

24th Annual
Tools Of The Trade
Angus Bull & Female Sale
Wednesday, March 13, 2019 - 1:00 PM
Held at the Ranch near Dundurn, SK

WILBAR
CATTLE CO.

Welcome from Wilbar Cattle Co.

Bryan, Tracey, Kylie & Owen

Welcome to the 24th Annual Tools of the Trade Sale! We are so grateful for your interest in our breeding program that has made 24 sales possible. We have built our cow herd and our program with you in mind.

As you all know and experienced along with us, the summer of 2018 was extremely hot and dry. In fact, it was one of the driest on record. The heat took its toll on pastures early in the summer and dugouts later on. Water was hauled to our main bull calf pastures for a month prior to weaning in early September. The silver lining to this story is the offering for this sale. These cattle survived the extreme summer and recently the extreme cold of 2019, proving they are hardy and easy doing.

To say we are pleased with our 2019 sale offering would be an understatement. The bulls are uniform and represent our vision for the cow herd – attractive, sound, high performing cattle backed by calving ease and maternal strength. The two-year-old bulls were developed alongside the yearling bulls last year and met all of the same expectations except birth date. We kept the youngest ones to offer you in this sale. The 10 select purebred heifers are of the same quality as the rest of our replacement pen.

While our bulls have always been developed on a high roughage ration with a base of barley silage, this year we replaced manufactured pellets with brown oats (that we grew on irrigation) and a precise mineral package. We are thrilled with the results. The bulls

exhibit improved hair coats while performing similarly. We also believe, by developing the bulls on this ration, even more longevity and fertility will become evident. Again, we made this decision with our customers in mind.

The commercial heifers are a strong set and are all straight Angus or Red Angus sired only by Wilbar bulls. We are confident in the foundation these heifers could become in your operations.

New in last year was our participation in the ACE (Angus Cow Enrollment) program offered by the Canadian Angus Association. As a result, every yearling animal in the offering is sire verified – that means no surprises or guess work. We believe this adds value not only to fellow breeders selecting out of our sale, but to the commercial producer as well. Select with even higher confidence in the information provided.

Information from semen evaluations, carcass evaluations and current weights will be provided on sale day, or ahead of time upon request.

If you are unable to attend the sale, internet viewing and bidding will be provided by the great folks at DLMS. Be sure to register and log in before sale time. As always, contact us or the sale staff if we can be of assistance.

We welcome your visit anytime and would love to show you the offering ahead of time, especially if you are unable to join us sale day. The opportunity to help you select your next herd bull or tour the cow herd is always appreciated.

Please join us for coffee and viewing the sale offering in the morning. Lunch will be provided at 11:30 a.m. and the sale will begin at 1:00 p.m.

Thank you for your continued interest, confidence and support in our program. We know there are a lot of bulls for sale and we hope you choose, or continue to choose, Wilbar bulls.

Bryan, Tracey, Kylie & Owen

From The Desk At T Bar

Welcome to the 2019 edition of Tools of the Trade, which is now in its twenty fourth year. This multi-generation family have been leaders and suppliers of quality seed stock since 1963 when Jake and Bernice established Wilbar. That quality Angus experience is now carried on by Bryan, Tracey and their children, Kylie and Owen, the fourth generation at Wilbar.

The offering this year is exciting! The 2018 National Reserve Champion Red Angus Bull, Wilbar Lithium sells, a definite "big time" feature. The first sons of FF Countdown 2018 National Champion Angus Bull will headline the black division. The depth and power of these bulls will ensure any breeder, purebred or commercial, the opportunity to help himself and his program to greater lengths.

Wilbar is located a mere couple of miles east of Dundurn. For those who are looking for a preview of the offering, whether they are red or black, don't hesitate to stop in and they will be happy to give you a tour. Remember to check out their mothers as this program combines high maternal value with performance.

If we at T Bar C may be of assistance, prior to or sale day, please contact any of the T Bar team and we will be pleased to offer our professional services.

Specialist has been our go-to low birth weight sire for a number of years. His sons are high performing, calving ease options that can work on heifers or cows. It's rare to find a low birth weight bull that doesn't leave performance behind. Specialist sires extra length of body, dark colour and base width. His first daughters did an incredible job on their calves and we are already getting calves out of his high selling son, Element. We lost Specialist in 2018, so this will be the largest sire group on offer.

Jack has sired similarly to his sire, Parker. His calves are big topped, deep bodied and wide based with some extra bone. The Jack sons have an attractive presence and look. This group of sons is deep in quality and consistently powerful. We are calving out Jack's first daughters and are pleased with the udder quality, disposition and doability.

Outsider is a bull we viewed at the Denver Stock Show as a yearling. Impressed by his overall shape and presence we decided to sample him on some of our black red carrier cows as a new source for outcross. Needless to say we are happy with the results. Calves are born with moderate weights, mature into ideal frame and ample muscle. First calf heifers have nice, tidy udders and very docile dispositions.

This will be the first calf crop to sell out of Rewind. He was purchased as a \$19,500 sale feature from Brooking Angus. Rewind adds depth of body and base width to his progeny while maintaining incredible style and presence. His dam, granddam and great granddam were highlighted on the recent Summer Sask Angus Tour. We feel these three females are an awesome combination of maternal greatness. We expect females out of Rewind matings to be broody with expansive rib shape and ideal udders. The first female we have sold was a sale feature and high selling heifer calf in the Touch of Class Sale to Cow Trax Angus.

Kozi is a Semex bull that we sampled to infuse more rib and muscle. Kozi successfully did all of this plus added additional volume and length all with moderate birth weights. His sons are some of the pen favorites competing with any of the performance lines in the pen. Take note that he is not only an outcross to anything we have used but most mainstream pedigrees as well and is no longer available.

Countdown comes from Flesch Angus at Shelby MT where we first discovered him in their pen of bulls at the Denver Stock Show. Countdown is a tremendously long bodied bull with an abundance of depth. His presence and style are impressive. On paper this bull is very balanced ranking in the top 15% or higher on virtually every trait there is. We used Countdown on a variety of cows and heifers in his first breeding season. He is safe to use on heifers but does not sacrifice performance when used on cows.

Wilbar Jennifer 221R is one of our top donor cows with 19 progeny registered so far. We love the udders and body shape her daughters have. They are cornerstone type females that have worked very well for us. The sons in the sale represent 3 different flushes. The bulls though sired differently offer very similar traits and phenotype. If you are in the market for a herd sire to strengthen your cow herd then consider any of these sons.

Lute has always impressed us with his progeny. His sons check a lot of boxes: heavy weaning, foot quality, style and disposition. His daughters are as good as they come for phenotype & production, combining massive rib and body with attractive front ends. They have raised several bulls you'll find in this offering. Lute is responsible for our 2016 high seller, Barracuda, 2018 high seller, Enforce, and many other show & sale features over the years.

STATS	BW	AWW	AOD
	75	636	2

- A heifer that is some what an outcross to most of our current pedigrees
- Lots of shape and volume
- Top 10% and above in WW, YW, Milk and Total Maternal
- Cow family has been very productive in the past

Commercial Heifers

On offer is our entire commercial open replacement heifer pen. These heifers are out of straight Angus or Red Angus cows. As a group of replacements, they are deep sided, sound and attractive with lots of hair. Maternally strong, they will make a great addition to your commercial herd. They are April and May born and will all be palpated prior to the sale. The heifers will be sold in pens of 5.

at our sale!**

The Canadian Angus Tag Program is the largest branded tag program in the world. The tags visually and electronically identify cattle that are guaranteed Angus. Animals wearing the green RFID tags are a minimum of 50% Angus genetics as they have at least one registered Angus parent. Canadian Angus tags are CCIA approved. Order your tags today and have them delivered right to your mailbox.

Video Sale

All sale cattle will be videoed ahead of the sale. Videos will be available online at www.wilbarcattle.com. All sale cattle will be penned immediately north of the sale barn and will be available for viewing prior to the sale.

Terms

Payment due at the time of purchase. The right of property shall not pass until settlement has been made. All cattle sell under the standard terms and conditions of the Canadian Angus Association. All information in this catalogue is the most current available at press time. Any announcements made sale day supersede catalogue information.

Each animal becomes the risk of the purchaser at the point of sale.

Wilbar Cattle Co. reserves the right to collect semen on any bull for in-herd use only, at the seller's expense and buyer's convenience.

Scrotal circumference, ultrasound data and current weights will be available sale day.

All bulls will be semen tested and fully guaranteed. Bulls may remain at Wilbar Cattle Co. until May 1, 2019.

Bulls will be delivered to your yard or central points in Western Canada.

Wilbar Cattle will also provide assistance with trucking to Eastern Canada and the U.S.

All heifers will be palpated for breeding soundness.

Please make arrangements to pick up heifers before April 1, 2019.

Liabilities

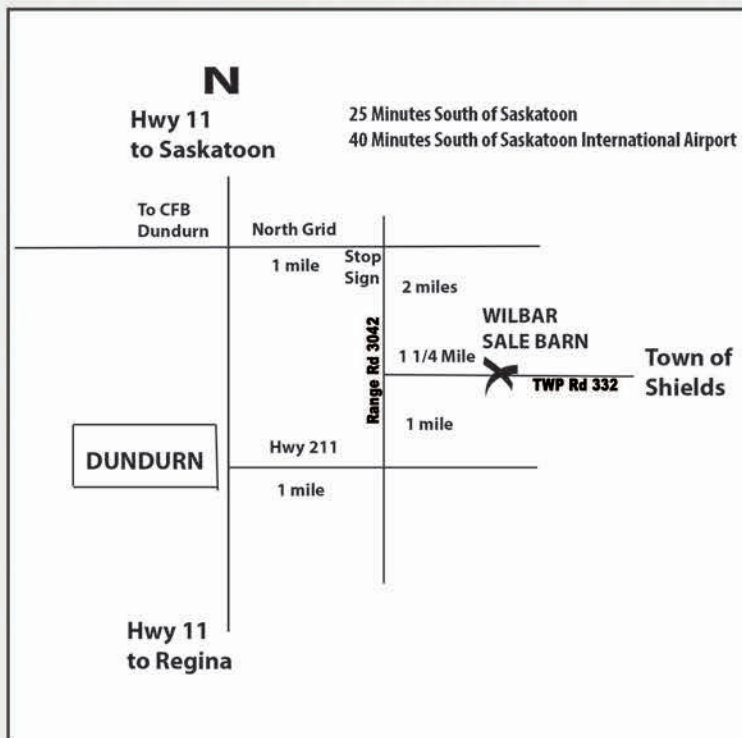

All persons attend the sale at their own risk. The sellers, facility owner and sale staff assume no liability, legal or otherwise for any accidents that occur.

Glossary

BW	Birth Weight
AWW	Adjusted Weaning Weight
AOD	Age Of Dam

Calving Ease Scores (CES)

- ★★★ Recommended for use on heifers for little to no assistance on normal births
- ★★ Recommended for use on larger heifers for minimal assistance on normal births
- ★ Recommended for use on cows
