FRIENDS OF

Canadian Simmental FOUNDATION

Fundraiser Auction

Saturday August 11th 2018 • 7:30 pm MST

CSA AGM Banquet • Olds, AB

Message from the FCSF President

Welcome to the 2018 Friends of Canadian Simmental Foundation Auction in conjunction with a full slate of Simmental events in Olds, Alberta. Plan your itinerary, it is promised to be a fast-paced weekend with plenty to take in. The Foundation's primary role is breed research, educational scholarships and youth development. All our youth scholarships are financed and administered by this foundation which also provides annual funding for YCSA at national events.

A milestone for our Foundation this year is becoming a small part of the Calgary Foundation which is a large investment fund that has many groups like ours involved. They have a high level of expertise backed by an incredible track record. We are proud to be involved with the Calgary Foundation, ensuring safe keeping and growth with our funds. The auction continues to be our key fundraiser for the year, in addition to the auction, many Simmental activists are pledging generous donations throughout the year. Thank you to everyone for your contributions, your investment in the breeds future is unlimited.

Thank you to the Alberta group, you have done a great job of rallying the troops for this event! Thank you to our Foundation board, CSA staff and all volunteers and lastly the most important, thank you to our donators and purchasers.

From everyone on the board, we look forward to seeing and visiting with you in Olds.

Ken Lewis

Message from the CSA President

On behalf of the Canadian Simmental Association, welcome to beautiful Olds, Alberta and the annual fundraising auction of the Friends of the Canadian Simmental Foundation. As in past years this will be one of the fun filled Simmental events of the weekend and the entire year. This is the major fundraising event for FCSF and funds will help secure the future of our breed with focus on youth development, education scholarships and breed research. A huge thank you to the many breeders and industry partners that year after year generously donate spectacular auction items to this event. Thank you to all contributors, bidders, buyers and organizers of this exciting fun filled event which is always a highlight part of the CSA AGM weekend. If you cannot be here in person but would like to take part and support this great Simmental event be sure to contact DLMS.ca, any of the sales consultants or FCSF Directors. They would be happy to help.

See you all in Olds!

Lee Mc Millen

CSA President

Message from the FCSF Auction Chair

Welcome to the next edition of the Friends of Canadian Simmental Foundation Auction. The events at the annual Canadian Simmental Association Convention are always a great time to network with fellow Simmental Breeders and support the youth of our breed at their National Show. It has again been a honor to assist in the coordination of this fundraising auction. I would like to thank Scott Harvie and Jill Mader for working alongside our board to bring you this offering. Without the continued support of our donators and those that bid and purchase at the Foundation Auction, the FCSF would not be able to support youth, education and reseach connected to our breed and agriculture.

I am looking forward to seeing everyone in Olds August 9 - 12, 2018. If you are unable to attend please follow the auction online with DLMS and the following day as the National Junior Show is broadcasted. If you have any questions regarding the sale offering please contact any of the FCSF Board of Directors and we would be pleased to assist you.

Deanne Young

Chairman FCSF Auction

Message from the Alberta Simmental Association

One behalf of the ASA board and organizing committee of the 2018 version of the CSA Convention & AGM, I would like to welcome you to Olds, AB. We are extremely proud to host many breeders, industry members and Simmental youth to our province and showcase our part of the country and our piece of this great Simmental breed!

These are such exciting times right now and for the years to come in the Simmental breed. The Foundation Auction helps to set the tone for the direction that takes us! Thank you all in advance for your attendance and for the support to send the Simmental youth and Agriculture Research down a path of wide horizons! The future is bright because of the people involved in this great breed!

Thanks

Jill Mader, President Alberta Simmental Association.

FRIENDS OF Canadian Simmental FOUNDATION

Who is the Friends of Canadian Simmental Foundation

The Friends of Canadian Simmental Foundation (FCSF) is a not-for-profit registered foundation dedicated to scholarship and educational support of youth in the business of agriculture and Simmental cattle. The Foundation is governed by a board of directors who are heavily involved in the Simmental industry and who have a vested interest in educating youth, developing leadership, and encouraging young people to be a part of the agriculture industry.

The Friends of Canadian Simmental Foundation belongs to all of those that had the vision to believe in bringing the Simmental breed to Canada, those that supported and have developed it over the past 51 years, and those that see the value it brings to the generations of the future.

Focus of the Friends of Canadian Simmental Foundation

Scholarships *- The FCSF administers scholarships for youth who are involved in Canadian agriculture. Assisting in the development of youth with a focus on advancing their understanding of agriculture is a very important component of the FCSF.*

Youth Development *- The FCSF supports youth programs such as the Young Canadian Simmental Association (YCSA). The YCSA is one of the most progressive and dynamic agricultural youth organizations in Canada. It is open to anyone 25 years and under who then have the opportunity to participate in various activities across Canada. YCSA members learn important skills including public speaking, marketing and communications which develop strong and dynamic leaders for not only our industry, but society as a whole.*

Research and Development *- The FCSF is actively engaged in supporting research to benefit the agriculture industry in Canada. This work is focused on improving the Canadian beef industry by enhancing production efficiency, product quality and profitability.*

What the Friends of Canadian Simmental Foundation is doing

FSCF Scholarships

The Friends of Canadian Simmental Foundation is honored to administer 5 exciting post-secondary scholarships. The Friends of Canadian Simmental Foundation recognizes the importance of supporting youth in agriculture and their goals of advanced education. The scholarship program is one of the ways that the Foundation intends to support youth and the future of the livestock industry. In 2018 the FSCF will award $12,000 in scholarships.

The current 2017 winners are listed on page 6 or go online to www.simmentalfoundation.com to find past winners and the current application form that can be used for all three of the scholarships for the 2017-18 academic year.

Youth Development

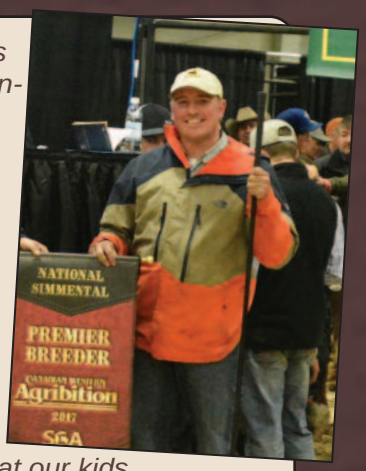
The FCSF supports youth programs such as the Young Canadian Simmental Association (YCSA). The YCSA is one of the most progressive and dynamic agricultural youth organizations in Canada. It is open to anyone 25 years and under who then have the opportunity to participate in various activities across Canada.

For 2018 the FCSF will directly support the YCS with a portion of the Auction process going directly to their program to assist in the operation of their 2018 – 19 activities. YCS Alumni share how the program has made a difference in their lives.

Testimonials about the YCSA Program

"As one of the very early members of the Saskatchewan YCS, there are a few things that stand out for me. One being the friendship's that were started then and still continue today. Back then the standing President was invited to the Saskatchewan Simmental Association board meetings, I remember the first one and how nervous I was the night before knowing that I would be seated beside all of these very important Simmental Breeders. Then to top it off I was asked what I thought about one of the discussion topics . WOW. One more thing , does anyone remember the Donkey up in the Queensbury at Agribition. Thanks it was a great experience."

Marlin LeBlanc



The YCS program was my door to the Simmental breed. As a young person the welcoming breeders and families at the provincial and national YCS shows were what got me involved in the breed. The friendships and opportunities made because of the YCS program are ones that last a lifetime. Now that our kids are old enough to participate in the YCS program, we get to see it from another aspect. The excitement and involvement in the Simmental breed thanks to the YCS program is still exactly the same.

Garth Rancier

The Young Canadian Simmental program is one that I will always be thankful to have been a part of. Not only did it allow me to grow my cattle knowledge and skills, but my time spent as President on the Provincial and National boards was extremely valuable. Looking back my biggest take away from the program is the friendships that I was able to create with other Simmental breeders & YCSA members across Canada. Those are memories that you just don't forget. Having been a part of the YCSA program will always be a highlight for me, and now I look forward each year to seeing the next generation of Simmental youth.

Stacy Young

Testimonials about the YCSA Program

My name is Ashley Pearson and I grew up showing purebred red & black Simmental cattle with my brother, Duncan, and parents, Merrill & Bev. They continue to operate Pearson Farms at Calmar, AB and the next generation, my sweet nephew Avry, is really loving life on the farm and all his animals. When I look back on my youth I am so thankful for the memories made and the friendships I built while taking part in YCSA events. I was a member of the Alberta YCSA Board and the National YCSA Board. I really enjoyed coordinating the Wild Rose Classic with our board. The organization, budgeting, & public speaking skills I acquired through those events have served me well in my agriculture business career. Participating in the National Classic gave me the opportunity to explore many new towns & cities across Canada and meet new friends along the way. I was even awarded an opportunity to attend the American Junior Simmental Association (AJSA) Show in Kentucky one summer. I loved the adventure of going to a new province or new town every summer for a show and to this day I still have a passion for traveling. I am sure that those experiences also helped me to become more confident and more of an extrovert, which made transitioning from small town high school to big city university that much easier. Post secondary education is a huge investment, and I am still so thankful for the financial support I received from the CSA Scholarship Program. My education has helped provide me with a very fulfilling career in the agriculture industry, as I now work for BrettYoung as the Native Seed Specialist. I would also say that the positive experience I had in YCS made me want to stay involved as a adult and continue to contribute to our breed. I did serve 6 years on the Alberta Simmental Association Board which gave me more exposure to breed improvement, marketing, and promotions. I wish you great success with the Foundation Auction this summer in Olds! Thank you to everyone who has donated and thank you to everyone who will purchase those items or animals up for sale. Your contribution is so appreciated by the scholarship recipients and their families. I have such fond memories of all the road trips, small towns, show heifers, many laughs with friends, and quality family time spent at YCS shows.

Ashley Pearson

Hi my name is Bobbi-Gayle Hosegood and I am owner of Yellow Rose Cattle. I am very proud and honoured to of been asked to talk about my experience of the YCS program. I became a member back in 1982 and not only competed at the shows but was on the Alberta board. The YCS program was very influential in my becoming a Simmental breeder as the knowledge that was forthcoming from fellow members and the support of the Simmental breeders made it very inviting. I feel the YCS program today is very focused on education for the future aswell as how the past has shaped the breed and breeders. The tools that are introduced so the youth can get the most out of the Simmental breed in Agriculture is amazing. The YCS truly helps shape our youth and helps prepare them for the Agricultural Industry as a whole. I am very proud to be an alumni of the program and proud to have my son J.R now in the program.

Bobbi-Gayle Hosegood

The YCS Program had a tremendous impact on my junior cattle show career and I am thankful for the role it played in shaping me as a person. Each summer my family planned their summer around the Alberta and National YCS Shows. No matter what Province the National Show was being held in, we packed up and headed out, with or without cattle. Thanks to YCS, I was able to build life long friendships and make connections to people across Canada. There is no value you could place on the memories I have from these shows. I believe that the YCS Program continue to be supported as it is crucial for future of the Simmental breed. I learned so much about the cattle industry and the Simmental breed through YCS and I am so grateful for how it has set me up to pursue my dream ***Andie Hadway***

How to Contribute to the Friends of Canadian Simmental Foundation

The Friends of Canadian Simmental Foundation value all of those that support the philosophy and work the Foundation is committed to. With the FCSF having Charitable Tax Status we are able to provide those who donate to the Foundation with a charitable tax receipt. FCSF supports the programs and activities that not only benefit the Agriculture Industry today but also helps establish the future of the agriculture industry for tomorrow's youth.

In addition to donating or purchasing at the Foundation Fundraising Auctions each year, you can also use some of the other raditional methods of giving include such as: cash donations, sponsorships and memorials.

Contact any of the FCSF Directors about makeing a donation or send your gift to the Friends of Canadian Simmental Foundation today.

Please make your check payable to:

Friends of Canadian Simmental Foundation
#13 - 4101 - 19th St. NE
Calgary, Alberta Canada T2E 7C4 Ph: 403-250-7979

Scholarships

The Friends of Canadian Simmental Foundation is honored to administer 3 exciting post-secondary scholarships. The Friends of Canadian Simmental Foundation will be providing two $3,000 scholarship to promising young students pursuing a degree or certificate at an accredited institution. The Dr. Allan Dixon Scholarship will be 2 scholarships of $2,000 each and the Trevor Vance Scholarship is one award of $2000 for 2017.

The Friends of Canadian Simmental Foundation recognizes the importance of supporting youth in agriculture and their goals of advanced education. The scholarship program is one of the ways that the Foundation intends to support youth and the future of the livestock industry.

Please go online to www.simmentalfoundation.com to find the current application form that can be used for all three of the scholarships for the 2018-19 academic year. Eligible applications will first be considered for the Friends of Canadian Simmental, then those remaining for the Dr. Dixon and the Trevor Vance Memorial scholarships.

The deadline for applications is September 30, 2018

2017 Scholarship Recipients

Jessica Sperber — *2017 Friends of Canadian Simmental Foundation Scholarship Winner*

Jessica currently attends West Texas A&M University, completing her Masters of Animal Science, with a specialization in meat science. She grew up on a mixed commercial beef and grain operation, located west of Ponoka, Alberta. Jessica remains actively involved in the agriculture industry, honored as a 2016 Cattlemen's Young Leader, in addition to volunteering her time with the Classroom Agriculture Program. Jessica was raised through the Alberta 4-H Beef program and competed in Junior Shows across Western Canada. Jessica has grown up around the Simmental breed, and is currently working with Simmental genetics in her Master's thesis. "Being selected as a recipient of the 2017 Friends of Canadian

Matt Bates — *2017 Friends of Canadian Simmental Foundation Scholarship Winner*

My name is Matt Bates and I was raised on a purebred cow-calf operation near Lindsay, Ontario, which forged my passion for beef cattle and the agricultural industry. I am currently in my second year, studying Veterinary Medicine at the Ontario Veterinary College (University of Guelph), after completing 4 years of an undergraduate Animal Science degree. I have a particular interest in large animal medicine and reproduction and I hope to pursue these areas as a future career. The opportunities afforded to me through 4-H and junior beef breed organizations have been numerous, and the life lessons that I've learned through such have been foundational. Whether it was a junior national show, a leadership conference, an international trip, or a public speaking competition, the friendships and mentorships established along the way reflect the true value of such programs. My words are not enough to express the level of appreciation I have for the people that have contributed to the Friends of Canadian Simmental Foundation, but I hope they can speak to the magnitude of benefits that are created through its' youth scholarships and programming, and the value of these opportunities to the future of the industry. The FCSF Scholarship will have an immense impact on my academic journey, and I am extremely grateful to those who have made it possible.

Breana McKenzie — *2017 Dr. Allan A. Dixon Memorial Scholarship Winner*

Breana grew up on a farm near Rocky Mountain House, Alberta where her family raised bison and beef cattle, as well as quarter horses. Her upbringing instilled many important life lessons including the value of a hard day's work, a great appreciation for life and developed her passion for the care of animals. After high school she began taking a Bachelor of Science degree in Zoology in order to pursue a career as a veterinarian. Her studies have taken her to the University of Calgary but she continues to hold on to her roots and connections to the agriculture industry through volunteer work and helping out on the family farm.

Michaela Lievre — *2017 Dr. Allan A. Dixon Memorial Scholarship Winner*

Michaela grew up in a rural area, where she always had an interest in cattle and agriculture. Michaela's involvement in 4-H was her first exposure to Simmental cattle as her club was heavily influenced by the breed. Her experiences to date have facilitated countless opportunities to network with likeminded people who share her passion for agriculture and those who take pride in their community and heritage. Michaela looks forward to being able to give back to the industry and share her passion.

Mackenzie Skeels — *2017 Trevor Vance Memorial Scholarship Winner*

Growing up with my family at Anchor D Ranch Simmentals just outside of Rimbey has expanded my passion for the rural way of life. My first cow was given to me; from there I have bought, traded, and raised cows, extending my purebred herd to 20 head. I have spent nine years in 4-H, where I have held the positions President, Secretary, and Historian. One of my favorite volunteering events is to cook at the Ronald McDonald House. I have achieved the Alberta 4-H Award of Excellence Platinum Medallion and have the honor of being selected to attend the 2018 4-H Canada Citizenship Congress in Ottawa, ON. I have loved my last three years being a part of the Alberta YCSA board, last year being the Vice President. It has been wonderful to be a part of the National YCSA Cattle Show for the last 5 years, and winning 3 aggregate titles is very humbling. With my 2nd aggregate title, the Canadian Simmental Association sent me to represent the YCSA in Iowa at a 900 head American Junior Simmental cattle show, I look forward to one day being a board member for the National YCSA Board so that I can give back to the association that has given so much to me. Currently I am enrolled in Red Deer Collage in the Media Studies and Professional Communication Coarse. Within this course, I am acquiring the skills to become a successful marketer and spokesperson for agriculture.

Planning for future

SIMMENTAL GENERATIONS

the FCSF have invested with the Calgary Foundation

The Friends of the Canadian Simmental Foundation is proud to announce the partnership and investment of major capital alongside the Calgary Foundation in the investment portfolio. This partnership allows the FCSF investment funds to grow with the outstanding endowment fund that Calgary Foundation manages and will help the FCSF goal of supporting youth, research and development of the Simmental breed for generations to come.

About Calgary Foundation

Since 1955, Calgary Foundation has been nurturing a healthy, vibrant, giving and caring community, facilitates collaborative philanthropy by making powerful connections between donors and community organizations. In 2017-18, Calgary Foundation saw $34.0 million in new contributions, had an asset base of $975.3 million and granted $45.2 million to 919 charitable organizations. Donors and the community expect accountability and integrity from the Foundation and the Calgary Foundation is skilled at delivering these qualities. A competent Investment Committee ensures donors capital is invested prudently and returns are maximized within acceptable levels of risk. Calgary Foundation is in a unique position as an umbrella organization that works with the broad community in a non-competing way. It is a resource for the philanthropic and charitable communities, and those that serve these individuals and groups.

Lewis Farms is proud and honoured to donate a black bred heifer in this year's Friends of Canadian Simmental Foundation Auction. This donation female selection means a lot to everyone involved at Lewis Farms. We knew we had to put our best foot forward in this selection. Lewis Farms owes a great deal of its success and long term dedication to the Simmental breed and more specifically the Canadian Simmental breeders and commercial supporters of the breed.

The female we have selected is LFE Charo 615D. LFE 615D is homozygous polled and heterozygous black. 615D is a member of the recognized and most proven cow family at Lewis Farms. More Charo daughters exist under the LFE prefix than any other cow family. LFE Charo 604G has been the anchor to our black program and can be found 4 generations back in this donation female's pedigree. High caliber sons from the Charo family include LFE Riddler, LFE Style, and LFE Boardwalk to name a few. 615D represents the first crop of LFE McDavid sired, bred females for sale. Sire LFE McDavid was purchased by Spring Creek Simmentals in the spring of 2016. 615D is bred to LFE Night Hawk and pregnancy tested safe for an early January born calf. LFE Night Hawk is the high selling, homo polled and hetero black calving ease specialist, who was purchased by Bouchard livestock and TSN Simmentals last spring.

We look forward to this summer's AGM and are excited for the Foundation Auction.

401 Pick of the Natural Heifer Calves at Maxwell Simmentals

Exciting Herdsires used at Maxwell Simmentals

Sample of past feature females sold by Maxwell Simmentals

Maxwell Simmentals is a fourth generation family farm located south of Viking. We began breeding Simmental cattle in 1972 . We imported our first fullblood female in 1976. Our herd consists of red and black and fullblood Simmentals. We use a combination of breed leading AI sires, embryo transplant and proven quality herd bulls. We started marketing our bulls through the Camrose ASA bull sale and the Lloydminister bull sale and now proud to be a part of the 24th annual Herdmaster bull sale. In addition to the 60 sale bulls sold in the Herdmaster Sale, we sell 50 bulls by private treaty off the farm. A majority of these bull buyers are repeat customers. Each year we keep 80 replacement females. 20 of those are marketed through the Camrose Country Classic female sale. Our family enjoys participating in local pen shows and visiting with old and new customers alike.

We are excited to offer the pick of our natural born heifer calves - Selection to be made by October 1, 2018

MRL MISS 355T

Since the inception of the FCSF Auction, MRL has always tried to support the auction with an exciting item. In 2018 it will be 2 embryos by our most powerful, proven donor matrons. This is an exciting mating combining the shear power and capacity of the 677Y matron with calving ease, blood red color and the maternal power of the MRL Western Force sire, selected as the high selling extra age bull in our 2016 sale at BLI. The 677Y donor is of course the dam to the $51,000 MRL Red Whiskey sire quickly making his mark in the Simmental world. Four more sons of 677Y have highlighted our 2017 & 2018 bull sales averaging $19,000. Including MRL Regulator for $33,000 in 2017 and MRL 135E for $20,000 in 2018. A rare opportunity to acquire genetics of this powerful MRL donor female.

BHS JF ANTOINETTES JOY

Outcross genetics to the Canadian database with Hooks Broadway and the great Joys Elegance on the bottom side. Phenotypically, Joy is as impressive as any donor with a beautiful udder, great feet and sound structure in a very attractive package. After being named the NWSS Junior Grand Champion Female and her first flush producing $106,000 in progeny sales for Griswold, she has gone on to be a very productive donor to build a program around. Most notably her daughter, RF Joy's Elegance 747E was the dominant heifer calf in Canada in 2017 winning FarmFair Legends of the Fall Grand Champion and National Agribition Heifer Calf Champion as she is one of the most popular Simmental females to be shown in some time. We have kept Joy genetics relatively locked up and this is a great opportunity to acquire from one of the breeds best.

We at Leewood Ranch are proud to donate once again to the Friends of Canadian Simmental Foundation auction. This year we have decide to part with some embryos from one of our top donors. We are offering 3 -#1 embryos out of are LWC Miss Ranger 10B donor and sired by Crossroad Radium. Miss Ranger has done an amazing job, with three daughters to date. She milks very well and keeps a tidy udder while producing pounds. These embryos are sired by the proven Radium bull that produces very well. We implanted 5 of these embryos this spring and are sure they will work when they hit the ground.

TRIPLE C INVASION R47K
Sire: LMF MOVIN FORWARD
LMF GODIVAS BEAUTYSTROKE

LEACHMAN RIGHT TIME
Dam: TRIPLE C EMPRISS L019F - ANGUS
ANGUS/ANGUS

After invested in one of the most popular donors at HPF during their 2016 sale and couldn't be more excited about SS Empriss 302Y after viewing her progeny in the 2017 HPF Dispersal. Since the dispersal, we have had numerous inquiries to sell this outstanding donor as her sons and daughters were in high demand and highly accepted through the sale. As we flushed many cows through the summer, Empriss 302Y was always the one we widened the alley and barely fit through the chute as she has unreal dimension and mass while still being very feminine in her type with a beautiful udder attachment and strong foot. With 4 fresh sire choices to choose from, we feel these genetics can add shear value to any program.

Empriss 302Y Daughter

Stored at Davis Rairdan International, Exportable to USA & AUS

Out of one of the most potent breeding cow families in the industry, the Famous cow family is great uddered, sound footed, structurally flawless with a production record that is impressive. Capacity's donor dam, had the $26,500 high seller for Rancier a year prior and she is an ideal female to incorporate in the herd book to increase production value and highly sought after traits. His sire needs no introduction as Westcott paves the way as a breed leader in consistency and marketability. The $77,500 Capacity is the black sire the industry has been seeking that checks off every box that will advance the Simmental breed into the future.

RF/Rust Stimulus 610D is $65000 high seller from Rancier Farms in 2017. Stimulus is a Grand Fortune son off of the Great Flirtin for Certain cow line. The strength and success of the Flirtin For Certain cow family needs no introduction and was a key factor in our decision to purchase Stimulus. We are really impressed with his first calf crop. They come out easy to an early gestation with a lot of vigour. This past spring we have used Stimulus heavily in our cow herd again but also have bred him to some heifers as we are confident in his calving ease. We have not sold many straws of semen on Stimulus so here is a chance to get in on the ground floor of a great young herd sire. HOMO POLLED/ HOMO BLACK

R Plus Uppercut 6103D was Lot 1 and the lead off bull in the outstanding 2017 R Plus Bull Sale. He commanded $50,000 that day and has been admired by numerous pure-bred and commercial breeders both at R Plus and while in stud at Bow Valley. Uppercut could very well be the most outstanding Hammer son in Canada with a tremendous dam and he truly is loaded with potential. Uppercut is massive bodied, huge topped with so much character through his head and neck that shouts "Herdbull". On the move you have to truly appreciate his fluid movement and the way each piece of his awesome skeleton comes together. Truly a unique offering with the quality to leave a major impact. Rare and limited opportunity!

'Romano' will soon be 13 years old, and is still going strong. He had his small group of ladies this past spring and is always looking for more. He still walks like a cat and is as sound as they come; never having had is hooves trimmed! Progeny from this great bull are still averaging well over $8000/hd after selling animals over the past 11years; which is an average through the lean years in the cattle business too. Bid with confidence on this well proven sire.

	80 lb	959 lbs	-		10.8	3.1	85.0	127.6	13.6	67.9	25.4

he National has always been a standout individual with his softness through the middle, his heavy muscle pattern, his large foot, and overall balance and presence. He stems from two of the greatest breeding pieces we have used over the past few years, both LFE Riddler and LFE Violet. The Riddler progeny have been so consistent within our herd, calving with ease, having an early growth curve, females being feminine with great udder attachments, and bulls being masculine and stout, with above size testicles and performance. Our first Riddler daughters are now in production and have superb balance to their udders with nice size teets, are milking heavy, and the type of females you love to analyze. Violet adds in the great Cobra pedigree and type to "The National," and adds her extra fleshing ability, very sound structure, and extension through the front end. Limited semen packages were sold on The National last fall, and this will be the only other semen sold in Canada on him this year. We decided at a young age that The National bull was going to retained in herd for our own use. Not only does he offer a tremendous phenotype and genotype, but check out his EPDS- Top 15% for CE, API, and REA, Top 3% for WW, YW, and MCE, Top 10% for MWWT and CW, and Top 2% for TI! We have not found a black bull that reads like him! He is Homo polled, and Hetero black.

B Young Living Thieves Cleaner Package

Thieves Laundry Soap *- With a plant-based formula, it gently and naturally washes your clothes, cleaning them without any chemical or synthetic residue. Natural enzymes and powerful essential oils add to the formula's strength to leave your clothes fresh and clean with a light citrus scent. Thieves Laundry Soap can be used in all washers, including high-efficiency, and its highly concentrated formula (6X) will provide around 64 loads with just 32 fl. Oz (946 ml). This stuff effectively cleans the dirtiest of all farm clothes and is safe for your newborns clothes too!*

Thieves Household Cleaner *- an all purpose, concentrated cleaner formulated with 100 percent plant- and mineral-based ingredients. Thieves Household Cleaner is biodegradable and complies with EPA standards.This ONE cleaner is the only thing you need! It is a multipurpose cleaner that works for windows, bathrooms, stovetop, countertop, floors and anything else that needs cleaning. Simply put 1-2 capfuls in a 16oz glass spray bottle and top with water – ready to use!*

Thieves Foaming Hand Soap *- Cleanse and condition your skin with this amazing soap. Blending Thieves, Lemon, and Orange essential oils with other natural ingredients, it is a gentle yet effective alternative to chemically derived soaps. Wont dry your hands out like so many store bought soaps.*

Thank you to our 2017 Donators and Buyers

3 Great Ways you can Support the Foundation this year!!

1. Make a plan to purchase tickets on the Donation Heifer. Remember for each $20 Ticket you have a chance in the draw for the Bred Heifer.

2. View the catalog and chose from all of the outstanding items available in this year's sale. If you are not coming to the AGM, call any of the sale staff, the FCSF Board or bid online with www.dlms.ca. Remember with your support the Foundation will continue to provide Scholarships and support the Youth Initiatives in the Simmental Breed.

3. The Friends of Canadian Simmental Foundation is an opportunity to leave your legacy in the Simmental Industry. Through a memorial donation, a living gift or a bequest through a planned estate gift you can support the foundation in perpetuity.

For assistance with the sale or more info about the Friends of Canadian Simmental Foundation contact any of the FCSF Directors listed on page 3.
