Welcome from Leewood Ranch

On behalf of everyone at Leewood, I'd like to welcome you to the 8th Leewood Ranch Bull & Female sale offering.

Leewood Ranch is a mixed farming operation. For 2023 we seeded 1400ac of crop and ran 450 head of Simmental cattle. We have approximately 250 purebred cows and 200 commercial cows that we run as one group. The herd is bred for early January calving and we calve everything together. Purebreds are treated like any other cows on the place and no matter the price tag only the good ones get to stay. Our cows run on private pasture and community pastures in large groups.

We use our strong bull battery along with AI and embryo implanting to maintain / improve our herd. Embryos are sourced from many of the top herds in the industry, along with embryos from our own donor dams. We use a variety of AI sires and do our best to source bulls we know will work. We will be selling 80-100 commercial replacement heifers in smaller packages this year.

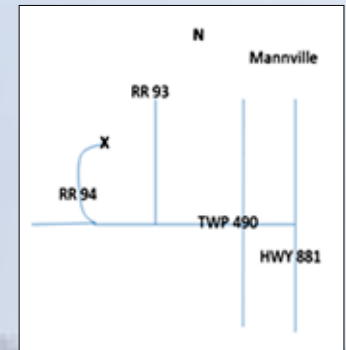

We hope to see you MARCH 2 at the ranch!

Cattle can be viewed anytime!

Coffee is on and someone is always around. **South on HWY 881 to TWP 490.
West on TWP 490 to RR94.
Take North fork into Yard.**

LEEWOOD RANCH

From Mannville

100% Video Sale

Same as in the past few sales, the Sale Will be a 100% Video Sale

Why Video?

- ▶ less stress on the bulls and heifers
- ▶ less chance of injury
- ▶ less help needed to set up sale
- ▶ speeds up sale
- ▶ warmer in the barn

Insurance

Available Sale Day

Canadian Farm Insurance Crop - Heather Barr - 1-780-853-7067

Buyers not taking insurance we recommend our Leewood Ranch Bull Protection.

Leewood Ranch Bull Protection

We are offering a 4% Bull Protection Program. This covers your bull(s) from Death or injury while at Leewood Ranch from time of the sale until delivery. Leewood Ranch will refund the purchase price, less salvage.

Delivery

-For bulls returning to the Ranch we suggest that the bulls be insured. Each animal becomes the responsibility of the buyer as soon as sold

-Heifers are to be picked up ASAP. We've had heifers go to customers in BC to Manitoba, so if buyers need a little time to set up trucking we understand.

-Deliveries will start around April 1, at our convenience.

-Bulls will be delivered free of charge to central points across the western provinces. We do our best to deliver your bull to your yard.

-Bulls traveling to the eastern provinces and for export will have trucking arranged at cost; unless other arrangements are made.

USA & Mexico Export

We at Leewood Ranch will arrange for all tests and paper work required to export these bulls at cost to their new owners. It usually takes several weeks to get these tests completed and results back. Transportation will also be arranged at cost.

Bull Selection Assistance

Purchasing breeding stock is a major part of raising livestock. Photos and videos are great tools, but don't always tell the whole truth. If there are any questions on sires, dams, CE, WW, milk, etc. please don't hesitate to give us a call. We can help narrow your search or point you to a bull that suits your needs.

Sight Unseen Purchases

If you need a bull but don't have the time to come to the sale we can help. Leewood Ranch is a family run operation. We are the guys that do the foot work in our operation from the feeding to the breeding. Call ahead of the sale and we can discuss what you need or want in your next herd sire. We will select a bull that will fit your operation, at your price point. The saying with us is "We'd rather keep our buyers happy than look for new ones each year."

You can also place orders with the sale staff or bid online. You can bid online at DLMS.ca. Videos of the bulls will be on Cattlevids.ca, a few weeks prior to the sale. If there are any questions contact Colt Arnold.

Leewood Ranch Guarantee

All bulls are guaranteed to be satisfactory breeders in accordance with the Simmental association guidelines. We stand behind our product. Should a problem occur please contact us and we will make it right. A replacement bull (of equal quality), a credit or reimbursement will be given. We will make sure you have a bull to breed your cows. Any physical injury or mismanagement of the bull(s), will void any reimbursement.

Bull-Breeding Soundness

All bulls will be semen tested before the sale. Bulls are tested for sperm motility, morphology and are also subjected to a physical exam. They are checked for any scrotal, penis and other physical problems that would affect their ability to breed. Any bulls failing these tests will not be at the sale. Any semen deferred bulls have been tested and have been deemed by the vet to mostly likely pass a semen test at a later date. These bulls usually fail, due to age or weather problems.

Feed & Development

Bulls are started on TMR after weaning in September. The TMR consists of triticale silage, hay, cereal straw, rolled oats and mash from Bullseye Feeds (minerals and protein). After the sale; bulls are fed the same ration until they are delivered. We want bulls to continue to develop and to look as good sale day or better when we deliver.

Health

All bulls will be vet checked, scrotal measured, weighed and semen tested. All sale cattle are on a full health program. Our calves receive vitamin AD&E and Selenium at birth. Around a week of age calves receive the vaccine Bovilis Nasalgen. Before being turned out on grass calves are given Vira Shield 6 + Somnus and Covexin Plus. At weaning bulls are given Vista Once SQ, Vision 8 Somnus. Any questions on health protocols please contact Leewood Ranch.

Polled Testing

A select number of bulls will be Homo Polled tested.
Homo polled = no horns on any Calves
Hetero polled = 50% polled calves on horned cows

Colour Testing

Some black bulls will be tested for colour expression. Homo black bulls will not sire any red calves. The fullbloods and a select few red bulls will be diluter tested. Bulls testing diluter free can be crossed with black cows and will not give you any grey calves.

Semen Reserve

We reserve the right to draw semen for in herd use on any bull in the sale offering. Semen will be at our expense and buyer's convenience.

Epd's

Epd's are basically a Mathematical estimation of a animals genetic value. They are not always right but they can help in choosing your breeding stock. Below is a list of the epd's and what they stand for.

Abbrev. Description Units

CE -Calving Ease %
BW- Birth Weight

- Dark red power bull with a Outcross pedigree
- Weaned off dam at 990lbs and that's off table top no grass pasture.
- Dam is a moderate framed black cow that's good footed and has a great udder. She has had 2 bulls sell through the sale and her only daughter calved early January.
- Excited to see what this guy does for his new owners

- Solid red blaze bull out of a first calver and our Fullblood herd sire Ed
- Dam is a smaller framed cow sired by Bootlegger. Like most Bootlegger daughters she has a beautiful udder.
- Grand dam is our Mader Twisted Passion donor.
- Full Brother to dam sold to North Dakota last year.
- I think this bull will work well to produce replacement females but still make some heavy steers come fall.

- A very young Lawless Son out of a 2nd calver
- Lots of performance in his pedigree with Lawless, Max Factor and MRL Red Whiskey in the line up
- Lower birth weight but I'd recommend using him on cows.
- Dam is a easing doing Max Factor daughter with a nice udder. She's one of the top young females we have.

- 81 lbs birth weight with adj 205 weight of 835lbs
- Will be just a good all-round bull
- Dam is one of the old girls on the ranch at 12 years old. She has had 6 bulls sell in our sale
- Should produce some awesome females being sired by Getzlaf and backed by his productive dam

COMMERCIAL HEIFERS

80 - 100 head

We will be selling 80 to 100 head of commercial heifers in smaller packages.

Closer to the sale date we will sort heifers into groups and have videos up on CattleVids.com along with the bull videos.

Just like in previous years all heifers will be palpated for breeding soundness.

If there are any questions call Colt at 780-581-8328 or 780-763-0084

It is a pleasure working with the great people from Leewood Ranch. They are some of the most progressive Simmental breeders utilizing an extensive AI and embryo transfer program.

The cowherd utilizes a customized mineral program that is balanced to their differing requirements and feed sources throughout the year. Organic minerals are used to ensure proper immune function and overall health, which supports proper bull calf development from a young age. The bulls are developed on grass with their

moms. After weaning, they are transitioned to a forage-based TMR. The TMR is formulated to maximize gut health and forage utilization. Multiple protein sources and the correct starch levels allow for proper lean muscle growth. Leewood Ranch uses a total nutrition program on their entire operation, ensuring optimal performance of their cattle.

If you have any questions about the bull's nutrition program, please feel free to call. Good luck on sale day!
