BLAIRS.AG CATTLE CO.
The Pursuit of Excellence
2018 BULL SALE

Tuesday, April 3, 2018  1:00 PM  Jackson Cattle Co. Sale Facility, Sedley, Saskatchewan
Every year Agriculture proves to be unique and challenging and 2017 handed us both of those. The beef industry always rises to any and all challenges and this past year it was drought and feed shortages. As you travel the country and talk to cattlemen it’s amazing the creative feeding strategies that have been employed. I am always learning and I enjoy the conversations about what can be accomplished through creativity and need.

The underlying reality is that creative solutions are possible on a cow herd that is Angus based. The Angus cow is efficient and can do far more with far less in terms of feed quantity and feed quality. When you are selecting bulls for your operation make sure to keep in mind that efficiency needs to rank high on your list.

Your best asset when it comes to sire selection is and will always be your eyes. Size, type and structure will always be witnessed through your eyes. It is equally important to buy from a breeder that has a plan and the commitment to that plan. We would love to talk to you about the reasons we do the things we do in terms of sire selection and how we select females. We are committed to cow families and speed up our genetic progress through the extensive use of both embryo and A.I.

This year we are proud to offer a select group of fall born, extra age bulls that are a result of our partnership with Carlos Ojea from Argentina. We have sought out genetics off the very best cows and sires in Argentina and are excited to see the impact these genetics can make on both the Angus and Simmental breeds in North America. Argentine genetics are moderate in size, efficient in their type and explosive in their bone. Do yourself a favour and come see them in person on sale day.

The sale offering will look like it was put together by the United Nations with genetics from Canada, USA, New Zealand and Argentina and we are very proud of our progress in terms of providing outcross genetics to the industry.

We look forward to visiting with you in the weeks leading up to the sale and please consider joining us on sale day in Sedley.

Kevin Blair
Blairs.Ag Cattle Company

FROM THE DESK AT T BAR...

Welcome to Blairs.Ag Cattle Company “Pursuit of Excellence” Annual Spring Bull Sale at Sedley, Saskatchewan. This sale has grown and developed into “the ultimate source for Red and Black superior genetics!”

This growth did not occur by chance, but rather by decades of culling, breeding and selection. Kevin and Darren have established one of Canada’s leading agricultural companies. Their dedication to growing a better product has been from the ground up. No one is too big or too small to be ignored… they care about their customers bottom line.

Where can you find a powerful lineup of bulls like these selling on April 3rd? Thick, rugged, athletic two year old bulls, Red and Black, that can cover more cows, more ground, tighten-up your calving cycle and put uniformity into your feeder calves. In addition to strong phenotype, their genetics are unparalleled because of the strength and quality of the large cow herd base and powerful donor females to the dams of many of the bulls selling. Whether you are a purebred breeder or a commercial cowboy, you owe it to yourself to select from this awesome lineup.

Congratulations to all the Blair gang for a great fall show season in Canada and in January south of the border! Stop by any time prior the sale at Jackson’s Sale Barn and preview the offering…don’t hesitate to give Kevin or their team a call and discuss the bulls best suited for your program.

If we, at T Bar C, may be of any assistance, prior to or sale day, do not hesitate to give myself or any of our professional team a call, as we can help you with your needs.

Chris Poley
T Bar C Cattle Co. Ltd.
Calving Ease Legend
Calving Ease is often related to birth weight of a bull. This is partly true but there are other factors that influence calving ease. The dam and her management are at least 50% of calving ease. Also, the consistency of the birth weights of the sire and dam should be considered. Nutrition, gestation and environment all influence birth weight. We have rated each bull in the sale based on the information we have.

- • • • Should produce minimal problems when bred to moderate size first calf heifers.
- • • Recommend for larger frame heifers, second calvers or small framed cows.
- • Recommend for mature cows 1400 pounds plus.
The Pursuit of Excellence: Black Angus Bulls

Argentina, with 53,565,000 head of cattle, is the world’s fifth largest country with a long tradition of breeding cattle and a stellar reputation of productivity and top quality. Almost no cow in the nation receives any help during winter – no hay, no silage, they need to survive and carry a pregnancy by themselves. After generations of keeping the efficient ones, Argentina’s cattle have become very hardy and adaptable to different environments.

Argentine Angus are very well known around the world as one of the top genetic sources today. We feel very proud to present this international joint program with our friends, Blair’s Cattle Co., where we provided embryos out of our top females and the most proven and productive bulls in Argentina.

The first step couldn’t be more auspicious. Blair’s Surena 402D, sold in the Power & Perfection Sale at Canadian Western Agribition 2017 to Kurt Hamburger in Oklahoma for $34,000.00, which was the highest selling female of that prestigious event.

It’s bull time now! Take this unique opportunity to add to your program – top end, outcross genetics proven by time and with lots of top cows in the background.

Carlos Ojea

The Argentina Story

**Euro** – Argentina’s #1 sire today. In his first offspring, he produced the four Palermo Grand Champions in 2017 – Grand Champion Bull, Grand Champion Female, Reserve Champion Bull and Reserve Champion Female. In the same year, he also produced National Grand Champion Female and Reserve National Grand Champion Female heifer calf. He has everything – numbers (EPD’s), perfect phenotype, unmatchable pedigree backed by an amazing cow family and his first daughters have great udders.

**Credito** – Argentina’s top sire to produce females. He delivered great cows with a perfect udder, femininity and style.

**Candelero** – He produces performance, power and bone.

**0401 Cow** – 2012 Palermo Grand Champion Female. Her mother is the #1 cow in Argentina and was Mother of the Year in 2012. Her sister was #2 Mother of the Year in 2012 and she produced Palermo, the 2017 Grand Champion Female.

**406D’s brother** was Lot 1, and high selling bull in our 2017 annual sale.

**72 Cow** – A Credito daughter/Traveler 011/Traveler 6 with lots of maternal cow power.

**108 Cow** – 660D will be a full sibling to DM Romero. High seller in 2017. She is his most consistent producer.
We are extremely excited to lead off our 2018 Pursuit of Excellence sale with Blair’s Candelero t that combines the 2012 Palermo Grand Champion female with the power and performance of Tres Marias 8155 Candelero.

- Check out the pedigree. The grand dam is the #1 cow in Argentina today and she produced the 2017 Palermo Grand Champion Female.
- For those that have made the trip can Palermo can attest, the quality of cattle are exceptional and many breeders have waited a long time to experience Argentine genetics in North America.

- **Selling 100% possession and 50% semen interest.**
Blair’s Condor Euro 404D is one to admire for his massive dimension, bone and rib. Euro is the #1 sire in Argentina today and his first calf crop resulted in the 2017 Grand & Reserve Grand Bull and the Grand and Reserve Grand Female at Palermo. Have a good look at the phenotype and imagine what he can do for the North America beef industry. Selling 100% possession and 50% semen interest.

</tbody>
</table>

• This SAV Bismarck son is off our top Rosanky Ms Instinct 0065 donor. We can’t say enough good about this mating.
• A full sibling sold to Brooking Angus in our Genetic Focus ’17 Sale for $16,500.
• Do not miss this guy. His pedigree alone makes the trip worth while.
• Owned with Canadian Donors.
Lot 23

**23 BLAIR’S Resource 722D**

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

- Here is a very moderate made bull that puts all the pieces together.
- The sire, SAV Resource continues to gain in popularity.
- The dam was our pick from ZWT in Tennessee.

Lot 24

**24 BLAIR’S Resource 714D**

- RLA REDSTREAM 152S
- WLB 32H JENNA 360R

**SIRE**
- Levi purchased a few Simmental embryos and this bull was the result of that venture.
- Nicely made with excellent feet, super disposition.
- Real attractive bull.
The Pursuit of Excellence: Black Angus Bulls

**Lot 48 CCCJ Troubadour 6E**

- **Sire**: CCCJ 6E
- **Dam**: SAV REGISTRY 2831
- **CE**: 3.9
- **BW**: 97
- **WW**: 746
- **YW**: 21
- **Milk**: 52
- **TM**: 1.7

- This calf has been admired by all who have seen him, a real solid individual and hard to find fault with.
- Dam, 13X is Chance’s best producer, grandma to CCCJ 5E (Lot 50).
- He has two daughters in the herd and we kept her bull calf last year for our own use.
- Combine this with the iconic Blackcap May 4136, who has generated over 8.6 million in progeny sales and you will want to keep every female this bull calf sires.

**Lot 49 CCCJ Eclipse 16E**

- **Sire**: CCCJ 16E
- **Dam**: SOO LINE ROSEBUD 0013
- **CE**: 2.6
- **BW**: 82
- **WW**: 746
- **YW**: 21
- **Milk**: 47

- This calf has lots of eye appeal and natural muscling.
- These bulls were raised on grass with their mamas.
- No creep.
- Weaning weights are off a bit this year but considering the conditions we are happy with how everyone faired.

**Lot 50 CCCJ Lotto 21E**

- **Sire**: CCCJ 21E
- **Dam**: TLA BEAUTY 35F
- **CE**: 1.7
- **BW**: 90
- **WW**: 718
- **YW**: 25
- **Milk**: 54

- A very interesting pedigree here.
- Dam, TLA Beauty 6R, is the #1 incoming earning cow at Brooking Angus and the sire, BSF Hot Lotto is a feature herd sire for Hamilton Farms.
- A real genetic powerhouse here.

The Priscilla 67W dam is owned with Canadian Donors and is well known for her daughter, Red Blair’s Priscilla 44Z that we sold to Double B Angus, that Baxter showed so successfully. The 44Z female is perfectly constructed with bone, hair, udder, rib, disposition and color. Most people know who Priscilla is but not everyone knows she is a Red Ringstead Kargo 215U daughter. The mating of Kargo x Priscilla 67W is one of those matings that clicks every time you replicate it. The next four sons are all full siblings to the great Priscilla 44Z donor and we expect great things from these bulls for the new owners. 67W is a powerful dam with rib and dimension and Kargo adds maternal qualities in an easy calving, dark red package. Kargo is known for raising some of the widest based females in the country. **Selling 100% possession and 50% semen Interest.**

Lot 57

Red Brylor Priscilla 67W
Dam of Lots 54 - 57
We could write a book about the influence that Yankee 12W has had in our program. She has done it all and it was with some reservation we sold her in January 2018 at the Denver National Stock Show. It seemed fitting that a donor of her stature should sell at the most prestigious show in the world. When it was all said and done she sold in the Western Heritage sale to Rust Mountain View Ranch for $76,000 USD. We are excited to see what her future holds at Rust’s in North Dakota. We have sold many sons through this sale and others to purebred breeders and commercial breeders alike. The most famous son would be Red Blair’s Bingo 581B that sold to Duff Cattle Co. for $55,000 but other sons were sold to Moose Creek/Lazy T, Shantz Farms, River Rock Angus, Don Neil, George Tripps, Southview Ranch, Tica Holdings, Jake McNichol, Cargo Stock Fms, Lazy T Ranch, Breault Ranching, Maple Oaks/Cutting Edge just to name a few. The BBC 582D and BBC 596D sons selling are full siblings to the $55,000 Red Blair’s Bingo 581B and the $46,000 Red Blair’s Kongo 581D.
60  RED BLAIR’S Bingo 556D

• The first Red Blair’s Bingo 581B son to sell in Canada.
• Stems from the Dynamint 340L donor we bought from the Riverdale dispersal.
• Selling 100% possession and 50% semen interest.

BLAIRS.AG RED ANGUS DONOR FEMALES

RED SSS JESSIE 261Z
RX LADY NOLEN 114Y
CORA 867Z
KURUBA 2084Z
KASSIE 129B
RED BLAIR’S BONITA 2B
The next four bulls are all full siblings to the $76,500 USD Red Blair’s Pure Power 2B that sold in the Mile High Sale in Denver in 2015. Red Soo Line Power Eye 161X has become one of the most popular semen sires to make offspring with hair, bone, dimension, calving ease and a bigger foot. When coupled with the moderately made, perfect udder of Nolen 114Y, it makes an intriguing mating. When considering the two full siblings that sell, you should expect calving ease, calves with great growth and feed efficiency. The females should have more pelvic dimension, hair and bone. Selling 100% possession and 50% semen interest.

The Marta 42Y dam has as good of an udder as you can put on one. She is now owned by Larry Hafer in Nebraska.
Signature produces long made, dark red calves.
Keep the females for sure.
The 169Y cow from Brylor’s is a favorite of mine.
Maternal sister sold for $17,000.

• This is the lone Rust North Dakota son selling but watch for more in the future.
• North Dakota is the largest sire group selling in the SSS bull sale this year.
• North Dakota calves are earlier maturing and bigger ribbed.
• Kargo and North Dakota is an interesting mating.
• Calving ease, calving ease, calving ease.

BLAIRS.AG RED ANGUS HERD SIRE LINE UP

DAMAR TRUMP  SECRETARIAT 5274  KJHT PTO
Blairs.Ag Cattle Company guarantees to sell a bull that is sound and has passed a semen test by an accredited veterinarian. Should any bull purchased through the Pursuit of Excellence bull sale fail to be a satisfactory breeder or be unable to physically service a cow or heifer, he will be replaced with a bull of equal value. Should this not be possible, we will issue a credit to go towards the purchase of another bull. We will not however provide warranty for mismanagement.

While under our warranty, the bull is covered for injury, sickness or death. We will service your needs with a replacement bull, a sale credit or a cash settlement. Should you have any problems with a bull, please contact Blake MacMillan and he will work to make sure your cows get bred and you are a satisfied customer. We do have back up bulls set aside and that will be the first step to cover off any warranty issues. Blair’s Platinum Bull Warranty is designed to protect your purchase during the most high risk time of a bull’s life.

We offer the following options and are required to be paid on the day of the sale. It is the buyer’s responsibility to purchase at the settlement desk.

Coverage:
Plan #1 – This plan is designed to warranty a bull from sale time until the bull can be delivered and has the opportunity to adjust to its new surroundings. The length of the Plan #1 warranty is 45 days. Plan #1 warranty covers 100% of the purchase price less the salvage value when applicable.

Plan #2 – This plan covers the bull through breeding season and is 100% of the purchase price less the salvage value when applicable.

Plan #3 – This plan covers the bull for a full year which will include one (1) breeding season and one wintering period. In Plan #3 the warranty covers 100% of the purchase price less the salvage value when applicable.

Plan #4 – This plan covers the bull for eighteen (18) months and should cover two (2) breeding seasons and one (1) wintering period. In Plan #4 the warranty covers 100% of the purchase price for the first year (365 days) and 75% of the purchase price for the remaining six (6) months. In both situations the salvage price of the bull is deducted from the purchase price before the settlement is made.

Exclusion to Warranty:
Any injury or death due to malicious, willful or intentional acts or mistreatment are considered fraudulent claims.

Should an issue arise with your bull please notify Blair’s immediately by phone 306-528-7484 or by email bmacmillan@blairs.ag. You will also need to contact a licensed veterinarian to diagnose and treat the animal and fill out a vet form. If the animal dies, a post mortem will be required.

Note: All bulls that are left at Jackson Cattle after the sale for delivery will be automatically charged the 45 day Plan #1 bull warranty on their invoice. This is designed to protect both the buyer and seller.
