

**R-PLUS SIMMENTALS**

**18<sup>TH</sup> ANNUAL  
BULL SALE**

**Sunday, March 4, 2018 • 1:00 PM**  
AT THE FARM NEAR ESTEVAN, SK

# WELCOME TO OUR 2018 EDITION OF THE ANNUAL R PLUS BULL SALE

It is a great honor to welcome you to our 18th annual bull sale at the ranch on March 4.

We would also like to thank all our customers from years past and welcome new partners in the future.

We are very proud of our R PLUS BRAND.

Our goal is to raise bulls that make our customers larger profits. We will achieve that by offering bulls that are sound, fed for longevity, ease of calving and giving you that added performance of our Simmental bulls.

By keeping our customer at the center of everything we do, by building confidence in our strength and positioning and innovating to create new genetics we are on track to set ourselves apart from the competition in the beef industry.

We are very positive about the beef industry, we work every day to raise a better bull. We are one of the few operations that sell very few females. We believe you have to retain them in your herd to improve your bull pen.

This year's offering was selected from about 500 calves, so the culling has been done.

We run an extensive AI program. In 2017 we serviced just under 500 females on natural heats.

We are excited to show you our offering at anytime, but if you don't make it presale, we welcome you to view the bulls the day before and sale day as they are displayed in smaller groups to make your selecting easier.

Come join us at the ranch for some R Plus hospitality, livestock fellowship and viewing.

We are forging on and looking forward to working with our new partners at T Bar C. Chris and Ben have been part of our team for a long time and we are looking forward to having Shane Michelson's input on our breeding program.

We welcome T Bar C and all their staff.

Thank you

Sincerely Marlin and Lucille LeBlanc

Carcass Data, Scrotal Measurements and Weights will be available at the sale and on the website at [www.buyagro.com](http://www.buyagro.com) the third week of February.

## ROB HOLOWAYCHUCK

As we work on the 2018 catalogue, we have a very empty feeling. As many of you know we lost our very close friend and mentor this year. Rob passed away this past year doing what he loved to do, picturing cows for a sale catalogue.

I travelled many miles with Rob, we argued, we laughed and got in too many deep discussions about the industry.

I miss the late-night phone calls to help him stay awake as he travelled to his next event.

All the times he would go several hours out of his way to look at a bull that I wanted his opinion on.

The man understood the cow model better than anyone I have ever met. He knew what every part of an animal's job was. He was a great teacher.

Our relationship sprouted at Agribition in 1995 and I valued him as one of our best friends.

Rob was there to guide us through our first sale in 2002 to last years sale in 2017.

Rob, we will miss you.

# FROM THE DESK AT T-BAR...

From the desk at T Bar...

Welcome to the 18th R Plus Simmental Bull and Female Sale which offers you a powerful lineup of value-earning sires backed by years of selection. The LeBlanc family dates to the late seventies in the Simmental breed and for the past three decades have produced Red and Black bulls for their customers. Many breeding decisions have been made dependent on customer needs and like their commercial patrons, the cow herd is ranch run in the short grass hills south of Estevan.

The large cow herd allows Marlin and Lucille to annually offer a large group of look-a-like sire prospects for your selection. They have built a cow base optimum in frame size, highly fertile, with soundness and an abundance of milk. The large herd bull battery is designed to produce bulls to fit all needs whether you are looking for a power bull or a calving ease individual. Hair, testicle size and uniformity of frame with tons of performance, make R Plus a must stop operation for all your sire needs. Their very large base of repeat customers, both purebred and commercial, assures that the product they offer adds value to a breeding program.

The bulls come to you in awesome condition...not stuffed but wintered on a high roughage ration to ensure soundness and longevity in your selections. The bulls are semen evaluated and inspected to ensure fertility and soundness, so you can shop with confidence knowing that your selection is ready to service your females.

Circle the date of March 4th on your calendar and plan to attend this Simmental source. Feel free to stop by the ranch anytime prior to the sale and have a preview of the bulls and their mothers in their natural environment. Come early sale day, view the offering and be guests for a great noon luncheon.

If we, at T Bar C, may be of any assistance, prior to or sale day, do not hesitate to give myself or any of our professional team a call, as we can help you with your needs.

Chris Poley

Bozeman, MT

1-406-581-8859

**Bull Development:** For 2018, the bulls were weaned by September 20, coming off native grass pastures with no creep. Bulls are on a chelated mineral, full vaccination and health program. Their development begins with a TMR ration of ground hay, corn based pellets and water. Mid November corn silage is introduced into the ration and the bulls remain on this total balanced ration until delivery to your ranch. The TMR (total mixed ration) means that every bite the bull takes is the same as the last, ensuring no overloading as other feeding programs may allow. The bulls are not creep fed nor full fed, they are developed.

**Delivery:** Delivery is to your gate at a mutual convenience, however we would like to have your bulls delivered to your yard by April 20, 2018.

**Sight Unseen Program:** We offer a site unseen program for buyers who are unable to attend the sale. We have an excellent and very qualified sales staff. We invite you to call anyone of them or myself. All Sight Unseen Purchases are 100% Guaranteed!

**Reproduction Evaluation:** All bulls will be semen tested and breeding evaluated by Carmen Langevin of Flying C Vet Clinic.

### Hotel Accomodation

Days Inn 1-800-DAYS INN  
1305 - 9th St. Estevan, SK

### Livestock Insurance

Alameda Agencies Ltd. - Bonnie Thompson  
306-489-2258 Cell: 306-483-7311

We ask that you insure your bull after the sale, as injuries can happen. Bonnie will be on hand to help you with your insurance needs.

Edge is a bull we raised and sold in our 2006 sale to Westway and Lewis Farms. He has definitely influenced our program more than any other bull we have ever raised or seen in the breed. He is certainly influencing the Simmental breed through his sons and daughters that are working in several herds. The thing about Edge is he makes his calves better in consistency, kind and type. Throw aways are few and far between.

REFERENCE SIRE

145X was the high selling bull in our 2011 sale purchased by Perkin Land and Cattle and Tyler Lyne, Elgin, Manitoba. The Hard Rock calves have come extremely easy with loads of performance and style. Several daughters were high sellers in the fall sale run. It has been a real pleasure to be involved with young up and coming breeders like Daryl and Tyler. Hard Rock sired females have been the mothers of top bulls sold in previous sales.

<b>BW: 90 LBS. 205 DAY: 863 LBS. 365 DAY: 1490 LBS.</b>											

We selected the 7083E bull to lead off our 2018 edition sale. We have liked him since the day he was born, the perfect baldy face along with exceptional performance and a very moderate birth weight. The 4059 cow is out of the great mother to Redge and Rich Ray; we really enjoy these Ray daughters. She has a matching bald face, great udder and conformation to live on and become one of our leading cows. Top side includes the great 15A cow who doesn't miss, Liner 56U and Absolute. We truly believe the 5015 bull will be a real breed enhancer and 7083 will take that one step farther.

**Retaining 1/3 semen interest.**

A Rich Ray son out of a real favorite cow of mine , super uddered, sound and big barreled. A bull we feel has a lot of potential.  
**Retaining 1/3 semen interest.**

## HERD HEALTH

At R Plus we strive to use a stringent health program and up-to-date vaccines under the guidance of Dr. C. Langevin, Flying C Vet Clinic since 2000. Herd health is of the utmost importance at R Plus. This is something we take pride in passing along to our customers for longevity in the bulls purchased from R Plus.

## POLLED TESTING

A number of the bulls will be tested for homo polled homozygous and coloring. Results will be available on the BuyAgro website prior to the sale.

Exceptional cow here. She has sons from Southey, Saskatchewan to MacGregor, Iowa.

Boondock has been used extensively on our later calving cows. Look for a big selection in next year's sale.

The Venom calves were a hit last year and once again, we are proud of them. This individual combines two great R Plus sires in Reload and Venom. Calving ease and huge maternal.

We purchased a semen package in the Westcott bull and are really pleased with the resulting calves in our herd. He will add performance, yet keep them very sound. 7199's dam is one of the real popular cows on pasture tours; she has a great udder and a tremendous rib shape.

# R PLUS PHILOSOPHY...

The breeding of Simmental cattle has been a passion and dream of ours since the 70's. We made a move in 1991 to change our Simmental cattle into a moderate framed animal that survived well in our climate. The solid colored red and black cattle fit the bill: the performance and fertility of the Simmental cattle could not be compromised, so we began looking for genetics that would support our beliefs.

Present day, our beliefs haven't changed and we believe the cattle back this up.

We are raising cattle that survive and breed in short native grass pastures, with hay being their main ration; cattle that have fertility bred into them, as most of our bulls will be under a year of age at sale time and will have passed a fertility test and scrotal measurement that in the past has averaged around 38 cm. Hair coats are very important to us. Straight heavy haired cattle tend to be easier doing, happier cattle at R Plus. As we live in a short grass area, we have to have cows with large spring of rib. We believe that the rib eye measurement indicates this to us. Structure and conformation have to be closely monitored in our program as a large area of pastures are located in heavy rock conditions. Our cattle must have the ability to walk in these conditions.

As our operation is usually a two man show, the cow's ability to have a calf, that calf's vigor and the mothering ability of the cow are all things that are very important to us.

We do not believe that overfeeding bulls and females is necessary. Longevity is something that is needed in all cattle and overfeeding only helps to shorten their life span and affects their fertility. Our rations are developed to grow and allow cattle to mature at an optimal rate without causing any complications to that animal.

We have bred these solid red and black colored cattle for 27 years. The multi generation of the red and black genetics will make your calf crop predictable in color. By using these solid colored genetics we have eliminated sun burnt udders, weak eyed cattle and created a trouble free animal.

**R PLUS RELOAD 2006Z**

Sold to Westway Farms, Springer Simmentals, Gunn Simmentals, Denning Simmentals (US semen rights). 2013 high selling Hard Rock son, first calves to arrive soon. Sired several high selling females in the 2017 sale run.

**R PLUS ROCK HARD 145X**

Sold to Perkin Land and Cattle, Tyler Lynn's Simmentals. His story has just begun, last year's top seller was a Hard Rock and many of last year's females were sired by Hard Rock. It was the 2012 high seller, several of the top bulls out of our sale are of Hard Rock mothers.

**R PLUS KING OF THE YUKON**

Sold to Springer Simmentals, Iowa. His legacy is still being written at this great herd. Sired many top bulls and sought after females.

**R PLUS REDGE 8018U**

Sold to Westway Farms. Top red son of Edge, continually sires the top selling bulls at Westway and R Plus.

**R PLUS MCSTEAMY 8028U**

Sold to Kenner Simmentals. Another Black Edge son that has done amazing things.

**R PLUS BLACKOUT**

Sold to Tri R Simmentals. The great female maker and also the sire of Yukon.

**R PLUS BLACK EDGE 5028R**

Sold to Westway Farms. Could be one of the most influential black Simmental bulls ever.

**R PLUS PRAIRIE FIRE**

Sold to Kopp Farms. His legacy, a number of top sellers at Kopp's recent dispersal.

**R PLUS 2035Z**

Sold to Highway 5 Simmentals, Canora, SK in our 2013 sale.

**R PLUS 3197A**

Sold to Traxinger Simmentals, Claremont, South Dakota in our 2014 sale.

**R PLUS KEYSTONE 3011A**

Sold to Kunkel Simmentals, New Salem, North Dakota in our 2014 sale.

**R PLUS VENOM 4006B**

Sold in 2015 sale to Circle G Simmentals, Lacombe, AB & Spring Creek Colony, Walsh, AB.

**R PLUS HITMAN 4194B**

Sold in 2015 sale to SIBL Simmentals, Cherhill, AB. Great Reload 2006Z son.

**R PLUS 5015C**

Sold in 2016 sale to Bonchuk Farms, Rocky Meadow Simmentals & JP Cattle.

**R PLUS HAMMERTIME 5051C**

Sold in 2016 sale to Porter Ranches & Soderghen Farms.

**R PLUS 6200D**

High selling red bull from 2017 sale to LaBatte Simmentals and Circle 7.

**R PLUS 6103D**

High selling black bull from 2017 sale to SIBL Simmentals and CRM Ranches.

# R PLUS TWO YEAR OLDS

We have been retaining a set of our younger born calves to offer up as coming two year olds. This is our third offering. They are managed on a higher roughage ration through the winter, then turned out on native pasture till October. They then return to the ranch and are placed on the high roughage ration again.

As our facilities don't allow us to calve all our cows in a shortened season, we will walk our bulls into summer. The genetics are same or similar to our yearling bulls. By offering these coming two year olds, it lets these young bulls develop and cover more cows for you.

# LOT 100

## PICK OF THE 2017 HEIFER CALVES

Once again we will be offering a selection from our 2017 replacement heifers. As in the past, if you choose to wait, we allow the selection to take place after the heifers have calved the following spring. So, the reality is, you are purchasing a pair if you like. As we don't offer a lot of females for sale, we feel this is a unique opportunity.

### *EXAMPLES OF R+ FEMALES . . .*

R+ have established themselves as one of the leading Ultrasound Carcass Evaluation Programs in the Simmental Breed. Not only do they evaluate their own bulls for their customers but they also use carcass evaluation as a selection tool for securing new headline herd sires. Following the R+ example not only helps out R+ but we believe that your program will improve as well. Remember the R+ Brand of Confidence.

### What is Ultrasound?

Ultrasound has become an everyday use of “frequencies” to detect those things that we can not normally see with our naked eye. Example: (Medical World – it is used for a host of functions from detecting bodily problems to detecting the sex of a young couple’s first new born). In the outside world it is used to detect cracks or possible structural flaws in all types of equipment from bridges to engines. In beef cattle it is used to detect three major components of a live animals carcass composition; that being muscle (meat), fat thickness and IMF (Intra Muscular Fat or Marbling). As well, it is quite commonly used to detect the sex of embryos being carried with an amazingly high degree of accuracy.

### When is it used?

For any meaningful information, it is best done during some relative time period similar to what slaughter ages are to be. The CUP system adjusts the carcass information to one year of age (similar to adjusted yearling weights). This then gives us at least a simple level playing field for making choices or decisions within common groups.

### How are the Measurements Expressed?

Rib Fat – either in inches .3 inches or in mm’s 8 mm

AREA – usually in square inches

IMF or MB – as a % of that area (eg. 4.2 = 4.2%)

RP = Retail Product – is a % of a saleable carcass

### Why ultrasound or better yet should we pay attention to this information?

Within the seedstock industry it seems like a distant or vague result that holds little real value, but in the commercial cattle world this tool of using ultrasound has become a well documented practice that when used has resulted in a clean, positive, decision making management choice resulting in extra profits of \$30 per head and higher. The ultrasound carcass evaluation when used a short time (7 – 10 days) prior to slaughter simply allowed the seller to market on a grid system or not at an optimal time. (This live pre-sort has resulted in an 80% - 95% degree of accuracy following slaughter. The pre-slaughter carcass data corresponded to slaughter data with measuring IMF and Fat to this degree of accuracy). As well reportedly we find major players in the North American slaughter industry securing software programs to in fact use this technology for a much more economic decision on their front. “Apparently the information is not as vague as we may believe.”

### What is good or what is bad?

None of the figures or information is bad – the information should help us identify which animals or groups are superior for different traits, ie. the high IMF bulls could be sources to use on Continental cows who may well have lower IMF tendencies, or large AREA bulls or sire groups could be used on low yield, easy fleshing British cows whose IMF genetic makeup could already be abundant. Remember Retail Product (RP) takes a combination of this information into account. So is there a right answer?? Not at all, but there certainly is an advantage to you the buyer using this information if the bulls or sires are identified.

The first thing producers want to know about ultrasound is: How accurate is it? The answer to the question depends on who does the actual scanning of the animals and who interprets the images. Ultrasound data on these bulls was collected and analyzed by a technician that is certified by AUP and CUP. This means that the technician has met the standards set by many breed associations. The accuracy, although not perfect, is high enough that bulls selected based on ultrasound result in positive genetic change in progeny carcass traits. Heritability for carcass traits are moderate to high, which is slightly higher than birth weights, weaning weights and yearling weights.

### IMF (Inter Muscular Fat or Marbling)

IMF is the best indication that we have to tell us what kind of eating experience we will have when eating beef. Extensive research shows that average AAA and above marbling produces the most satisfied consumers. As marbling increases so does the juiciness, flavorfulness and the tenderness. This may not always be true but for the most part AAA marbling produces more satisfied customers than does A or AA marbling carcasses.

### Back Fat (BF mm)

Fat depth influences lean meat yield. Fat bulls have less lean meat/ muscle in the carcass. The fat measurement also gives an indication of the bulls fleshing ability. Calves from a bull with very little fat may finish too slowly in the feedlot. Body condition score (fat depth) in females is related to their ability to reach puberty at an early age, produce milk, rebreed and maintain a short calving interval. On the other hand, bulls carrying excessive fat may suffer reduced fertility.

### Adjusted Ribeye Area (AREA in2)

The AREA is the largest muscle in the body at birth so AREA gives an indication of overall carcass muscling (measured in inches) and adjusted to one year of age.

### RP (Retail Product/Cutability/% LMY)

RP is the percentage lean meat yield in the carcass. Yield grade is an important factor in both Canada and the US. Producing calves with a high genetic potential for this trait can be an important objective of a breeding program. Back fat will reduce yield by 7 to 8 times what REA will increase yield.

### Summary

Like all traits we should avoid the extremes. Moderation is the key. As producers we need to evaluate our own females and then decide what kind of progeny we want to produce and this should dictate what kind of sire we want to purchase.

**Carcass Data, done by Rod Wendorff,  
Windy Ridge Ultrasounding and will be  
available after February 20.**

# TERMS AND CONDITIONS

## TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## BIDDING

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

## ANNOUNCEMENTS

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## BREEDER'S GUARANTEE

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

## EXCEPTION GUARANTEE

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

## CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Simmental Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## RIGHTS AND OBLIGATIONS

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

## PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## DELIVERY

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

## INSURANCE

Will be available sale day. We strongly recommend that insurance is purchased for full value.

## ERRORS

All announcements at sale time, written or oral, supercede any written material in the catalogue.
