## Land and Cattle

6<sup>th</sup> Annual Bull & Female Sale

Tuesday, March 20, 2018 - 1:00 PM  
At the Farm, Neudorf, SK

# Welcome to the Hollinger Land & Cattle Bull & Female Sale

Welcome to our 6th Annual Bull and Female Sale. I'd like to begin by sending out a sincere thank you to all of our past customers, bidders, friends and family that have helped make this event a huge success the passed 5 years. As this year marks our 6th sale, we couldn't be more pleased with the progression our program has seen. The cow herd has grown, and with that the quality has become deeper. We are excited for you to come evaluate this years sale offering as they too, are deep in quality. We have a stout group of bulls that will suit your needs of calving ease bulls as well as big rugged performance bulls. The select group of heifers that we have assembled are straight from our replacement pen with many being out of foundation cows that have helped build our herd to where it is today.

In addition this year we are excited to offer, an exclusive frozen genetic opportunity that will be a great asset to any herd. We are pleased to offer limited semen packages on who was, without a doubt, one of 2017's most talked about show bulls, HLC Crossfire 569c. He is a bull that we feel exhibits a great mix of calving ease and curve bending performance. He was the 2017 Toronto Royal Reserve Champion Angus Bull and Senior Champion Bull at the Manitoba Ag Ex. We at HLC, along with our partners at Mainstream Genetics are pleased to offer you this opportunity to acquire some frozen genetics by this great herd Bull. I would also like to take this opportunity to announce the newest up coming herd sire at HLC. We, along with our partner, Roger Reynolds of CSI Angus acquired the outstanding sale feature Lot 193 in the 2018 Schaffs sale, SAV Senator 7153. We are extremely excited to add this bull to our program as he offers a unique out cross pedigree coupled with an impressive EPD profile and performance data second to none.

For those of you who have been awaiting the commercial female section of our sale, we are pleased once again to be working with some of the best cattlemen in the area, to offer you a solid, sound functional set of heifers. These breeders have assembled some outstanding groups of heifers that will be in high demand sale day.

Please join us sale day for coffee and donuts prior to the sale. Lunch will be served starting at 11:30. If you have any questions regarding the sale offering, please don't hesitate to contact myself or any of the sale staff. Internet bidding is also available on line with DLMS at [www.dlms.ca](http://www.dlms.ca).

Thank you once again for the confidence you have placed in our program, it is a privilege to work with each of you, and we look forward to seeing you sale day!

Sincerely,  
*Chad*

## From the desk at T Bar C...

Welcome to the 6th Annual Hollinger Land and Cattle Co. Angus Bull and Female Sale. This sale is always a highlight in the livestock industry located in Eastcentral Saskatchewan.

The Hollinger Family maintain a large farming operation along with a very strong cow herd. Their breeding program is based on customer needs... since they make their livelihood solely out of agriculture, they breed and raise the kind of stock that will thrive and excel both on the range and in the feedlot. Always looking forward, adding new genetics each year and listening to customers, the Hollingers have built a fresh predictable program which has added value to their customer's results at weaning and in their replacement pastures.

An exciting lineup for 2018.... sons of Merit Heavy Metal, Sankeys Justified and Business Elite headline March 20th. Rugged, thick, hairy with lots of testicle and style, these bulls come to you packed with high maternal heritage and predictability without giving up performance. Whether you are looking for a power bull to beef up more pounds at weaning or a sleep easy bull for the replacement heifers, this program can fit your bill. The females are uniform, highly maternal and ideal for any type of farming or ranching operation.

Plan to be with us at the farm on March 20th for a great event. Feel free to stop by the farm any time prior for a sneak preview of the bulls selling and view their mothers. Just give them a call, they will be pleased to discuss your breeding needs.

If we, at T Bar C, may be of any assistance, prior to or sale day, do not hesitate to give myself or any of our professional team a call, as we can help you with your needs.

PARKWOOD'S HEATHER LASS 154U

What a way to start off the 2018 edition of our annual bull and female sale. 943e is an exceptional individual in terms of structure, growth and power. He is built from the ground up, with a perfect foot and leg set. He is moderate framed, square hipped, huge topped and smooth shouldered. We can't say enough about the Heavy Metal offspring, they are the right "type," offering moderate birth weights, loads of maternal characteristics as well as being large testicled. 943e is a bull with a unique pedigree combining EXAR One Iron, who is out of none other than Greens Princess 1012, with VRD Dateline, a bull who truly left his mark on the Angus Industry. Buy with confidence, this bull is the real deal!

Here is a bull that is a pen favourite of many that have toured through. Again, sired by Heavy Metal, this calf is as sound as they come, carrying him self on a huge foot and bone to match you won't find one wider based in the entire offering. 185e is deep quartered, huge middled, with tons of rib shape. He offers a moderate 83 lb birth weight with exceptional growth numbers. His dam is quickly becoming a foundation female. She has a beautiful udder, is long and deep bodied and has tons of neck extension. A daughter of hers was a sale feature in the 2015 Power and Perfection and was purchased by Nu Horizon Angus for \$10,000. If you are in the market for a great one, don't miss out on this opportunity!

Keeping up the tradition of pumping out herd Bull after herd Bull, 5x strikes again. For those of you who follow our program 5x is the dam of one of our feature bulls each year and 201e is no exception. He is deep ribbed, long bodied and very correct in his design. As I always say, "it takes a great cow to make a great herd bull," 5x is truly one of the great cows to walk our pastures. Buy with confidence and keep every heifer this bull produces.

Here is a maternal brother to our many time division champion and Canadian Angus show heifer calf of the year, "Barbara 776d". If you are in search of a bull that will add loads of maternal strength to a calf crop this might be your bull. His Dam 68b and granddam 806w are both females we can't say enough about. Excellent udders, moderate framed, big volume cows that are the type to build a herd around.

If an outcross calving ease sire is in your plans, check out Kozi 963e. He was purchased in Dam out of the 2016 Justamere Sale of the year. He combines a very unique and proven genetic package. His sire, Koupal Kozi 418, is one of Semex's feature AI sires. His dam is a Sankeys Justified out of a Dameron First Impression daughter who is derived from the great Pride cow family. If his pedigree isn't enough, possibly the fact that he had a 77 lb birth weight, and was the second heaviest weaning calf, out of a first calf heifer, will be. As well he offers a very balanced set of EPD's with a 1.6 BW epd all the way to 110 YW.

Here are 3 bulls that are the result of the the first flush done on our farm back in 2014. Their dam 20r was what we felt to be be our top producing female that offered tons of growth and maternal characteristics. We flushed her to "Justified", a bull that has worked extremely well in our herd. We chose him based on his moderate birth weight and excellent phenotype. This year we have 3 full flush brothers to choose from, all of which are sound made, big hipped individuals that will be a valuable breeding tool. This will be your last chance to acquire this breeding combination. Don't miss out on this opportunity!

	78	808	1302		1.6	51	85	21	47

A very unique breeding combination that will work anywhere you utilize this great young herd bull. He is the third calf by Sweet Emotion, a female that topped our inaugural sale at \$14,500 for half interest. She is a female that continues to impress, with her exceptional udder and her long, deep body design. She is a cow that is destined to become elite in her own right. Sired by First Impression, 236e has that trademark look and eye appeal to him. He's exceptional in his skeletal design and very well balanced in terms of muscling, softness of middle, smoothness of shoulder and length of spine. Take note, his 78 lb BW, this calf will be very user friendly!

Without a doubt one of the most talked about bulls during the fall of 2017, we are excited to offer limited, exclusive semen packages on this outstanding breeding bull. Crossfire offers a nice mix of calving ease with curve bending performance, making him an easy choice for your next, proven, AI sire. He is extra long, thick, stylish and extremely sound. He travels on a perfect foot and is exceptional in his skeletal design. Crossfire earned the title of the 2017 Toronto Royal Reserve Champion Angus Bull, as well as Senior Champion Bull at the Brandon Ag Ex. I had the pleasure of touring his impressive first calf crop this summer at Mainstream Genetics. His calves command your attention with a great "look". They were long bodied, deep ribbed and attractive in their design. Here is a your opportunity to get in on this exclusive offer on one of the greatest herd bulls ever produced here at HLC!

## **H<sub>50</sub> Iron Saddle Ranch**

**RICHARD & BARB KRUPSKI**

Box 157, Lemberg, SK S0A 2B0

P: 306-335-2771

**A: Pen of three Black Heifers**

**B: Pen of three BWF Heifers**

Iron Saddle Ranch is owned and operated by Richard & Barb Krupski with sons Dustin & Dylan and his wife Mikaela. The ranch is located in the Qu'Appelle Valley 8 miles North of the #1 highway at Sintaluta. We calve out 330 commercial cows that are a Hereford/Angus base. We have been using Hollinger Land & Cattle bulls for many years with great results.

We are offering 2 pens of 3 replacement heifers with genetics from our top end females. These heifers were vaccinated in the spring and fall with Bovishield Gold & Ultrabac 7 with Somubac and Ivomec in November/17 and February/18. They are backgrounded on an oats/barley silage and a backgrounder pellet.

## **H<sub>51</sub> LD Stock Farms**

**DARREN & LAURA PILLER**

**TANNER PILLER**

Box 235, Neudorf, SK S0A 2T0

Darren: 306-730-8794 Tanner: 306-730-8792

**A: Pen of three Black Heifers**

**B: Pen of three Red Heifers**

LD Stock Farms is located two miles west and two miles south of Neudorf. It is a family run operation consisting of 450-500 Simmental/Angus based females. We currently breed using red and black Angus as well as red and black Simmental.

The heifers that we are consigning are out of our spring calving program and are born in April and May. Our cattle are on a full herd health program; they are vaccinated in the spring and fall with BOVI-SHIELD GOLD ONE SHOT, TASVAX 8 and also treated with Ivomec in the fall. These heifers have been developed on 30 pounds of oats/barley silage, 4 pounds of rolled barley and free choice hay.

We would like to thank everyone at Hollinger Land and Cattle for the opportunity to be a part of their 4th Annual Bull and Female sale. If you have any questions regarding our sale heifers, please feel free to contact us at any time.

**All heifers will be palpated by a veterinarian prior to the sale.**

## H<sub>52</sub> Maurer Farms

**A: Pen of three Black Heifers**

**B: Pen of three Red Heifers**

We would like thank Hollinger Land and Cattle for letting us be a part of their 6th Annual Bull & Female Sale. Maurer Farms is a family run operation located 2 miles east of Lemberg; we operate a mixed farm consisting of grain, goats, and calve out 100 head of cows which are Angus/Simmental females. These January – March born heifers were vaccinated with Fermicon 7/Somnugen and Pyramid FP5 in spring and again at weaning time and were also treated with Ivomec pour on in the fall. Since weaning, these heifers have been developed on free choice grass hay and alfalfa silage bales with 5 pounds of feeder pellets.

## H<sub>53</sub> Hollinger Land and Cattle
