the same 100% guarantee. We stake our reputation on selling cattle that work.

We sincerely thank the ranchers who have supported our past sales. You are integral to our progress and our program.

We have worked to build a reputation for ourselves and our cattle and we continue to challenge ourselves to do better.

There is always ups and downs in this business, but there is one thing that never changes – the many ranchers and their families we have had the privilege to get to know and call our friends.

We are very excited about hosting our 23rd sale at the ranch. Come in your car or your pickup sale day and have a look at the cattle. We will show you our best hospitality and a good beef dinner.

We hope you choose to come on February 11, 2017!

*We don't care how you get here, just come!  
Join us for dinner before the sale and a social afterwards!*
