# From the Desk at T Bar...

First off, thank you to everyone showing interest in the sale. Secondly, big appreciation to the consignors who are driving forward, and thirdly ... what a set of cattle for the 2020 edition! The 75 some lots represented in this catalogue are the cream of their respective herd. I dare say, this is the deepest offering of Angus cattle ever assembled in one location in Ontario!

The cattle assembled will meet any requirements you may have when sourcing Angus cattle. Starting off with a proven donor female and a direct daughter of the famed 4136 cow. Cow/calf pairs that come directly from the heart of each herd and also a proven Thunderbird donor type candidate female who has two bred heifers in the offering from two different consignors. Heifer calves that have the world of potential with data and pedigree as good as you'll find.

Now the center core of this sale annually is the bred heifers. The 50 some on offer is as good as it gets. With a couple new consignors in the mix this year, this is a competitive pen of girls. Only the best will do and bred to bulls that are proven, fresh and in demand. As you skim through the book you can't help but be drawn into this section. I personally feel September is a great time of year to buy cattle for a couple reasons. You can take them home and let back on a bit of grass and it also lets them become very familiar with your farm and surroundings. Please pay attention to this section of the offering, many great buys and additions to your herd can be obtained here.

New this year, we have a coming two year old bull on offer that has a fantastic full sister selling, choice on two excellent heifer calves and two very intriguing embryo lots, along with a pregnancy that are literally from the forefront of the entire Angus business! Imagine your own tattoo on S A V American sired progeny....

Lastly, who would have thought our world would be where it is today. But T Bar C has always been known for being optimistic....I want to leave you with a few reasons why this business is healthy and has a good future. The commercial cattle sector has shown how valuable meat and protein is, and selling off a cow that hasn't been pulling her weight has never been worth anymore. The Angus business in our province is active, fresh and young in age. Many in this very sale, as well as others will be doing this with their second and third generations who crave this business more than just a hobby. And also, as my dad has always preached ... good cattle never go out of style and always have a demand. I truly believe the seedstock in this offering are ones you'd consider "sought after."

We encourage everyone's participation in this sale being its 12th edition. Follow our Facebook page and website for updates but we are planning ahead like any other year!

See you in Hanover,

*Ben Wright*

**P.S. As always mentioned, these cattle are pictured early July, so please keep that in mind and don't be afraid to reach out to any consignors or ourselves for further info.**

 S A V MAY 7238

Pasture exposed to Casa Branca Hesston 3303D (CAA # 1950578) from March 18 to May 18, 2020. Preg checked safe to a late March breeding.

For the first time ever, a direct daughter of the \$15M world record producing S A V Blackcap May 4136, is being offered at public auction in Canada. No other cow has put more bulls in AI stud than 4136. Her famous sons include Resource, Renown, President, Rainfall, Raindance, Extension and many, many others. The Blackcap May family is arguably the most sought-after cow family in the Angus breed and 4136 is a major reason for this. Her influence continues to be a powerful force in the breed with 82 daughters in production and thousands of descendants.

The decision to offer 4562 in the Autumn Angus Classic was not an easy one, but we see this as an opportunity to showcase the type of elite donor in the Bar 5 embryo program; a genuine and direct daughter of the most influential female at Schaff Angus Valley and maybe the entire breed!!

4562 has been used extensively in our ET program, averaging 10 embryos per flush for a total of 110, all have been exported to Brazil. Her last two flushes in 2020 yielded 21 sexed embryos. We have a number of pregnancies due in early 2021 and a frozen embryo bank, otherwise this anchor donor would not be made available.

Her 2019 natural bull calf, Bar 5 May Day 3113, weaned off with an actual weaning weight of 936 pounds, was retained and will be used extensively at Bar 5. With many maternal sisters in production at SAV and anchoring other top programs, such as Square B Cattle, Ingram Angus and KT Ranches, the new owners of 4562 will be in elite company. Most recently, a flush sister, S A V Blackcap May 4563, was the \$45,000 USD top selling donor selected by Sunderland Ranch of Saskatchewan in the 2020 SAV sale.

Whether you have an established program and are looking to add a top donor, or a newer breeder looking to build a foundation and turn some heads and attract some visitors; 4562 represents a once in a lifetime opportunity to acquire an elite proven donor in the prime of her productive life.

Confirmed pregnant for an early January calf by Casa Branca Hesston 3303, who's dam is a maternal sister to S A V Bismarck 568 and has worked three summers in our pastures, we chose 3303 to combine the Abigale cows on the Blackcap Mays, this go around.

2020 Bull Calf - On display sale day!

005 will make many friends sale day, she is as good as we have this year. 005 is long necked, wide topped and very soft made.

AI bred to S A V Cutting Edge 4857 on April 13, 2020.

712 is not an easy cow to sell...her phenotype exemplifies the kind of cow we're after. We bought her dam, 5058, as the Lot 3 feature Sandra in the Johnson Livestock 2016 Female Sale. 712's grand dam and great grand dam are both elite dams. She is an easy fleshing cow with tremendous muscle expression and a well attached, shallow udder. This cow will look great in anyone's front pasture. The Sandra family consistently raise our best calves, male or female. Her 1682 heifer calf has been a favourite of visitors all summer.

AI bred to S A V Rainsdance 6848 on March 15, 2020 (female sorted semen). Donna is a cow who could be a donor in anyone's program! Her sixth maternal dam is AAR Donna 1853 who is the matriarch of the world famous Donnas at Coleman Angus and the fifth dam of Coleman Bravo. She is an extremely fertile female who has an outstanding 12 month calving interval. She is above average in frame score, with exceptional feet and a well attached udder. She is the fountain of youth and has the disposition of a gentle lady. She sells with her S A V Rainsdance 6848 heifer calf and her Basin Payweight 1682 bred heifer. Her value as a brood cow will be on display and won't disappoint.

MBA Donna 915 sells with her dam Donna 136A. 915 is top 3% of the breed for the marbling EPD after genomic testing. A 1682 daughter from the world famous Donna family, this heifer will make a very promising brood cow prospect, given both the top and bottom side of her pedigree.

AI bred to S A V Rainfall 6846 on June 15, 2020. Preg checked safe to AI date.

MBA Sandra 909 is the deepest made, most eye catching heifer on our farm. Her dam, JL Sandra 4017 by S A V Brilliance has not missed for us. She makes awesome calves every year as you will see in 909. Her granddam is a sister to our Lot 4 cow by S A V Carbon Copy, and the granddam is another elite cow. We have bought many cows from JL and these Sandra's have given us our moneys worth.

The first Trojan Erica to sell from our program. An own daughter of S A V Net Worth 4200, her dam 309 is the foundation of our Trojan Erica line. 610 is a moderate framed female with a great udder. Her dam and granddam have a combined total of 15 calves and are both still hard at it. 610 has done everything right to date and will make a fantastic addition to any program.

We take pride in offering cattle in sales that are sound, functional females that can work on any type of operation. Cows like 14F fit that mold, making them hard to part with! Powerful, deep ribbed, long sided, with a great undercarriage, she is built for the long haul. Her mother, Gertie 8Z, consistently produces top performing herd sires with the frame, performance and carcass merit the commercial cattleman demands. Bred back to MOGCK Entice 2577, any progeny should exhibit a correct skeleton, excellent phenotype and outstanding disposition.

Gertie 19H offers you something a little different in her pedigree with Marda Blacksmith 683 on the top, which we would argue to be the best son of Connealy Black Granite, who Doug Henderson referred to as one of the best Angus bulls he laid eyes on! Blacksmiths combine phenotype, performance, blending, and docility offers some of the most sought-after genetics in the breed. Do not be fooled by this fancy made female. Her dams' top side also packs an EPD punch from MAR Respond who has sired many bulls sold off our farm to commercial cattleman. Top 2% for WW and YW, this sweetheart will definitely add some performance to your cow herd.

23

23A

This is a cow you love to see walking your pasture. She has a nice frame size, is deep bodied, great udder formation and sound. There is no problem with her weaning one of the most stout and stylish calves. She is safe in calf to our newest herd sire, PFLC Primo 9239G.

AI bred to S A V President 6847 on May 21, 2020.

When Ben was touring through he found this very ideal South Dakota daughter, who is raising one of our best heifer calves to date. When we originally purchased this female from Rehorst Farms, we were drawn into the fact that not only was she an Evening Tinge, but we simply love the 2280 female. We mated her back to President, whose semen we can no longer get a hold of for a promising calf come 2021!

AI bred to Whitestone 18-Million on April 4, 2020. Preg checked safe to this date.

Maple Line Julie 2G is a fancy female with lots of potential. This heifer is a very correct female with the EPD's to back her up. She has a low BW of 2.2 and a YW of 103 with a Milk of 24 to make easy calving animals that grow like crazy. This Stunner daughter is just like the rest of them - long, deep and full of hip which make them stand out in the herd. With a Networth/Stunner combination, this heifer is sure to develop into an excellent cow. This heifer is bred to Whitestone 18-Million and his EPDs are at the top of the Angus breed. He has a BW of 2.3, WW of 82, YW of 149 and Milk of 34. With that set of numbers and this pedigree combination, her calf should be something to talk about.

AI bred to Whitestone 18-Million on April 4, 2020. Preg checked safe to this date. Maple Line Duchess 20G is a powerful heifer from the well known Eliminator bull. This heifer is a big ribbed female that has lots of growth. She is a strong boned female with lots of hip and a feminine front end. The dam of this heifer goes back to Vision Unanimous and that bull is a real brood cow maker. This heifer is AI bred to the Whitestone 18-Million bull, which is a bull we have used heavily and are very impressed with. The 18-Million calves are showy calves that are growing well and developing into nice animals. This heifer will make a great addition to any herd.

AI bred to MICH Wheatland Hicaliber 7197E on April 4, 2020. Preg checked safe to this date.

Maple Line Judy 12G is a well made heifer that catches your eye as soon as you walk on the property. We think this heifer would do great in a show ring or go out and make a name for herself in the pasture. If you're looking for a female that is going to make a maternal dam to build your herd, this is the one for you. This easy-doing heifer is as deep and thick as they come with a body style that makes her stand out. The Judy cow family is one of the top cow families in our herd that produce some great herd sires and females that perform. This Stunner heifer is bred to the well known Hicaliber bull and it's not hard to get excited for that combination. This heifer will be an easy calver that will produce a calf to look just like her. She is very correct in phenotype and is bound to impress. Her EPDs are as good as it gets. With a low BW of 1.8 through to a YW of 116 and Milk of 27, this heifer is sure to add the pounds in the fall. Most of her EPDs are in the top 4% of the Angus breed. Be sure to find this heifer on sale day and fall in love with her for yourself.

We feel this is a very solid female that has all the makings of a solid producing cow. The Innovation progeny have really impressed us with overall balance and base of width. Her mother stems back to the famed Lucys of Dunford Royal Cattle Co., who now have gone on to do great things for Wulf Cattle. Again, safe to our popular herd sire, Lucknow, exciting times are only ahead of this female!

AI bred to GF Lucknow 905G on May 1, 2020. Preg checked safe on June 5, 2020. We are very happy with how this excellent Stunner female has matured in her young life. The cow family behind this heifer is as good as it gets in this part of the country. The Bardettas are maternal, good looking cattle that have an udder that even well drawn artists couldn't draw. This heifer is no exception. Her mother was a \$17,250 purchase from the In It to Win It sale and hasn't missed a beat since. Her famous dam, 4A, has written a novel of success and we are very excited for this girls future. An imaginary EPD chart and mated to our new and incomparable herd sire, Lucknow, who took the breed by storm last fall where he was the \$40,000 sensation of the Gilchrist offering. An exciting female from the front of our herd!

Everyone picks this heifer out when they tour the pastures. She is just so meaty and tanky and you just know she will be a great producer! 6G has a mother cow pedigree and presents herself in a pleasing package. She is the kind everyone likes, quiet, easy keeping and settled on the first heat. This is one of Kim's favorites and Ben had to do a lot of sweet talking to get this one in the sale.

AI bred to S A V Quarterback 7933 on March 25, 2020. Pasture exposure to Bar 5 May Day 3113 from April 1 to May 30, 2020. Preg checked favourable to AI date. This heifer has stood out since the day she was born into a very tough crowd, as the Whitton-Brooke cows run with the Bar 5 and Blue Mountains herds and 6126F always ranked at the top of the group, some might say the top one. She is mothered by a heavy milking Bismarck x VLS Maggie dam and sired by the exciting Brooking Prosecutor bull. She is as good as her picture, so you won't be disappointed sale day. Bred back to the exciting Genex owned S A V Quarterback 7933, whom is used heavy at SAV, for rock star performance as he carries a 160 YW EPD, so expect a powerhouse of a calf. Maggie 16B breeds back early each spring, so we know this heifer will be a positive to any program.

Another Pride female! Evan must have been asleep the day sale heifers were selected! This lady is a great granddaughter of the 14-year-old JPDE 46S cow who remains in prolific production with a perfect udder at JPD to date. This sweet sided, big hipped, powerhouse female really does her matriarchy proud. Her young Titlest momma is a favourite here at JPD and we think she did quite a number on her first attempt. These females have a tendency to work hard and look good doing it. Front pasture here she comes!

AI bred to Musgrave 316 Colossal 137 on March 27, 2020. Pasture exposed to JPD Stunner 20G from April 17 to August 1, 2020.

If we had to choose one word to describe this February female it would be performance. 40G has continuously blown our minds on weigh days. Take a look at her WW and YW EPDs, she ranks in the top 4 and 2% of the breed respectively and it shows. Her momma was a fantastic addition to our herd out of the 2017 Autumn Angus Classic from our good friends over at First Line Angus. Her sire, FLA 7E, was also purchased in that same sale and has continued to sire performance calves for us. What is most impressive to us is that she carries all her performance in a structurally perfect package. They don't make them like this anymore.

 Here is one of our first S A V Textbook 5115 daughters to sell, backed by one of our favourite cow families in the K Beautys. Textbook is the carcass based bull bought out of the S A V herd whom has amazing EPDs and leads our high marbling S A V program. His dam, S A V Madame Pride 3304 is a mainstay in the S A V donor herd and was the highest IMF female in her birth year at S A V. This heifer should be a winner as her dam is Sinclair K Beauty 3FF38 7XT55 part of the K Beauty line of females, which now heads the Sinclair cowherd. This heifer's EPDs are all above average which should mean that she should be a great producer. Bred to S A V Purebred 4896, our 2015 \$80,000 US purchase from the great S A V herd that walks here at the Bar 5 and he looks fantastic, as per Ben.

**AI bred to Stevenson Turning Point (sexed female) on March 25, 2020. Pasture exposed to Bar 5 May Day 3113 from April 1 to May 30, 2020. Preg checked favourable to AI date.**

A powerful heifer by South Dakota out of a hard working New Worth cow, whom possesses balanced EPDs with a marbling EPD in the top 20%. She is mated early to sexed Turning Point semen, for a guaranteed heifer baby in 2021. Her dam is from the Lucy cows out of the Gilchrist program, who we think is one of the hard working cow families to the Ontario Angus industry. South Dakota packs a marbling EPD in the top 5% of the breed and bred back to sexed Turning Point, a Weigh Up son, this is a valuable package.

**AI bred to Benchmark Tender Beef 11'17 on March 25, 2020. Pasture exposed to Bar 5 May Day 3113 from April 1 to May 30, 2020. Preg checked favourable to AI date.**

We struggled with what to breed our Rainfall heifers too; so we bred this one back to Benchmark Tender Beef, a top 1% marbling Prophet son, to capture the carcass value of Rainfall. 4126 is anchored by the Jennifer cows of JL, which we have a couple of at Blue Mountains and are deep bodied, hard working cows. S A V 4136 appears twice in the pedigree so maternal genetics are built right in here. She is preg checked safe to her AI date, but she ran with May Day 3113, the son of 4562, Lot 1 in this sale, as a back up plan.

These Maggies make great cows and here is another one bred back to the sexed semen of Stevenson Turning Point. She is well balanced and made right and will give you a heifer baby come 2021; so this is a can't miss lot. Her pedigree includes Bismarck, whose dam, Abigale 0451, is a strong cow family at SAV and the dam line behind our walking bull, Hesston 3303D. We own a 0451 daughter in the Bar 5 herd and have ET calves expected in 2021, so this shot of Abigale will help the Maggies' power on in this lot.

AI bred to S A V Extension 6856 on March 4, 2020. Pasture exposed to Bar 5 May Day 3113 from April 1 to May 30, 2020. Preg checked favourable to AI date. A deep bodied, well made heifer from the XCEL program, that just got herself into the sale pen. Ben picked her, Mitch gate cut her, Matt clipped her, Sam took a photo of her; so our loss is your gain. We had no intentions of selling her, so we bred her to the 4136 son sired by Sinclair XXP, S A V Extension 6856, who has left some powerful show heifer calves selling this last spring in the US. She is bred early as she is from the keeper pen, as we calve out November 20 to February 20 up in Markdale; so expect an early calf. She goes back to Champion Hill breeding on the maternal side and was the reason that we bought her in the first place.

AI bred to GF Blackstock 624G on April 7, 2020 for a January 14, 2021 calving date. Shedaisy is an easy fleshing and exceptionally docile female who has a pedigree to succeed. Seedstock daughters are very maternal with added performance and muscle shape. Her dam was a female who turned heads in 2016, as she won numerous shows including London Junior Beef Expo and Reserve Division at the Royal Winter Fair in Toronto. She is safe in calf to our featured high seller from the 2020 Midwestern Bull Sale, GF Blackstock 624G, who has calving ease and performance combined into an attractive balanced phenotype. Blackstock stems from the same cow family as GF Lucknow 905G, who lead off the In It To Win It Sale in 2019. As we continue to try and support an industry we love, yet maintain a manageable herd size, we are excited to offer this great opportunity to another Angus enthusiast.

Purchased in dam from Laird Edwards in the 2019 Angus Collection Sale, Erica 7H has the power to be a high performing brood cow. Tremendous length of body, depth and a bold design make her a unique addition to any Angus herd. Her sire, Musgrave Colossal, is an elite calving ease sire, producing thick made and easy fleshing progeny. Her mother is a clean fronted, eye appealing female we have really admired for her completeness. Packed full of red meat, 7H is a tremendous addition to the beef business.

We are consigning a pregnancy from KR Lady May 4382 by S A V America 8018 purchased from Jim J. Henderson. The dam of this mating was the \$50,000 second high seller in the 2018 Krebs Angus Ranch dispersal. She has been prolific for Jim with exceptional fertility having had embryos sell across North America. The sire of this mating is the world record breaking Angus bull at the 2019 Schaff Angus Valley Sale at over \$1.5 million. The resulting calf from this pregnancy will be sought after for both maternal and growth traits along with having some of the very best genetics in the business. The recipient is a purebred registered cow, Cuddy Princess 7B out of Joycliff Princess ET 14R by Triara Powerhouse 699Y. This cow has been very steady and continues rear great embryo calves. Due date of January 7, 2021 for this pregnancy.

KR Lady May 4382 has moved up from the top 15% of the breed for Fertility to top 6% in one year as more data comes in. There is no doubt that KR Lady May 4382 is producing great females also, as the ET calves are hitting the ground now with stand out calves at great operations like Norfolk Cattle Company, Pahl Livestock, Wishbone Cattle Company and Payne's Greenwood Angus. This mating offered of KR Lady May 4382 and Bar EL Natural Law is a mating I know will leave show champions and outstanding pasture performing cattle that you will enjoy going out to look at everyday.

Guaranteeing one (1) pregnancy.

KR Lady May 4382 has produced well above my expectations. KR Lady May 4382 first calf sold in Krebs Ranch dispersal as a two year old for \$30,000 with her heifer calf at side. KR Lady May second calf was a bull calf that sold in Krebs Ranch Bull Sale for \$10,500. This past year KR Lady May 4382 produced Krebs Ranch lead off bull in their Denver Carload and sold in their bull sale for \$17,000. With the mating we are offering of KR Lady May 4382 and S A V America the \$1,510,000 record breaking sire from Herbster Angus Ranch and Schaff Angus Valley, we could say the sky is the limit for what the resulting progeny could sell for!

Guaranteeing one (1) pregnancy.

# Terms & Conditions

**TERMS:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATION:**

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**Pedigree Estimates:**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HEALTH:**

All animals in the sale have met all necessary health requirements.

**GUARANTEE:**

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

**PREGNANCY INFORMATION:**

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**LIABILITIES:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**DELIVERY:**

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

**PHONE, MAIL, WIRE BIDS:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**INSURANCE:**

We strongly recommend that insurance is purchased for full value.

**ERRORS:**

All announcements at sale time, written or oral, supersede any written material in the catalogue.
