## *From the desk at T Bar...*

Welcome to the 20th anniversary of the Kuntz-McIntosh-SAJ Simmental Bull Sale on March 12th in the heated Lloydminster Exhibition complex. The culmination of two decades of sales in which these progressive Simmental breeders have been supplying the livestock industry, both purebred and commercial, their added value bulls. Each of their breeding programs are unique in genotype as they use a cross section of different sires.

In addition to producing high quality bulls, these young cattlemen have produced several "big time" sires. No doubt one of the features of this event is the Grand Champion CWA Pen of Simmental Bulls and the Saskatchewan Stock Growers People's Choice Champion Pen...a feat that seems to be becoming a habit, reflecting the quality of the offering. Congratulations are in order, Blair and Stephanie, for being chosen 2018 Saskatchewan Breeders of the Year in the Simmental breed! The powerful line up of Polled and Horned bulls...red, black and "Fleck" fullbloods allows you to select from a diverse and quality offering. Thickness and depth, lots of hair and nuts, these bulls will work in all types of programs and environments.

These astute cattle breeders all make their living out of livestock and understand your needs. Give any one of them a call and discuss the bulls that would work in your program. The bulls will be available for viewing the day prior at the Ex Complex.

Plan to be with us on March 12th...it will be worth the trip!

If we at T Bar C may be of assistance, prior to or sale day, do not hesitate to give any of our professional team a call!

# SAJ Simmentals

Welcome to the Kuntz/Mcintosh/SAJ bull sale. First off I'd like to thank all the past buyers of my bulls for trusting in my program, your support is truly appreciated. I have brought my largest group of bulls to the sale this year and I feel the quality runs deep whether it be a red, black or a fullblood you are looking for. There are a variety of bulls that will work in a variety of situations for the new herds they will go to. All of my bulls have been double vaccinated for footrot with Fusogard.

Please don't hesitate to call if you have any questions, and consider stopping in for a look at the bulls in their natural environment. The dams to the bulls are not far from the pen and I'd encourage buyers to look at the dam of the bulls they're interested in. Delivery will be worked out commencing shortly after the sale but we'll work as best we can to find a suitable time to deliver.

- Smooth made bull that will go out and get the job done
- Dam is a moderate female who came in dam from Starwest Farms

Lot 20

Kuntz Simmental Farm is a family run mixed farming operation that is located approximately 40 km south west of Battleford off Highway #29. We would like to take this opportunity to personally invite you to Lloydminster for our annual bull sale on March 12. This year we are offering one of our strongest pens of bulls to date. We have done genetic testing for the polled and dilution gene as well as the Leptin gene, results will be available prior to the sale. Don't hesitate to call to discuss these test results or any of the bulls in our offering. As always, we encourage you to stop by the farm to view the bulls prior to the sale.

Shawshank is the stand-out full fleckvieh bull of the pen this year. He has a big, square hip that is packed full of muscle. He possesses excellent depth and spring of rib which flows back through his flank and into his deep, full hind quarter. Shawshank has huge wrap around goggles and carries a herd bull presence to him which makes him easy to find when walking through the bull pen. His dam, 308A, is a member of our Miss Moses cow family who is really making a name for herself. Maxwell Simmentals purchased her Klyber son (Denali) from our sale two years ago.

103	874	1535	10.2	3.3	72.4	111.8	35.4	5.3	71.6

Draftsman is a polled/scurred full fleckvieh bull out of our popular donor cow, Kuntz Miss Moses 03X. He is an exceptionally long bodied, deep quartered, smooth made bull who is as dark red as they come. Draftsman has that proud stature and that sharp red color that make him very noticeable when touring the bulls. With the combination of Blueprint and the Miss Moses cow family, it's hard not to get excited about the set of beautiful uddered, hard working females that this bull will sire.

Buster is the natural calf out of 03X. For this mating, we decided to go back to some older genetics that has proven to leave some top females. Of course, we didn't get the heifer calf that we were hoping for, but ended up with a pretty good bull. This guy comes with a "Retro" color pattern, but if you look past that, he offers a valuable set of genetics.

## KUNTZ *Officer* 25F

APPLIED FOR KNTZ 25F FEB. 02, 2018 POLLED/PUREBRED

BW	ADJ WW	ADJ YW	CE	BW	WW	YW	MILK	MCE	MWWT
94	834	1485	17.4	-2.0	62.0	92.8	29.7	11.6	60.7

We were very excited for the arrival of these embryo calves as they are full brothers to Kuntz Sheriff 8A. Sheriff has been a very popular AI sire who has been used heavily on heifers. The Sheriff daughters have matured into moderate framed, hard working cows with exceptional udders. I'm not sure if these two bulls will prove to have the same kind of extreme calving ease but they might offer a bit more performance. Officer 25F is a super stout, heavy muscled bull where Marshall Law 31F is a bit longer and smoother made.

This pair of embryo brothers out of Nettie 23Y are sired by Red Summit. We felt we needed to use Red Summit after seeing him and his daughters at Agribition. They had brood cow written all over them. Combining Red Summit and Nettie 23Y makes for a highly maternally bred bull with a good shot of calving ease. 20F is a more moderate, stout made bull. 23F is a big time performance bull who is the heaviest bull in the pen.

Kuntz Karrie 030X - Dam of Lots 37 & 38

This pair of embryo calves are moderate in frame with lots of length of body. 030X is the type of cow that we are modeling our cow herd around. She is a stout, easy keeping cow that has excellent length and is massive through her middle third. If you are looking to build a cow herd, you might want to consider taking both of these bulls home and keeping every daughter they sire as they are sure to make great cows.

This blaze face bull is the natural calf out of our 030X donor cow. He is sired by Sunny Valley Cruz, a bull that we had planned on using heavily last spring, but he came up with a career ending injury in the heart of the breeding season. Cruz has done an excellent job of siring stout, lower birth weight bulls that are easy to market. The Cruz sons will be limited so don't miss out on one who has a dam as powerful as this bull here.

KNTZ 5D - Maternal Brother to Lot 43

This blaze faced bull is one of the two Westcott sons we have in the sale because we got mostly heifer calves out of him last year. Lucky for us though, as our first Westcott daughters are calving this winter and they are everything we hoped they would be; thick, easy keeping females with lots of milk and bright futures. A maternal brother was a popular Super Duty son that sold to Blair Capjack a few years ago.

WJS Bolt's Cinnabar 663D - Dam of Lot 45

This bull is a light birth weight, calving ease prospect sired by Sheriff. He is a smaller framed bull who has a small head and nice smooth shoulders which should make him a candidate for the heifer pen. He has good length, a nice hip and adequate muscling. His dam is a nice first calver we bought from WJ Simmentals.

Lot 45

# McIntosh

## Livestock

Welcome to the 20th Annual Kuntz/McIntosh/SAJ Bull Sale. We are excited to showcase this group of bulls. We feel this is the best group of bulls that we have ever brought to town, with a good mix of calving ease and some power bulls to add the pounds to your calf crop. Also, these bulls will add to your replacement pen being out of strong maternal cow families. New this year we decided to do the Q-Select Genotype testing as a few customers have been inquiring about it.

We seem to get busier every year with things around the farm and activities with family and perhaps don't get a chance to show our appreciation and visit with all our customers the way we would like to. So, a sincere thank you to everyone who has supported us over the years at past bull and female sales. Without all of you we wouldn't be able to enjoy this great industry!

We would like to invite all past, present and future customers to come on out to the sale and also make sure to stop by the farm to preview the bulls and the cow herd any time. The bulls will be on display indoors from March 10 - 12 at the Lloydminster Exhibition Grounds in Lloydminster, SK.

All McIntosh bulls will be double vaccinated with Fusogard to help in the prevention of footrot. We offer free delivery in Alberta and Saskatchewan and cost shared to other destinations. We will work with you to get the bulls delivered as close to you as possible and in a time frame that works for both parties.

Don't hesitate to call with any questions and we encourage farm tours anytime to see the bulls and the cows they came from. We look forward to seeing everyone March 12!

Bondsman was shown by us this past fall at the side of his dam. Together they were Champion Simmental Female at the Lloydminster Stockade Roundup. We feel that Bondsman truly exhibits a lot of the things a person would look for when searching for the next great herdsire. He was born unassisted with a very nice 90 lb. birth weight, then he grew out to an impressive 1448 lb. adjusted yearling weight. He carries a very balanced set of EPDs and ranks in the top 10% for Calving Ease and top 15% for Birth Weight. His Q-select Genotype is stellar, exhibiting the most desirable traits in three out of four categories! (Leptin, PMCH and IGF2). He tested Homo Polled and Homo Black. Plus, you know for certain that he is out of one of the most attractive, sound uddered, exciting up and coming matrons that there is!

1F is the only resulting calf from a flush of our Horizon donor cow to the immortal Angus sire, Soo Line Motive 9016. We were searching for something a little different when we flushed 11B this way and I was really secretly hoping for a pretty heifer calf or two. What we ended up with was this huge bodied rascal though and wow! He is just a perfect example of hybrid vigour at work in the real world. Short gestation of 273 days with an 87 lb. birth weight, followed by an explosive growth to a 960 lb. weaning weight and was the overall heavy weight on yearling weigh day at a whopping 1469 lbs.! Sound in his structure and massive in design, Mass will be worth a close look on sale day.

Lots 49, 50, 51 and 52 are full sibling embryo transplant calves and they sure are easy to love! The cross of the popular American bull, Revival, was a home run with our power packed Horizon donor cow, 11B. If you are in the market for a black baldy bull this spring then these four are definitely worth a good close look. They are peas in a pod, moderate in frame and very sound in their structure. If you get a chance to stop at the farm for a look at these guys, make sure you ask to see their flushmate sisters. They were all keepers and will make you appreciate these bulls even more! Renaissance, Renewal, Rally and Resurgence are registered as 7/8 purebred.

Cast Iron is a high performance Bounty Hunter son that is really easy to like. You will admire his depth of rib, his balanced profile and his structural integrity. We really love his Cobra dam, she has been a great producer for us. Her 2017 heifer calf by Grand Fortune was purchased through the Lloyd Fall Fusion Sale by the Hoegl crew and Devyn campaigned her successfully through 4-H and beyond. An absolutely stacked maternal side to Cast Iron's pedigree that's for sure!

Here is a nice Bounty Hunter son. Havana comes with a nice little shot of chrome on his forehead and nose. We used Bounty Hunter lightly in our heifer pen with success, but we also bred him to a cross section of mature cows to get a feel for where he works best for us. These ones off the mature cows really performed well in terms of calving ease with good growth from there on. Havana's dam is a great producing, Double Up daughter with ample milk supply, she always brings in a big calf each fall. Havana was born with a very acceptable 94 lb. birth weight and ranks in the top 25% or higher for the calving ease traits.

Fired Up is the only Loaded Up son that we have on offer this year. The Loaded Up daughters and sons have been well received in the industry and all carry some added eye appeal. Fired Up is a maternal sibling to Lily 21D who was our show cow from this past year. So rest assured, Fired Up is backed by a deep maternal side to his pedigree. He has performed very well in terms of his birth to weaning to yearling spread. Fired Up carries a touch of white on his face if you are interested in something with a bit of chrome.

Refresh is aptly named as he carries a different pedigree from any of our other bulls on offer. He came to us in dam from the McMillen Ranching operation, where we purchased her out of their production sale in December 2017. She is the only Riddler cow that we have in production here, but she is a dandy! Gorgeous udder on her and as close to ideal in frame size as you can get. Refresh carries a great EPD spread, ranking top 20% or higher for all calving and performance numbers.

Thunder is a black bald face bull with some added eye appeal, he carries some extra extension through that front end and as his picture shows he profiles very nicely. Thunder comes to you from what is becoming one of the prominent cow families here, the Nashville family. His dam and the dam of Lot 67 are maternal siblings. Sired by the Shell Shocked bull. There aren't a lot of Shell Shocked offspring around these parts, but we decided to use him for his calving ease in a bald faced package. He has delivered in those areas as we expected. 82 lb. birth weight on this guy.

Something a little different here being a black hided, Dare Devil, but every bit as impressive as his red brothers. A little bit younger than some of the others in the pen as he's getting towards the middle of February birth date. You would never know it though when you walk through the pen. Fame is mothered by another one of those good Double Up cows. 17Z is arguably the deepest bodied, biggest ribbed cow on the farm. Maternal strength runs deep on both sides of Fame's pedigree.

Varsity is a Homo Polled son from our Equalizer bull and out of a nice Bold Ruler two year old dam that came to us from the Chambers family. Equalizer is the old stand by for us, we have really come to rely on him for his ability to produce a consistent calf crop year after year. Dark red colour, hairy and extra depth of body all come together here to make Varsity worth a second look come sale day.

Backstop is a high performing son of the cow that started it all for us, IPU Pocahontas 139M! Even though the old girl has been gone for some time now we still seem to have a calf in the sale out of her each year. Backstop is a long bodied bull, very balanced in his profile and like all of them out of Pocahontas, he has ample thickness over his top. This season IPU Pocahontas ticked over to 50 registered offspring, so be assured you are getting a bull from our highest producing matron to date!

This dark red bull is out of a favourite young cow here that came to us from the South Holden operation. She is a perfect uddered, Bootlegger daughter that, like Seige, is very dark red in colour and is just beautiful through her head and neck area! It is quickly becoming apparent that Bootlegger's strength lies in his daughters as they are turning into some of the most productive cows there are. So when you get an opportunity to purchase a bull out of a Bootlegger daughter then buy with confidence. They will sire some beauty replacements!

**Homo Polled**

Lot 61

On February 27, 2016 we decided to partner with our good friend John Klutz on a red bull that he just loved at the Lewis Farms Bull Sale. When "The Devil" arrived here we were happy that we made that decision! Just a really great bull all around. Moderate in frame, beautiful dark red in color and he moved around like a cat! Dare Devil comes from one of the most prominent and dependable maternal lines in the breed and we are sure pleased we have been able to add the maternal prowess of the Amber family into our own herd. This is the first group of Dare Devil sired bulls we have offered and we are looking forward to continuing to offer progeny on this potent herd sire for years to come!

LFE Dare Devil 3238B - Sire of Lots 58 & 62 - 64

Lot 62

Futurist was part of our Simmental Champion Pen of Three at Agribition 2018. He is a bull that we really admire and feel he has a lot to offer. Beautiful 84 lb. birth weight on this guy! You will like Futurist's dark red colour, strong foot and his effortless stride. Futurist's dam by the McIntosh No Equal bull will be one to watch for in the future, as the No Equals are making great momma cows with stellar udders and built in calving ease. **Homo Polled**

Lot 63

This herd sire in the making is very hard to fault and very easy to love! I really don't need to say too much about this guy because his picture is worth a thousand words. Very loose hided and soft middled, Relentless is a bull that we feel is right for the times. He is backed by a super Bootlegger cow whose first calf was our high selling bull last year to Ken Gilbert's Westgold operation. Then this year she comes out with this guy! If you can make it to our farm for a tour we would love to show her to you. His sire, Daredevil, is a bull you will be hearing more and more about from this operation in the future. Maternally stacked pedigree here. He will sire some beauty replacement females. **Homo Polled**

Lot 64

Another one of these Dare Devils that will be easy to find on sale day. Full Tilt is a bull that we admire for his overall style and balance, which combined, make for a very eye appealing package. Out of a prominent cow family here at McIntosh Livestock, Full Tilt traces back to our awesome R Plus 8297U donor cow. 8297U over the years placed many great bulls through this very sale. **Homo Polled**

Another bull from our Agribition Pen of Three Bulls. This embryo transplant son of Predestined has two more full brothers in this sale and a full sister to these bulls was sold at the inaugural Border City Sale this past December to Severtson Land and Cattle. His King Ranch dam has been a solid producer and earned her way to the donor pen by just getting the job done and done well, each year. We used his sire, Predestined, because he offered a different twist of pedigree for the red Simmental side of things and was backed by a great dam. **Homo Polled.**

One of two Cobra sons that we have on offer this year and they both happen to be red! The impact that Cobra has had on our program has been great and he will continue to be a go to for us here in the years to come. Not really many other sires can offer the growth like Crossbow exhibits while still being able to keep that birth weight and calving ease in check like Cobra can. Crossbow will be a great option for you if you have some cows that you would like to add maybe a bit of frame to and a lot of pounds in weaning weight. **Homo Polled.**

Lot 67

McIntosh Nashville 2D - Dam of Lot 67

Affectionately known as Harry, SBMC 2F is the first calf from McIntosh Nashville 2D and did she ever do a great job raising this impressive bull! Many might remember Nashville as she was Shelby Bygrove's popular show yearling from 2017. Shelby and Nashville were quite the impressive team and racked up many wins up and down the show road that year. Showing cattle is fun and challenging, but when you get a successful show heifer and see her become a successful mama cow, that's when you know you're onto something special! Shorter gestation on this calf at 278 days and ranks in top 20% for both CE and BW EPDs, makes Harry a possible candidate for your heifer pen. **Homo Polled**

Lot 68

Lot 69

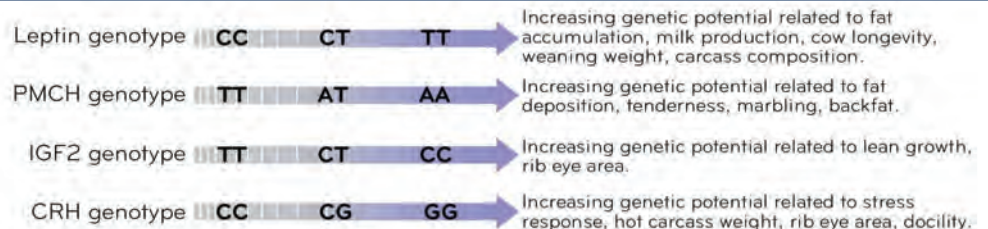

The final Predestined/King Ranch embryo transplant bull that we have on offer and we very well may have saved the best for last. This calf has a look at me presence and is easy to find in the pen. He carries some extra extension through that front third and has a very pleasing shape to his rib. Settler is thick over his top and carries that thickness down deep into his stifle. Like all of our red bulls this year, he is dark red and hairy! **Homo Polled**

Lot 70

Just a February 19 born calf, Faction is a true performance bull. He was born with a very nice 92 lb. birth weight and never looked back. He ranked number one in his group for weaning weight posting an impressive 117 weaning weight ratio. If you are looking for some added performance at weaning time then Faction could be the bull for you. Great herd bull presence to this bull which is easy to see in his picture. Nice and level topped with an attractive profile. **Homo Polled**.

This graph is a key that represents the genetic traits that are tested for and which results are more desirable.

## *Terms & Conditions*

### *Terms...*

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### *Bidding...*

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

### *Announcements...*

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

### *Breeder's Guarantee...*

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull, please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

### *Exception Guarantee...*

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

### *Certificate of Registration...*

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### *Liabilities...*

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### *Rights and Obligations...*

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

### *Phone, Mail, Wire Bids...*

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### *Delivery...*

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bulls must be insured by buyer.

### *Insurance...*

Will be available sale day. We strongly recommend that insurance is purchased for full value.

### *Errors...*

All announcements at sale time, written or oral, supersede any written material in the catalogue.

**The sellers reserve the right to draw semen from any bull in the sale for in-herd use only.  
The collection will be at the purchaser's convenience and the seller's expense.**
