## Plan an Ontario Hereford Weekend

September 18 - River Valley Production Sale, Newburgh, ON  
 September 19 - Elm-Lodge & Friends, Indian River, ON  
 September 20 - Autumn Alliance XXXVIII, Orillia, ON

We will be following COVID-19 regulations  
 applicable to Simcoe County, Ontario in place at  
 the time of the sale.

# Welcome...

Every year Jack, Lois, myself and the Medonte crew look forward to hosting Canada's longest running Hereford female sale. This is the 38th edition of the Autumn Alliance and we are excited about this year's offering.

The four future herd sires on offer are all unique individuals with awesome mothers. When we decided on the pairs we dug deep. All of these young cows are of high caliber and all have heifer calves at side which do not disappoint. Our Alliance partners have consigned top quality livestock.

Thanks to Jack and Lois for their continued support. Randi-Lynn, Faith and Jacob; Thank you for all you do.

Contact myself or any of the consignors if you have any questions.

Regards,  
*Kevin*

## From the Desk at T Bar...

Thirty-eight years ago, the CD player was introduced, caffeine-free Pepsi was invented, and Autumn Alliance I was established. Many of us can get by without Caffeine-free Pepsi, and CD players are still around but seldom used... while Autumn Alliance is a staple in the Hereford breed, and a source for superior seed stock for the livestock industry. Just minutes west of Orillia is the testing ground for producing the newest (and competitive) Polled Hereford genetics available for purebred and commercial breeders alike.

Many of us have watched this program grow and evolve into a source for the freshest new herd sires. Over the past couple of decades, a host of MHPH bred sires can be found enhancing programs throughout North America. The dedication of Jack, Lois, and Kevin to Polled Herefords and agriculture is second to none. Yes... they are of a competitive nature, but that is why the program is so strong. The walls of the office are covered with "Premier Breeder" banners, the ultimate prize for a purebred breeder. Each year, the folks at Medonte add a new sire or two into the program providing genetic diversity, especially for their many repeat customers.

The 2020 lineup is stellar, featuring four herd sire prospects by MHPH 3134 Evolution 117E. In addition, the top cut of heifer calves are ideal to "kick a little butt". The bred females are young, carrying early services by the new additions to their bull battery, and will make foundation females in the breed.

As in the past, their fellow breeders, who have been part of this event, continue to send their front pasture selections adding genetic diversity and opportunities for all.

Plan to be with us on September 20th... whether you are in person, on the telephone, or online with DLMS, for one of Canada's great Polled Hereford events, Autumn Alliance XXXVIII. Although Covid-19 has changed the method and fashion of how we do business, it can never stop the production of superior seedstock. In agriculture, we are an "essential service" and Medonte Highlands is an "essential seedstock source!"

During these times, feel free to call anyone on our T Bar C Team to discuss or purchase any of the cattle offered. We will be pleased to assist in a professional and confidential manner.

*Chris Poley*

Evolution has been scrutinized by many livestock enthusiasts in the past several years and the consensus has been positive. This stock bull has the genetic punch to enhance any program. Which comes as no surprise when you study his pedigree. 117E will sire calves that have eye appeal, mass and sound structure. This Herd sire is quickly validating his influence in the Hereford fraternity.

**Terms To Be Announced.**

Hobbs is a unique blend of the two most prolific and predictable cow families here. Dainty 205Y, a World Champion, being his dam. Action, Chizel, Chase and Gunfire; all of these maternal brothers have excelled in production. Then add Nita 226B, a highly proven producer. She's a big bodied, feminine bovine. Her dam, 1112R, is also a former Canadian National Champion, making 226B a maternal sister to the cow maker Umpire, who is also a former Canadian National Champion. A Rock daughter out of 226B was the high selling Hereford female at last year's Falls View sale, selling to Anita Doktor.

Hobbs himself is a powerhouse. He shows great extension through his front end, which transitions into a perfect shoulder. When standing back to analyze him you will notice tremendous body, length and a hip structure that explodes with overall shape. Look to the ground and you'll see a big foot. This guy is agile in his movement. Hobbs will be an integral piece of Medonte's future.

Maternal sister sells as Lot 26.

This guy is double bred to the Nita cow family. Sure footed, lots of capacity with a real herd sire look. Conservatively marked and athletic. The mother of Hawke is admired by all. A real world Hereford cow, low maintenance and maternal. She's youthful in her appearance. 327Y is an excellent representation of Umpire daughters.

Soft made with a look to the future. He's complete in his structure. 05D is one that has become a favorite by all. She's a former Ontario Show Female of the Year as a two year old. Her udder is near perfect in quality and design. A complete, feminine cow that is easy on the eyes. Hudson is boldly structured. He has a real herd bull aura about him.

Take a real close look here. Study the overall length, body and shape of this stock bull. The breed character that he exhibits in his front end is superior. He has a true herd sire presence. 36C is as massive in design as any. She passes on that easy fleshy, high performance do-ability to all her offspring. Bar-J-M partnered with us on 36C a couple of years ago and that has proved to be a great investment. They've been using a Rock son quite heavily in their reduced program.

 Not very often do we offer yearlings in our sale. However this one is really something exclusive. She reminds us quite a bit of her mother Dainty 205Y at the same stage of her development. She's massively built with a distinguished neck and head. Dainty 1011G carries herself with structure and authority when put in motion. Looking at her genetics you definitely see many recognizable cow families. She's an undeniable future cow of importance. Maternal sister to Lot 1A.

This real good female is almost a February. The top of her pedigree boasts the superb Sage cow family. The bottom side is filled with cow families that are outstanding in the famous Howard Crittenden herd. This calf should make a foundation cow and possibly a future flush contender. Buy her if you can, she is an opportunity. We guarantee her 100% to be free of all present day known genetic defects.

A fancy goggle eyed calf that really catches your eye. She is big enough, thick enough and made really right. We purchased her mother from Blair-Athol and have been overjoyed with her replacement progeny (both females and herd bulls.) Her mother has a perfect udder. There is no guess work in this calf. Superb pedigree with balances EPDs. Again, we guarantee 100% that she is free of all present day known genetic defects.

Another female that is easy to look at. She is very similar to 209H. She is out of an outstanding cow that Wally Pugh and I purchased from XLP. She has never missed a beat and this year is no exception. This is a calf that you will be proud to own. Front pasture material. All of my calves could be candidates to show at Bonanza in 2021. Again, we guarantee 100% that this calf is free of all present day genetic defects.

Owned with Wally Pugh.

Sired by the outstanding maternal sire, NJW Historic, Daphne is truly a sale feature and a top-level show prospect. She is a big bodied, big ribbed, well balanced female who is stout made with a ton of bone. Combining her big hip with a very correct structural design and then add in an absolutely beautiful temperament, this late February heifer is one you won't want to miss.

Bred to MHPH Gibson 119G on March 28, 2020. Preg checked safe.

A daughter of the reigning Ontario Show Female of the Year, mated safe to a son of the Ontario Show Bull. 204G has been a favorite of those who have seen her as she was campaigned alongside her dam in 2019. This outstanding donor cow prospect combines so many desirable attributes including substance of bone, tremendous stoutness, good depth of rib and flank, and possesses an excellent neck attachment and powerful head. This February 2019 daughter of 719T should continue to impress and become a beautiful cow.

Owned with Venture Livestock Enterprises

Lot 31

Sired by the new calving ease sire TH Frontier, Hollywood's dam was our pick from Whiskey Lane in 2018. She stood second in class to the eventual Reserve Division Champion at the 2019 Royal in Toronto. Just like her namesake at WLL, Hollywood is a beautiful brown eyed, sassy young female! This attractively marked female, while green at picture time, possesses all the ingredients to be a big time winner in that she has great balance, soundness of structure all tied together with a stunning look.

The dam of Zumba 4H is none other than Double H Zumba 127E, the Reserve Champion Female of the 2018 Eastern Canadian National Hereford Show. Sired by the two time Denver Supreme Champion, BR Belle Air 6011, Zumba 4H is blessed with tremendous eye appeal, depth of rib, stoutness of bone and is beautifully proportioned with an attractive feminine front end. This February prospect is phenotypically flawless and appears to have the right size to compete at all levels.

**Owned with Venture Livestock Enterprises and Otter Creek Farm.**

Blanche 113Z continues to get it done! This year she has produced a pair for the sale. The twins have been standouts since birth. Last year we featured another daughter of 113Z in the 2019 Autumn Alliance Sale. Thanks to Blair Athol, the Lees, for their purchase of Fiona 106F. 119G and 120G are both moderate framed heifers with style, pigment and the cow look! We can't always decide which of the heifers is the best – so you will need to be the judge.

Georgia could be our feature heifer for the 2020 Autumn Alliance Sale! It seems when they come to select cattle for the sale they find the daughters of 220B. The granddam of 202G was our selection from the EJM Herefords dispersal sale. Short marked with pigment and that easy doing ability makes this heifer hard to ignore. Maternal sisters have sold to Victor Oulton and Hiddenview. AND we have a full sister of 202G (2020 heifer calf) that everyone finds in the pasture. Check her EPDs as well!

AI bred to EFBEEF BR VALIDATED B413 on April 2, 2020. Exposed to PCL A191 Grey Goose 42G from April 17 to July 20, 2020

The Goldie dam of this yearling has been a stand out at Lian Mor since we purchased her from Medonte Highlands Polled Herefords. Last year a maternal sister to LMPH 203G sold to Hiddenview and our 2020 Goldie heifer calf looks very good. This short marked heifer has above average EPD's across the board! We bred her to Validated, a bull that is low birth weight with growth and top carcass numbers. We are excited to see the "Validated" calves. Quality runs deep in this heifer's family!

Exposed to MHPH JB 646D Gunsmoke 2071G from March 25 to May 15, 2020 Observed bred on April 13, 2020. Preg checked safe. JB 18F is beautiful uddered, high performing Chizel two year! She has tremendous hip structure, yet carries enough angularity and femininity throughout. She is a maternal powerhouse raising a big, stout bull calf that will be retained. Her dam and full sister were purchased in the Retirement Sale and are currently working for the Medonte program.
