Bull Sale**

At Batho Farms - Oak Lake, MB

Message

Welcome to our 24th annual Southwest Bull Development Centre sale. A little over 24 years ago a group of progressive breeders gathered at Melita one evening and discussed the idea of starting this development centre. Some of those breeders have moved on, both with their own sales or dispersed their herds. But one thing that has not changed is that the Development Centre is still located at Oak Lake. The bulls are fed in a large area allowing lots of exercise to grow and develop. The ration of 50% Grass/alfalfa hay, 47.5% oats, 2.5 % Supplement in a self-feeder, and is designed for a gain of 3lbs./day.

All the bulls have passed a semen evaluation before the sale. They have been tested and are negative for types 1 & 2 BVD. The carcass data has been collected and will be available on sale day.

The sale is at Batho Farms Ltd. this year. The bulls have been videoed in mid March and clips of each bull will be presented during the sale. This allows us to present the bulls in a stress free environment. You are welcome to come at anytime to view bulls at the development centre the morning of the sale or anytime before the sale.

If you have any questions or are unable to attend the sale and would like to discuss the bulls feel free to call Ron, Albert or any of the consignors listed in the sale catalogue. We look forward to seeing you on sale day.
