BULL SALE

March 10, 2018 1:00 pm BC Livestock, Williams Lake, BC

Welcome from Harvest Angus

As we embark on our Fourth Annual Bull Sale, I must say, once again, how humbled we are to always see so many good folks support our sale. It is comforting, as seed stock producers, to see so many customers that have become really special friends and support our program. Your friendship and support is not something we take lightly. We want to make sure that our animals go on to enhance your programs. Your satisfaction is our main priority. Our hats go off to the many good folks and customers that were affected by the fires in B.C. last July and the resilience of the B.C. people to fight back with vengeance. It is our hope that nobody has to deal with such events. Fall brought on great cattle prices, which helped ease the pain from summer and now with the new year comes hope of a better year. This year we have on offer four black two-year-old virgin bulls and fifty five black yearling bulls. I must say, they are a very consistent group. Going forward, we will sell some two year old bulls each year. We always try to hold back a few bulls in the event that a customer has a bull that goes down for any reason. I really can't say I enjoy feeding bulls until they are two year olds, but I do, because we are committed to try and make sure we have a replacement if one of our customers gets in a jam for any reason. Once again, our sale partners have brought to town a strong set of bulls and I know they think just like I do, about your satisfaction. Last year we had a female sale at the farm in October that was very well received and we will do so again this year on October 13 at 1:00 pm at the farm in Prince George. We would love it if you could be with us then as well. Once again we have entrusted the sale to the fine folks at BC Livestock. The excellent staff and venue are always first class.

We still have the same rules in our program as we always have had and they are:

1. Fertility - Our cows that calve before February 10th each year are synchronized to be AI bred for a January 1st calf. 14 days later they are put in with the bulls for 45 days, that's it. We don't run our bulls with our cows on grass. All cows are ultrasounded before they are turned out on grass (we will already know if she's in calf).
2. Sound Feet and Legs - Our cows, like yours, have to travel a great distance for forage. So cows with bad feet and legs have no room in this program.
3. Sound Udders - Big teated cows need not APPLY. We love good uddered cows that have a desirable teat size. When the calf hits the ground it can get a teat in its mouth to nurse.
4. Quiet Dispositions - There are two men that work cattle in our operation and depending on the time of day during calving season. Lots of time you can find you are working by yourself. We don't tolerate mankillers.

These are the rules in our outfit for cows. If they fall in one of the four categories they are gone to town and we believe that with strong maternal qualities that we insist on from the cows and selectively use high performance sires we can produce bulls that can go to work for the most discriminative Cattleman. We try to resource the best genetics from all over to produce athletic bulls that have the ability to produce an average size calf with strong weaning and yearling weights that will convert into dollars for our customers. We are constantly looking for outcross bloodlines to instill the vigor that everyone wants in their cattle if your plan is to keep some replacement females. We have even included a photo of each bulls mother so you can see what kind of a cow she is.

ALL BULLS WILL BE SEMEN TESTED
ALL BULLS WILL BE ULTRASOUNDED
ALL BULLS WILL HAVE THE FIRST VACCINATION FOR FOOT ROT

I would also like to thank our sale partners, Heart of the Valley and Walkerbrae Farms. Most of all, Thank-you to our customers and thank-you for attending the sale. Also, thank-you for buying and using our genetics. It is our wish that these animals go on to enhance your programs.

We hope to see you sale day. Please come and enjoy a pre-sale lunch at noon on March 10. The bulls will arrive in Williams Lake March 8 and will be there for viewing if you wish. You are more than welcome to come to the ranch and see the bulls and the cows they came from. Visitors at the ranch are always welcome.

We would like for you to attend the sale but if you can't, feel free to contact us with your specifications on a bull and we will endeavor to select a bull of your liking. And remember if he's not right you don't own him. Just call Tom: 250-960-0022.

Also we have Mr. Clint Ellis from Ellis Cattle Company. Clint is one of the largest cattle order buyers in BC and he will be in attendance at the sale. If you wish to call Clint he can also handle your bull purchase as well. Clint can be reached at 604-309-5355 or 205-398-5733.

See you sale day!

Bull Sale

March 10, 2018 - 1:00 PM
BC Livestock, Williams Lake, BC

On Offer Angus Bulls:

60 Black Angus bulls • 18 Red Angus Bulls

General Information

CATTLE INSPECTION: All bulls carry tags corresponding to the sale lot number and will be available for inspection in Prince George prior to March 8 and at the Williams Lake Yards March 9 (afternoon) till sale day.

PHONE BIDS: Can be trusted in complete confidence to any of the sale staff.

INSURANCE: Ownership risk to purchaser commences when the auctioneer's hammer falls. Livestock coverage will be available sale day.

BREEDING GUARANTEE: All cattle are sound and right and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions set out by the Canadian Angus Association will apply.

TERMS OF SALE: Are cash and cheque at par payable to clerk sale day, unless other arrangements have been made. Bulls will not be released until paid in full.

RISK: All persons attending the sale do so at their own risk, and the owners and sale staff assume no liability, legal or otherwise for property loss or for any accidents that may occur.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected from the auction stand at sale time will take precedence over the printed material in the catalogue.

CANADIAN PEDIGREE: You will see  next to several lot #'s in the catalogue - It signifies a "STRAIGHT CANADIAN" pedigree.

Harvest Angus and Heart of the Valley reserve the right to retain in herd semen interest on all bulls in the sale.

Well, if you are looking for a calving ease bull, you just found him. If you are a fan of numbers, you found your bull; top 20% of the Angus breed for calving ease; top 1 % of the breed for weaning weight, yearling weight, milk and total maternal. If you know EPD's, look at his, because you'll have to put on lots of miles to find a bull with better numbers and guess what else, he is really easy on your eyes as well.

If you have a pen of heifers and need a low birth bull to put your mind at ease, take a look at this guy. You won't be disappointed. I really like him.

Years back, I purchased fourteen heifers from the late Frank Strimbold. I really liked talking to Frank about cows and he was wise beyond his years. The females we purchased were sired by a Kodiak son. They have great udders, feet, legs and good dispositions. Here is a son of one of the best cows in the group. That group of heifers are now seven year old cows and I still have twelve of them. They are still going strong. We all talk about bulls but without a great momma cow, we are missing fifty percent of the equation. A great man I know once said, "when they come from nothing, they breed nothing." This fella should get it done.

7M Ruby X Stingray son. His momma is who we call the gentle giant. She has always been my favorite female. If you look for docility, let me tell you about 283E's momma. A few years back Ruby's calf got sick and wouldn't nurse. I was tubing it with her milk. When I needed to milk her, I put some grain in a feed tub and milked her right in the pen. Wow!

We only have a few red cows at Harvest and if we do buy one, she's gotta be a good one. Little Man was named that because when he was born, he was just a peanut. Well, look what he's grown up to be. A young bull with eye appeal, low birth numbers, who's also a red gene carrier. If you use him on red cows, some calves will be red.

We are always on the lookout for new genetics. Here's a bull we really like. His bloodlines originate out of New Zealand. He's probably one of the best footed bulls I've seen in quite some time. His mother is our 964W donor cow, who I could write a book on. If you're looking for a bull who will crawl a mountain to cover your cows, come down and take a look.

The Yeager influence comes through in this fella. You should see him in the pen, because he stands out. He moves like a cat and if you have cows to cover, I'm sure he's going to get the job done.

A performance bull straight through, good bone with great depth of heel. There's not a lot of air under his belly. He's gonna add pounds to the calf crop.

We never got a photo of this fella on photo day because he's athletic enough to get out of the pen and go where the girls are. What we can say is, he can move. His brother City Lights Showtime was a bull that we showed with Harvest Angus a few years back, who we lost early in his career. There are some great females here as well as at Harvest.

Here's a Warrior son. We acquired him from Harvest a few years back and we are really pleased with the offspring he has given us. This bull is a great representation of his balanced EPD's.

Welcome to the
**WILLIAMS
LAKE
STOCKYARDS**
BC LIVESTOCK

Welcome from Heart of the Valley

Please accept our family's most sincere welcome to the **4th Annual Harvest and Heart Bull Sale**. Though the daylight is just starting to get longer, here at this time in January it always feels like the work of the calving season is never done, but making the last cuts for our bull offering, also puts Spring just around the corner.

We would like to acknowledge with total reverence and admiration the complete and utter selflessness, neighborliness and sheer determination of will by our cattle customers and everyone else across BC last summer in their fight against; at many times an overwhelming and catastrophic fire season.

We absolutely appreciate the support, advice and input from all of our past customers, friends, and family, from our Bull sale, and a successful purebred Heifer sale just last fall. A must, is a special mention for the commitment and hard work from both Wyatt Strachan and Shelby Meaden for helping us bring in our calf and field crops each year!

The Cow-Calf Producer is the backbone of our industry and we recognize that without a doubt we would not have got where we are today without the loyalty and commitment you have all shown us. We are truly grateful.

It brings to mind something that is talked about, but not inherently understood in the Aberdeen Angus breed stock business. If we look over the years just in North America alone, the differences in climatic and geographic locations where our Bulls have found a home; we can see that from the dry high country of central Mexico, cold of the northern Prairies, humidity of the Dixie states out to the rugged western Chilcotin, the Angus breed are a genuinely versatile, flexible and productive genetic influence throughout our continental and worldwide cow herds.

Perhaps the most important measure "of what we do" gets lost sometimes and that is our commitment to produce herd genetics that offer Calving Ease with Performance. As everyone knows 'live calves grow the quickest', and that's when performance needs to kick in for anyone selling by weight. We think the bulls speak for themselves and encourage you to visit early and ask as many questions as you want. We are here not to just sell bulls; but to help our customers gain more efficiency in all the right places. All of our Reference Sires are live cover, we have a significant bull battery standing; we know these young bulls can walk because we walk their Sires, it's that simple.

As always our name is our bond, and we want your business this year and many to come. We stand behind our cattle 100%, as many of our past and repeat customers can attest, however in the unlikely event that there is a problem with your Heart of the Valley Bull, we are here to look after you.

This summer in early June, the Canadian Angus Assoc. with the BC Angus Assoc. are holding their National Convention here in the Comox Valley on northern Vancouver Island and we are hosting a good ole time BBQ Hoedown at the home ranch; we think the more the merrier! It's a great time for Ranchers to meet other Ranchers from across our continent. Please get in contact with us if you are able to take the time.

Please join us on Saturday, March 10th at 11:30 am for BBQ and 1:00 pm Pacific at BC Livestock in Williams Lake, BC

If unfortunately you cannot join us, but are interested in any of the cattle in the sale please contact either of myself, Clint, Roger or Tom.

Thanks again for your support and interest in our program.

See y'all sale day!

Brad, Aleta, Hayes & Cowan

HEART
of the VALLEY
FARMS

The logo features the word "HEART" in a large, serif font, with a stylized green mountain range graphic to its right. Below "HEART" is "of the" in a smaller, lowercase serif font, followed by "VALLEY" in a large, bold, serif font. At the bottom, "FARMS" is written in a smaller, spaced-out, serif font.

Powerfully built and very complete, a **DEFINITE Heifer Herd Bull** with **Very Low BW and 114YI**, for use on **Cows and Heifers**, with a super cool hair coat, stands impeccably square with his head up. Has a wonderfully thick hip shape carrying low in the quarter, this Copenhagen 3Y daughter - Hannah 17C's first calf **Sale Feature** is an absolute knockout opportunity to gain that awesome depth and length from his very unique pedigree. Big time **Calving Ease** with killer **Performance** from our **ELITE DAM** line, make it obvious why he is a favourite of the pen! **ADG 4.52**

A **Sale Feature** Copenhagen 3Y daughter X to Bottoms Up 268B produced an exceptionally shapely **HEIFER BULL PROSPECT**, with tonnes of style, super hair coat and a very proud look to him as he moves about on excellent feet. We are expecting Emily 47C, a well-balanced, easy doing moderate cow, to come through in this young bull 109WI & 106YI, which can confidently be used on **Cows & Heifers** for **Excellent Calving Ease**. **ADG 4.20** WPDA 3.39

If you like your bulls with big wide pins, lots of muscle, dark in colour and carrying a big hip on a long sided frame, then here he is. He had a **weaning index of 109** comin' off his Inatexxi 7Y dam, weighing 894 lbs. Sept. 7th. I liked him then and like him even more now. Outstanding **Performance Herd Bull Prospect** that will put pounds on your calves. **ADG 3.35**

Lot 63

Nothing regular about this very cool wide pinned and **Chunky** Bottoms Up 268B son on a decidedly moderate frame. He's got lots of character, like his dam and tonnes of shape to him, deep in the barrel carried through to a sculpture like hip. From one of our top production cows Roberta 10Z, weaned twin calves at 1266 lbs., took early and calved Jan 27th. **Fertility and Huge +23 Milk** with bulls that went to work at Jace and Shauna Jacobsen's & the Granum Colony. She's an **easy calving** cow every time, to be used with confidence on **cows & larger framed heifers**. **ADG 4.29!!**

A stunning specimen moderate birth weight, **Calving Ease Power Bull.** Thick and fleshy through his long dark frame. This **ELITE DAM** son of Hannah 95W X Endorse 67B is a notch kicked up, with a super hair coat and muscle to spare carrying an **ADG 4.67.** We keep every female we can get from this dam which is just one, so she will definitely be going to flush this year.... **She's a Bull Maker.** Sons at Kershaw Farms, Liske Farms and C & C Ranch. **WPDA 3.65**

Surely an 882 lb. WW is enough alone to stand on for this **Impressive Performance** based Meat wagon of super dark, long deep bodied smooth traveling **Herd Sire Prospect.** However he's got height and width while keeping **calving ease** on this cow bull plus giving you that **Power Injection** that these Endorse progeny are well known for. **ADG 3.79**

This tall, dark & handsomely framed cow **Herd Bull Candidate** struts very proudly in the pen. Inatexxi 9A is a top producing Copenhagen female with a son working at Barzee Ranch and a bred heifer with the Patton Ranch. Predictability abounds here and removes a lot of the guess work!

An absolutely wonderful presence on this TGA 2312Z **Sale Feature Performance Bull.** Deep in the barrel with a strong spring of Rib, nice hair coat...awesome muscle and power ratio...he's got a helluva fine crest that carries that shape and thickness right down low into the quarter. Strongest calf through the weaning, **off his dam at 912 lbs.** over 7.5 months for a 119W1. **Massive Maternals & Fertility.**
ADG 4.10 WPDA 3.75

If you are looking to add an attractive long bodied **Heifer Bull** that has a lovely hair coat in a smooth moderate body, here he is. 30E is a proudly walking suitably thick framed lad that gives you built in **Calving Ease** all from his dam Elora 29Z with an impeccable udder/teat combination. Not extreme in any way, genetics like this should guarantee maternal excellence. He has siblings working at Dan Hamblin's & Holland Hills Ranch. **ADG 3.73**

A lock down **Heifer Bull** here from a super moderate cow, Emily 176W who throws long and fancy. He's got a great hair coat, dark and full with great feet... combine to make a **Calving Ease** packet for very **Safe use on Cows & Heifers**. He comes without papers, as his dam had simply missed registration by surviving a winter on the range. I liked that instinct about her, it comes in her calf and Hays Grazing in southern Alberta thought the same and took his brother home a few years back. **He weaned off his dam at 708 lbs. Sept. 7. ADG 3.65**

A well balanced, smooth traveling young bull that will help you breed efficiency, do-ability and excellent fertility into your herd from highly reliable genetics. Use him with confidence on **moderate framed Cows**, Olivia 12Z is a **calving ease** specimen and she has sons working at Ewelme Farming and the Marek Ranch.

We consider 35E to be a very **High Maternal, Sleep at Night, Calving Ease Bull**. His dam, Olivia 1A is one of our favourite gals sired by Copenhagen 3Y. He's dark with a hairy coat, carries his head proudly on a sleek frame with a nice foot and a 101YI. An awesome -5.4 BW EPD and a +7.4 Calving Ease EPD. You will have to go a long way to find bulls with those numbers.
ADG 4.01

A **Calving Ease Prospect**, super hairy dark red cherry coat, with a moderate frame and a BW EPD of -3.2 and a Calving Ease EPD of +6.9, offers an excellent opportunity for a young Heifer Bull to get the job done. His dam 148Y has a son at Bar K and daughters at the Southern Ranch.

Quite possibly the darkest and most closely resembling of his sire Endorse 67B at this age. This rascal here displays a wonderfully **balanced performance** based frame, thick through his hind quarters. He's a solid foot **Herd Bull** out of one of our **ELITE DAMS** Olivia 151T, from whom we have retained two daughters and has sons at MGD Ranching and Anchor Lazy U. This guy will **Add Length, Structure and Pounds** to his calf crop **when used for breeding Cows.**
ADG 3.90

Coming this fall...
