WELCOME

This is an extremely difficult transition. These cows, this industry, has been our life blood for the past 31 years. The seed stock business has been the most challenging, and yet at times, the most rewarding years of my life. It is truly a "Passion Profession". It has allowed us to raise a family that have a strong work ethic, welcome the opportunity to handle responsibility, and know how to establish trust with people and livestock. That in itself is very rewarding.

The cattle represent the dream and wish our heart made many years ago. The first 30 years were very challenging, and the last year has been the most exhausting. I wanted to present these cattle to you in the best way possible. I always felt that it was my responsibility to give Reid Angus cattle every opportunity to succeed. I always hoped that they would return the favor. And they have. These cattle have bought and paid for a lot of things that have allowed our operation to grow and expand. They will do the same for you.

Our slogan from day one has always been, "Females are our Foundation, Bulls are our Business". As you look through the catalogue you will see that almost half the herd goes back to the Georgina Cow Family. That single female, Chalco Georgina 3U, set the course for the entire Reid Angus cow herd 29 years ago. She demonstrated incredible fertility longevity and quality all in one package. She truly was tried, tested & true. We are confident that there are females in our sale offering that can help chart the course of your program for years to come. The sons of all these great mother cows was what has allowed us to establish a strong bull customer base. Many who have become close friends across the prairie provinces and as far south as Mexico. Both seedstock and commercial cow calf producers have supported our bull sales for the past 29 years. We are very grateful for their support and encouragement.

We feel there are many exciting opportunities available in our sale offering. We have selected some leading edge sires like Schiefelbein Ponderosa 1122 the U\$86,000 top selling bull from Schiefelbein Farms to Peak Dot Ranch. Sitz Resilient, SAV Renovation, whose semen is now rare & hard to find, Ellingson 3 Rivers as well as some "old school" sires like SAV Bismarck - the sire of Natural Law, sires like Basin Payweight 1682 and SAV Rainfall.

This is not The End, this, is in fact, a New Beginning; for the cattle and their new owners, and for us as we enter a slower pace to life, to take more time to enjoy our family, share & support their journey as much as they have supported ours. Sara, Cole and the boys (S R Angus) & Cam have been an integral part of our success. For their help & assistance over the years we are eternally grateful. We have kind of all grown up in the cattle industry together.

It's not always the path that we would choose, but it often takes us to the right place. It's time!

Doug Reid

FROM THE DESK AT T BAR

This is your invitation to be with us on December 5, 2023, for the Reid Angus Complete Dispersal at Olds, Alberta. The Reid dispersal will be a special event in the Angus breed. What makes this dispersal special is the 150 head untouched female 1-Iron herd that was developed based on a handful of cow families. Over fifty percent of the herd is based on one cow ... yes one cow who founded the Georgina family. Although females have been sold through their strict culling process, the goal over three decades was to produce and market bulls... just as their motto says, "Females are our foundation... bulls are our business." Each spring, Reid's hosted a very successful "Heat Seeker" bull sale for their many repeat ranching customers.

In building their herd, Doug and Kate, used a combination of sire's both A.I. and walking. The selection process was simply based on using sires that fit their customers' requirements. High maternal values without sacrificing performance, this herd is plumb full of calving ease and maternal calving ease. Rugged pastures and mother nature took care of the soundness factor while udder quality was a major selection factor.

Although dispersals offer a hint of sadness being that we are losing a fellow breeder, they are windows of opportunity. Only in a dispersal may one select from the top of the herd whether it be a foundation matron and an anchor of a big family or a current year fancy daughter with the most current Reid genetics. All the bull calves and the coming two-year-olds will give you an opportunity to select your 2024 bulls this fall and save some valuable tax dollars.

As we experience an exciting cattle market brought on by the shortage of inventory, December 5th will be a prime day to select and add to your inventory, breadwinners of the pastures... Angus females! Feel free to give Doug a call or pay him a visit and preview the offering. There are selections for all types of programs and budgets.

Plan to be with us on December 5th for another day in Angus history whether it be in person, online or on the phone. Feel free to give any of our T Bar team a call as we will be pleased to assist you with your purchases in a professional and confidential manner.

HERD HEALTH +

All calves receive Enforce 3 within three days of birth, MultiMin 90 and injectable Selenium.

At 2 to 3 months of age they receive Vision 8 with Spur and Express SP5. This vaccination protocol is repeated at weaning. All calves are given Ivomec at weaning as well.

Our entire cow herd receives Vision 8 and Ivomec annually and Cattle Master Gold FP5 every second year.

All bred heifers are vaccinated with Cattle Master Gold FP 5 and Vision 8.

The entire herd is treated annually with Ivomec. All bulls are treated again in January with Boss.

An effective vaccination program is everyone's insurance policy for a healthy herd.

REID Angus

Growing up near the University of Alberta agricultural Experimental Farm, a young city kid developed a love and interest in Livestock. He spent every opportunity he could working around the beef and dairy research projects. After completing high school he enrolled in the U of A's agricultural program, earning his BSC in Agriculture. From that

time on Doug Reid dedicated his life to his family & agriculture. To pay his way through University he worked at a dairy farm. He did the morning milking and evening chores, and attended university during the day. The couple that owned the dairy operation did the evening milking. When starting out, his family did

not have the financial means to help him acquire land or livestock. So he had to find a way to do it on his own. Fresh out of University, **"with just enough knowledge to be dangerous"** in Doug's own words; Doug landed a position managing a corporate farming and ranching operation that was rapidly expanding in Alberta. The company, Allarco Developments was owned by Dr. Charles Allard, who was a very successful businessman in Alberta. He was a very influential mentor for the young Reid. He learned to buy and sell properties, and the value of land and real estate during his tenure as Manager of Agricultural Operations.

A few years later Doug had the opportunity to buy the dairy farm he had worked on during University. So he left corporate agriculture and purchased the dairy farm with

help from the owners. Money was tight during those years. He didn't have the means to purchase the residence along with the dairy, but he and his new bride managed by living in a two car garage. They did what they had to do to make it work. Their daughter Sara was born in these cosy surroundings. Over the years the price of cows and quota soared. Selling the dairy herd allowed them to buy land and get out of debt. Doug recalled, **"I never thought I'd see that much money again in my lifetime"**

They started a small commercial beef herd - "we had to have cows in our life", and Doug searched to expand his agricultural career and became a Commodity Broker with the commodity giant Dean Witter. A position that lasted for 13 years in a field known by some as the "the fastest game in town." Doug developed a hedging program known as "the Cattle Crush". They would hedge feeder cattle, fat cattle, corn or barley and the Canadian dollar, to lock

in a profit or minimize loss. Most feedlots in Southern Alberta were Doug's clients. **"This allowed me to have a better insight into cattle markets and pricing"**

With the knowledge of livestock and land through years of experience, Doug accepted a position with Alta Genetics as their South American Sales Director. "This gave me a great insight into the purebred industry. We were shipping semen, embryos and live cattle into the five major cattle producing countries in South America. We had to deal with a lot of Canadian purebred Breeders to find donor cows, get them flushed and then work with the Breeders program to create a mutual benefit. **"I learned to have a tremendous amount of respect for the work that cattle producers put forth to do a better job and create a better product every day."**

Doug also spent 5 years working for a Calgary based fertilizer company as their International Marketing Director. He has seen all aspects of agriculture in many parts of the world. It was an exciting career path that was always associated with agriculture.

Kate and Doug have a son, Cam, and a

daughter, Sara. Sara and her husband Cole Brost have two boys who are both involved with 4-H and Livestock. Cam and Catherine have two young boys. Kate is a psychiatric nurse and works off the farm. She has spent a lifetime working in the community with clients suffering from mental illnesses.

During the time that Doug was away, with frequent and lengthy trips to South America, Kate worked as a psych nurse to bring in off-farm income. With the help of neighbors and friends, she managed the commercial cow herd, hauled kids to sporting activities, and somehow, always managed to make things work. Doug and Kate are strong advocates for children growing up in an agricultural environment. Children develop a work ethic, the value of responsibility, and most importantly how to establish trust. Principal values that will serve them well the rest of their lives.

With his extensive international experience, Doug Reid was nominated to the Board of Directors for the Alberta Angus Association in 2005. It was an exciting time for the Canadian Angus association and the Alberta Angus Association Board of Directors. Alberta was bidding to host the 2009 World Angus Forum. Doug was appointed Bid Chairman. Doug recalls that there were two things the Board

he wanted to focus on:

- 1) "A World Class event, at a World Class venue - Spruce Meadows"
- 2) and to demonstrate to the world that "A Dream is a Wish your Heart makes".

"I think we achieved that." The event was an overwhelming success. Both in the number of Livestock on display, and the number of Canadian breeders and international guests that made the 2009 World Angus Forum their summer destination. It was the first world forum that created a junior component and with many new innovations that started in Calgary and have been carried forward into other World Forums ever since. The efforts of the forward thinking WAF Executive and all the volunteer committees created an atmosphere that other breeds could only dream of. The 2009 World Angus Forum is still talked about today as the best World Angus Forum ever. ***"I have been on lots of boards in both private and public companies and community organizations, but the Alberta board was one of the best I have ever worked with. Part of the reason I was on the board with both the Alberta and Canadian Angus Association was because I firmly believe you should always give back. You should always donate some of your time to help other***

breeders succeed.” In 2014 Doug was elected to the Canadian Angus association Board of Directors and served until 2017.

During his tenure at Alta Genetics Doug could see the value of the Angus breed from virtually every corner of the cattle producing world. The Certified Angus Beef program and the commercial acceptance of the Angus mother cow, combined maternal strength and carcass merit...tough to beat. So the choice of breed was simple. In 1991 Doug, Kate, & the kids started building their purebred herd with the purchase of a bred heifer from Bob Prestage's Wicklow Angus herd. It has been a challenging 32 years, and it is all he has done for the past 22 years. **“If you are looking for a challenge,**

you're in the right business. It is the most challenging thing I've ever done.”

From meager beginnings the Reid Angus cowherd has grown to 150 Mother cows running on 2500 acres of foothills grassland. The Reid Angus motto is **“Females are our Foundation, Bulls are our Business.”** In the last 30 years what they have built is really quite amazing. It began in earnest in 1994, at Remington's first dispersal. Doug purchased a 10 year old cow, Chalco Georgina 3U. Doug was still working at Alta Genetics at the time and he chose to flush the old girl her first flush yielded 36 embryos. In her lifetime she produced 250 embryos. She calved in the same 3 week period all of her life; even in the years that they flushed her. At one time they had 77 of her calves

or direct daughters in the herd. Aside from a couple of old cows they acquired from Rob Hamilton's father, Tom Hamilton and his Rannoch herd, the Reid Angus cowherd was developed around three cow families, almost all of them influenced by Georgina. She demonstrated amazing fertility, longevity, and quality, all in one package. Just prior to the World Angus Forum Reid Angus bred and raised Reid Angus Advantage 11U, a son out of TC Advantage and out of a Crescent Creek Braveheart dam. At the 2009 WAF, 11U stood second in his division to HF Tiger and made it to the Championship drive but didn't stand as Grand or Reserve.

At Dallas Jensen's Crowfoot Cattle Company Dispersal, Reid Angus acquired 300 units of semen on

OCC Legacy 839L from Bohrson Marketing. They used 11U on Legacy dams and Legacy on 11U dams. Either way it worked extremely well. They have used some SAV Sires, some Schiefelbein Sires, and some Ellingson genetics most recently.

They have always run an extensive A.I. program.

Doug, Kate and family have consigned bulls to the Calgary Bull Sale in the mid 90's, the Medicine Hat Bull Sale from 2000 to 2014, and have held their own Reid Angus "Heat Seeker Bull Sale" in Brooks for the past 9 years. Many of their customers are in Southeast Alberta & Southwest Saskatchewan, and they have sold a lot of bulls to Douglas Lake over the years. Their large customer base tells us that their bulls work, they are sound,

and they last.

On December 5, 2023 Doug and Kate Reid and their family will disperse a true "One-Iron" cowherd that is packed with unique genetics and designed for calving ease, fertility, and longevity.

"As you know, time takes it's toll. It's too physically demanding for me to continue to do this at my age. So it's time to turn the cows over to somebody else. You are not just buying purebred cattle, you are buying opportunity."

Doug Reid

GEORGINA COW FAMILY

THE COW FAMILY THAT STARTED IT ALL

THE GEORGINA COW FAMILY MAKES UP HALF THE COWS IN THIS SALE OFFERING.

One cow started that whole cow family - Chalco Georgina 3U. In 1994 at Remington's first dispersal we purchased a 8 yr old cow, Chalco Georgina 3 U. She calved as a 2 yr and raised & registered 16 natural calves – one each year until she was 18. From 1995 to 2005 she produced over 200 embryos & still calved in the same 3 week period all her life: January 27th to February 17th. Her first flush was to CH 054 Rito 0100 in 1995. She produced 35 embryos – 32 # 1's and 3 # 2's. Flush cows are given prostaglandin after the flush so that they don't retain any embryos. Cows will come into heat off the prostoglandin but if they are bred they seldom conceive; 3 U did – every time. She was the picture of Fertility. We continued to flush her every year after that until she was 19 years old. 3 U continued to produce for all the right reasons. She was extremely Fertile, she was good footed, sound uddered, she had a great disposition, she was simply a durable, consistent female with longevity built-in. At one time we had 77 females in the herd that were direct daughters of 3 U. Her impact on our breeding program was immeasurable. She truly was:

TRIED, TESTED, & TRUE

To the cow-calf producer fertility is the most important economic trait. It is one of the most difficult traits to select for, because you can't see it, it can't be measured. The only way you can select for it is on the dam's past performance. That is why older cows demonstrate it better than anything else in the herd. Fertility is like trust & respect you have to earn it! 3U did!

FERTILITY IS LIKE TRUST & RESPECT — YOU HAVE TO EARN IT!

LADY MILNE COW FAMILY

SEE THE CONSISTENCY IN THIS COW FAMILY

Consistency. We look for it in everything. R A Lady Milne 60A is a Consistent top end producer. She has raised three outstanding herd Bulls, three years in a row, from three different Sires. In our 2017 "Heat Seeker" Bull Sale, 66 Ranch purchased an OCC Legacy son out of RA Lady Milne 60A. In "Heat Seeker 2018" Spring Coulee Ranch purchased the high seller, a SAV Harvester son, out of 60A. Then in 2019 she produced a remarkable SAV Regard son, R A Limit Up 6F, who is part of our herd Bull line up. She calves in the first cycle every year & she did it again in 2022 even while raising twin heifers in 2021. All of her heifer calves make it to the top end of the replacement heifer pen. Now That's Consistency. We not only look for it, We expect it, in our "Foundation Females"

BULLS

THE REID ANGUS HEAT SEEKER SALE

STARTS HERE

BULL PURCHASES AND WINTERING

Terms on bulls is 50% due sale day, with a post-dated cheque for the remaining balance dated April 1, 2024. A wintering program is available on all bull purchases. All bulls must be insured. Any herd bulls or long yearling bulls selling will be semen tested prior to the sale. A wintering fee of \$750 per bull is payable at the time of sale. The wintering fee will be waived on any purchases over \$5,000 Bulls returned to us for wintering must be insured. Bull calves taken at the time of the sale will sell with no further guarantee. All bulls must be picked up by April 30, 2024.

THANK YOU

to everyone

who has supported us
over the years and everyone
who comes to our dispersal

REID
R Angus

TERMS *and* CONDITIONS

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
