TERMS & CONDITIONS

Terms of Sale – Cash or cheque payable in Canadian Funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

Bulls sold with a “Responsible Breeder Guarantee of Satisfaction.” In the unlikely events of a dispute, the regular terms and conditions standard with the applicable breed association shall apply. In any case, the seller is not responsible for more than what the bull sold for at the auction mart.

Purchasers Risk – Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

Liability – Purchasers must look to the seller of the animal for fulfillment of all guarantees and representations made are hereunder. Provost Livestock Exchange are acting as agents and assume no responsibility or representations made by the seller.

INSURANCE

Larry Toner – **Stockmens Insurance**

Phone: 306-932-4866 | Cell: 306-834-7652

Kolton Kasur – **Canadian Farm Insurance**

Phone: 780-447-3276 | Cell: 780-387-8376

DELIVERY

We will take the bulls home, feed, and deliver them free within 150 miles. We will start delivery around April 15th and work with you to get them to your yard or pastures. If you are unable to receive your bull at that time there will be a \$2/day feed charge from that point on. Any bulls coming back to the ranch MUST be insured

SIGHT UNSEEN PURCHASE PLAN

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order. All bids will be kept in strictest of confidence

Your “Satisfaction is Guaranteed!”

BUYER'S DISCOUNT

Welcome

FROM
**WJ SIMMENTALS
& BIG JOHNSON
CHAROLAIS**

OUR PROGRAM

This year Byron has asked me to write the summary of our program, so here's my kick at the can. We have been raising Simmentals and Charolais for going on over 11 years now. A sound piece of advice we heard from breeders when we got started in purebreds was, "You guys have raised

commercial cattle so make the cows and bulls the way you like them, want them and that you know work for you."

We acted on that piece of advice; after having raised our commercial cattle from 1992 to 2008 and moving into the purebreds in about 2007 we strongly believe that the herd must have the following: ability to cover pasture ground and grow without pampering. We want to see soundness and durability in their make-up that allows them to do that. We look for longevity in fertility and with udder structure which will allow that cow to stay around for a long time. Workability, I want to be able to go out and work with the girls at any time of the season and enjoy my day and return back to the house with a smile on my face. If that cow spoils the day for me then why is she still here, time for her to be gone. Happy wife makes a happy life!

The bulls are also the same. We want to see soundness, virility, growth, hair and disposition. We have a strong influence of polled genetics in our bulls; again this goes back to what we liked as a commercial breeder.

We have been sourcing our genetics by natural breeding with selecting the best herd sires we can buy and by using semen packs for AI from some of the leading industry bulls. By doing this we have been advancing our program forward and we believe this should give you confidence in selecting and purchasing a bull that will work for you in your program.

Dear Friends

Welcome to the 6th Annual Built Right Bull Sale. 2018 has handed us a bag of tricks this year to say the least. 2018 has taught us and others how to be persistent, patient, think outside of the box and keep believing and hoping in 'maybe tomorrow!' We trust and pray everyone has come through it in the end. We are continuing to raise, develop and grow our bulls on a balanced TMR ration. This year we are working with Bullseye Nutrition who have developed a specific TMR ration created for our program. As always we stand behind what we raise and so if you're not happy then we're not happy.

We are excited to see familiar faces and to see new faces for the upcoming bull sale season. Stop by and walk through the pens and see if what you're looking for is here; you're welcome to visit and talk some BULL anytime.

Thank you for looking through our catalogue, with the number of catalogues that are circulating through your mailbox we feel privileged that you took the time to turn the pages and browse through ours. Hope to see you at the sale where coffee, donuts and dinner are on us.

If you can't make it in person to see the bulls we have videos online for your appraisal. Thanks again!

We were fortunate enough to find Encore in 2014 at Farm Fair (thanks to Kurt). As soon as we saw him, we knew that he was the bull we needed! Encore has won almost every show he has entered. He was champion at Fort Worth, Denver, Olds, Agribition, Farm Fair and a supreme finalist at Agribition and Farm Fair where he missed winning the truck by a couple points! Encore is backed by maybe the strongest cow family in the Charolais breed right now. His combination of calving ease and performance makes us able to breed him to our heifers successfully, but yet his calves have plenty of performance!

We found Chuck Wagon on a farm tour at Springside Farms the fall of 2015. When we saw him and found out he was going to be sold at the Alberta Charolais Select that December, we knew we needed to try and buy him. As the day turned out we were not able to buy him but after the sale and talking to McKeary's, they agreed to sell us a semen interest on him. We felt he was going to compliment Encore very well. Chuck Wagon calves very well, his calves are vigorous and have lots of hair.

Calling Card is an Encore son we raised. He was a standout from birth and never slowed down. He sold in our 2016 sale for \$25,000 to R&R farms of Loughheed Ab. We really wanted to incorporate him into our program so after the sale Jeff graciously let us buy an interest back in him. Boy are we thankful we did, his calves come small but grow and exhibit all the same qualities that we love about Calling Card.

In 2017 our search for a new black herd bull ended when we saw Stimulus in his pen at Rancier Farms. At the end of the day ourselves, along with Hughalta Farms, owned Stimulus for \$65,000, making him one of the top selling Simmental bulls in Canada that spring. If the sheer presence of Stimulus isn't enough, maternally he is backed by in my mind, the best black cow family in the breed. His grand dam has sold in excess of \$500,000 of progeny to date. This cow family has won many championship banners and a few supreme champion trucks! Stimulus calves to an early gestation with extremely vigorous calves. His calves boast that extra length of spine, excellent hair, well muscled and carry that herd bull presence we all desire. We feel Stimulus has the potential to be a bull that can be used successfully in the heifer pen. He has a big bright future here and I can't wait for his daughters to start milking.

Macho Man is one of our senior Polled Fullblood Herd Sires. We selected him out of Rendezvous 2014 bull sale. He is a polled MEAT MACHINE! He seems to be breeding true to himself. His first females are now milking here and they seem to be very well uddered and just good honest cows.

We purchased Total Value in 2016 from Robb Farms. I really like the dark red pigment he possesses, as well as his depth spring of rib and natural muscling. All these traits are hard to find in a polled Fullblood bull, thus making him their high selling Fullblood bull that spring. He breeds very true and his calves are easy to pick out in the bull pen. We are very happy on the job he is doing for us thus far.

	106	724	1208		3.2	47	91	17	0.5

POLLED. Fonzie is our first bull catalogued out of a bull we call Donkey Kong. DK is a home raised Encore son born end of March, so was too young for the bull sale. Knowing the quality of the dam we decided to keep him and use DK in our program. We are happy with the style of calves he has produced for us and gives our customers a little different type of bull to choose.

HOMO POLLED. WJS Stimulating comes to you as the epitome of what we were looking for when we purchased RF/Rust Stimulus 610D. From front to back, he is hard to fault. Starting with a splash of chrome through to his clean front end, good hair coat, natural thickness and muscling makes him one complete individual. His dam is a solid producer and has three sons working in top commercial herds.

Retaining an in herd semen interest.

HOMO POLLED HOMO BLACK. WJS Empower is another feature son of the \$65,000 Stimulus. We are not show people but if we were his dam, WJS 302A, would have been very competitive. At six years old she still has the udder of a heifer and the kind of cow we can't have enough of here. Empower exhibits the typical Stimulus sons with length of spine, hair, thickness and muscling. The combination of these two cows families make Empower one find sale day.

POLLED HOMO BLACK. This Stimulus son comes off another of our strong cow families. His dam has a son working for Mark Sayers and most recently a heifer going to Maxwell Simmentals. If longevity and stay ability is important to your herd this guy is one to evaluate.

HOMO POLLED HOMO BLACK. WJS Fancy Pants 14F is a bull that ranks very high on my list. Coming out of a first calf heifer at 85 lbs. this is a bull that should work in the heifer pen as well. He ranks in the top 1% of the breed for both calving ease and maternal calving ease and in the top 2% for both weaning and yearling weight, making him a very unique bull. When you get in behind him you can't help but admire his thickness. He is soggy made and smooth fronted. I feel he has a bright future ahead of him.
Retaining an in herd semen interest.

HOMO POLLED NON DILUTER. Frank Da Tank is one of two Homo Polled Full Blood bulls in this year's sale. A feature bull here with a lot of things going for him. He was Jay Good's pick of our bull pen in September when he stopped in for a tour. Frank Da Tank is wide topped with nice length, dark pigmentation and plenty of rib that so many Polled Full Bloods are lacking. His dam is a nice Homo Polled female we purchased from Ferme BMS. We feel this guy is herd bull quality.

Retaining an in herd semen interest.

Welcome
FROM PEDERSEN
LIVESTOCK

OUR PROGRAM

Our cattle run in the Battle River Valley so structure is key as they have to walk up and down hills grazing and for water. We don't pamper our cows; they run like our commercial herd, on grass as long as possible then bale grazing until calving. Our cows don't get second chances, they raise a quality calf and come in bred on time or they go down the road. Our aim is to have cattle that are functional and sound for a very long time, easy doing cattle that convert feed into pounds while catching a grade. We use the best sires we can, through both AI and natural service and use embryo transfer to increase our rate of genetic advancement. We work with the Lloydminster Animal Hospital to provide a complete herd health program.

Dear Friends

Well here we are again! Bull Sale Season! We've said so long to 2018 and have kicked 2019 off with the excitement of calving; the most wonderful time of the year! All our hard work in selecting new genetics, AI'ing and putting in embryos is coming to fruition! While 2018 was less than ideal weather wise, we still had pretty wonderful year! The highlight of our year would have to be the Northern Alberta Angus Club Tour that we hosted. We'd like to thank each and every one of you that made it out. It turned into a wonderful weekend with lots of visiting, food and fantastic cattle to view!! Thanks to our neighbours, MJT Cattle Co. and Pugh Farms for allowing us to bring the tour to their farms and providing libations. Thanks to the many hands that helped us prepare for the weekend, create and cook the meals and the breeders that also brought cattle to our place to display.

Our District 4-H Show and the Alberta Junior Angus Show are always other summer highlights for our whole family. This year Tell, our youngest, was very excited to step up and join his older siblings in the show ring at the AJAA Show. He even brought home a banner! Thanks to all the Juniors and parents who help our kids in the ring, mentor them and help run the programs they love! For the past year and a half we've been blessed to have a few college students helping us out on the farm. Last year we had Kathleen Porteous and Kaylee Duncan and this year Jarett Hargrave has been giving us a hand and Kaylee came back to help out at the shows. All three of these young adults are a long way from their homes when at college and we've loved the opportunity to have them come out, help us and become an extended part of our family.

There are many people that help us throughout the year at the shows and at the farm with cattle, kids and equipment and we couldn't do it without you. We really appreciate the help from all our family and friends! Thank you for all that you do!

We are loving the way this year's bull pen is looking and can't help but think this is the best set of bulls we've raised yet. Every year we are selecting new genetics based on some pretty strict guidelines that we've created, we cull our females hard and see the fruits of our labour when we walk through our yearling bull and heifer pens. This year's sale has a new addition with us selling five purebred heifers as well. Our replacement heifer pen seems to get bigger and bigger each year and the pasture we have dictates that we can't keep them all, so we are offering up a handful for you to take home and put to work in your herd.

The bulls are being developed along nicely this year on a whole oat and barley silage total mixed ration. As always, these bulls are fully guaranteed and if for some reason there is an issue, we want to be the first to know. We always carry spare bulls and will have one to get your cows bred should an issue arise.

We would like to thank all our past bidders and buyers that have shown support of our program. We trust that your past purchases have worked out for you and if you are for some reason not completely satisfied please let us know so we can make it right. Satisfied customers make for repeat customers and we want to see you back.

Please join us March 5, 2019 at Provost Livestock Exchange for a visit and to see this year's selection. If you are unable to attend, we will have videos on our website, Mark Holowaychuk from OBI will be present, the sale will be on DLMS and you can contact us or any of the sale staff with any questions you might have. You are always welcome to stop by the farm to take a look at the bulls as well and you may find some cinnamon buns waiting. We would love to help you find a bull that fits your needs.

In 2015 I traveled many miles to look for our next great herd bull. We wanted a bull that would be a foot improver with big time performance and muscle shape. One that had a ton of fore rib, big middle and most importantly backed by a terrific mother with a history of good production and efficiency. I found what I was looking for at Johnson Livestock and the search was over. He has an EPD profile that will blow your mind. He was one of the highest YW bulls in Canada that year. We were lucky enough to partner with Clifford Land and Cattle and got him bought as the high seller that day at \$19,000. We had to stretch to get him but we weren't going home without him. His first and only daughter to go on offer was Pedersen Undiscovered 301D and was a high seller in the Fall Fusion Sale to our new partners at Avelyn Angus and Goad Family Angus. His sons were well accepted last year and his first daughters are calving this year with much anticipation and excitement.

The 2015 National and Farmfair Reserve Champion Senior Angus Bull. We found this great bull in the Bar-E-L program. He is an own son of the two-time Agribition Champion, Southland Thriller, who is known for producing terrific females. He is a real power house with a terrific front end and awesome feet and legs. He's received many compliments from those that have seen him, amazed at how a bull with his mass and muscle could move so freely. He sired Pedersen Confidence 39C, our 2016 high seller at \$16,000 to Grant Lodge and Diamond B as well as Pedersen Easy Rider 412E at \$17,000 to Clifford Land and Cattle. His daughters are very angular made with absolutely beautiful udders and small teats, level fore udder and ample milk flow. We cannot say enough about what this bull has done for our program and will continue to do going forward.

Son: Pedersen Easy Rider 412E

Son: Pedersen Confidence 39C

Espionage came from the Hamilton program after being a member of their Denver pen of three. He is a moderate, soft made bull that is very easy fleshing. He has proven to be a very efficient breeder, working at two places each year being co-owned with Clifford Land and Cattle. He found a lot of friends at the Northern Angus Tour this past summer. Sired by the Agribition Champion bull, G-Man and out of an amazing donor for Hamilton's in the Tibbie 102W cow.

We found Just Do It at the Czar Pen Show when he happened to be stalled beside us. Days after the show we went for a look and decided we needed to bring this Sankeys Justified son home to work for us. He has bred in both the heifer pen and on cows and has proven successful in each location. Calving ease, yet has the growth and thickness to follow up. His first calf crop has been met with anticipation and most notably his daughter, Pedersen Andee 60F, has already made a mark being part of our fall show string. Quinn has decided to purchase her and will be using her as her 4-H heifer.

We decided to use Musgrave Sky High in our AI program to bring in new calving ease options. We only ended up with the two bull calves in this calf crop and a bunch of very top end heifers. They all come moderate at birth but hit the ground running and developed into a tremendous sire group. Sky High is a sire that we will use for years to come, he breeds very true on calving ease and we really admire the front end and shoulder angle in these calves. 1F's mother is an embryo daughter of our 239P donor and did a great job on her first attempt.

Soggy and stout! Here is a calf that is an outcross to our program. He came in dam from a purchase from Paradise Farms in Ontario. A calf with a little extra stretch from a powerful first calf heifer that has a ton of future. His dam traces back to the great Ellen cow family from Mountain View. Stack Final Answer and Net Worth in the pedigree and he will make you some easy fleshing momma cows or tremendous steers. If you follow numbers at all, this guy has a very balanced set with many traits in the top 20 percentile.

Here would be the only Titlest bull in the offering this year. The Titlest calves were well received last year and found some interest and we feel this bull follows them in type. The Titlest calves come very consistently light at birth and calve very easy, yet develop into a highly marketable product. If you have a group of heifers to breed this fella would be a safe bet.

When analyzing the entire sale offering one has to appreciate the consistency of the JL Source sire group. They are all stamped the same which can be a very hard thing to find. Smooth through the shoulder and into their forerib and follow into a big old hip. This guy comes out of a great, young Prince daughter that is sure to catch your attention.

The first calf from our new herd sire, HF Espionage 24D. He has proven to be an excellent calving ease specialist for us. We had this calf out this fall where he was a class winner at Stockade Roundup in Lloydminster. His maternal sister, Pedersen Andee 327D, has been shown the past couple years as Trigg's show heifer and has many accolades to her list already. We expect big things from her in the future just like this young herd sire prospect. Herd bull potential here with calving ease numbers to go with it. That combination doesn't come along every day.

Here is a low birth weight, International son. His dam, Vixon 39A, came to us from the Northern Select Sale from Allandale and has done a terrific job here for us. We have always liked the Chisum 6175 daughters and wanted to add more of those genetics to our program. Vixon has a daughter at L&S Livestock, a son at Clark Ranching and the feature son from last year's sale went to Elliott Bros. This is a calf with a lot of shape and worth some serious consideration.

An own son of 326B who has done an amazing job in just a few short years of production. She is headed for the donor program this spring and when looking at this stud I think you will understand why. This guy is a full sibling to the Reserve Intermediate Bred Heifer at Stockade Roundup and Farmfair International. She went on to be the high seller at the Northern Select Sale where she commanded \$10,000 to Clement Cote Farms. 326B's first calf was a full sibling and sold as a bred heifer to HR Hahn. Consistency is strong in the lineage here and this guy is sure to produce highly productive, efficient offspring.

We decided to flush Pedersen Andee 2W to Bruns Archer after seeing other offspring and admiring the stamp he was putting on them. We ended up with four heifers and unfortunately, only one bull from the flush. However, 25F is certain to not disappoint. He came to us very moderate at birth and developed into a strong topped, square hipped individual. A flush mate heifer sold through the Northern Select Sale to Clement Cote Farms and all the other flush mates are in the replacement pen. Andee 2W has produced sale features in the past that sold to Ross Wilson, Jason Richter, Brad Schmidt, Friedrich Farms and Roxanne Lachance. If you are interested in keeping some replacement females, this guy would be a sure bet.

A low birth weight son of Muchmore that patterns his sire similarly; very long fronted and smooth shouldered. Muchmore 155A has done as much for our program as any bull we have ever had the pleasure of walking. He has produced a tremendous set of both bulls and females. We have many daughters milking now and they are very consistent and beautifully constructed. This guy's dam came to us from Waveny Angus and traces back to the great Blackclass cow family from Merit that needs no introduction. Boat loads of maternal strength bred into this fella.

The power house of the group from day one. This extremely long sided, big hipped and smooth fronted bull will produce the type of calf crop we all strive for. He found a lot of friends at the summer tour in June and we feel he will make some friends on March 5 as well. His dam is a typical Bando daughter, long sided, angular fronted and has a tremendous udder. This guy will push the scale down, as will his calves.

You know that a sire has done a great job for you when year after year you continue to go back to the tank and continue to pull out his semen to use. The Prince offspring have been quite marketable for us and we plan to use him for many years. Unfortunately, he was injured or we would still gladly be walking him here today. He has been a go to sire for us for calving ease and do-ability, calves are moderate framed and efficient. This bull patterns his sire similarly and should follow him in his footsteps, also on being a calving ease specialist.

If you're looking for a female builder check out this meat machine. Not only does this calf have some amazing weaning and yearling numbers coupled with a low birth weight, but 1W is our ideal cow; moderate, deep bodied and beautiful uddered. We have a number of her daughters working in our herd and they all are hard working mommas as well as a daughter that went to Schochaneetqua Angus in BC. His dam, 1W, is entering our donor program this spring as she has more than proven herself.

Another furry Espionage son. This fella's quiet disposition makes him easy to work with. 10C is a daughter of 1W and reciprocates her deep bodied, beautiful uddered mother. I like the way this calf comes off his shoulder into his forerib. Big topped and wide pinned.

Do not adjust your set! We are very slowly building a group of reds and this is the only red bull we have this year, he is bound to stick out! Out of a red cow of Hahn's and Northline's Crush bull, here's a great hairy option to build some red or tan calves.

A son out of a long line of good, honest cows. All of 9C's sisters and her momma are still working here, consistently raising good calves. Moderate cows with great udders are their trademark. Pair that with HF Espionage and you've got a great mix of growth and maternal traits.

A Muchmore son that will build you big calves to take to the bank. Check out the growth numbers on this fella! A late February calf that's a bit younger than the rest but don't look past him because of his age. He has that extra look and carries himself in an up headed manner.

The youngest bull in the sale, but don't miss out on him! His dam is an embryo out of 3U, a cow that has left her mark on our herd. Paired with Just Do It, this bull is heifer approved. Fancy, flashy and sure to grab your attention.

HEIFERS

We decided to do something new this year and put some replacement heifers in the bull sale and let our bull customers have a deeper look into our program. We had full intentions to keep these girls around, but our pasture says they can't all stay! You'll find our offering to be a cross section from various sire groups. We stand behind all the cattle we sell and these females are no different. They are sure to make terrific momma cows that will have great udders and maintain their body condition while in production.

PEDERSEN TIBBIE 51F

A sharp fronted, angular made female from S Tittest 1145; the calving ease sire whose semen is very hard to come by now. A female that hits her mark when on the move and grabs you with her profile. Her maternal grand dam just had her last calf here last spring at 15 years old. Longevity is bred into this female as well as superb udder quality. This cow family was also responsible for a high selling heifer calf at the Form and Function Sale, Pedersen Tibbie 51F, who sold for \$6,000 to Clark Ranching.

Not often do we let any Dark Duchess females leave the farm. A granddaughter of our 239P donor combined with Sky High is a combination we felt really clicked. When we decided to put some heifers in the sale, we wanted to put our best foot forward. Grab this opportunity and run with it. This female is one we really admire and has a very strong future.

A very long spined, deep sided, soft made female. From Confidence and the Excalibur cow family, that has been very consistent for us. A maternal sibling heifer to this female is working for Country Lane Angus, as well as a bull for Clark Ranching. Her dam has as good of an udder as you can put on a female. Have a look and grab a hold of this opportunity.

Here is a younger female, being just a March baby, adjust your sights just a bit. From a nice, young cow we co-own with our nephew, Kayden Smith. The Muchmore daughters in production are simply amazing and this may be one of the last opportunities to add one to your herd.
