Bull and Female Sale

Welcome

Welcome to our 3rd annual Sunderland Ranch Bull and Female Sale! We would like to thank everyone that has supported us in past years and welcome everyone new who is taking the time to get to know more about us. We appreciate every opportunity to visit with you to learn more about your breeding program so we can assist you in finding what will work the best for you. We also want to thank all of the behind the scenes helpers that work very hard sharing their time and effort to make our sale successful!

Our breeding philosophy is to offer the right kind of genetics that will add real value to your herd. Every customer has different needs when selecting bulls and females to complement their breeding programs. We offer some variety in genetics to assist you in selecting the type and kind that will work best for you. We strive to produce purebred livestock that are structurally sound with good feet and udders, productive and fertile with docility and longevity in mind. We work hard to ensure our bulls and females are the type of cattle that will work well in the real world. We enjoy hearing the positive feedback from our customers who have had good results!

We have made strong investments in our herdsires and females who are the direct progeny of some of the most highly regarded females in the breed. This foundation includes SAV Blackcap May 4563 our cornerstone donor whose ET offspring are strongly represented in the sale offering. Pedigrees throughout our offering are stacked top and bottom with proven renowned Angus females, SAV Blackcap May 4136, SAV Madame Pride 0075, SAV Blackcap May 5530, SAV Emblynette 8259 and SAV Blackcap May 8051 to name a few. The foundation of maternal strength is shining through in our young cows, these up and comers have bright futures here.

Every sale lot offered has confirmed parentage, foot pictures and Angus GS enhanced EPD's. We strive to provide our customers with the most accurate information possible to assist with your breeding decisions. We are proud of our efforts to encourage evaluation of the feet on our cattle by ensuring foot pics are taken for all sale lots. This is not a new trend for us as we have been doing this since our beginning when we sold bulls private treaty. We want to continue to do our part as Angus breeders to help improve the breed for our customers benefit. We encourage this practice throughout the Angus breed and want to lead by example.

We encourage you to call us with any questions about our offering. 1-306-662-3021. Follow us on Facebook Sunderland Ranch Ltd., on Instagram [sunderland_ranch](#) or our website www.sunderlandranch.net for more information, pictures and videos leading up to the sale! Cattle will be available for your viewing December 7, 2023 from 1:00pm to 5:00pm and the morning of the sale. Join us December 8, 2023 for a complimentary roast beef lunch at 11:30am, the sale starts at 1:00pm sharp! Live auction managed by T Bar C and online bidding on DLMS. We look forward to seeing you on sale day!

From the desk at T Bar C....

The Sunderland program has experienced rapid growth in the last few years for an operation that is relatively new to the purebred cattle world. That having been said, the customer service that they provide both new and repeat customers alike is exemplary and should be the standard of operating that we all hold ourselves to. Terry and Rachelle, alongside their young family, are as hardworking and strategic in their breeding practices as any breeders I have come across. With a heavy emphasis on foot structure, they have taken the mindset of leading by example by providing pictures of the feet on all the animals that will be let into the ring. Rest assured that a Sunderland bull or female comes with longevity and productivity built in.

Although not large in terms of sheer number of cattle, the criteria and culling processes that these 30 lots have to undergo is rigorous and demanding. In order to be worthy of being catalogued, Terry and his crew must be proud of it. The ET work that the Sunderland team have put forward is extremely impressive. Their donor pen is simply fabulous. Not often will you find a program that will have as many Blackcap May's roaming pastures like the Sunderland's have. This provides so much consistency throughout the herd, which then goes on to add dollars to the bottom line.

The Sunderland sale is one that all of us at T Bar C look forward to. Dare I say, they serve one of the finest lunches that Western Canada has to offer, with a welcoming nature that is the epitome of hospitality.

If you have any questions regarding this outstanding offering of Angus cattle, please contact any of the T Bar C crew.

VET LETTERS

November 2, 2023

Sunderland Ranch Ltd is a family run operation that strives to raise solid breeding cattle.

Their focus is on herd health programs and management to ensure their cattle are healthy and fit to enter a new herd. They eager to adopt new technologies and ideas to continually improve their operation. Their cattle are good tempered and well handled making them a pleasure to work with.

They have an extensive replacement heifer and breeding herd vaccination programs that begins in calf hood. They focus on providing breeding herd protection against BVD, IBR, PI3, BRSV, M. Haemolytica, Campylobacter, Leptospirosis and Clostridial pathogens.

Their parasite program provides coverage for both internal and external parasites in all classes of their cattle.

Plans are underway for all 2023 sale cattle to be evaluated for overall health and body condition prior to sale date. This will include reconfirmation of all bred cattle pregnancy status preceding the sale.

We purchased SAV Ripped 8304 from the 2019 Schaff Angus Valley sale. He was a high selling stand out feature of the SAV Resource 1441 bull calves at the 2019 SAV sale with his powerful hindquarter and expressive muscle definition, disposition, solid structure and foot quality!

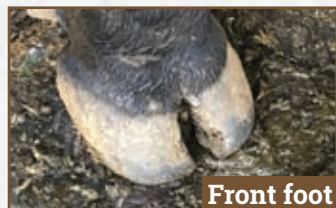

His pedigree is packed with proven SAV maternal genetics that have stood the test of time.

Ripped's renowned sire SAV Resource 1441 is a registration leader in the Angus breed. Resource is known for adding muscle, volume, fleshing ability, foot quality and docility to his progeny.

His impressive Pathfinder dam SAV Emblynette 8259 is a Density daughter that is a proven producer with ideal body type, abundant milk and perfect feet. She is still in production at 13 years of age and records a weaning ratio of 105 on 11 calves.

SAV Ripped 8304 daughters are performing well here and are proving to be good mothers with good feet, udders and dispositions.

Sunderland Territory 287H is a masculine meatwagon, solid structure from the ground up... good feet, long spined, expansive rib shape, muscle expression and an incredible gentle disposition!! His production record so far speaks for itself, his calves have had moderate birthweights with impressive actual average daily gains on pasture from birth to weaning without creep feed. CAA EPDs CE Top 35%, WW Top 2%, SC Top 10%, Doc Top 10%, REA Top 7%, HPG Top 15% Male BW Ratio 97, WW Ratio 102. Female BW Ratio 99, WW Ratio 100.

287H is a bull that we retained for our own use from a flush that produced our 2020 high selling bull calf as well as one of our up and coming donor cows. His pedigree is packed with impressive maternal greats. His dam SAV Madame Pride 5811 has consistently given us offspring that impress, she is a daughter of SAV Madame Pride 0075 who is the well known dam of SAV America 8018 the record highest selling Angus bull at 1.51 million. She was in production at SAV for 18+ years. SAV Emblynnette 3293 is the phenomenal dam of SAV Territory sired by SAV Density 4336. SAV Blackcap May 4136 has multiple herdsire sons to her credit and has achieved over 10 million dollars in direct progeny sales.

We purchased the Pathfinder SAV Blackcap May 4563 as the top selling donor cow from the 2020 Schaff Angus Valley sale.

She has striking femininity, is wide pinned, outstanding udder quality, solid foot structure, proven maternal genetics and an impressive production record, backed by proven maternal genetics.

4563 is a daughter of the famous SAV Blackcap May 4136 who is the top SAV income producing cow with over \$10 million in direct progeny sales and has multiple herdsire sons to credit her name including SAV Resource 1441, SAV Renown 3439 and SAV Rainfall 6846 to name a few.

SAV Blackcap May 4563 has two daughters that are retained in the SAV herd and five progeny have highlighted past SAV sales. Her daughters retained here are showing promise and have all of the traits we look for to be standout cows in the future!

CAA Premier Dam

Purchased as one of the top valued heifers at the 2015 Schaff Angus Valley Sale. She has been a strong producer here for us with several daughters retained in our herd earning her place in the top tier. SAV Blackcap May 4004 was designated a CAA Premier Dam in 2021.

When we attended the SAV sale in 2015 she commanded our attention and stood out amongst the entire offering to us with her powerful phenotype, strong topline, deep ribbed and impressive structural correctness with ideal foot shape and heel depth. As a 8 year old cow in our herd her feet remain ideal and problem free. She has a level well attached udder with proper teat placement and size. Her pedigree is backed up with proven cow families on the top and bottom of her pedigree. Her dam SAV Blackcap May 8051 highlighted the 2017 SAV sale selling for an impressive \$110,000.00 USD.

SAV Blackcap May 4004's offspring have been impressive. She has provided us with some standout daughters to build our program with, they are thick made, very easy fleshing cows that are great mothers, structurally correct with good quality udders. Some of our herd favorites and of visitors to the ranch.

Purchased from the Schaff Angus Valley 2016 sale.

SAV Madame Pride 5811 stems from the same flush that produced the striking SAV Madame Pride 5809 & 5810 sisters that are retained at SAV as up and coming donor cows. She was selected by us for her renowned genetics, she has become a proven donor cow at Sunderland Ranch.

5811's dam is SAV Madame Pride 0075, the maternal matriarch of the SAV program who served the SAV herd for nearly 18 years and is the second top income earning income producing cow in SAV history. She has 41 daughters retained in the SAV herd. Her sons include SAV America 8018, the \$1.51 million world record selling bull in the Angus breed!

SAV Madame Pride 5811 has been a female that consistently gives us calves that impress! Her udder quality is outstanding, level with perfect teat placement, size and abundant milk. Her 2021 natural bull calf weaned off grass with no creep feed with an ADG of 3.76lbs/day for the top ADG of the 2021 calves!

5811 sons have sold for an average of \$8625.00 with high sellers of \$12000.00 and \$10000.00 in past private treaty sales! Her exceptional 2020 SAV Territory son sold to Roger & Lou Parsonage.

Schaff Angus Valley

It has been a pleasure following the progress of Terry & Rachelle Sunderland and family, building their registered Angus program and developing their foundation Angus herd. From day one they have utilized an extremely disciplined approach with the philosophy of high quality, functional, sound, maternal-oriented cattle that are practical and productive in the real world. They have been meticulous to the extreme on every piece of the genetic puzzle and have sourced both females and herdsires from the best of the industry-proven SAV cow families, including the Blackcap Mays, Emblynettes, and Madame Prides. Included in their acquisitions are direct daughters of the Angus breeds' most influential genetic contributors and high income-producing cows, SAV Blackcap May 4136 and SAV Madame Pride 0075.

As you get to know the Sunderland family, it is evident that they are salt-of-the-earth with integrity and passion for both Angus cattle and the traditional ranching way of life. They have genuine concern for the welfare of their customers and that their cattle are a positive reflection of what they stand for and strive to produce.

On behalf of myself and everyone at Schaff Angus Valley, we are honored to know the Sunderlands and acknowledge their dedication and early success of their breeding program, we give them the highest of recommendations.

Sincerely, Kelly Schaff
Schaff Angus Valley

We are excited to offer this outstanding cow bull prospect as the lead off Lot #1 bull calf this year! He has earned his place as a real stand out amongst the 2023 calf crop.

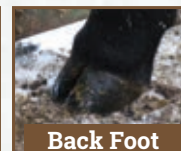

His sire SAV Ripped 8304 comes from a long line of proven genetics- a natural son of the legendary SAV Resource 1441 and Pathfinder SAV Density dam SAV Emblynette 8259. She was 11 years old when we purchased SAV Ripped as the high selling Resource son of the 2019 SAV Sale. Our SAV Ripped daughters are developing into some of our best females. They are easy fleshing with tidy level udders, sound structures, good feet, docility and fertility.

HF Rose 188A is a 10yr old dam with a strong production record, she earned CAA Premier Dam Status in 2020. Her daughters and granddaughters that we have retained are carrying on her legacy of performance with great udders, femininity, fertility, docility and good foot structure.

If you are looking for a bull that will sire steer calves that stand out and also provide you with outstanding replacement females you need to put this bull into your breeding program!

SUNR 02J - Dam of SUNR 60L

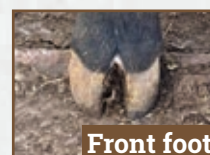

S A V Rainfall 6846 - Sire of SUNR 67L & SUNR 60L

Sunderland Rainfall 60L

Here is a son of SAV Rainfall 6846 with one of our outstanding SAV Ripped 8304 daughters to back him up. This is an exceptional maternal mating that will provide you with added carcass quality along with the added value of daughters you will want to retain.

His dam 02J is an exciting SAV Ripped daughter that has a bright future. She checks all of the boxes for us with fertility, fleshing ability, good feet, sound structure, tidy level udder and docility as the icing on the cake. Using proven genetics gives confidence that they will add value to your herd which is the bottom line.

4004- Dam of Lot #4, MGD of Lots #5 & #7
(Summer 2021 with daughter SUNR 07J-Dam of Lot #6)

Here is an SAV Rainfall 6846 bull calf that will grab your attention. He is a thick, deep and sound structured bull calf with SAV Blackcap May 4004 backing him up.

We purchased 4004 from the 2015 SAV Sale where she sold as one of the highest valued open heifers of the offering. She has been a steady producer here and achieved CAA Premier status in 2021, we have retained daughters and granddaughters in our herd. 07L is a rare opportunity to acquire a natural son of this 9 yr old prove dam. Once again, he is a bull that can add value to your herd by utilizing genetics that are already proven to work in our climate.

SUNR 01D Dam of Lot #5, Maternal sister of Lot #4

SAV Rainfall 6846 sired cow bull prospect! If your ideal replacement female has fleshing ability, capacity, and added rib shape then the dam to this bull will meet your criteria! Add the bonus of carcass quality to your feeder calves. 15L's dam SAV Blackcap May 01D is the 1st natural daughter of SAV Blackcap May 4004. She stands out in the pasture with exceptional volume, capacity and fleshing ability. If you want replacement females that will survive the winters and hold their shape then this mating will help you get there!

SIRED BY S A V RAINFALL 6846

S A V Rainfall 6846 - Sire of SUNR 61L & SUNR 58L

A moderate birth weight bull calf sired by SAV Rainfall 6846. Another exciting mating with a stacked pedigree of exceptional SAV genetics. 61L's dam is a SAV Ripped 8304x SAV Blackcap May 4004 daughter. This blend of SAV Rainfall and SAV Ripped will add some real excitement to your cow herd. Imagine the exceptional daughters from this mating. Also consider the opportunity to raise feeder calves that will provide consumers with exceptional mouth watering Angus beef!

SUNR 707J - Dam of SUNR 69L

A lower birth weight SAV Rainfall bull with a world class pedigree! This bull is backed by some of the finest in SAV genetics including the maternal great SAV Blackcap May 4136 who has over 10 million in direct progeny sales. We aquired SAV Blackcap May 4563 (a daughter of SAV Blackcap May 4136) as the high selling donor cow of the 2020 SAV Sale. This bull has the tools to keep your frame size in check but still add pounds to your calf crop. With this mating combination you can anticipate some exceptional female replacements for your herd. Adding real value to your herd is what we are trying our best to achieve!

SUNR 19H - Dam of SUNR 50L

SAV Rainfall 6846 cow bull deluxe! If your goal is to raise replacement females that can raise a calf that performs and looks good doing it then here is your chance.

The pedigree of this bull is full of some of the finest maternal greats. His dam is a SAV Resouce 1441 daughter and a granddaughter of CAA Premier dam HF Rose 188A we have retained multiple daughters and granddaughters. Her exceptional standout son by SAV Ripped 8304 is this years Feature Lot #1 bull

SIRED BY SUNDERLAND AVIATOR 13F

SUNR 41J - Dam of SUNR 64L

Moderate birthweight with + 11 CED. This SUNR Aviator 13F bull calf has the EPD tools for those looking for more calving ease in their bull selection. We used his sire SUNR 13F as a clean up heifer bull and had great success with no assisted births. This mating with SAV Rainfall should also provide some opportunity for replacement females to retain in your herd.

Strong cow bull prospects sired by SAV Ripped 8304 with donor SUNR Lady 08D. Flush brothers that are very similar in kind. They are long spined, deep ribbed and solid from the ground up. These bulls will add some punch to your calf crop with the added bonus of carcass quality included in this genetic package! SUNR 08D is a cow we raised and utilized in our donor program for her solid structure, perfect feet, level udder, powerful phenotype and docility. We have also retained her daughters in our herd.

SUNR 08D - Dam of Lots #17 & #18

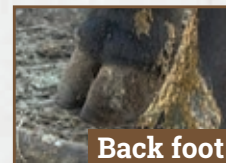

SAV Ripped 8304 - Sire of Lot #17 & Lot #18

Coming 2 yr old bull. We used this bull as clean up after AI with cows and heifers this summer. 785K is a gentle natured, long spined cow bull with good feet, sound structure, large scrotal and a noteable pedigree. Maternal strength from top to bottom in his lineage with the very best of of the SAV Blackcap May and SAV Madame Pride cows represented. A real opportunity to add some maternal greatness into your cow herd.

An outstanding daughter of the legendary SAV Resource 1441 combined with SAV Madame Pride 5811- a direct daughter of SAV Madame Pride 0075 the dam of SAV America 8018 the 1.5 million dollar world record selling Angus bull.

This female has been a standout since early on in her life. She was a crowd favorite of the heifer calves during our 2021 pasture tour. 287J's 2023 bull calf is featured as the lead off bull calf of the SAV Rainfall sired group this year.

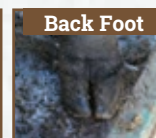

Sunderland Ranch is retaining the right to one flush of all females at the buyers convenience and the sellers expense.

PUREBRED BRED FEMALES

33J and her heifer calf (Featured as lot #26) August 2023

Sunderland Resource 317G daughter. SUNR 33J is the dam of our lead off purebred heifer calf Lot #26. This moderate framed beauty is on a path to a successful future after raising a standout calf this year. She is a feminine, docile, easy fleshing female with sound structure, good feet and a tidy udder. Her grandam's on both top and bottom of her pedigree are still strong producers in our herd at 9 and 10 years old. Sunderland Ranch is retaining the right to one flush of all females at the buyers convenience and the sellers expense.

SUNR Resource 317G daughter! A natural daughter of our cornerstone donor female SAV Blackcap May 4563 that has a bright future ahead of her. 24J did an outstanding job this year raising her 1st calf, Lot #11 who gained an impressive 3.07lbs/day without creep feed to record a BW Ratio of 93 and a WW Ratio of 123. Don't miss an opportunity to add this quality female to your herd.

Sunderland Ranch is retaining the right to one flush of all females at the buyers convenience and the sellers expense.

Here's another one from the very top of our replacement pen this year. We have gone back and forth on whether to offer her but have decided to share

some of the genetics that have and still are working for us. There is some real history here with her pedigree, her maternal grandam 108Y was in production until she was 12 years old with multiple herdsires to her credit and daughters retained in our herd. 96A continues to be a solid producer here at 10 years old with sound structure, good feet, multiple sons sold with daughters and granddaughters working hard here. Combined with proven SAV genetics such as SAV Territory 7225 and SAV Madame Pride 0075 in the top of her pedigree SUNR 06L is a heifer you wont want to miss out on!

Sunderland Ranch is retaining the right to one flush of all females at the buyers convenience and the sellers expense.

This image shows a full page of blank, lined paper. The paper is white and features evenly spaced, horizontal brown lines running across its entire width. There are no margins, text, or other markings on the page.

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All sale animals will be vet checked prior to sale, including an age appropriate reproduction evaluation. Sunderland Ranch will assist our U.S. customers with required export blood work.

Guarantee:

Bulls will remain at Sunderland Ranch until satisfactory breeding soundness and semen test is completed. Bulls will be semen tested and will receive a booster of Bovishield Gold FP5, Fusogard (Foot rot vaccine) and pour on prior to delivery/pickup by May 15/2024. Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Genetics:

All purebred animals have been parent verified and Angus GS tested.

Delivery:

Free delivery (for bulls only) within a 200km radius of Sunderland Ranch. Bulls will be delivered after successful BSE has been completed: Tentatively May 10 - May 15 2024.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Phone, Mail & Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

Each animal becomes the purchasers' risk immediately after the animal is sold. We strongly recommend that insurance is purchased for full value at time of sale December 8, 2023. Sunderland Ranch Ltd. is not responsible for injury or loss. Sunderland Ranch Ltd. will pay 50% of the premium for a 6 month term all risk mortality policy up to 7.5% of purchase value. Blythman Agencies will be on site for your insurance needs the day of sale.

Wintering:

Bulls; will be wintered FREE of CHARGE at Sunderland Ranch. All bulls will be available for pickup or delivery after the completion of a satisfactory breeding soundness evaluation: Tentatively May 10 - May 15 2024.

Females; will NOT be wintered at Sunderland Ranch. All females may be picked up at the end of sale day once settlement has been made or prior to December 15, 2023.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

Semen/Embryo Interest:

Sunderland Ranch retains 1/3 semen interest in all bulls sold. Sunderland Ranch retains the right to one flush of all females sold at buyers convenience and sellers expense.
